FOR WESTERN UNION TELEGRAPH LINE.

AMERICAN.

Wired From Washington.

WASHINGTON, 21. — The President's private secretary telegraphed the Secretary of State as follows: "The President was indisposed yesterday, but is now quite well. We leave this afternoon and reach Washington to-morrow night.

It is reported at the Treasury Department that smuggling is being extensively practised on the Rio Grande river, and that a difference of opinion exists between the district attorney for the southern district of Texas and the collector of customs at Brownsville, as to the authority of the officers of the latter office to arrest persons in the act of smuggling. The question has been referred to the Solicitor of the Treasury for his opinion. The Solicitor says he has no doubt that officers have the same legal right to seize offenders that they have to seize smuggled goods, provided the arrest is not made on Mexican territory.

The managers of the Garfield Memorial Hospital have purchased a piece of property in the suburbs of the city at a cost of $37,000, the money to be realised from the sale of the Soldiers' and Sailors' Orphan Asylum property, which was donated to the Garfield Hospital to be devoted to the erection of a hospital upon the land just purchased.

R. A. Milroy, of the Yakima Indian Agency, Washington Territory, writes to the Commissioner of Indian Affairs that the recent trouble between Indians in his Agency and white settlers in the vicinity arose from a quarrel occasioned by scattering poisoned meat near the camp of the Indians on the Columbia River by the white settlers, and the Indians complained that when the grass grew about the meat their horses might eat of it and be poisoned. The agent says the Indians ought to be brought to reason, as it is becoming difficult for them to find subsistence where they are in camp. As long as they remain there trouble greater or less, is constantly arising.

The appropriation for the redemption of worn and mutilated United States notes for the fiscal year 1882 and 1883 is nearly exhausted. No appropriation for this service for the next fiscal year was made by the last Congress. Therefore, after the present appropriation is exhausted, no notes of this description can be redeemed at the Treasury Department until Congress makes another appropriation.

Senator Anthony is more comfortable this evening.

Standard dollars issued the past week, 109,499; for the corresponding period last year, 132,999.

Hon. J. R. Partridge, U. S. Minister to Peru, reported in person to the Secretary of State to-day, remained half an hour and departed for Baltimore. Partridge declined to say anything about his visit to the Secretary of State, and the officials will say nothing further than that leave of absence has been granted Partridge upon his own application, on the ground of ill health; but he has not yet indicated how long he desires to be absent from his post.

The Secretary of the Interior today requested Attorney General Brewster to appear in behalf of the Commissioner of the General Land Office in the mandamus proceedings inaugurated by the State of Illinois in the Supreme Court. This is an application for a mandamus to compel the government to allow that State 5 per cent. of the net proceeds of the sale of public lands within the State, for which payment is made at the rate of $1.20 per acre in military land scrip.

Death and Disaster.

CINCINNATI, 21.—The building of the Brush Electric Light Company is injured $40,000 by fire. No electric lights can be furnished for a week or ten days.

Iron Mountain, Mich., 21.—Work at Keel Ridge mine has been abandoned, as it is impossible to take the bodies out without the ground caving in faster than the men can take it out, and the cavity being of such a nature that it cannot be timbered. The danger is so great that men refuse to work.

Evansville, Ind., 21.—A boiler in the yarn mill of Rose & Scofield, exploded to-day, killing Ford Schultz. The building was wrecked.

Havana, 21.—A fire at San Claudia destroyed seventy-five huts and much stock.

New Orleans, 21. — *Picayune's* Farmerville, La., special: During a severe storm this afternoon, D. Stein & Co's fire wall was blown down, demolishing a small frame building, H. C. Glasson's saloon: Glasson was killed, and W. A. Darby injured.

San Francisco, 21.—The schooner *Two Brothers*, Captain Balke, hence April 17th for Salt Point, capsized Thursday afternoon, off Radegar Head. All hands, including the captain, five men, names unknown, and Captain Schmilling, passenger, were lost. The vessel drifted into Radegar Bay bottom up.

Belleville, Ark., 21.—The institution for the deaf and dumb will be closed as a sanitary measure, owning to another outbreak of typhoid fever.

Memphis, Tenn., 21. — *Appeal's* Helena, Ark., special: The river is about on a standstill to-day; gauge margin within five feet of the maximum. A further rise is expected Monday, at which time the overflow from St. Francis basin will reach this place. Backwater on both sides of the river is still rising. There are a few places in the bottoms haveing no more than 15 inches margin to go upon.

The Markets.

CHICAGO, 21.—The *Drovers' Journal* says the hog receipts were 4,000; shipments, 2,600. Market steady, slow and uneven; fair clearances at former rates. Mixed, 6.95 @ 7.40; heavy 7.30 @ 7.75; light, 7.00 @ 7.60; shippings, 4.25 @ 4.60.

New York, 21.—Governments, unchanged; railroads, irregular; States, neglected. Stocks, during the forenoon, rather strong, but dull; volume light.

Mining stocks dull, although sales amounted to 115,885 shares. Large sales were made of State Line, Nos. 2 and 3, at 5c. per share; Somora Con, 1.05 @ 99, Robinson Con, 85 @ 83; Hall & Anderson, 1.40 @ 1.25; Harlem, 1.45 @ 1.40. Sales for the week, 342,955.

Total bullion receipts in New York for the week, from mines, $200,000.

Political Fragmentation.

SAN FRANCISCO, 21.—In an interview to-day with a *Chronicle* reporter, Dana said the leading issue of the next presidential campaign will be to turn out the republicans. Continuing, he said: "I think the democrats can come sqarely before the country advocating a tariff for revenue alone. The only internal revenue tax justifiable is on liquor, which will yield enough to pay the pensions passed by recent laws. These will only last four or five years. After that the tax is no longer needed. Even now, as recommended by Arthur, all internal taxation can be done away with. Can't say whether the active republicans in the last Congress alienated the workingmen of the republican party, nor that the pending Ohio election was influenced thereby. Of the question of the reduction of the metal duties referred to, it is too early to judge of its effects. Only the Southern States manufacturing woolen and cotton goods, sugar and iron are likely to be affected by the free trade issue, and Louisiana, Georgia and Alabama by the sugar interest. Louisiana certainly will fall under free trade policy, for without protection the Louisiana sugar planters will be powerless to compete with Cuba, Brazil and the Sandwich Islands. The iron interests of Alabama are safe. The effect of a free trade plank in the democratic platform on the presidential election in New York, in the present state of public opinion, would be ruinous. It would also lose New Jersey, Connecticut and probably Indiana. The democratic party has available presidential candidates in all parts of the country. McDonald, of Indiana, is spoken of; Hendricks has friends; Bayard, warm friends, probably more personal admirers than any other man. The party of Palmer, of Illinois, is strong. Thurman is one of the ablest men in the country. If Ohio unites in her support of the democratic convention, his nomination is assured. Tilden's friends are not discussing his nomination. I am his friend, and am not aware of such discussion. If Tilden were fifteen years younger and of corresponding physical strength, there would be no doubt of his nomination. I don't think the Western States will insist on naming the candidate. The desire for success predominates over every other feeling. Butler, in my opinion, has no chance for the nomination. He is too hard a dose for the Southern States. I see no prospect of a reconciliation between the stalwarts and half-breeds. They hate each other worse than they hate democracy. Blaine's chances are poorer than in 1876 or 1880. Arthur don't desire the re-nomination; he is a gentleman, a good fellow, and has made a better President than any other has done similarly situated. Grant han't the ghost of a chance. Pendleton has no originality nor enterprise."

Dana further said he didn't believe the civil service commission would accomplish anything; that the Irish revolutionist opinions would not influence the election. Secret midnight conspirators have no place in a republic. Concluding, he said American journalism is progressive, and California will undoubtedly be one of the greatest States in the Union.

Three Bad Brothers.

ATCHISON, 21.—The three Barlow brothers, who attacked and robbed the postoffice at Normanville, Josephine County, on Wednesday night, and shot and wounded the wife of the postmaster, were brought here this evening by Major Crowell, of the postal service, and Sheriff N. C. Bailey, of Doniphan County. They will have a hearing before a United States commissioner.

They are tough citizens and started out for a spree and fight. When Normal refused to give them beer they assaulted him and his son, and broke open the postoffice, stole a quantity of money and stamps, and shot Mrs. Normal as she was endeavoring to close the door. After they had left they commenced a fusilade of rocks and pistol shots, which shattered all the glass in the building. After this they went to Everst, where they purchased another revolver, and then started for home, stopping at several houses and compelling the occupants to cook supper. The men are in jail, and Mrs. Normal is said to be dead.

SUNDAY NIGHT'S DISPATCHES.

More Winter.

OMAHA, 22.—One of the severest snow storms of the season struck Wyoming and Nebraska on Saturday, prostrating the telegraph wires in all directions and and blockading railway cuts. The blockade of snow is near Sherman Station, the highest point on the Union Pacific road. The East and West passenger trains are lying at Cheyenne and Laramie City. The trains will move to-morrow. The storm was a blizzard and severe for a time. It extended over the most of Wyoming and Western Nebraska. Cattle losses will be nominal because the snow is passing away rapidly with the wind.

Fatal Accident.

ST. LOUIS, 22.—A Pile-driving car, at work on the bridge crossing a creek near Helena, Ark., on the Iron Mountain Railroad, on Friday evening, fell through the bridge, carrying with it 14 men, four of whom are badly injured, one fatally.

Destroyed.

COLEMAN, 22.—The County Court House, at Coleman City, Texas, was broken into on Friday night and all criminal indictments destroyed, and district and county records for several terms carried away. There is no clue to the perpetrators of the outrage.

Storms and Floods.

CHATTANOOGA, 22. — A terrible storm swept over the city to-day. Considerable damage was done.

Chicago, 22.—A stiff wind from the northeast has been blowing most of the time during the past 28 hours. Lake Michigan is very rough and vessels coming in are more or less damaged. It is feared that some are driven on the west shore.

In the storm last night the schooner *Eveline Fales*, loaded with lumber, dropped anchor up the lake several miles from shore. She dragged her anchor till 4 o'clock this morning, when the captain slipped a cable and headed for the beach. The vessel ran aground above Evanston. She was totally wrecked. The crew of five men and one woman were rescued by a life saving crew.

Winnepeg, Manitoba, 22.—Red River has now risen 18 feet, and still rising. The water is up to the middle span of the bridge. Should the ice not break up, dynamite will be used to break the jam.

At Grand Forks the river is rising slowly, but is not yet over the banks. Heavy rains have swollen the small streams emptying into the river, and it is expected to cause the submersion of the lowlands.

The James River, at Jamestown, is high, and that part of the country between Steele and Barmarch is under water. Trains are delayed, and the Northern Pacific tracks are washed out in places. There were heavy rains in Minnesota and Dakota all day on Saturday and Sunday.

They Advocate Dynamite.

CHICAGO, 22.—The Old Guard of the Fenian Brotherhood, and four lodges of the Land League, to-day appointed delegates to the Irish National Convention at Philadelphia. The Fenian delegates were instructed to advocate the dynamite policy. The Land League delegates were uninstructed, but those appointed are said to favor force.

Disappeared.

Wm. L. Church, the out-going comptroller of Hyde Park is short $7,700 in his accounts. He has disappeared.

Drowned.

ROCHESTER, Mass., 22.—The persons drowned on Saturday in Meadow Pond were Ella Rounville, aged 19; Minnie Phillips, 23. Two girls and a boy, children of C. H. F. Church. The party were playing and the boat capsised.

Thought it was Not Loaded.

NASHVILLE, 22.—Near Murfreesboro to-day, A. Ransom shot and instantly killed his cousin, Wm. Ransom, deputy sheriff, in a quarrel over a game of cards, and instantly left on his horse. The parties had been shooting at a mark and Wm. claims that he thought all the barrels were empty and aimed merely to snap at his cousin.

Desperate Attack Upon a Circus by an Infuriated Mob.

WILMINGTON, Del., 22.—A special from Dover states that O'Brien's Circus was attacked on Saturday, by a mob. After the evening performance they fired on the wagons on their way to the depot, accompanied by a guard of showmen. Eight or ten of the employes were shot, some seriously. Charles Henderson, one of the proprietors was shot in the eye and head, and one of the drivers shot from a wagon. A portion of the wounded were taken to the office of Dr. Wilson and their injuries attended to; others were carried to the cars. A committee of citizens requested the Sheriff to restore order and call out the military if necessary to suppress the outbreak. He summoned a posse and waited upon the proprietor of the show and tendered his services. Under his protection the remainder of the wagons proceeded from the show grounds to the depot without being molested. All the wagons were loaded by three o'clock this morning.

A special train started for Cambridge, Maryland, with physicians in charge of the wounded. No arrests have yet been made. Several private residences and places of business were riddled with bullets. Breech-loading guns and revolvers were the weapons used by the mob, who were dissatisfied with the show.

A dispatch from Cambridge, where the show exhibits to-morrow, states that there is no hope of the recovery of Henderson. The names of the other wounded men, or the extent of their injuries has not been ascertained.

President Arthur.

WASHINGTON, 22.—The President arrived at 9.30 p. m., accompanied by his friend Mr. Miller of New York, Secretary Chandler and Private Secretary Phillips. He was met at the depot by Secretary Frelinghuysen, Attorney General Brewster and Secretary Bruden, Allen Arthur and a couple of hundred other persons. The President was one of the first of the party to alight from the train, and as he stepped down his sun-browned ruddy face was the picture of health.

Advancing Wages.

PHILADELPHIA, 22.—The Campbell Manufacturing Company offer the striking weavers five per cent. advance.

The cigar manufacturing firms have voluntarily advanced wages to one dollar.

Dynamite and Universal Peace Associations.

It is stated that in all probability Prest. Mooney would suppress all reference to dynamite projects in the approaching Irish Convention, as the strict interpretation of the rules of the League forbids discussion of such matters.

The Universal Union and Pennsylvania Peace Society will send delegates to the Irish National Convention, to be held upon the conclusion of the session of the Land League.

FOREIGN.

SUNDAY NIGHT'S DISPATCHES.

More Dynamite.

LONDON, 22.—An explosion occurred to-day at the government manufactory of small arms at Enfield. A quantity of burning tow and pieces of a tin box were afterwards found among the debris.

A passer by saw two men decamping with a box just before the explosion. Little damage was done.

Madrid, 22.—An explosion occurred in the dynamite factory at Lopentucca, Leon, to-day. The bodies of seven victims were recovered. It is feared that more were killed.

Executed.

St. Petersburg, 23.—The Nihilist Boganovitch was hanged, the other, Boutsevitch, was shot.

Extradition.

Paris, 22.—It is reported that the British ambassador was instructed to ask the French government for the extradition of two Irishmen suspected of complicity in the dynamite conspiracy.

Fire in Liverpool.

Liverpool, 22.—The warehouse of Sir Edward Bates and ship chandlery of Garlock, Bibby & Co., of Liverpool, were destroyed by fire last night. The loss is over £100,000.

Remanded.

Cork, 22.—The cases of Carmody, Morgan, O'Herlihy and Weatherstone, arrested on the charge of being engaged in the dynamite conspiracy, were remanded until Tuesday.

The 27th of May.

St. Petersburg, 22.—The Emperor and Empress will reach Moscow on the 21st of May, coronation on the 27th. The festivities include eight grand balls and they will be prolonged until the 8th of June. The state entry into St. Petersburg will be made on the 10th of that month.

BRIEF TELEGRAMS.

Savannah, Ga., 21.—The President and party left this afternoon, by rail, for Washington.

San Francisco, 21.—Colonel Jack Hayes, of Mexican war fame, died at Oakland this evening.

Kansas City, 21.—A benefit for the Actors' Fund was given this afternoon by Thos. W. Keene and his company. It realized $410

Quebec, Canada, 21. It is understood the Quebec Central Railway will lose $250,000 by the failure of its London agents, Cooper, Hall & Co.

Ashland, Pa., 21.—Potts Colliery Company is about to make a determined effort to extinguish the fires burning now several years, and extending in the workings.
