

OKU AND KUROKI HAVE JOINED FORCES

Are Attacking the Russians from
The Direction of Va-
fangow.

DECISIVE BATTLE EXPECTED.

Kuropatkin Seems Unable to Reform
His Plans Which Have Been
Upset.

Liao Yang, June 24.—It is reported that Gens. Oku and Kuroki have joined forces and are attacking from the direction of Vafangow.

There is talk of a serious engagement shortly. It is also rumored that the Japanese forces which were recently advancing in this direction have fallen back on Feng Wang Cheng.

The state of tension existing may be illustrated by the fact that the value of the rouble fell mysteriously at the Russo-Chinese bank. At first this was thought to be the effect of the result of the battle of Vafangow but it was discovered later that Chinese from Port Arthur had declared that the fortress had been evacuated and that the troops had sailed off on a number of British ships.

The value of the rouble has now returned to the normal.

It is reported from Yinkow that they are recruiting a number of Chinese bandits and are paying them good wages.

DECISIVE BATTLE EXPECTED.

Berlin, June 24.—Gen. Gadeke, correspondent of the Tageblatt in the far east, telegraphing from the Russian headquarters says that on June 22 the Japanese occupied Kai Chai and that a decisive battle of the united armies of Gen. Oku and Gen. Kuroki with the Russian main army is expected shortly.

RUSSIAN PLANS UPSET.

Newchwang, June 24, 10 p. m.—(Via Messenger to Koupantze). The Russians seem unable to reform their plans which have been upset by Gen. Kuroki and are losing interest and heart in the struggle. The local censor is not passing any communications. The secret police are extra diligent and it is extremely hazardous to attempt to send out uncensored dispatches.

Newchwang is filled with rumors of more fighting to the southward. The reports come from native sources. A few Russian officers who talk guardedly say the rumors are untrue but that Gen. Kuropatkin intends to make a determined stand at Kaichow, where many mines have been laid and trenches constructed.

The field telegraph between Kaichow and Newchwang which was finished Wednesday was cut in three places last night and five miles of wire carried away. It is supposed to have been the work of Chinese in the pay of the Japanese. This is regarded as evidence that the Russians cannot hope for the friendship of the Manchurians.

Large bands of robbers are giving the Russian outposts much trouble northeast of Newchwang. The Japanese, it is said, have supplied the robbers with 1,000 modern rifles and much ammunition.

French correspondents from Mukden report that the Japanese up to last Monday had made no demonstrations near Liao Yang. These correspondents are now with the Russian forces south of here, but American and British correspondents are not permitted to see the fighting.

Nicoroy Alexieff has issued a proclamation to the effect that all traffic on the Liao river south of Mukden must stop and that food stuffs must be delivered to the Russians. According to native reports the Japanese are losing thousands of horses from glanders.

Foreign military attaches who witnessed the fighting at Feng Wang Cheng, declare that the Japanese artillery is superior to that of the Russian army is equal to the best of European troops.

The order of the American postal department, issued early in May, to send mail for Manchuria to New York and thence through Europe has caused uneasiness among firms and individuals as the Russian mail route is considered wholly unsafe. If the Japanese should cut the line of communication south of Mukden it would result in the stoppage of all American mail.

There are 800 wounded at the Russian camp three miles east of Newchwang. A few surgeons and members of the Red Cross arrived this afternoon. Many more are needed. The local physicians are offering assistance but the Russians decline to receive their aid.

FILES \$96,000,000 SUIT.

THOMAS W. LAWSON IN HIS STATE OFFICE AT WORK.

The picturesque Bostonian has done nothing more startling or interesting than his recent suit against the "Standard Oil Crowd" for \$96,000,000. Mr. Lawson recently retired from the firm of Lawson, Arnold & Co. and gave up all stock exchange connections that he might have a free hand to fight his various suits in regard to Amalgamated Copper.

WANTS \$95,000,000 NAVY.

Admiral Hinginson believes that the Russo-Japanese war is proving beyond doubt the wisdom of an immense navy. The admiral is directing every energy toward a great American armament.

Dover will accompany Mrs. M. A. Hanna to New York, and on Monday will join Mr. Cortelyou in Washington. It is regarded as certain that Harry S. New, national committeeman from Indiana, and Secy. Dover, will be in charge of Chicago headquarters, and that Chairman Cortelyou will devote much of his time to the New York branch.

Mr. Cortelyou said today that he would not appoint his executive committee of nine for two weeks, and he would not talk politics for publication until after July 1, when it is expected he will be relieved of his duties as secretary of the department of labor and commerce.

Hargis Men Are Surrounded by
Cockrill Factionists.

Jackson, Ky., June 24.—Sheriff Callahan and several men connected with the Hargis feudists are surrounded by a number of the Cockrill factionists in the mountains near Jackson and are fighting for their lives. It is reported that two of the sheriff's men have been mortally wounded. When the fight began, Callahan, with Capt. Miliken of Wilmore and a band of men with two bloodhounds, was in pursuit of the two men who, it is believed, shot and killed a man while he was hoeing corn on his farm yesterday.

FRANCE WILL DEMAND REDRESS

Officially Announced That a War-
ship Will Be Sent to
Hayti.

WILL MAKE A DEMONSTRATION

The Semi-Official Temps Says Haytian
Government Must Combat Anti-
Foreign Sentiment.

Paris, June 24.—Following a meeting of the council of the ministers today it was officially announced that the government intended to send a warship to Hayti to demand redress of the insult of Minister Deprez who was stoned by the palace guards on Wednesday. This decision followed Foreign Minister Delcasse's relation of the circumstances of the assault to the council.

The details are identical with those contained in the Associated Press dispatch from Port au Prince yesterday. However, the officials do not attach undue seriousness to the affair. Germany has shown a purpose of acting energetically. The nature of the redress which the warship will demand is as yet undecided. The question of asking for an indemnity has been considered but it has not been decided whether this will be required in addition to a most ample apology. One of the ships of the French squadron in West Indian waters will be designated to make the demonstration.

The semi-official Temps this afternoon printed a leading article on the necessity of putting an end to the repeated incidents in Central and South America similar to the stoning of Minister Deprez. The paper says: "It is indispensable that the Haytian government adopt decisive measures to combat the anti-foreign sentiment in Hayti, punish those guilty of the present offense and make the most ample apology and other suitable redress for the outrage."

The Haytian legation seeks to minimize the affair which it attributes to a few disorderly soldiers.

The German ambassador has not yet been informed of the stoning of the minister of that country.

Russian View of Roosevelt.

St. Petersburg, June 25, 7:25 a. m.—The Novoye Vremya, the only paper which comments on the nomination of Mr. Roosevelt, says that Russia must recognize that his foreign policy has always been open and correct. "He has certainly paid his debt to the present fashionable imperialism," says the paper. "But there are some debts of imperialism which are imposed of necessity on states by their industrial development and so long as this imperialism does not open channels of peaceful economic evolution, Russia's attitude must continue to be of the friendliest."

Chill's 1905 Budget.

New York, June 25.—The budget for 1905 contains appropriations of \$4,650,000 for the extension of the foreign debt, says a Herald dispatch from Valparaiso, Chile.

The president has asked congress to postpone the laws for the redemption of paper currency until July, 1907, and to provide for the emission after that date of \$5,000,000 of gold coins.

The conversion was to have been carried out next January, but the postponement is asked for by the president because of the unpreparedness of the country and because a certain amount of the conversion fund was used for urgent expenses when the country was in grave danger of war.

Meet in St. Louis.

Cripple Creek, June 25.—Secy. Arthur Francis of the Transmississippi Commercial congress has issued the call for the annual convention to be held in St. Louis Sept. 10-17. The National Irrigation congress is scheduled for El Paso, Tex., but the El Paso people are being asked to permit the change.

Among the speakers at the commercial congress will be Walter Gresham of Texas, President Francis of the St. Louis exposition, and Charles J. Bonaparte.

A MYSTERIOUS ATTACK.

tion Assaulted.

Allen, who, as attorney for the Employers' association, has been instrumental in securing injunctions against a number of labor unions, has been the victim of a mysterious attack as he was leaving the building, in which his office is located. He was struck down by two men who approached him from behind, the blows inflicting severe scalp wounds, and making him unconscious.

The police have been unable to find any witness to the assault, and the only statement that he dashed attorney could make was that he was set upon from behind by two men whose faces he was unable to see.

SCROFULA

Swollen glands, tumors, whiteswelling, sores, pustular or scaly skin eruptions, flabby muscles, brittle bones, weak digestion, emaciated, flabby-nourished bodies, are some of the well-known earmarks of Scrofula. Scrofula is inherited. Parents too closely related by the ties of blood, or tainted with consumption or blood poison, may look for signs of Scrofula in their children. The middle-aged often have it, but children are the chief sufferers. Scrofula breaks down the vital forces, and the blood becomes so weak and poor that it does not nourish the body. The remedy in all scrofulous affections must be one that purifies the diseased blood, builds up the weak digestion, increases the appetite and gives new energy and strength to all life's forces. No medicine has won so much fame as a blood purifier as S. S. S., and its tonic effects upon the system are not equaled by any other remedy. It makes the weak, tainted blood rich and strong, and drives out of the circulation all tubercular deposits and morbid matter that cause the glandular swelling, sores, abscesses, tumors and other horrible symptoms that make Scrofula so dreaded and dangerous.
