LOWER MAMMOTH CONDITIONS.

Values Being Found on 1.500 and

1,700 Levels Are Encouraging.

According to reports from the Lower

Mammoth of Tintic, satisfactory prog-

ross is being made with the extensive plan of development work which has

been under way for a number of months past. In his last report the superin-tendent states that the station on the 2000 level is being timbered two sets from the shaft, and the ground is said to be soft and dry, comparatively. Some water is said to be dripping from the root on that level, but the dripping on the 1800 is said to have consed. As

roof on that level, but the dripping on the 1,800 is said to have ceased. As soon as the work of cutting the station is completed the management will push a drift to intercept if possible the ore bodies from the upper workings which are known to extend part of the distance at least to the 2,000 level. On the 1,500 and 1,700 levels the com-pany is drifting along the fissure and encountering values, which the super-intendent save, are 'upproving with

intendent says, are improving with every shot. The values found at pres-ent are low, but as an indication they

are very encouraging. Assays of rock on both the above levels show similar values, which run from six to nine ounces silver, \$0 cents to 31 gold and 2

to 3 per cent lead. Taken allogether the condition of the property is report-ed to be meeting expectations

CONCENTRATES.

It is reported that Ray Harris of Salt Lake has secured an option on the property of the Giant Mining company outh of Battle Mountain, Nevada

A small streak of very high grade al-ver-lead one is reported to have been discovered in the bottom of the winze at the Pioche Melals, about 200 feet from the surface.

The first shipment of ore from the new ore body in the Columbus Consoli-dated was writed for yesterday on the basis of 4.35 per cent copper, 41 ounces silver, 21.4 per cent lead and \$1.70 in gold per ton.

At a special meeting of the stock-holders of the Alax Mining company held in this city yesterday afternoon it was decided to consolidate with the Goiden Chain Mining company on the basis of share for share.

Reports from Ely state that E. Griffiths, who is representing Charles A. Quigley, Lester Freed and others of Lake, has started work on the Ely tientennial, which was recently ac-quired by thom. A tunnel has been started with the view of tapping each of the five veius on the property depths varying from 300 to 500 feet.

Details of an Important consolidation of two Goldfield companies are said to be practically completed. The properties to be united are those of the Sand-storm and Koudall Goldfield Mining companies. The capitalization of the comparing will be \$2,000,000 and ex-change for stock of the new company, which is to be known as the Sandstorm-Kendail Consolidated, will be on the basis of share for share.

Exception values for share. Stepton Valley Smelling & Mining is coming through in great shape this month. From the headway that has so far been unde in going shead of previous copput production records it will not be surprising it. November an-tiopates the provides which have been given of a \$200,000 pound production iven of a \$.560,000 pound production

WOOL.

ST. LOUIS

St. Louis, Nov. 37.-Wool, unchanged. Territory and western mediums, 240729; fine mediums, 25036; fine, 14820. BOSTON.

BORION. Boaton, Nov. 24.-The Commercial Bulletin of Boston will say of the wool market Saturday: Business is generally on a small scale, for the large mills are not operating to any extent. Woolen mills are active buy-ers. All kinds of valuable territory is moving and medium fleeces as well as croasbreds are selling. Prices are strong or meterything. The shipments of wool from Boston to Nov. 24, inclusive, were 260.05.067 pounds, against 172.066.472 pounds for the same time last year. The receipta to Nov. 26, Inclusive, were 38.722.620 pounds, against 262.661.169 pounds the same period last year.

LONDON.

London, Nov. 26.—The offerings at the wool suction sales today amounted to 14.06 bales. Bidding was active and prices were firm. A large quantity of new clip merino was readily absorbed by buyers from all sections. Americans tak-ing light descriptions. Prices for new clip ranged from unchanged to 5 per cent advance. Crossbreds were firm, home and American buyers purchasing lamba Scoured wools showed a hardening ten-dency. lencs
