

MINING, BUSINESS AND STOCKS

MINE VALUABLE,
WANT TO RECOVER

Eastern Shareholders of Old
Chainman Mine at Ely
Bring Suit.

IT WENT TO NEVADA CON.

They Are Now Trying to Have the
Sale Annulled—A Little
History.

The eastern shareholders of the Chainman Mining and Milling company have brought suit to annul and set aside the sale of the property of that corporation at Ely, Nev., to the Nevada Consolidated Copper company. "The Nevada Consolidated bought the property more for the water it carried than for the value in the mine, paying therefor \$100,000," says the White Pine News. "The Chainman property was in litigation at the time, being about to be sold for an attachment in favor of a Salt Lake hardware firm on a judgment for about \$20,000.

"It seems there was great internal strife between the stockholders of the Chainman company as to the price of the sale and presumably on that account they were utterly opposed to dividing the property. The mine had fallen into a state of decay, the underground workings having caved in such a manner as to leave less than 10 per cent of the underground workings accessible. All the stockholders, it appears, were anxious to have the property redeemed from the hardware firm, but only two or three of the stockholders out of the entire number were willing to advance any money to accomplish that end and under these circumstances the syndicate representing the Nevada Consolidated bought the property. The suit was begun in New York and the parties representing the two interests are now engaged in taking depositions to get at the facts of the sale. The Nevada Consolidated is represented by Curtis H. Lindsey, chief counsel for the company, and Atty. Quail, and the dissatisfied Chainman stockholders are represented by G. A. Walker.

Suits Were Dismissed.

In the case of Charles H. Cushing against the Continental Mines & Smelting corporation, Judge Morse yesterday wanted defendant to furnish a bond and dismissed the case. The action was brought to quiet title to the area in conflict between the Matilda claim, owned by plaintiff, and the Harrison, Hamilton, No. 2, Monitor and Hawkeye claims, owned by defendant and located in the Little Cottonwood district.

The case of Antonette B. Kliney et al against the same company was continued indefinitely today, and the case of W. D. Brandt against the same company, involving title to areas in conflict, was dismissed by Judge Morse upon motion of the defense.

ON MINING EXCHANGE.

Victor Con. and Silver Shield Advance—Closing Quotations.

The mining exchange was the scene of much activity again during the forenoon session, with Victor Consolidated and Silver Shield furnishing features. The former opened strong and sold as high as 13 cents on the strength of the announcement carry on a more vigorous campaign of development. New York interests are said to be after Silver Shield, which advanced to 22 cents on the open board call. Victor continued steady, while May Day held up to yesterday's quotations. Yankee Consolidated stiffened, sales being recorded as high as 64 cents.

The closing quotations and sales were:

MINING DEEDS FILED.

Property of the Late Allen G. Campbell is Transferred.

Special Correspondence.

Provo, Oct. 15.—A deed from Chas. R. R. Campbell, son of Allen G. Campbell, deceased, of Riverside county, California, to Eleanor Campbell O'Kelly, Allen George Campbell, Byron Cullen Campbell and Caroline Nell Campbell, of Riverside county, California, has been filed with the county recorder. The deed conveys, for a consideration of \$4,000, to the grantees, all the right, title and interest of the grantor in the estate of Allen G. Campbell, deceased, except in the following mining claims: One-half interest in the Clemente and Clemente No. 2, two-thirds interest in the Dan McNamara, Washington, Little Butte, Brockton, New Century and Campbell, all in San Bernardino county, California.

The following mining deeds have been filed with the county recorder: A Harvey and Jacob Nelson of Pleasant Grove, to Axel Johnson of Pleasant Grove, a one-twelfth undivided interest in the Pride of the West, and Pride of the West Nos. 2 and 3, in Silver Lake mining district; consideration, \$200.

Jacob Nelson and Axel Johnson to Nels P. Poulsen, all of Pleasant Grove, an undivided one-third interest in the Oregon mining claim in Alpine mining district; consideration, \$1,000.

REPORT WAS PREMATURE.

Walker Lake Reservation Will Not be Opened This Month.

The report which gained considerable currency in Nevada recently to the effect that the Walker River Indian reservation would be thrown open to the public on the 29th inst., is erroneous. It is likely that the reservation will not be opened to prospectors and made subject to mineral locations until December or possibly later.

DEVIL'S ISLAND TORTURE.

Napier, of Rogers, Ky. Heals all wounds Burns and Sores like magic. 25c at C. C. M. Drug Dept. 112 and 114 So. Main St. druggists.

MR. GORDON'S
CHINKS OF GOLD

Nevada Mining Man Returns to
Salt Lake With Valuable
Collection.

FROM ROUND MOUNTAIN.

Tells About Nevada Millionaires—
Scenes in Prosperous
Goldfield.

Gold in great chunks—just "slathers" of gold, is what Louis D. Gordon, the wealthy young mining man of Nevada, brought to this city from the west last night.

He simply has the finest collection of gold ore specimens ever seen in Salt Lake and it is doubtful if there ever was a better lot exhibited anywhere else, and Mr. Gordon is prepared to put the wildest Klondiker on the shelf if it should come to a show down. The entire bunch of samples came from the mines of Round Mountain, Nev., of which he is the founder; it is worth intrinsically at the least \$1,000, and Mr. Gordon was offered that much for it cash yesterday by a passenger on the eastbound Overland Limited, but the bid was promptly turned down. It would take a good many thousands of dollars to induce him to part with this rare collection. He especially prizes the lot because this gold came principally from the ground on which he made his first discoveries in Round Mountain and which brought him his first fortune. It is just such stuff as the "high graders" of Goldfield, Round Mountain and other camps have been accused of making out of the rich ore. The expense of their employers and it cannot be wondered at that mine operators of those camps are insisting on maintaining exchange rooms where working underground will be required to make a complete change of clothing each time they go on and off shift.

When asked to say something about conditions in southern Nevada today, Mr. Gordon declared that people who have not been on the ground and seen for themselves cannot begin to realize or appreciate the tremendous wave of prosperity that has swept over that section. It is just like being in New York to walk about the streets of Goldfield at night. Millionaires are as thick as mosquitoes in Plainfield, New Jersey, a little hamlet down east where I had occasion to visit during the past summer. People talk about millions where they used to think only of hundreds. It is simply bewildering to witness the prosperity that has taken place in Goldfield during the past year and particularly during the past few months. The boom is on in Nevada in earnest and I believe it is only just beginning.

Of Round Mountain Mr. Gordon speaks enthusiastically and says mine development there has far exceeded all expectations. The Round Mountain Mining company, which has taken property and making money rapidly; the corporation has over \$50,000 in its treasury at the present time and leasees are working with dry washers on the placer and are realizing big profits from their labors. The Round Mountain Combination is doing little in the way of development at the present time, but other properties are working and the camp as a whole is active.

The town of Gordon is improving and is on the eve of a boom. Several new buildings are going up right away.

Regarding the hold-up of the Manhattan-Round Mountain stage by a lone highwayman last week, Mr. Gordon says the robber did not get away with over \$600; the money to meet the pay roll of the camp having preceded this stage held up by several days. The outlaw succeeded in getting away under cover of darkness, after an exciting chase by a posse organized at Round Mountain.

COLEMAN'S MEXICAN VENTURE.

Former Utah Mining Man Goes Through En Route to Los Angeles.

Robert J. Coleman, formerly manager of the Newhouse mining interests in this state, but now manager of the Lluvia de Oro mine in the San Leandro del Rio district, Chihuahua, Mexico, passed through the city yesterday on his way from the state capital to Los Angeles. Coleman succeeded H. E. Carey as manager of this Mexican mine several months ago and preparations are now well under way for the construction of a large plant for the treatment of a large tonnage of ore.

Development of the mine began seriously three years ago, when it was taken over under the option from Carlos and Coleman to Eleanor Campbell O'Kelly, Allen George Campbell, Byron Cullen Campbell and Caroline Nell Campbell, of Riverside county, California, has been filed with the county recorder. The deed conveys, for a consideration of \$4,000, to the grantees, all the right, title and interest of the grantor in the estate of Allen G. Campbell, deceased, except in the following mining claims: One-half interest in the Clemente and Clemente No. 2, two-thirds interest in the Dan McNamara, Washington, Little Butte, Brockton, New Century and Campbell, all in San Bernardino county, California.

The following mining deeds have been filed with the county recorder: A Harvey and Jacob Nelson of Pleasant Grove, to Axel Johnson of Pleasant Grove, a one-twelfth undivided interest in the Pride of the West, and Pride of the West Nos. 2 and 3, in Silver Lake mining district; consideration, \$200.

Jacob Nelson and Axel Johnson to Nels P. Poulsen, all of Pleasant Grove, an undivided one-third interest in the Oregon mining claim in Alpine mining district; consideration, \$1,000.

WE HAVE ORDERS

For common stock Utah Sugar Co. and stock in Idaho Sugar Co. at prices above those quoted in Saturday's News. If you desire to sell commercial stocks of any kind you will find it to your interest to consult us.

George M. Cannon Company,
Rooms 312-313 Templeton Building.

A Gilt Edge 6% Investment

Is preferred stock of Amalgamated Sugar Company. Why? Because of the well known conservatism of its management, because it is not one dollar dividend on the common stock can be paid until the 6 per cent on the preferred stock is paid, and because the dividends on the preferred stock are cumulative and are paid at the rate of 6 per cent a year in advance each year. We do not recommend this stock as a speculative stock or as one likely to rise in value much above par; but as a safe stock paying quarter dividends at rate of 6 per cent per year, it is unequalled. Call and see us or write for any information you want of any other stock or investment.

George M. Cannon
Rooms 312-313 Templeton Building.

VICTOR CONSOLIDATED.

Another Assessment Levied at Meeting Held Yesterday.

The directors of the Victor Consolidated Mining company met late yesterday afternoon and concluded to inaugurate more vigorous campaign at this corporation's Tintic property. To provide funds for carrying on this campaign an assessment of 1 1/2 cents a share was levied.

Charles P. Ellingwood, who has served the company in the capacity of treasurer and director, tendered his resignation, which was accepted. W. S. McCormick was accordingly elected to succeed Mr. Ellingwood as treasurer and L. L. Terry was named as director.

SMELTING COMPANY SUED.

The United States Smelting company was yesterday made the defendant in a damage suit filed in the Third district court by George Holmberg, in which the latter seeks to recover \$25,830 for damages alleged to have been sustained to the stock and crops belonging to himself and Edwin Decker and Smith Parker from the smoke issuing from the defendant company's smelting plant.

Holmberg claims damages covering a period of four years to his own crops, amounting to \$9,328; Decker's damages are claimed to be \$1,532, and those of Smith Parker to be \$17,470. The claims of Decker and Parker have been assigned to the plaintiff.

PARK CITY SHIPMENTS.

The ore shipments from the mines of Park City last week amounted to a total of 2,808 tons, the mines contributing being: Daly Judge, 737,000; Daly Judge Middlings, 470,000; Silver King, 1,228,000; Daly West, 1,105,000; Little Bell, 43,000; Ontario, 167,000; Johnson & Sons, 1,312,000; 67,000; New York, 20,000; total, 3,808,000.

THE DYER SALE.

Property at Yerington, Nev., Taken up By a Utah Syndicate.

The Times of Yerington, Nev., gives the following account of the sale of the Dyer group of copper claims in that camp to a Utah syndicate:

"Warren Looze, of Bodie, was an arrival here last week Friday to meet his brother-in-law, C. L. Looze, of Salt Lake, who arrived here Monday, in company with M. M. Johnson to consummate the deal for the Dyer group of copper claims in this district. All matters were adjusted Monday, and the money placed in the bank for the owners of the property by the new purchasers. Mr. Johnson is one of the most prominent copper experts in the United States, and he is more than favorably impressed with the property secured and the general outlook for the entire district. Senator Smoot, of Salt Lake, is one of the parties interested in the new deal, and a strong company will be formed, of Salt Lake people mainly, to develop and operate the ground purchased. The Looze Bros. are now starting the construction of an electric power plant on the East Walker River, a few miles this side of Bridgeport, and it is expected that some time next year a power line from this plant will be run into the Dyer camp to furnish the company's property with power at least, and possibly other companies.

"The Dyer property is the one formerly held by the Mason Valley Copper company, and is also composed of Utah people, but it is understood that the only one of this company who will retain an interest in the new company is W. Mont Perry, of Salt Lake City. "It is the intention of the new owners of the ground to resume extensive development work on the Dyer just as soon as their company is formed and a few minor details attended to. The property is a good one and will undoubtedly prove a big producer within the course of a year or two, when more fully developed."

CONCENTRATES.

Tom Gallager, superintendent of the New Stockton mine at Stockton, departed for camp again this morning.

Charles D. Rookledge departed yesterday afternoon for Yerington, Nev., to look after mining interests.

Supt. David Lemmon of the Black Diamond mine at Stockton was in the city last evening.

Mill Supt. Whitmore of the Columbus Consolidated is enjoying a visit from his brother, Dr. E. A. Whitmore, who is here from the east.

W. J. Craig has returned from a trip to the La Platte, Nev. district, where he went to examine property recently called to his attention.

The Cedar Mining company, which made some sensational disclosures of lead-silver ore near Milford not long ago, is preparing to enter the local market with its initial shipment from the new strike.

A party of eastern shareholders has been making an inspection of the Mt. Masonic mine at Park City. Before leaving they gave instructions to the mine working force at the mine which has been carried into effect by Manager A. M. Spooner.

The remains of an ancient mining camp, says a Nevada exchange, have been unearthed in the Ubehebe chain of mountains in southern Nye county. Archaic and other primitive mining machinery were found that had been used by the workers.

Joseph T. Jenkins, for many years connected with the mining department of the city of Park City, has decided to leave Salt Lake and take up his residence in New York, for which city he will leave with his family this week. Mr. Jenkins is one of the most widely known and talented mining writers in the west and leaves with the best wishes of a large circle of friends.

LUST WE

Forget-Baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White Cream Verminol gives baby White Cream Verminol. So many mothers who have been so fretful, the mother does not know what to do. A bottle of this medicine would bring baby to sleep in half an hour. Give it a trial. Sold by C. C. M. Drug Dept. 112 and 114 So. Main Street.

STOCK MARKET
QUITE STATIONARY

Operations Were Restricted. List
Not Moving Decisively One
Way or the Other.

IT GREW DULLER AND DULLER.

In Trading of the Morning Prices
Were Generally
Higher.

New York, Oct. 16.—First prices of stocks were higher than last night with very few exceptions. Gains were slight and the volume of business small. Amalgamated rose 2 points and Reading, and Brooklyn Trading large fractions. The market responded gradually to a sprinkling of buying orders which included many of the railroad stocks of first prominence, particularly the grangers and Reading. The neutral active speculation was scarcely dealt in and were little changed. St. Paul preferred advanced 2 points. Great Northern preferred 1/2. National Railroad of Mexico second preferred 1 and St. Paul Canadian Pacific, Reading and Sugar a point. The right of subscription to the New York Central stock which came off this morning, sold at 1/2. Wheeling and Lake Erie fell 1/2 and Iowa Central preferred 1/2.

Operations in the second hour were insignificant and prices fluctuated listlessly without getting far from last night's level, except for some usually inactive issues.

Trading operations were much restricted after midday, the failure of the list to move decisively one way or the other rendering scalp operations difficult. The undertone was buoyant.

The market became quieter as the day drew to a close. Federal Mining moved generally higher, the list of the list to move decisively one way or the other rendering scalp operations difficult. The undertone was buoyant.

LIVESTOCK.

Chicago, Oct. 16.—Cattle—Receipts, 14,000; market steady; western cattle 30 cents lower; beefs, 1.00; cows and heifers, 1.50; pigs, 1.00; hogs, 1.00; sheep, 1.00; lambs, 1.00; chickens, 1.00; turkeys, 1.00; ducks, 1.00; geese, 1.00; geese, 1.00; geese
