

LOCAL AND OTHER MATTERS.

THEATRICAL.—Owing to the inclemency of the weather, but a moderate attendance witnessed the performance last night. Mr. Herne was great in the character of "Captain Cuttle," in "Domby and Son," and considering the short notice the corps dramatique had to get up the piece, we must say he was well supported. Miss Lockhart played with her usual good taste the part of Domby's wife. All the rest of the characters were well sustained.

FISH CULTURE.—The Danville Advertiser says: "The Green, of the Caledonia trout springs, has achieved a crowning triumph in sending trout spawn to England. A month since he sent 3,000 ova to Mr. Buckland, the superintendent of the British Fisheries, and brook trout that might have been claimed for a high place the trout ponds at Caledonia, are to the British major born and are sporting in the Royal gardens, Kensington. Of the ova sent, all lived but fifteen. The brook trout has been known in England."

ACCIDENT ON THE C. P. R. R.—Our teleregrams to-day contain an account of a serious accident on the Central Pacific road beyond Elko. Two engines ran off the line, which resulted in the termination of eight human lives and the destruction of fourteen cars. If we do not hear of serious accidents on both roads this Spring, when the thaw has fairly set in, it will be wonderful; nothing but the utmost care and caution can possibly prevent it, and their avoidance even then is very doubtful.

ODDS AND ENDS.—President George A. Smith and party reached Nephi last evening on their way home. . . . To-night "Leah the Forsaken," and "Domby and Son" are the attractions at our Theatre. . . . To-morrow night Mr. Herne takes his first and only benefit. He announces two entirely new pieces, "The Wept of the Wish-ton-wish" and "£100,000." Both pieces are of the highest interest. . . . The storm has not entirely left us, though it appears to be breaking. This morning at sunrise, there was about four inches of snow on the ground. . . . Business is dull, produce high, roads bad, all of which will doubtless be corrected by a few days' sunshine.

INDIAN RAID.—We learn, through a letter from Mr. Volney King, of Fillmore, that the Indians made a raid on Selma last Sunday, and captured one hundred head of horses. . . . Owing to the storm causing the wires to work badly we have not been able to obtain any further particulars by telegraph.

DEATH.—In this city, on the 30th inst., of quinsy, Alfred C. son of Alfred and Amanda C. Best, aged two weeks. The funeral services took place to-day, at residence, 7th Ward.

SHOOTING AT SOUTH PASS CITY.—On the evening of the 19th inst., Frank Zerner, commonly known as Vinegar, was killed by Samuel Fairfield. It appears that they had some little difficulty last summer about an arasta. Zerner had hired of Fairfield, Fairfield shot him a few days ago for it. As soon as the Sheriff had served the papers on Zerner he swore he would kill Fairfield. He at once armed himself and went to Fairfield's cabin, drew his pistol and snapped it twice. Fairfield drew his knife and stabbed Zerner three times. Zerner started and ran, Fairfield then seized his Henry rifle and shot him in the back. He died the next morning and was buried on the 21st inst.

ARRIVALS AND DEPARTURES BY STAGE.

To the East.—W. E. B. Barlow, E. R. Bullard, B. F. Farrell.
To the West.—Ira W. Felt, J. V. McElreel, J. P. Goodman, D. H. Walter, Thos. Frank, Geo. Hawkins, D. R. Ashley, W. T. Pratt and wife, Col. Chas. Lee.

By Telegraph.

CONGRESSIONAL SENATE.

Wilson reported a joint resolution for the payment of pensions in person, and not through attorneys or claim agents. The bill for continuing the Freedmen's Hospital at Richmond, Virginia, and in the district of Columbia was passed.

Kellogg introduced a bill granting the right of way for a railroad and telegraph line from the Central Pacific Railroad to the Colorado River. Morton moved to take up the House bill to grant the right of way to the Memphis and El Paso Pacific Railroad.

Abbott desired that the bill be referred to the Pacific Railroad Committee. He said the bill involved many important questions, one being whether there is really any such road in existence. The discussion lasted till the expiration of the morning hour, which brought up unfinished business, including the supplementary Currency bill.

Hagan moved to postpone order here and to proceed with the consideration of the Indian Appropriation Bill. Sherman offered an amendment, providing that on the redistribution of the banking circulation the reduction shall commence with the banks having an excess of circulation exceeding a million dollars, and in the States having an excess of circulation; the amendment was adopted.

People offered an amendment that the funds deposited by the national banks, a security for their circulation, shall pay 3 per cent. interest, he addressed the Senate at length in support of the amendment.

The bill and the proposed amendments were discussed at length by Fessenden, Morton, Wilson and Morton. Morton offered an amendment increasing the amount of circulation to be withdrawn from the States having an excess, from twenty-one millions to thirty; agreed to.

Sawyer offered an amendment requiring the banks to return the amount called for by the controller of the currency within ninety days after receiving his requisition; adopted. Several other amendments were offered and rejected when the bill passed.

HOUSE.
The appointment of a conference committee on the Tenth of Office bill by the Senate was announced. Butler asked the unanimous consent of the House; Brooks objected.
The House considered the bill for reviving Hoe's patent improvements in the providing press, till the expiration of the morning hour, when the Senate message, asking a committee of conference on the Tenth of Office bill came up.
Butler moved to agree to the request for a committee of conference.
Schenck moved that the House recede from its disagreement to the Senate amendments.
Wood moved that the House insist on its disagreement. Schenck's motion was rejected 60 to 100. The House then adopted Wood's motion.
The Speaker appointed a committee of conference consisting of Butler, Washburn of Wisconsin and Hingham. Daves offered a concurrent resolution for final adjournment on April 6th, which was adopted without division.
Paine, from the committee on elections, reported that Jacob P. Reed, claiming a seat from the third district of South Carolina, was incompetent to take the test oath. Randall dissented from the report and introduced a bill to remove Reed's disabilities; referred.
Hooper called up a motion to reconsider the vote for referring to the committee on ways and means, the bill to amend the tax law on distilled spirits and tobacco. The vote was reconsidered and the bill came before the House for action and was discussed by Hooper, Allison, Butler, Judd, Logan, Kelly, Garfield and others. Logan denounced certain propositions in the bill as in the interest of the whiskey ring. Butler said that forged stamps for cigars were difficult to detect, and could be obtained in New York for two dollars a thousand. Finally the provision extending the time for withdrawing whiskey from the bonded warehouses was stricken out, 89 to 50. The bill then passed and the House adjourned.

GENERAL.

Chicago, 30.—The Senate Committee on Foreign Affairs have postponed the Danish and Alabama claims treaty till next session.
The Ways and Means Committee have decided to report a supplementary whiskey tax bill; they will endeavor to get it through.
The Committee on foreign affairs had the Paraguay case up to-day, and heard the statement of ex-minister Washburne.

Washington.—The President sent only one nomination to the Senate to-day.—Chas. S. Hamilton, as Marshal for the district of Wisconsin.

The Reconstruction Committee, by a strict party vote, have agreed to report Butler's Georgia bill.

Halsey has decided to accept the office of Register of the Treasury.

The testimony before the Senate Committee indicates that there has been no over issue of government bonds to the Central Pacific, and that the bonds were issued according to law. It was also shown that the Union Pacific, far from having completed the road to Ogden, has several miles of temporary grade being used in Echo and Weber canyons, and that two tunnels will not be finished till the 30th of April.

In compliance with the resolution of the Senate, the President, to-day, transmitted the correspondence accompanying Secretary Case's resignation to Buchanan in December, 1880. Case says that he had urged in the Cabinet meetings, the necessity of reinforcing the forts in Charleston harbor, also of making arrangements for the collection of duties there when the office became vacant. The letter goes on to say that the Secretary still entertains these opinions, and thinking the perilous juncture requires unanimity in the Cabinet he tenders his resignation.

Buchanan's reply expresses regret and surprise at receiving the resignation, but says the views of Case were not concurred in by the rest of the cabinet and especially by the Secretary of War and the Navy. He says, he himself, believes there was no necessity to resort to force for the protection of public property he could not risk a collision of arms in the harbor of Charleston, thereby defeating his reasonable hopes of the final triumph of the Constitution and the Union.

New York.—Reports from the towns along the Genesee and Mohawk rivers say those streams are very high and have overflowed their banks in various places, submerging houses and farms. Fears of an extraordinary flood are entertained.

Philadelphia.—Mr. Blackstone, of the firm of Funsten & Blackstone, yesterday morning chopped his wife and two children to pieces with an axe and then ground himself in the debris; an inquest was held, and a coroner's jury returned a verdict that he had been robbed and was ruined.

New York.—The funeral of Jas. Harper, to-day, was attended by an immense concourse, including the Mayor, members of the City Government, the leading merchants, bankers and authors of the city, and publishers from all parts of the country.

Richmond, Va.—The United States Commissioner, to-day, in the case of Governor Wells, Judge Bond and others, charged with purloining a letter from the mail, discharged all parties concerned.

San Francisco, 30.—A dispatch from Verd, states that two engines on the Central Pacific Railroad ran off the track beyond Elko; four men were killed, and the conductor, two engineers, two firemen and three brakemen were killed. The railroad buildings of the same company at Truckee were destroyed by fire yesterday; loss \$20,000.

Legal tenders 77.
St. Louis, 30.—The losses by fire, last night, are estimated at \$250,000 on the cargoes and \$350,000 on the steamboats.

Gettysburg.—A difficulty between the owner of the springs here and the parties to whom they are leased led the former to take possession; the lessees threaten to retake them by force. Trouble is anticipated.

New York, 30.—Judge Barnard has directed the Sheriff to break open the safe of the U. P. R. R. Company in order to get the books and papers.

New York, 31.—A national statement was procured by a fraudulent statement that he had fallen over to make a report on the restoration.

The Board of Wm. Kohrs, for Collector of Customs in Alaska, was procured by the Oregon delegation, unknown to California.

Boston, 31.—A special legislative committee on woman suffrage, was addressed yesterday by Julia Ward Howe, Lucy Stone and Wendell Phillips, on behalf of the petitioners. The committee room was crowded; much interest being manifested.

Poughkeepsie, New York.—A serious break, fifty feet in depth and two hundred feet long, has occurred on the Delaware and Hudson canal. Fears are entertained that there will be extraordinary high water in the river; and that much damage will ensue, as all the piers between Hudson and Albany are submerged.

New York, 31.—In the Union Pacific litigation case Judge Barnard directed the Sheriff to break open the Company's safe, which he attempted to do, but assisted by some laborers and others, but Barlow, a member of the Company, thwarted the whole party of trespassers, and they left.

Chicago.—The preamble of Butler's Georgia bill recites, that the State Legislature having refused to purge itself of members incompetent under the Fourteenth Amendment and having illegally expelled qualified members because they were colored, consequently protection has not been afforded to the lives, liberty and property of the people, whereby it appears that Georgia has refused to the terms under which it was restored. The bill provides that the Legislature shall reassemble, excluding all ineligible members. The third section declares that the expulsion of the negroes is void; the fourth section provides punishment for persons, disqualified under the laws, attempting to exercise official duties. The bill also provides for keeping Federal troops in the State, who shall respond to the demand of the Governor for assistance in the administration of justice.

The Times special says the Union Pacific and Central Pacific unite in their endeavors to defeat the El Paso Pacific road, which may soon prove a formidable rival.

Covode expresses full confidence that he will be admitted to the contested seat in the Senate.

The Committee on Foreign Affairs have decided to report a bill, allowing all foreign telegraph cables to be landed on our shores, provided that the foreign governments from which the cables come extend the same favor to American companies.

The Committee of the Boston Bank say the Presidents here are opposing the taking of National Bank circulation from New England and giving it to the West or South.

Lathrop Medley arrived to-day, in obedience to a summons; it is believed that he will soon be appointed minister to England.

The committee of conference on the Tenth of Office bill stand three and three; they will probably fail to agree.

The Tribune's special says the coming statement of the public debt will contain features not calculated to strengthen the standing of the Pacific Railroad. Tables will be published showing that the roads have not paid half the interest on their bonds.

The ways and means committee have agreed to report a bill legalizing coin contracts.

The Secretary of State, on the application of the Spanish legation, has ordered sea board marshals and district attorneys to diligently prevent filibustering expeditions. The President has not yet consented to see the envoy for the insurgents. Secretary Fish advises extreme caution with respect to Cuban affairs.

The currency bill, passed by the Senate last night, withdraws thirty millions from the eastern and northern banks for the South and West, which must be done within three months; the action of the House is doubtful.

FOREIGN.

London.—In the draft of the New Spanish Constitution the reign of the king is not limited to eighteen years, as reported; the possession of the crown remains on the king for life, and descends to his heir, the period of whose majority is fixed at eighteen years.

Havana.—Goddington, United States Consul at Gibara, recently brought in from Gibara on suspicion of being a rebel spy, was released to-day at the intervention of Consul-General Hall.

The government is remodeling the police system of Havana. The office of Chief of Police is abolished; the Governor of the city assumes the duties of the office. The control of the police is entirely in the hands of the civil authorities. The police at Matanzas arrested two Cubans, aboard an American vessel in the bay, while attempting to escape to the United States.

Ottawa.—The Board of Trade has passed a resolution in favor of a reciprocity treaty with the United States.

Halifax.—At a meeting recently held in Hinton County a resolution favoring secession was adopted.

London.—Advices from India state that Lord Mayo had had an interview with Sher Ali, and had established the most friendly relations.

A Matamoros letter says a body of Cuban patriots near there have raised the American flag; and that a large expedition, with arms, ammunition, etc., had safely landed near Coahuila.

New York, 31.—Sergeant Nye, Williams and Corbett are urging General McCook for superintendent of the San Francisco mint, vice Swain.

Special Notices.
Having lately received extensive additions to our already large and varied stock, in the shape of type, presses, etc., etc., our facilities for executing all kinds of Job-Work in the best and most improved styles have been greatly increased. Co-operative and other establishments can be supplied with plain and ornate letter and book-presses, and every kind of work. Orders from the city and the country are respectfully solicited.

We have received one of the latest improved ruling machines; and are, therefore, prepared to do all kinds of ruling, according to order, on the shortest notice. Liberal discounts on all.
