### AMERICAN.

LAYING THE CORNER STONE FOR THE BARTHOLDI STATUE.

THE CATTLE PLAGUE SPREADING IN SEVERAL STATES AND TERRITORIES.

INDEPENDENTS ADDRESSED BY CARL SCHURZ.

TRYING TO ADJUST RAILROAD RATES.

THE CATALOGUE OF CRIME AND DISASTER.

**The Statue of Liberty.**

NEW YORK, 5.—The storm to-day interfered very much with carrying out the programme arranged for laying the corner stone of the pedestal of the Bartholdi Statue of Liberty at Bedloe's Island. About 500 people were present, and these for the most part were officials identified with the ceremony, the Masonic fraternity and invited guests. All stood for three hours during a drenching rain while the programme of exercises was being observed. If it it had been a good day doubtless ten thousand, on Bedloe's Island, each paying fifty cents admission would have been there. The guests were met on their arrival at Bedloe's Island by 100 men from the Fifth Artillery, U. S. A., and a corps of policemen. The Governor's Island band played several national airs, including "Marseillaise." Comptroller Grant was the only member of the New York government present. At the appointed time the stone was laid by the Most Worshipful Master of the Grand Lodge of the State of New York, and immediately twenty-one guns were fired from old Fort Wood, and the band played "Praise God from Whom all Blessings Flow." Deputy Grand Master Lawrence said: "Never since the building of the temple of Solomon have the Masons participated in a work more exalted than this." Hail Columbia followed, and with this the Marseillaise again was introduced. Albert Le Fairre, Minister in charge of the French Consulate, said: "In a few weeks the Statue of Liberty, transported by a French ship of war, would arrive in this country, and be erected upon this spot. The traveler arriving from Europe would behold it, and to all it would be a type of the protecting influence of a free nation. The American government never suspended the reign of law? it never resorted to proscriptive measures, and after the conclusion of the great struggle, it entrusted to liberty the last healing of the wounds made by the war."

William Allen Butler then delivered the oration and was frequently interrupted by applause. The exercises closed with a benediction by Rt. Rev. Bishop Henry C. Patton.

On arriving again in the city the musicians halted before the French Consulate and played the French national air, the compliment being acknowledged by Le Fairre in person, and by dipping the French flags. The company then proceeded to Washington building, upon the site of Washington headquarters, and partook of the hospitalities of Mr. Cyrus W. Field.

**Cattle Fever.**

TOPEKA, Kan., 5.—Texas fever has appeared among the cattle of the Ellis company. Apprehension is felt that it will spread unless vigorous means are taken to suppress it. Governor Glick has ordered the cattle quarantined at once, and directed the State Veterinary to go there and investigate the matter immediately.

Advices from Hays City and Ellis, in Ellis County, and Brookville, in Saline County, state the Texas fever is among the cattle in that section. At Brookville 100 are infected and eight have died. At Ellis 12 are down with the disease. Twelve miles south of Ellis 34 are sick and 15 have died. A temporary quarantine has been established and is being rigidly enforced.

Springfield, 5.—Dr. Paaren, State Veterinary, has submitted to the Governor his report in relation to the recent appearance of Texas or splenic fever at Chicago. Post mortem examinations held upon three of the diseased animals showed traces of splenic fever. Paaren suggests that infected States and Territories, Southwest Virginia, North Carolina, South Carolina, Georgia, Alabama, Florida and Mississippi, Louisiana, a great part of Texas, Arkansas, Indian Territory and Southeast Tennessee, including Kansas and Missouri, be subjected to schedule by proclamation from now until the first of September this year. All railroads and transportation companies should be enjoined from bringing into this State any cattle from the schedule districts, unless the shipment is accompanied by a clean bill of health, and have not come from infected districts of the country within sixty days prior to shipment.

Helena, 5.—The Governor has been notified by Secretary Zurgis of the Wyoming Stock Association, that cattle from the southern ranges of Texas and infected with Texas fever are in Wyoming on the way to Montana. The Secretary says that the native cattle along the trails followed by the northward moving herds, have in a number of cases taken the disease.

**Independents.**

NEW YORK, 5.—The Brooklyn Independent Republicans held a mass meeting to-night in that city. Every seat in the Music Hall was filled, from the orchestra to the cock loft, and many were unable to gain entrance. A large portion of the audience were democrats and there were many Blaine republicans present. W. R. Maxwell called the meeting to order and introduced H. E. Deming as chairman. Mr. Deming is the chairman of the Young Men's Democratic Club of Brooklyn. Deming in his speech said such an immense assemblage was an indication of the wide spread dissatisfaction of the republicans and their desire as American citizens for good government. Because they believed that the republican candidate was not a fit person to hold the office of President, they were opposed to his election. (Cheers and hisses.) Deming was frequently interrupted by similar demonstrations when the names of the candidates were mentioned, and before he finished the uproar was so great that he could not be heard.

Carl Schurz was then introduced. He said he wished to address himself to the republicans, and appealed to their reason as men who loved their country. Tariff was not the question that they were to meet, and the charge that they were free traders was false. The question was whether an honest government could be obtained. Would not the endorsement of such a man as Blaine be dangerous to good government? It had been attributed to Blaine that he was an abused man, and that his enemies were persecuting him. If this were so it was not right. Nothing was so distasteful to him (Schurz) as to discuss the character of any man, but he should not make any charges against Blaine which had not been made against himself. Mr. Schurz then read some of the Mulligan letters, and remarked that Blaine's friends disliked very much to be brought face to face with the letters. (Cheers and hisses.) Schurz went into the history of the Mulligan letters, the audience at times becoming so demonstrative that he was obliged to stop speaking for several minutes. In conclusion, Mr. Schurz spoke in eulogistic terms of the character of Governor Cleveland, and said he was in every way worthy of support.

**The Railroads.**

CHICAGO, 5.—The managing officials of all the railroad lines interested in trans-Missouri business began assembling here this morning and held a secret session at 11 o'clock.

The Union Pacific representatives will not arrive until afternoon, and consequently nothing definite can be accomplished pending their arrival. It is not expected under the most favorable conditions that any result can be achieved within two or three days, owing to the peculiarly complicated nature of the questions to be settled. The first matter to be brought up for settlement is that of Colorado rates, which have been disturbed ever since the formation of the combination between the Union Pacific and Omaha roads, to the exclusion of the Burlington, until within one week ago, when they were temporarily restored to await the action of the present conference. For the proper maintenance of Colorado rates it is contended by some managers that a pool will necessarily be formed, which will include all the Iowa lines touching at Omaha, and the Union Pacific, and all the Southwestern lines. It is claimed, however, that so long as what is known as the tripartite agreement, between the Union Pacific and its Omaha connections, remains in force, the antagonized roads cannot be brought into the pool covering Colorado and other trans-Missouri business, owing to the fact that under the tripartite agreement the eastern connection of the Union Pacific hold arbitrary power in the making of through western rates. Officials in attendance, however, declare that the result aimed at is not merely the maintenance of rates. Upon all competitive western business, rates can be satisfactorily arranged without antagonizing any present pool, and that the temper of all the roads is now to achieve that result. The preliminary conference lasted until 12:30, when adjournment was taken until 3:30 to await the arrival of the Union Pacific representatives. No action was taken.

**Unsafe.**

WASHINGTON, 5.—The coroner's jury brought in a verdict in which they say: "From the evidence, we believe the building has been unsafe for a long time, and its condition was well known to both the owners and lessees, and they, particularly the owners, should be held responsible, and to that end we respectfully call the attention of the District Attorney to the matter, for such legal proceedings as the case demands." The owners of the building are Judge Cox, of the Supreme Court of the district, and the Follansbee family.

**Crimes and Execution.**

SAN FRANCISCO, 5.—The strangler Hutchins will be hanged September 12th.

Bradfordville, Ky., 5.—While two negroes were quarreling yesterday over the election, a third named Burr Dean came out of a store, drew a pistol and commenced firing into the crowd. The firing then became general, and 50 or 60 shots were exchanged in two minutes. Dean received four bullets, and it is supposed he is mortally wounded. A white man named Frank Bean was slightly wounded, and two negroes, names not learned, were also wounded, and a horse was killed.

Two miles above Bradfordville, John Burchell and his son Jim waylaid and attacked James Rakes and his son Tom. John Burchell struck James Rakes on the head with a stone, knocking him down. Jim Burchell then drew a pistol and shot Jim Rakes through the head as he lay upon the ground, killing him. He also shot Tom Rakes, inflicting a bad wound in the thigh. John Burchell married James Baker's sister, and a feud of several years' standing has existed between the families. The Burchells were not arrested. The officers are looking for them.

Helena, Mont., 5.—Advices from Cottonwood, Aug. 3d: A courier has just arrived from near the mouth of the Musselshell, and reports that Granville Stuart's cowboys have a large band of horse thieves surrounded. The band is too strong to be taken, but can be held till help arrives. Reinforcements left Cottonwood on Sunday. Hot times are expected.

Denver, 5.—It is stated on good authority that Frank Everet, the Golden banker who suicided about three weeks ago, was short in his accounts with the depositors to a large amount, approximating $100,000. Everet carried a $50,000 life insurance.

**Fire and Disaster.**

SAN FRANCISCO, 5.—At East Portland, Oregon, a fire to-day destroyed twenty-nine business buildings; estimated loss, $75,000; insurance, $30,000. The heavest loser is Charles Logus, on a building and contents, a meat packing house; loss, $25,000; insurance, $7,000. Other individuals are under $5,000. The insurance will be settled.

A fire this morning destroyed the building and contents occupied by the Schmidt Label and Lithographic Co. and Totum & Bowen. Loss estimated at $500,000.

Philadelphia, 5.—At the Pennsylvania Railroad office in this city to-day it was stated the loss by last night's fire at the Ferry House, Jersey City, was estimated at $100,000. It will cause no delay to traffic.

Charlotte, N. C., 4.—On the Ducktown branch of the Western North Carolina Railroad yesterday, a working train climbing the mountain broke from the engine and ran back at a terrific rate. All hands jumped off except conductor Wynn, who tried to apply the brakes. The train ran on to the trestle, knocking it down and causing a complete wreck. Conductor Wynn went down among the timbers, and was badly crushed. He died shortly afterward.

### FOREIGN.

THE WAR THAT FOR A SPACE DID FAIL.

COURSE OF THE CHOLERA IN EUROPE.

THE GROWING STRENGTH OF EL MAHDI.

BRITISH EXPEDITION TO THE SOUDAN.

DYNAMITE AND FIRE.

**The France-Chinese War.**

LONDON, 5.—Marquis Tseng had a conference with Earl Granville to-day, and asked him to join the European mediation in the troubles between France and China, but Earl Granville refused, and ordered increased precautions to be taken to guard English residents in Canton, Foo Chow and Shanghai.

The *Standard* says: We are in a position to state that negotiations between France and China were definitely broken off Sunday.

The *Times* publishes a dispatch from Foo Chow which says: Foo Chow is quieter. China offered to pay an indemnity of 500,000 taels, about $700,000, which Palenotone, French Minister, refused. It is believed that Chinese gunboats will be placed in position at Foo Chow. The French Admiral, Courtrel, is in a furious state of mind, and has done his utmost to provoke war.

Paris, 5.—It is reported Ferry has sent his final ultimatum to Pekin.

Foo Chow, 5.—Business here is entirely suspended. The inhabitants are flying to the interior. The foreigners are alarmed as the natives are becoming aggressive. The American officials at this port are assisting the British Admiral to the utmost for the protection of foreigners.

Brest, 5.—Three transports have embarked troops and stores here for Tonquin.

**Ning Cholera.**

GENEVA, 5.—One case of cholera here.

Rome, 5.—One death from cholera occured in each of the following named Italian towns: Ossasio, Villa Franca, Cairo, Montinotte, Sebargo, Sessero and Campagnalsis. A fresh case also occured in the province of Turin.

Paris, 5.—The newspapers now speak of the cholera in a past tense. The English and American bankers and courier's agencies are unanimous in the expression of the opinion that confidence is returning, and that there will be a marked increase of tourists.

The official records show that since the outbreak of cholera in the south of France 2,200 have died from the disease.

Marseilles, 5.—As many as 5,000 people who fled have returned home.

It now transpires that there were a number of cases of cholera in the hospital here in 1883, many of which were fatal. The fact, however, was suppressed in order to prevent alarm. The attendants were sworn to secrecy. Three deaths here, two at Toulon last night.

One death from cholera here between nine o'clock and noon to-day.

Ten deaths here from cholera during the 24 hours ending at 9 o'clock to-night.

Toulon, 5.—There has been only one death from cholera to-day. The last of these deaths have been among the returned fugitives. The record has been at the Recontre Hospital: Admitted, 1; cured, 2; deaths, none; under treatment, 25. Record at St. Mundrier Hospital: Admitted, 2; cured, 7; deaths, 11; under treatment, 73. There were three deaths from typhoid fever and two from cholera to-day at Losyne.

**Dynamite.**

LONDON, 5.—Three packages of dynamite wrapped in the *Irishman* newspaper were found in a letter box at the Nottingham postoffice, Sunday night. They contained a pound of dynamite, and fuse with cap attached. It is supposed it was intended to explode by fall, or when stamped. The dynamite was sufficient to wreck the building.

**Palace on Fire.**

ATHENS, 5.—This evening the Royal Palace is on fire and half the upper story is already destroyed. Several firemen and sailors were injured fighting the flames.

**El Mahdi and the Soudan.**

LONDON, 5.—Gladstone in moving the credit for £300,000 to provide for the expedition to the Soudan, said the purpose of the expedition was merely to relieve General Gordon and not to crush Mahdi. It would be sufficient to secure good government in Soudan. The evacuation of that country was now the question. England was bound to protect General Gordon. Gladstone intimated he was asking the members to vote rather on the principle involved than on the exact figures which he anticipated the expedition would cost. His intention was to obtain the authority to redeem the pledges which had already been made. He was undesirable to enter into details at present. Labouchere, Radical, objected to the vote now asked for. He believed it was a mere sop. Next year the House would be asked to vote £3,000,000 to carry on the work.

A credit of £300,000 for the Soudan expedition passed the Commons, 174 to 140.

Cario, 5.—El Mahdi has ordered a force of 50,000 men from th Bogars and Shillok tribes to reinforce Osman Digna. The Bisharreens have decided in favor of El Mahdi. Kassala is very closely blockaded.

### BRIEF TELEGRAMS.

WASHINGTON, 5.—The Department of State has received a dispatch from Foote, U. S. Minister at Seoul, announcing the arrival at Incnman of the U. S. steamer *Trenton*, having on board the returning members of the Corean Embassy from the United States.

The total value of the exports of domestic cattle, hogs and beef, pork and dairy products, for the six month ending June 30th, was $43,837,419, against $54,357,704 for the same period last year.

The number of immigrants arrived for the year ending June 30th was 509,834, being 82,490 less than the preceding fiscal year, and 209,586 less than the year ended June 30th, 1882.

Mexico, 5.—The legislature of Yucatan has petitioned the preisdent for the payment of the amounts due the railways of the State, and for relief from federal duties on grain from the United States on account of the deplorable consequences of the grasshopper plague.

The receipts from customs at Vera Cruz for July were $741,000, a decrease of $320,000 as compared with those for the corresponding month of last year. The July bank statement also shows an unfavorable condition of business.

The report telegraphed from Monterey that Gen. Diaz had been in an altercation with Gen. Rocha, is entirely without foundation.

Boston, 5.—The Atchison, Topeka & Santa Fe railroad directors held a protracted meeting to-day, but little could be learned of the business done. It is understood the question of perfecting a transcontinental line by way of the Atlantic & Pacific and the Northern Pacific railroads was the main topic considered.

Galveston, 5.—Captain McMurray, with a company of State rangers, returned this evening from pursuing the renegade Apaches. He reports the Indians are doing no further depredations than usual, killing enough beef to live on. They scattered on the approach of the troops. They evinced no signs of being on the warpath.

Portsmouth, N. H., 5.—The *Bear*, *Thetis* and *Alert* left for New York this morning. The Greely relief fleet was saluted by the men-of-war in the harbor as they weighed anchor and steamed away.

San Francisco, 5.—A largely attended and cordial reception was tendered this evening to Bishop Fowler, at the Howard Street Methodist Episcopal Church, lately appointed in New York to take charge of the diocese here.

Philadelphia, 5.—J. I. Case has arranged to trot Jay-Eye-See against the 2.09¾ record of Maud S., and Phallas against his own record of 2.18¼, at Belmont Park in this city, Friday, Aug. 15th.

### CHOLERA AND COWARDICK.

PANICS AND THEIR DEADLY RESULTS IN EPIDEMICS.

It is a most deplorable proof of the weakness of human nature that it is at all times prone to fall into a state of panic when brought face to face with the inevitable. We must all die, and we are not ignorant of this our destiny. Nevertheless, the instant a danger to life is recognized, we fly from the peril with the impetuous haste of crazy and cowardly creatures, forgetful alike of duty and decency. It is vain to argue in favor of self-possession. Philosophy has no charm for or power over the man who impulsively turns his back to the enemy. Nothing we could urge would have the slightest weight with the multitude bent on escaping from the ports and cities which are just now supposed to be rife with the infection of cholera.

These flying crowds, on safety all intent, must be left to their own devices. It is manifest that they will spread the malady, and it is scarcely less certain that they will, many at least, lose their lives in trying to save them. With regard to these matters, however, it is useless to speak. Suffice it to point out that, although in the presence of an epidemic of cholera, there is always and unquestionably some personal peril of contracting the disease, it is by no means certain that this is increased by remaining in association with the sick, or that the danger is to be avoided by running away. During severe epidemics it has been noticeable that the mortality has not been by any means greatest in the very centre, so to say, of the disease.

In the hospitals and among the cholera patients scattered throughout the population medical officers and nurses have gone about doing their duty with an greater moral courage than that of those who have kept aloof. Indeed, it is probable that a certain amount of immunity from disease has been enjoyed by those who have not feared the danger of infection. The great secret of success in warding of disease is the preservation of health. We mean that if, heedless of danger, men and women do their duty to those around them—keeping up a cheerful temper and a trusty spirit, neither abusing the good things of life nor avoiding them; in short, living as all should live, whether in the midst of a healthy population or in the presence of an epidemic — they have a far better chance of escaping disease than by falling into a state of panic and "hastening to leave." The true policy is to kill the germ of disease on the spot, whether they be in the water or in the air. 'Every particle of the dejecta should be destroyed—not simply deodorized, but destroyed by a powerful agent capable of burning up organic material. This should be done at once and instantly on the spot, not merely with choleric, but with every patient who may have diarrahea, whether specific or simple. If this be done, and the general sanitary conditions and the average health of the community be looked to, there is no peril that need scare any one out of his or her sober senses in an epidemic of cholera either on the Continent or at home.—*London Lancet*.

**HAIR RENEWER**

was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalleled success can be attributed to but one cause: *the entire fulfillment of its promises.*

The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction.

The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic preparations, but remain a long time, which makes its use a matter of economy.

Will change the beard to a natural brown, or black, as desired. It produces a permanent color that will not wash away. Consisting of a single preparation, it is applied without trouble.

PREPARED BY

**R. P. HALL & CO., Nashua, N. H.**

Sold by all Dealers in Medicines.

FOR ALL THE FORMS OF Scrofulous, Mercurial, and Blood Disorders, the best remedy, because the purifying and strengthening principles it contains are derived from the most effective vegetable alteratives and tonics.

**Ayer's Sarsaparilla.**

Sold by all Druggists; $1, six bottles, $5.

HOTELS.

**THE SPENCER HOUSE.**

C. V. SPENCER, Proprietor.

Post Office Block, 1st East between 2d and 3d South, Nos. 261 and 263.

THIS HOUSE IS IN MANY RESPECTS the most convenient and pleasant resort for transient visitors and tourists that is afforded in Salt Lake City. The grounds are the largest of any of the hotel grounds. Its extensive lawns and number and variety of its beautiful shades are not equalled by any other house. The proprietor has spared no pains to make it in every respect superior as a family Hotel, to anything yet opened to the public.

Prices are reasonable and graded to suit the wants of customers. d676f

**OVERLAND HOUSE**

Three doors South of Walker House,

Main Street, Salt Lake City, Utah.

Better accommodation at Less Rates than any other Second Class House in the City

TERMS:
