

EVENING NEWS.

Saturday, May 2, 1884.

FRAGMENTS.

The trial will not be ended this week, and will probably occupy one or two days next week.

A story from Bishop Sharp's broke his back last Thursday, by running against a telephone pole.

Outing and Wheelman for May comes to hand full of racy reading and as rich in illustration as usual.

New York, 2 p.m. - Score of the walkers: Fitzgerald 938, Runt 919, Panchot 909, Norcross 885, Vint 812, Herty 805, Elson 801.

The party given by the pupils of Prof. A. C. Smith's singing classes, in the Salt Lake Music Hall last evening, was well attended and all seemed to have a good time.

One of the most pleasant and healthful of summer beverages is, Walter Reynolds herb beer, a strictly temperance drink, pure, unadulterated, sparkling and exhilarating. He makes himself at his residence in the 21st Ward.

As the prisoner Hopf was being taken down the stairs of the Federal Court room last evening, some one inadvertently raised the cry of "lynch him!" The crowd did not feel that way, however, and the foolish individual who had spoken speedily subsided. Hopf was taken to the Pen by the Marshal and two deputies.

One of the residents of the 21st Ward was just in time to save his clothes from a couple of mischiefs. The lady of the house hearing a neighbor's dog barking, went out to see what was the matter when she saw two men in the lot, who were trying to get the dog quiet. They decamped cross-roads when discovered.

Some half dozen enterprising citizens of Minersville, principally young men, have formed a farming association, and taken up a large piece of farming land about five miles northwest of Minersville, with the intention of building a large residence on the river above the land in question and entering upon farming operations, upon a somewhat extended scale.

We are requested to state that tomorrow evening Rev. F. T. Lee will give the first of a series of lectures on "Experiences of travel in the Holy Land," at the Jewish synagogue building, back block of the Metropolitan. The lecture will describe various oriental manners and customs, the preparation necessary for a horseback tour of the country, the appearance of the caravan on the way, etc. The public are cordially invited to attend. All will be made welcome.

LOCAL NEWS.
 Sunday Night.—There will be no Ward meetings in this city tomorrow night, as the State Conference will be continued.

No Sabbath Schools.—There will be no Sunday Schools held in the various Wards of this city tomorrow, in consequence of the State Conference, to which all are invited.

Temperance Meeting.—The committee appointed to organize a permanent Temperance Society in this city, will hold a meeting at the Temple's Hall over Deseret Bank, at 8 o'clock on Sunday evening. Admission free.

To-Night.—There will be a general meeting of the Priesthood in the Assembly Hall this evening, a continuation of the State Conference, commencing at 7:30. All members of the Church in good standing are invited, as far as the house will accommodate them.

Appointments to Vacancies.—Secretary Thomas has forwarded the following appointments made by the Utah Commission:

Daniel Bader, vice Wm. T. Baker, Presiding Judge, and Geo. O. Turner, vice Robert W. Davis, Judges of Election for Third Ward, Park City municipal election, on Monday, May 6th, 1884.

Charles W. Rowland, vice Willard Parkbank, Deputy Registrar for Parkbank, Millard County.

Wood Harvesting Machines.—Farmers are requested to read the advertisement of the Walter A. Wood Harvesting Machines—Grant Odell & Co., agents. From the annual published by the Wood Machine Co. we learn that they made and sold 500 machines in 1883, 6,500 in 1882, 29,715 in 1881 and 4,002 in 1880. The figures speak for themselves, and there can be no question that the "Wood" Machines possess superior merit or the above result could not have been achieved. The agents for these machines ask farmers to call at their place of business and be convinced of the superiority of their goods.

Jupilee Singers.—Did you ever hear the singing at a southern camp meeting? or have you ever listened to the wildwood harmony of a parcel of colored deck-chairs on a lower river steamer? If so, you can imagine the concert given by the Tennessee Jubilee and Plantation Singers at Sherman Hall last evening. Among the attendants were several of the best known and foremost citizens of the city, all of whom heartily applauded the most melodious and original show of knowledge of music outside the plantation melodies that will be appreciated by the most critical. What is lacking in theory is fully made up in the heartfelt harmony such as the "harkey only" is capable of rendering. The fine performance will be given to-morrow evening, and even the most fastidious will be pleased. —St. Paul Pioneer Press.

This company appears at the Salt Lake Theatre on Monday and Tuesday evenings.

Sunday School Union Meeting.—The regular meeting of the Deseret Sunday School Union will be held next Monday, at 7:30 p.m., in the Salt Lake Assembly Hall.

The Eighth Ward Sunday School will furnish singing and doorknocks.

The Deseret Sunday School Brass Band will make their first public appearance. Brother John J. Daynes will favor the meeting with an organ solo of his own composition, and Brother Evan Stephens and Sister Agnes Olsen have kindly proffered to sing a duet for the occasion.

This being the last time that Assistant General Superintendent George Goodland will be here previous to his departure for Europe, it is particularly requested that a full attendance of Sunday School officers, teachers and adult scholars be present to hear his farewell address. Friends who are earnestly interested in the Sunday School cause are also invited.

The general officers of the Deseret Sunday School Union will meet next Monday at 2 o'clock at the usual place. L. W. RICHARDS, Sec'y.

PERSONAL.
 Apostles Brigham Young and F. M. Lyman left for Arizona this afternoon.

Apostle Moses Thatcher did not return with President Taylor's party. He will remain at Cedar City a few days.

A Narrow Escape.—An exciting runaway and smash-up occurred on Fifth South and Third West Streets, last evening at 8:30 o'clock.

A speaking horse team, driven by two young ladies, was passing along the first named thoroughfare, when one of the horses, which became frightened and unmanageable, started off at a fearful pace.

The ladies, who were driving a light-colored team, jumped from the vehicle, spraining themselves, but luckily sustaining no further injury. Her companion staid in the buggy, which became detached from the horse two blocks further away, and escaped unhurt.

The furious animal, after the team became unhinged, got tangled in the harness, and again started off, leaving the vehicle with its fair and frightened inmates in the road, and turning up Third West Street, ran into a telephone pole, one of the horses on each side of it. The animal was knocked down and the animals were thrown by the force of the collision several feet forward, coming within a yard of a little 5-year-old girl who was crossing the street at that point.

As the animal, which was a sorrel, was terrified, with but little harm, what might have been a very serious accident, such as must continually happen until little boys learn better than to throw stones, or commit similar acts of mischievous thoughtlessness.

From the Southern States.—We had a call this morning from Elders T. H. P. and George K. Reese, Jr., the former of Menion, Cache County, and the latter of the Second Ward of this city. They both returned from a mission to the Southern States last Tuesday. Elder Paul left here April 11, and Elder George left here April 12, and both returned to Menion, then in Grayson, and afterwards in Warren, Simpson and Allen Counties. He spent the last three months of his mission in Summer County, Tennessee, the final month in company with Elder Reese. He baptized four persons and assisted in baptizing nineteen.

Elder Reese left home April 10, 1883, and labored first in Grayson County, Kentucky, traveled through other counties, and finally went to Tennessee, where he labored in his labors. He was released to return on account of ill health. He baptized one person and assisted in performing that ordinance for seven others. They were threatened considerably, denied opportunities to hold meetings, and finally all the churches were obliged to leave Kentucky on account of hostile sentiment. There are at present no Elders laboring in that State. Both these brethren prize their experience highly.

Returned Missionary.—Elder Chas. Westcott, of Phil City, Weber County, who left on a mission to Great Britain, May 9, 1882, returned home on the 27th of April. He labored all the time in the Newcastle Conference, taking the presidency of it October 21, 1882, and holding that position till released to come home with the April company. He baptized 20 persons, preached to thousands of people and left a fine feeling there, with considerable opposition. He enjoyed his mission thoroughly and feels thankful he was called to it. The Lord has been with him. Most of all, he has had good health. He thinks the Saints here, having friends in Europe, should write letters to them, introducing the Elders as bearers of the letters, and thus help them to find openings for preaching the Gospel; a wise suggestion which we heartily endorse.

Branch at Eureka.—On Sunday last a branch of the Church was organized at Eureka, Juab County, according to the announcement made in the News a few days previous. Apostle George Reardon, President Wm. P. P. man, Counselor Sperry and Elders L. A. and W. Bailey were present. John Beck was made President of the branch, with Henry Simmons and Lawrence Fullenback as his assistants. H. Simmons was appointed Sunday School Superintendent, with J. R. Johnson and A. Von Bauer assistants. J. H. Sallie was appointed clerk of the branch. Three meetings were held. The people there were anxious for the organization and had purchased an elegant set of Church works and sacramental service, in anticipation of it.

Home Talent.—Evidences are multiplying every day that Utah is rapidly coming to the front in artistic ability. This is sufficiently evinced by the numerous excellent portraits of the famous, and the very creditable efforts in the line of sculpture recently exhibited by some of our youthful artists. And while this is the case with the comparatively young men of the community, our home talent of mature growth in progress and enterprise is not at all behind. This was called to very forcibly to our mind yesterday by a visit to the atelier of Prof. Ottlinger, where we were shown a most striking likeness of ex-Alderman Raleigh, painted for the City Council chamber and a few choice works which, in our estimation, far ahead of anything this gentleman has heretofore attempted.

"Juvenile Instructor."—The Juvenile for May has the following table of contents:

The Cologne Cathedral (Illustrated); Missionary of Central Asia; Our Theological Class; by Uriel; History of the Church; Varieties; Editor's Thoughts; Captain Cook (Illustrated); House of David; by John W. Williams; Pictorial; Topics of the Times; by the Editor; Easy Science Lessons; by Sunny; Emily Will Cease; by S. F. Alwood; Nature's Instructor; A Mysterious Dog; by J. L. R.; The Seven Ages of Woman; by J. H. W.; Reign of Riddler; Utah's Future Glory; by B. J. B.; Earth's Crucities; by Uncle Zep.

A Long Ride on Short Saddles.—On the first of this month Messrs. Woodside and Morgan, both distinguished bicycle riders, commenced their long contemplated tour across the continent, from New York to San Francisco, on bicycles. Long journeys by this means are not new to them in the East and in Europe, but this is remarkable as the first voyage on the silent steed across the continent. These noted riders have arranged with the Athletic Association to live over for one day en route, and give an exhibition on Washington Square in this city.

President's Party Returned.—President John Taylor and George Q. Cannon, with most of the party which accompanied them South a few weeks ago, arrived home, as expected, this morning. The movements of the party from place to place have been published in the News during their absence. All return in good health. The only accident that occurred was to Sister Cannon, who had her wrist dislocated by the overturning of the vehicle in which she was riding, a little this side of Toquerville. We bid the brethren and sisters a hearty welcome home.

Gospel Philosophy.—The Juvenile Instructor is about to make a work that will serve twofold purpose, as a medium of opposition to the spirit of infidelity. It will be entitled "Gospel Philosophy." The book will be 30 pages, and is from the pen of J. H. Ward.

BARB-WIRE OBSTRUCTIONS.

MORE OF THE COUNTY ROAD DIFFICULTY AT PROVO.

We have before referred to obstructions in the shape of barb-wire fences, placed across and enclosing a portion of the county road running through Provo City, by Attorney John B. Miller, who claims to have been awarded the land many years ago by the Probate Court, but which has been continuously used by the people, up to a few weeks since, without question or remonstrance, for the past 32 years.

The Engineer informs us that since the affair last mentioned in print, the following notice has been put up on a "monument" on the land in question. We claim it for mining purposes.

We, the undersigned citizens of the United States, do hereby claim the following described lands as mineral land. We claim it for mining purposes. Commencing at the discovery stake, thence east along this line of fence 20 rods, thence south along this line of fence 10 rods, thence north along this line of fence 10 rods, thence east to point of beginning.

We also claim five days for filing notice with all rights the same as the United States give its citizens.

JOHN B. MILLER, J. W. S. MILLER.

April 25, 1884.

But it is evident that not much stock is taken in the "mineral" hypothesis. The County Court last Friday passed the following resolution:

Whereas, It has been reported to this Court that the public highway known as the Provo road, running from the corner of block 12, plat C, Provo City, in a southeasterly direction to Springdale, has been obstructed by means of a wire fence constructed across said highway, and also by a wire fence constructed across said highway on the south side of said block;

Therefore, resolved, that the road supervisor of said district No. 1, is hereby ordered to remove said wire fence, and also to remove the said highway;

And, furthermore, to keep the said road and all highways in said district, clear from all obstructions.

Since then the Road Supervisor, J. E. Daniels, Jr., has twice removed the obstruction, which, under cover of the night, has been twice replaced. A lawsuit is doubtless what is wanted, and the probability is that it will ensue.

What are the Sparrows Good For?—One of our quintessential and enthusiastic orchardists, showed us some limbs of a peach tree entirely stripped of buds by the sparrows. The statement cannot be doubted, as he saw them hard at work pecking off the buds, and now that so few are left, after the severe frosts of last winter, such capers are very serious, as affecting our fruit crops, especially valuable stone fruits.

Side by side with the bud-stripped limb was a nest of young caterpillars, enjoying perfect immunity from any attack of the supposed insectivorous sparrow. The only insect they seem to enjoy is the young grasshopper; these they peck at voraciously, and this is something to their credit, but their partiality for vermin is not very decided; whenever the time comes for feeding the chickens during winter months, the writer has seen a flock of the little rats sitting on a grape vine watching for the coast to be clear, and down they would drop to devour the wheat.

They are also very destructive to our cherry crop; it is almost impossible to get them ripe enough for use before these little darlings steal them, and in some cases strip the tree clean. Moreover, our shade trees are becoming filled up with their unsightly nests, made up of straw, feathers and other refuse, and the festal families utilize for housekeeping purposes. They are also credited with driving away other birds more useful as insect devourers; many of the very beautiful birds that used to visit us regularly, are rarely seen where the sparrow has obtained a foothold.

It has also been found necessary to clear their nests from the cornices of some of our finest structures, for they seem to have aristocratic tendencies, and always select the finest and highest houses as their residences; again, the refuse as a result of their presence, is in no way ornamental. However, before we put them under the ban of annihilation we should be glad to hear from any friends of the birds in question what they may have to say in their favor.

A Wicked Woman.—From the appended extract from the Oden Herald it is evident that a certain female, whose vile vocation was shown up in this paper some time ago, is carrying on her villainous trade in Weber County.

A reliable gentleman and old-time citizen of this place, informs us that a dangerous adventuress is going around town, ostensibly for the purpose of selling to the ladies a certain kind of female apparel, but whenever she thinks there is an occasion and the field is clear, she comes out with a new use of drugs to produce miscarriage, and otherwise defeat the Creator's plan and first command as found in Genesis 3:16.

In the instance experienced by our friend the peddler of pernicious stuffs was even so urgent and bold as to declare her willingness to take a medical work out of the family library as payment for the drug she offered. Her insinuations, however, were so direct and so convincing, that the house without accomplishing her villainous object—though not as quick as she would have had her—she left the gentleman of the house had been around the premises at the time.

A Correction.—The following explains itself:

TEMPLE OFFICE, Mant City, Sanpete County, April 29, 1884.

Editor Deseret News:

In your last columns of the 28th inst., you make a report concerning the Mant Temple, stating that the information of Brother Cyrus H. Wheelock, which for the most part is quite incorrect, has been raised to the level of a fact in regard thereto. I have at no time expressed a design to have the Temple completed in May, 1884, neither can it be done; the mach-work is progressing, but will not be finished for another year or more.

I have been informed upon this subject, and I shall be pleased to furnish the proper information, when required for the public.

W. H. FOLSON, Supt.

BUSINESS NOTICES.
 FA CAR-LOAD of Cedar Posts for sale. J. W. SKEEL.

NEILSON & ROTHEBERG.
 Have removed their Photographic Gallery from 12 Commercial Street to 16 Commercial Street. First class at low prices.

BRITANNIA STANDS UNBIVALL-ED.

Those troubled with rheumatism, who have tried other remedies and still are unrelieved, will certainly obtain relief from the use of the British Remedy, which has been discovered by an eminent English physician of great experience, and who has never lost a patient to whom this medicine was administered. It is a simple, safe, and reliable remedy, and no external application can permanently cure rheumatism, which is a disease of the blood.

Britannia is prepared with the greatest skill, and a teaspoonful being taken in a wineglass of cold water immediately finds its way to the blood, where it corrects the painful causing element, removes it immediately by purifying the life-giving fluid, and gradually builds up the entire system. Persons who have used this British Remedy, and who have seen that nothing ever helped them as Britannia has done. Many references in Salt Lake City and elsewhere can be given.

Z. C. M. I. drug department is the agent for Utah. A first supply has already arrived. Price as usual \$2.50 per bottle. Special rates for the trade.

Bring along your "Babes," all sittings for the "new instantaneous process." We have the only Lightning Station in the city.

WIDE AWAKE DRUGGISTS.
 The Z. C. M. I. Drug Store always gives the best business and spare no pains to secure the best of every article in their line. They have secured the agency for the celebrated "New Discovery for Consumption." The only certain cure known for Consumption, Coughs, Colds, Hoarseness, Asthma, Hay Fever, Bronchitis, or any affection of the Throat and Lungs. Sold on a positive guaranty. Trial Bottle free. Regular size \$1.00.

A CURE OF PNEUMONIA.
 Mr. D. H. Barnard of Oswego, N. Y., says that his daughter was taken with a violent cold which terminated with Pneumonia. He tried all the best remedies, but gave the case up and said she could live but a few hours at most. She was cured by the use of a friend's recommendation Dr. Wm. Hall's Balsam For The Lungs, and advised her to try it. She accepted it, and in a few days was surprised to find that it produced a marked change for the better, and by persevering a permanent cure was effected.

I had Catarrh in its worst form. One bottle of Dr. Cream Ears stopped dropping into my throat pain and soreness in my head and deafness. Mrs. J. H. Hagadoche, Union, N. Y.

HOSIERY, ACID PHOSPHATE.
 Dr. G. W. Collins, Tipton, Ind., says: "I used it in nervous debility brought on by overwork in warm weather, with good results."
