LOCAL AND OTHER MATTERS.

MEETINGS IN THE TABERNACLE TO-MORROW at ten and two o'clock, and at the various ward meeting rooms in the evening.

WILL PRACH.—Enter Union Hall will preach at the Tabernacle, and Assembly Rooms, to-morrow evening commencing at half past 7 o'clock.

U. N. NORTHERN.—For sale and time table of this line, and information relative to the same between Hampton's and Logan, read advertisement.

IN CONVENTION.—The Democratic delegates, from various parts of the Territory, assembled in convention in the City Hall this afternoon, for the purpose of nominating their candidate for Delegate to Congress, to be elected at the general territorial election next November. The choice of the convention was not known in time for publication to-day.

GOOD PROSPECTS.—A gentleman from E. T. City reports the prospects for fine crops most excellent throughout Tooele county. The same report is pretty general in the Territory. A season of abundant crops was much and generally desired, and very grateful it is now that a liberal harvest is so near.

SERIOUS RAILWAY ACCIDENT.—A dispatch from Evanston, received last night, says:

About six this a.m. as number seven freight train, on the U. P. R. R., was running by sections, at or near Church Butte, the first section broke in two, and the second section could not stop in time to save her. Before striking some jumped off. Mike Kennedy, Eng., second section brakeman, was badly crushed, another had an arm badly cut, and Jno. Manning, a brakeman, had both legs crushed to pieces and one arm cut off below the elbow. The passenger train from the east passed four hours late.

WHAT IS THE MATTER?—Our always welcome and formerly regular visitor, the *Millennial Star*, has failed to reach us for several weeks past.

Since writing the above the *Star* for July 9th has come to hand.

APPOINTMENTS AND RELEASES.—Elder Thomas Dobson is appointed to succeed Elder J. H. Fairbanks in the Presidency of the Northampton Conference, and Elder Fairbanks is appointed President of the London Conference.

Elder J. V. Robinson is appointed to succeed Elder G. W. Wilkins in the Presidency of the Bedfordshire Conference.

Elder E. A. A. is appointed to succeed Elder G. P. Ward in the Presidency of the Manchester Conference.

Elders G. P. W. and W. Driggs are released to return to Utah with the city company, with the request to President Driggs that he instruct Elder E. W. Snow that he is to take charge of the Conference for a time, in case Elder G. H. Wilken does not arrive in Birmingham on or before July 30th. *Millennial Star*, July 9.

ABOUT INDIANS.—Bishop Moses Gifford of Monroe, Sevier County, was in town a day or two since. He stated that there were no Indians in that county when he left there. When he was at Nephi, on his way to this city, the people told him, that he had arrived at that point from Banpete, stated that the Indians in the latter place were feeling rather sour. A body of them at Fountain Green had been proffered three beavers and a quantity of flour by the people, and which had been refused. Bishop Gifford, who is pretty well acquainted with the character of the red men, thinks that Indian war is impossible.

H. N. LARSEN writes from Moroni, July 20th. He states in his letter that Indians lately visited the houses of O. Barton, A. Smith, and others, and that they were in the families, and because their demands for food, etc., were not at once and fully complied with, they became exceedingly abusive, in one instance drawing a pistol on a lady and in another spitting on the lady of the house. In still another of these cases, that of sister Christensen, of whom the latter stated, struck her with a horsewhip.

PAYSON MEETING HOUSE.—Brother I. M. Combs, of Payson, furnishes us the following description of the new meeting house at that place:

"The main building 70x45 ft. outside; two front doors with transoms lights, which open into an entry four French windows each side with transoms and lights. There is a gallery on the two sides and on one end. The whole is calculated to seat eight hundred persons comfortably. The height of the ceiling in the main room is 30 feet from the floor to the centre of the arch. The vestry is 21 feet square and is two stories high, the upper story being dedicated for prayer and other sacred purposes. The building has been finished in a very superior style."

U. S. CENTENNIAL COMMISSION.—We are indebted to Col. J. H. Wickiser for a copy of the Journal of the Proceedings of the United States Centennial Commission at Philadelphia, meeting of March and May, 1872, a list of the Officers and Members of the Commission, and the Standing Committee.

GRASSHOPPERS.—A few grasshoppers have appeared on the bench north of the city. They are not in sufficient numbers to do any considerable damage to fruit trees, etc.

PANAMA.—We have enjoyed a pleasant visit from General Lillie, of Pennsylvania. It will probably be remembered that the General, last year, wrote a very interesting account of a trip from the eastern States to the Pacific, in which he made prominent mention of Salt Lake and its surroundings, and from whence he published a book. He is a Republican and a strong Grant man. He was the next man in nomination to Governor Geary, of Pennsylvania, for the gubernatorial chair of that state.

General Lillie is identified with the firm of H. S. Jacobs and Co. He leaves to-morrow morning for the east, accompanied by Hon. John L. Manning, and the latter's wife, son and daughter.

CITY COUNCIL.—A petition for the retention of the new telegraph poles in their present position, signed by over one thousand citizens, was presented to the Council last night. The prayer of the petitioners was granted.

It was decided to add 3 1/4 of a cent per centum to the city taxes for the purpose of raising funds for the construction of water works.

It was also decided to construct two more water tanks for fire purposes, at the expense of the City, one near the City Hall, the other near the city market.

WARM SPRING BATH.—Those who are considerable of a public benefit, but we anticipate that they will be made a ten times greater one than they have been heretofore. This is a new spring, and with its growth comes an increased demand for a place to which the "great unwashed" can, for a moderate consideration, resort and enjoy a bath, which is not only salutary but an absolute, a positive necessity for the maintenance of cleanliness, and consequently of health, especially among the laboring classes. An advance proposed by the Warm Spring bath is their medicinal properties.

With the increasing demand for bathing conveniences, should come a corresponding enlargement of the city bath. The Warm Spring is situated about a mile from the city, and is a fine place for a bath.

buildings and other conveniences there. Another consideration is the price. As the price of the land is so low, it is generally unable to have private ones for home use, the price should be such as to be within their reach. Should the price be reduced, the street cars run to the Warm Springs, the baths would, doubtless, be largely patronized, and consequently would pay much better at reduced figures than at higher rates. And even should the baths do no more than pay expenses, as they would prove a public benefit, we are not aware that any body would have any reason to grumble. When the street railroad is extended to the Springs, the price for a bath should be so regulated that people could go from this city and return at a cost of not more than 25 or 30 cents, including bath and car fare. We trust our city fathers will see to this matter, as we believe it to be one meriting their immediate attention. Superior accommodations at higher prices might be provided for those who wished to enjoy and pay for them.

IN CUSTODY.—Two members of the Kelly-Harrington party, committed by Judge McKean yesterday for resisting deputy Marshal B. Groo and threatening his life while endeavoring to serve a writ found the necessary bonds last night. The others are still in custody of the Territorial Marshal.

U. S. LAWS.—We are indebted to Dr. Teggart for pamphlet copies of Internal Revenue Laws, "compiling the act of June 30, 1864, as amended by subsequent Acts, including the Act of March 20, 1867," also the laws "enacted since the completion of 1867," not so much of the "Act to reduce duties on imports," etc., approved June 6, 1872, as applied to distilled spirits and tobacco; extracts of "general nature" from the appropriation act for the year ending June 30, 1872; and the act to provide for the shipment and removal of liquor on distilled spirits in bond, destroyed by casualty," approved May 27, 1872.

LHET, July 12, 1872.

Editor Deseret News:

Will you please give publicity to the following statement in your paper, in regard to my name being attached to the anti-State petition?

A petition was presented to me (which I signed) representing that if Utah became a State the taxes would be much heavier, but as the petition now reads, I cannot do so, as I know the authorities of the church to be good men, and I am entirely opposed to the sentiments contained in said petition. MARY BROWER.

SUNDAY SCHOOL REWARD CARDS.—We have received specimens of the most elegant Sunday School reward cards we have ever seen published by McKean, Nelson and Son, of London, England, and Edinburgh, Scotland. They are in separate packages, each package consisting of a series of twelve of the various garden flowers, singing birds, etc., in their natural colors and plumage, and set up in the most elegant and beautiful style. On the bottom of each card is the name of the flower, bird or animal represented. The size of each card is about four by six inches. They are for sale, cheaper than publishers' rates, at the book and news depot of Mr. J. Dwyer on East Temple St., in this city.
