

THE SEMI-WEEKLY NEWS

UNION PACIFIC. ITS BIG GROWTH

Improvements Representing Tremendous Expenditures Can Be Found All Along the Line

VARIETY OF INSTITUTIONS.

House, Reservoirs Pumping Stations, Electric and Water Softening Plants Among Them.

Special Correspondence.

Ladies to Entertain—The Ladies of the A. G. Davis Band will entertain with a musical and card party next Saturday evening, in Old Bellows hall.

WESLING—CHASES—Begin—The welding classes at the E. M. C. A. will begin tomorrow evening in the gymnasium, under the direction of Mike Yahn.

For Columbian Holiday—The Knights of Columbus will endeavor to induce the last legislature to make Oct. 12 a state holiday, in honor of the landing of Columbus on American soil.

W. C. Vissing Dead—W. C. Vissing, an old resident of this city, died yesterday, at St. Mark's Hospital, the result of the brain at the age of 12. He leaves a wife and grown-up children.

OMAHA IMPROVEMENTS.

Terminal Improvements completed under way, or authorized, is going on all over the Union Pacific lines. An electrical interlocking plant at the junction with tenement lines has been installed at Council Bluffs. Two new ice houses have been completed at the same point. From Omaha to South Omaha extensions have consisted of 43,533 feet of nearly eight one-half miles. Ten new shop, office and freight buildings have also been erected here.

WORK AT COLUMBUS.

Columbus No. 1 has been provided with such an assortment of harbors that it is one of the best produced in the last decade or so, but did the condition become, regardless of several telephone messages to the board of health informing them of the conditions, that the property owners "subsidized" together to hire a teamster to cart the hill away.

RIGHTS NOT RECOGNIZED.

This improved the condition of the streets, but did not alter the frame of mind of the people compelled to suffer by the inefficient board of health. They believe that they have some rights left, in spite of the fact that the Kennebunk board of health, has failed to recognize them. They still believe that while their tax is to pay for the operation of city garbage wagons they should receive some benefit from them.

THROUGH WYOMING.

At North Platte in addition to minor improvements already completed, including a large stock yard, the company has authorized a concrete-type coal station of 25,000-ton capacity. To provide for all these improvements 217 acres of land have been purchased. Another 25,000-ton coal storage system has been authorized at Cheyenne, and a 5,000-ton of additional track will be laid here.

SIGNS AT THE POOL—There is a fair-sized stagnant pool of water back of Main street, which the adjoining tenants would fain see abated. Some wags have set signs up in the dirt close by, "Take the hard turn down the stream," "Duck shooting allowed here," "Don't be afraid to go swimming here," "Beds for a light house sold here," "Safe saving staden one mile north," "Oyster fishing not allowed," etc.

Painful Accident—Miss Jessie Primrose, in alighting from a Sugar House street car Saturday night, was thrown to the ground. She was rendered unconscious for half an hour by the fall. Miss Primrose is a clerk in this city, but her home is in Grand Junction, Colo. Dr. Landenberger found the young woman suffering from internal cuts and bruises. Dr. Primrose says she intended alighting in the middle of the block and while waiting for the car to stop, fell off.

KANSAS AND COLORADO.

One hundred and forty-four acres of ground have been purchased at Junction City, Kan., to carry out extensive terminal plans at this point. These plans include shop buildings as well as a direct terminal switching yards. The additional terminal facilities at Salina include new buildings, coal and pumping stations, and 20,500 feet of new trackage.

Improvements of the same kind in proportion to the importance of the place are being made at Sharon Springs, Kan., Hugo and Sterling, Colo., and other points on the line where through or local traffic makes necessary extension of the company's yard track and buildings. Taking into consideration all betterments included under this head, the Union Pacific's terminal facilities have been increased at least 99 per cent in the past four years.

THAT RETRENCHMENT SCARE.

Started in San Francisco from No Real Cause, Says Krutchman.

At the conclusion of the conference of Hartman managers in this city Saturday Julius Krutchman, director of maintenance and operation of the Hartman lines, spoke to newspaper men at length, discussing various phases of railroading in the west. There is no man in the country better qualified to discuss these questions than Mr. Krutchman. He is the west, his record is perfect. One of his most important statements was made in an answer to a question on the "retrenchment" rumor based at the end of last week. This he said started from an interview granted newspapermen by Mr. Calvin in San Francisco in which nothing to justify the scare was said.

As soon as the alarm was discovered an alarm was turned in, but the apartment had no chance to save the property, as the fire was five miles long.

Regulates the bowels, promotes easy natural movements, cures constipation—Don't Regulate. Ask your druggist for them. 25 cents a box.

Use it now. Nichols Corn Plaster takes them out by the roots. No pain. All druggists; 19 and 25 cents.

Salt Lake Photo Supply Co., Kodak finishing, framing, 142 & Main Street.

Aches and Pains.

You know by experience that the aches and pains of rheumatism are not permanent, but only temporarily relieved by external remedies.

Then why not use an internal remedy? Dr. Kruhlitz's Pain Balm, which corrects the acidity of the blood on which rheumatism depends and cures the disease?

This medicine has done more for the rheumatic than any other medicine in the world.

The conference held in this city by the various high officials was informal and covered mighty plans and projects.

The Doctor.

Mr. C. H. Horner, Superior Springs, Tex., writes July 15th, 1902, "I have used in my family Ballard's Snow Liniment and Remedy for the last three years and found it certainly satisfactory. The liniment is the best we have ever used for rheumatic and pains. The cough syrup has been our doctor for the last eight years. I have given it to Dr. Dr. Dr. Thomas W. Jennings at 2 o'clock this afternoon."

Zion's Savings Bank & Trust Co.

Pays 4 per cent on deposits, safety deposit boxes for rent.
