## LAST NIGHT'S NEWS

**Speaker Carlisle's Health Improved and He Takes a Trip to the Country.**

**Some More of Balfour's Victims Have a "Trial" and are Railroaded to Jail.**

**The Daily Explosion and the Long-Continued and Disastrous Blizzard.**

**The Arguments in the Cora Lee Case Being Made and the Case About Over.**

**Sullivan Makes Jem Smith the Biggest Offer Ever Made to Any One.**

**Great Tariff Reform Meeting in Philadelphia.—The Ice Carnival at St. Paul, Etc.**

By Telegraph to the News.

**Big Transaction.**

NEW YORK, Jan. 27.—The assets of the Cushimiachic Mining Company were sold today at public auction in this city. The sale was held in two lots, the first being real estate comprising the mines of San Miguel, Candalaro and eight others, together with the ranches of Huisachie and Ojos Azules, each containing 40,000 acres. James O. Fargo and George F. Crane were the purchasers at $100,000. The second lot consisted of tools and live stock and other personal property of the company and was bought by the same purchasers for $30,000.

**The Irish.**

DUBLIN, Jan. 27.—The trial of Patrick O'Brien, member of Parliament, Thomas Byrne, president of Ballinasor branch of the National League, and John Haydon, editor of the West Meath *Examiner*, for offenses under the crimes act, was held today. O'Brien and Byrne were sentenced to four months' imprisonment; Hayden to three months.

**In Congress.**

WASHINGTON, Jan. 27.—The delayed deficiency bill of last session, with the Senate amendments, was passed in the Senate today.

White (New York) introduced a bill for the protection and administration of forests on public lands. Referred.

House adjourned.

**A Printer Dead.**

ST. LOUIS, Jan. 27.—George Clarke, president of Typographical Union No. 8, this city, died today after a brief illness. He was twice president of the International Typographical Union and was a prominent candidate for the position of public printer prior to the appointment of Mr. Defrees.

**The Daily Explosion.**

WILKESBARRE, Jan. 27.—By the explosion of gas in the Nottingham Mine, Plymouth, this afternoon, one man was killed and four were fatally burned.

**The Great Storm.**

NEW YORK, Jan. 27.—Advices tonight are to the effect that the storm has been steadily increasing throughout the northern part of this state for the past 48 hours and is at its worst to-night. The temperature is falling, the snow is drifting a gale and the snow movement is drifting upon the railway tracks and the country roads. The freight blockade on the Hudson River and New York Central is the heaviest ever known. Two thousand loaded cars are being held on waiting orders to be moved. Other through routes are no better off. The thermometer indicates 15 degrees below zero at some points.

BOSTON, Jan. 27.—Further details of the storm received to-night show the railroads are completely blockaded. Forty passengers on the Canadian Pacific express, were compelled to abandon the train and walk to the nearest village; many of them getting their hands and feet frozen.

**Criminal Cases.**

JACKSONVILLE, Fla., Jan. 27.—John Haywood, carpenter, absconding president and treasurer of the Brookside Knitting Company, Washburne Sallylic Manufacturing Company and other corporations in New York, who has been living here since November under an assumed name, was arrested today. He is charged with having forged bills of lading and receipts to the amount of $40,000.

CHICAGO, Jan 27.—Detective Gibson of the Denver & Rio Grande Railway is reported to be in this city looking for James Moore. The latter is said to have robbed the branch office of the railroad at Portland, Oregon, of $3,300 four months ago. The detective traced Moore to Denver and from there to Chicago, and has asked Police Captain Hunt to aid him in locating the man.

THE CORA LEE CASE.

SPRINGFIELD, Mo., Jan. 27.—The arguments in the Cora Lee case occupied all day and evening. The case will probably go to the jury to-morrow.

TUCSON, Jan. 27.—George Green, who confessed the railroad robbery at Pantano, Arizona, last April, has been sentenced to five years, and Doc. Smart to life imprisonment. An appeal will be taken in Smith's case. The latter attempted suicide tonight by shooting himself three times in the head. The balls flattened on the skull and the wounds are not dangerous.

**Anxious to Meet Smith.**

LONDON, Jan. 27.—Sullivan offers to defeat Smith in six rounds with small gloves or forfeit £200, Smith to lose nothing if defeated.

**German Anarchy.**

BERLIN, Jan. 27.—The debate on the anti-socialist bill was commenced in the Reichstag today. Socialist deputies circulated a letter among the members from Captain Fisher, of the Zerbst police, in which he confirms the statement that Schroeder and Haupt were arrested in Switzerland as anarchists, declared themselves to be of the Berlin police.

Herr Von Puttkamer, president of the council and minister of the interior, referring to this letter, said he would request Prince Bismarck to take

DIPLOMATIC STEPS

against the unheard-of proceeding on the part of the Swiss authorities. Owing to the existing laws, he said, Germany had been spared the disorders from which other countries had suffered. Outrages had been prevented, the press had been kept within bounds and the social democratic propaganda had been checked. The socialists had attempted to overthrow all existing institutions and could not, therefore, claim to be treated under the common law. Exceptional legislation was required in order to protect the state against the terrors of social democracy. Such legislation was not inhuman.

**More Smallpox.**

SAN FRANCISCO, Jan. 27.—The steamer *City of New York*, from China and Japan, entered harbor this afternoon flying the yellow flag. Three cases of smallpox were found on board. The purser contracted the disease before the steamer started and was left in Hong Kong, and a lady cabin passenger died on the passage. The steamer has been placed in quarantine.

**Tariff Reform Meeting.**

PHILADELPHIA, Jan. 27.—A tariff meeting was held this evening to enforce and endorse the recommendations of President Arthur and President Cleveland for revenue reform at the Academy of Music, which was filled, and most of those present were business men. The meeting was called to order by William M. Singerly, proprietor of the Philadelphia *Record*. Mr. Singerly introduced Wilson Welch, of the Commercial Exchange, as president of the meeting. Upon the stage were over 200 well-known citizens of both parties. Among them were ex-Governors Hoyt and Pattison. The feature of the evening was the ovation given to

CONGRESSMAN BRECKENRIDGE,

of Kentucky. Letters of regret from Hugh McCullough, S. S. Cox, Secretary Fairchild, Speaker Carlisle, David A. Wells and others were read.

Congressman Breckenridge was the first speaker. He said that the question of taxation was the most important with which the government had to deal, and that the question was now before the American people in an imperative manner. Congress had but recently refused the question consideration, but since then the President had declared the tariff is today the one question most worthy of the attention of Congress, and of the attention of the country. The surplus threatens business panics and is educating people to false ideas of their relations to the government. The money in the treasury is not the money of the government; it is the money of

THE PEOPLE,

wrung from them by a false and wrong policy of taxation. The trade of Canada and of South America and Mexico had been lost to the United States by a false system of taxation. The leather trade of the country had thrived since hides had been allowed to come in free.

Referring to the many labor troubles in Pennsylvania, Breckenridge said: "When labor is discontented, the system must be wrong. The surest guarantee of the perpetuity of the government is the content and tranquility of labor. We don't have that now because the system is false, and we must abandon it. What is wanted is for the people of the laboring classes to get out of their minds the idea that the labor of America needs protection against the labor of Europe and to get into it that the best protection for labor is independent manhood."

THE PLATFORM

adopted says: "Tax reduction is a necessity. The remedy for excessive revenue is revised taxation," and it was resolved "that the existing duties on raw material which are to be used in the manufactures should be removed; that the duties upon articles used or consumed by those who are least able to bear the burden of taxation should be reduced."

Ex-Congressman Hurd was introduced and greeted warmly. He made an elaborate argument to demonstrate that the tariff was not in reality a protection to American labor and American enterprise, but only in some in-

**The Cold Carnival.**

ST. PAUL, Jan. 27.—The first storming of the Ice Palace tonight was a great success. Twenty-five thousand uniformed men joined in the parade and the bombardment and 100,000 would be a small estimate of the crowd that thronged the sidewalks and swarmed on the hills and houses as well as the palace grounds. The Fire King was State Senator D. A. Morrison, of Rochester, Minnesota. The palace was lighted by electric lamps from within. Reaching the palace the clubs marched in and encircled it, the Fire King demanding its surrender. Borealis from the battlement hurled back defiance. A huge bomb rose into the air and the Fire King's forces answered with a thousand Roman candles, let off at once. The bombardment lasted half an hour and while the standard of Borealis was burned early in the fight the palace itself was not taken.

**Cuba Denies.**

HAVANA, Jan. 27.—The epidemic of crime which has prevailed in Cuba lately has greatly decreased, and the island has almost lapsed into its normal condition of dullness. The bandits who infest the country districts, are being relentlessly hunted down by the authorities, who are determined to suppress this species of lawlessness. The reports recently published in American newspapers about the insecurity of life and property in Havana were greatly exaggerated. The authors of these sensational stories are supposed by the people here to be the revolutionists living at Key West, who are enemies of the captain general, and owners of hotels in Florida, who hoped thus to injure the interests of Cuba.

**The Railroad Agitation.**

WINNIPEG, Jan. 27.—Proposals have recently been made from Ottawa that the province should cease railroad agitation on the promise that the Canadian Pacific monopoly would be abandoned in 1891. At a conservative meeting last night it was decided to oppose all compromises, and support the Greenway government until the province's rights are conceded.

**Soldiers' Monument.**

INDIANAPOLIS, Jan. 27.—The State Soldiers' Monument Commission today adopted the designs submitted by Bruno Schmitz, of Berlin. The monument will be 250 feet high, constructed of Indian stone and bronze. The Legislature appropriated $200,000 for the work, and the Grand Army of the Republic hope to raise $100,000 additional.

**WASHINGTON.**

**Turpie's Case.—Speaker Carlisle Improving, Etc.**

WASHINGTON, Jan. 27.—The Senate committee on elections named Feb. 17th for the hearing of Turpie's claim to a seat in the Senate.

The commerce committee of the House has decided to report back Anderson's resolution providing for a congressional investigation into the Reading strike, with the recommendation that the whole subject be referred to the Inter-State Commerce Commission.

The House committee on manufactures discussed at length today the resolution to

INVESTIGATE TRUSTS,

and it was finally determined to place the matter in the hand of a sub-committee to determine the best methods of procedure, and which one of the trusts should be first investigated.

A sub-committee of the committee on merchant marine and fisheries today reported to the full committee with a favorable recommendation, the Dunn free ship bill.

The Secretary of the Treasury has informed the custom officers that he has officially determined that the importation of meat cattle from Great Britain and Ireland, under certain prescribed conditions, will not tend to the introduction or spread of infectious or contagion diseases among the cattle of the United States. The operation of the first clause of section 2497 revised statuts, prohibiting the importation of

MEAT CATTLE

into the United States, is therefore suspended as to those countries upon condition: First—That it shall be shown that pleuro-pneumonia does not exist in the district whence the cattle are obtained for one year prior to their exportation, and that the cattle are fully protected from contagion in transportation from the farm. Second—That such cattle will not be permitted to land unless accompanied by certificates and affidavits certifying to their health, and a permit from the commissioner of agriculture required by the department circular of August 25th, 1884. Third—All cattle imported under these circumstances will be subject to a quarantine of 90 days.

The Secretary of the Navy has had the case of Pay Inspector Stevenson under consideration for several days, and will announce

HIS ACTION

thereon tomorrow or early next week. It is known that the conclusions of the court are favorable to Stevenson, and also to several other officers, who were implicated in the transactions at the Brooklyn Navy Yard. It is rumored at the Navy Department today that several of the officers are to be court martialed.

The accident to the steel beams of the cruiser *Charleston*, now being built at San Francisco, is the cause of considerable anxiety in naval circles of this city. A small section of one of the fractured beams has been received at the department and shows plainly that the crack was one of the most decided character, extending almost entirely through the beam. It is now learned that four fractured deck beams which were said to have been welded and worked into the vessel, have been removed as the result of the inquiry into their

FITNESS FOR USE.

This inquiry, which is still in progress, has developed facts which have given rise to great apprehension concerning the character and quality of the steel already worked into the hull of the *Charleston*, and further developments are awaited with anxiety.

The Secretary of State has received an application from the government of Mexico for the extradition of Mayer, alias Bourton, the alleged ticket swindler, who made arrangements for the appearance of Patti in the City of Mexico and then absconded with the money.

By direction of the Postmaster-General, the name of the postoffice at Cheyenne, Wyoming, has been changed from Cheyenne City to Cheyenne, and that of Ogden City, Utah, to Ogden, to correspond with the names of the towns in which they are located.

CARLISLE'S HEALTH.

The improvement in Speaker Carlisle's health still continues. This morning he and Mrs. Carlisle went to Fortress Monroe to spend two weeks.

**The Gas Question.**

A Chicago exchange gives an account of an interesting experiment with a recent invention for economizing gas. The invention consists of an iron box filled with hydro-carbon attached to the supply pipe, through which the gas passed after having gone through the meter, and by combination with the hydro-carbon is very much enriched in heating and illuminating power. The test referred to showed the following results: City gas passing through the economiser and burning through half-foot tips, five lights burned one cubic foot of gas in nine minutes and thirty-six seconds, and gave a light fully equal in volume and luminosity to straight city gas burned through four foot-tips, five four-foot tips substituted, and one straight city gas ? ured on. This time one cubic foot of gas was consumed in one minute and twenty seconds, or in less than one-sixth the time occupied in consuming the new gas, and with no better light, indicating an actual saving of over 80 per cent. The plan of introducing this process is that the consumer shall be charged nothing whatever for the use of the machine, nor for replenishing it, nor for changing the burners; he is only required to pay one-half the amount of saving, so that if the saving were 80 per cent the net reduction to the consumer would be 40 per cent. In the use of gas for fuel a still greater saving is indicated. An ordinary gas heater burned one foot of straight city gas in sixteen minutes. With the aid of the new process it took precisely sixty minutes to burn one foot of gas in the same heater, a saving of about 73 per cent. But this was not all. By an ingenious mixture of natural air with the new gas its heating power was nearly doubled. An equal quantity of water was heated to the boiling point by the city gas in fifteen minutes and fifteen seconds, and by the new gas mixed with air in eight minutes and twenty seconds. In this way it is estimated that illuminating gas can be burned in a kitchen range at a cost of about $1.25 for thirty days. It would seem from this that the educated meter stands no show, but has to play fair.

The opening of the New Year is nearly similar to the opening of a chestnut burr, judging from the number of leap years, swearing off, and diary jokes it has permitted to escape.

**NOTICE TO THE LATTER-DAY SAINTS.**

I have made various predictions, which I had printed in leaflet form and sent forth as purporting to come from a Seventy. These have received a somewhat extensive circulation among the Latter-day Saints. I desire to humbly ask the forgiveness of my brethren and sisters in the Church of Jesus Christ of Latter-day Saints for this wrong which I have done. I can only say, in palliation of my offense, that Satan deceived me and actually caused me to suppose I had a mission to circulate these predictions, and I verily thought I was doing the Lord's service in the matter. I now see my folly and wickedness, and wish my confession to be as public and as widely known as my pretended prophecies have been. And I humbly ask the forgiveness of the Lord for this grievous sin of which I have been guilty, and also my brethren and sisters, whom I have attempted to mislead in this way.

Trusting that I shall obtain the desired forgiveness, I remain,
humbly, ABINADI PRATT.

**Don't Experiment.**

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems, at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs and Colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all Throat, Lung and Chest affections. Trial bottles free at A. C. Smith & Co's Drug Store.
Large Bottles $1. (6)

**A Sound Legal Opinion.**

E. Bainbridge Munday, Esq., County Atty., Clay Co., Tex., says: "Have used Electric Bitters with most happy results. My brother also was very low with Malarial Fever and Jaundice, but was cured by timely use of this medicine. Am satisfied Electric Bitters saved his life."

Mr. D. I. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying: He positively believes he would have died, had it not been for Electric Bitters.

This great remedy will ward off, as well as cure all Malarial Diseases, and for all Kidney, Liver and Stomach Disorders stands unequaled. Price 50c. and $1, at A. C. Smith & Co's Drug Store. (6)

**BUCKLEN'S ARNICA SALVE.**

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box.
