AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long, as AYER'S CHERRY PECTORAL
It has been known to the public about forty years, by a long continued series of marvelous cures, that have won for it a confidence in its virtues, never equaled by any other. It still makes the most effectual cure for Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their painful effects, that is well founded, if it can only be taken in season. Every family should have it in their closet for the ready relief of its members. Sickness, suffering, and even life is saved by this timely use. The prudent should not neglect the means we will not. Keep it by you for the protection it affords by its early use in attacks.
PREPARED BY
DR. J. C. AYER & Co.,
LOWELL, MASS.,
Practical and Analytical Chemists.
SOLD BY ALL DRUGGISTS & DEALERS IN MEDICINE.

BY TELEGRAPH.

THE WESTERN UNION TELEGRAPH LINE.

AMERICAN.

A Democratic Platform.

EMPORIA, Kas., 31.—When the Democratic Convention assembled a majority of the committee on resolutions declared that while the democrats of Kansas are true to temperance and just and vigorous in their suppression of intemperance, they favor a repeal of the prohibitory law of the constitutional amendment and favor a well regulated license law which may be enforced and which does not infringe upon personal right nor contravene the judgment of mankind in its logic and operation as prohibition does. Prohibition makes crimes of those things that are not here regarded as crimes. The advocates of prohibition are disappointed in the result.

After an animated discussion the minority report of the committee on resolutions was adopted as the platform. The platform demands tariff revision; control and regulation of freight and passenger tariffs; State legislation; demands the protection of Americans at home and abroad by the Federal government; extends sympathy to the people of Ireland; demands a proper adjustment of the relations between capital and labor; condemning the passage of the river and harbor bill as shameless; demands an amendment to the Constitution of the United States to provide for the election of President and Vice-President and also United States Senators for a term of six years, by the direct vote of the people, and also the election of Congressmen for a term of four years, and making the President ineligible for re-election; demands that the election for federal officers be under the control of the federal government and held at a time other than that of holding State elections; opposing woman's suffrage; demanding an amendment and modification of the present temperance law, which is declared oppressive and unwise in its provisions, and favors the re-submission of the prohibitory amendment to the Constitution at the general election in each State in November, 1844. It also refers to the baneful and dangerous fanaticism of personal and partisan politics in connection with the death of President Garfield.

The nominations are as follows: George W. Lick, of Atchison, Governor; Frank Boem, Lieutenant-Governor; Chas. E. Gifford, Treasurer; W. K. Brown, Auditor; Gen. Hayden, Attorney General; D. E. Louts, State Superintendent of Public Instruction.

The following were nominated for Congressmen-at-large: C. A. Leland, John A. Flanigan and Martin Van Buren. The nomination of the fourth man was referred to the State central committee. Adjourned.

A Republican Platform.

SAN FRANCISCO, 31.—The platform of the Republican State Convention reaffirms the platform of the Chicago Convention of 1880. It refers to the financial record of the party; it demands that the present or a similar Sunday law be enforced, providing for the suspension of all unnecessary labor on Sunday without seeking to dictate otherwise than how the day shall be passed, simply claiming it as a day of rest and recreation. That railroads are for the public use and should be under government control; discrimination against persons and places should be prohibited; charges for transportation should be based on the cost, expenses and repairs with a reasonable rate of interest on the actual value of roads, which shall bear the same proportion to the assessed value as other property does. The railroad commissioners are pledged to carry out this principle. The railroad contract system is condemned and the party is pledged to break it up to the extent, if necessary, of making it a public office.

Congressional legislation regarding inter-State traffic is demanded; further subsidies to railroads are opposed and restoration to the public domain of the forfeited land grants is demanded. It is also demanded that corporations should be compelled to pay in full without rebate or compromise, and that natural highways should be kept at the highest efficiency, and their action should be favorable. The platform is against persons or corporations threatening or committing any nuisance by injury to water courses and adjacent lands; is in favor of the settlement of the Chinese immigration question by the passage of a restriction bill, and declares in favor of civil service reform and economy of administration.

The convention on reassembling this afternoon adopted the resolution, offered in addition to the platform, declaring in favor of the public school system, and of submitting to the legislative proposition for the state to print school books and furnish them to children at cost. The convention then proceeded to consider the planks of the platform. At the evening session of the convention M. M. Estee, Mayor Blake, of San Francisco; Joseph Russ, of Humboldt, and James M. Shafter were placed in nomination. The convention then adjourned till to-morrow.

Yellow Fever.

GALVESTON, 31.—An Austin special says the governor has received a telegram from the county judge of Hidalgo, stating that the yellow fever is spreading in the ranches above Brownsville, on the Macon side of the Rio Grande.

Brownsville, Texas, 31.—There are sixty new cases, and two deaths, both Mexicans. Doctor Miamos was taken down. Many cases of fever have extended along the ranches towards Corpus Christi. Three deaths are reported in Matamoras and a few new cases. The weather is very hot.

Pensacola, Fla., 31.—Six new cases of yellow fever are reported to-day. The total cases to date are eighteen and deaths two. A number of persons who left the city have returned, not able to find an abiding place elsewhere on account of the rigid quarantine against Pensacola.

The people of Greenville, Alabama, are so alarmed that they threaten to tear up the railroad tracks.

The postmaster of this place has received a communication from the authorities of Birlington, Alabama, requesting that no mail matter be sent to that point from Pensacola.

The Pensacola & Atlantic railroad has discontinued daily trains to Milton, which place has quarantined. Steamer communication is also suspended.

The Moline mills, fifteen miles distant, have established pickets around that settlement. The people are cheerful, and there is no desire to leave the city.

The Yellowstone Park.

WASHINGTON, 31.—Acting Secretary Joslyn will to-morrow sign a covenant for leasing such portions of the Yellowstone Park property as may be requisite for the erection of hotels and other buildings necessary for the accomodation of visitors to the park. The leave is made to private individuals who propose to organize a company, secure articles of incorporation, and furnish visitors to the park with hotel accomodations, telegraphic facilities, transportation and guides. The parties known in the transaction are Messrs. Hobart and Douglass of Dakotah, and the term of the lease is ten years. The rent to be paid has not yet been finally determined upon, but will be fixed by the Secretary at a further conference with the lessees to-morrow. The contract will expressly stipulate that the persons entering upon the leased lands will subject themselves to the regulations governing other portions of the park, and the scale of prices to be charged for transportation through the park, for guides, etc., shall be subject to the approval of the Secretary.

Dick Little.

HUNTSVILLE, Ala., 31. — The most interesting attraction in Huntsville to-day was the trial of Dick Little, which begun before Commissioners Boone and McCullough. The prisoner came in early, evidently in the best of spirits.

The court room was filled to overflowing. The first witness called was Mrs. Jesse James, who was examined at length. It was developed in the first part of the testimony that Frank and Jesse James, with their families, lived in Nashville from November, 1880, until the latter part of March, 1881. Her statements were not at all damaging to the prisoner and as far as the Muscle Shoals robbery is concerned, Mrs. James has exploded the pretty little story that has been going the rounds of the press about her returning a watch to Mr. Dooley in Philadelphia. She indignantly denied doing so, but claimed that Little stole this watch and returned it in her name. A. G. Smith, the man who was robbed, was next examined and gave his story of the robbery, which the public are familiar with. He did not recognize Little as one of the men who committed the robbery. Other witnesses were examined, but nothing important was brought out. Six others will be examined.

Indian Rumors.

TUCSON, A. T., 31.—The *Star* advices from Tubac, A. T., to-day say the following are the facts in regard to the Indian troubles in this section: A band of Jus, numbering about 200, has been operating in Sonora for about two months, and about the last of the week met the Mexican troops at San Antonio Pass and whipped them. They then camped near our line and divided up into three or four bands, each taking different directions. One band struck the Upper Santa Cruz, near Lanoria, and crossed the Patagonias to the Santa Cruz road, striking it a point two or three miles above Chatro Martines. Here they are said to have killed three prospectors. They then crossed the San Juan Mountains and struck the Magdalena road about three miles above the Custom House at Frontenaza and when last seen were making for the Ponchos de Plata.

Tombstone dispatches say: Wm. Johnson, a cattle man, near the head of the Sonora River, was killed by the Apaches in Sonora, near the the Custom House. Four Americans and one Mexicans were killed last Sunday near Bacaunchi. Mexican troops are in close pursuit of the Indians.

Heavy Mortgage.

PHILADELPHIA, 31.—A mortgage for $160,000,000 was recorded to-day in the office of the recorder of deeds in this city. It was executed Saturday, jointly by the Philadelphia & Reading Railroad and the Philadelphia & Reading Coal and Iron Company and covers the entire property of every kind, together with all rights, privileges and franchises including all leases. This is the mortgage under which five per cent. consols were issued. The proceeds are intended to redeem all other outstanding obligations of the company so that it will ultimately become a first line for the only bonds outstanding, namely, five per cents.

Cutting Rates to Denver.

CHICAGO, 31.—A private dispatch received here to-day from Denver states that the Union Pacific is cutting rates on freight from seaboard cities to Denver, and offering inducements to shippers in the way of passes. This course is said to have been taken to punish the Burlington Road, because it refuses to agree not to build any more roads in Nebraska. A war on rates is predicted as a probable result.

The Union Pacific, Northwestern, Rock Island and Burlington auditors and general freight agents met here to-day and practically decided on a uniform system of through way billing to points of destination in Nebraska. The custom heretofore has been to way-bill to the Missouri River, and re-bill to destination. This caused much annoyance and frequent overcharges. The completion of the Burlington lines and their billing through to Denver rendered this action necessary.

Rebellious Union Men.

PITTSBURG, 31.—The policy of running non-union mills will be tried in four mills in this city next Monday, and the news of the intended action has created a great deal of excitement, and one lodge of the Amalgamated Association composed of Wilson Walker's men, notified the general officers that if they are not given permission to return to work at the old wages they will return regardless of the association.

FOREIGN.

THE WAR IN EGYPT.

ALEXANDRIA, 31.—News was received from Cairo of a meeting of the notables at which the Governor of Ismailia presented speeches recognizing Arabi as the sole ruler of Egypt. The prefect of police on hearing of this, declared against Arabi Pasha, and ordered the arrest of all persons present at the meeting. He is organizing Turkish police for protection of the Khedive's interest.

The governor of El Arish has declared for Arabi, and influenced two tribes of Bedouins in his favor.

A large supply of fresh water has been discovered in some old forgotten wells.

Arabs are coming to Ramleh in considerable numbers, bringing their effects.

The enemy are repairing their fortifications.

Our outposts captured five signalers, who had been flashing lights from in front of our position to Arabi's camp. They seemed to be Fellahen; possibly they are Arab telegraphists disguised. They will be tried by the native court. Report says Arabi has a dozen such signalers in our camp.

Ramleh, 31.—This morning Gen. Wilkinson, in command of the Indian cavalry, conducted a reconnoissance on the right and Col. Tulloch on the left. They got within sight of the enemy's lines, his pickets falling back, and sketches were made of his position, which is not considered so strong as has been expected.

Ismailia, 31.—The railway as far as Kassassin will be open to-morrow. The mutilations by the Egyptians of the British who fell into their hands at the battle of Kassassin have caused great indignation in the army.

There are 300 sick and wounded British troops in the hospital now.

Constantinople, 31.—Said Pasha, minister of foreign affairs, has requested Lord Dufferin to grant until to-morrow for a reply of the Porte to the proposals of Great Britain. The British demand that the Porte adhere to the final draft of the convention.

The military advisers of the Porte continue to urge the right to land Turkish troops at Alexandria as indispensible. Lord Dufferin refuses to insert such a clause in the military convention, but consents to place on record a proviso that the English and Turkish staff may subsequently have power to modify the military programme in case of necessity.

The Porte is disposed to agree to this and the consent to landing Turkish forces at Aboukir subject to the ultimate agreement between the respective generals.

London, 31.—Sir Hugh Childers, Secretary of War, has telegraphed to General Wolseley, speaking highly of his conduct in the campaign in Egypt, the ability of his Generals and the gallantry of his officers and men. The Duke of Cambridge, Commander-in-Chief of the army, sent a similar telegram.

De Lesseps has arrived at Naples. He refuses to accept the bank at Paris as offered. The French newspapers are declaring that the Suez Canal Company always will remain aloof from politics.

Madrid, 31.—All the Powers, including England, have replied favorably to the proposition that Italy, Holland and Spain be permitted to take part in the collective protection of the Suez Canal. It is believed, however, in consequence of the recent turn of affairs, the proposal for collective protection of the canal will be without result.

The Irish Police.

Dublin, 31.—The police are arranging for a meeting notwithstanding the prohibition of the commissioner. They are dissatisfied with the constitution of the committee of inquiry into their grievances.

The constabulary of this city repudiate the manifesto which it is reported had been adopted at the meeting Tuesday. They do not wish to report to any subordination for the purpose of furthering their claims, and they adhere to the resolution to place their grievances in the hands of the inspector general.

At a meeting of 300 police here tonight, resolutions were passed expressing dissatisfaction at not receiving a grant similar to that received by the constabulary; hoping that Earl Spencer will consider their case, and disclaiming any disloyalty.

That Frontier Trouble.

ATHENS, 31.—An official dispatch from the frontier announces that the Turkish commander has demanded an armistice which Greece is willing to accept providing the Turkish troops are withdrawn from the points they have occupied. This the Turks have refused to do, and it is reported that hostilities have recommenced. The government is displaying increased activity in military preparations, and about 500 troops are arriving on the frontier daily.

Syrian Serenity.

LONDON, 31.—The Greek patriarch and the bishops of Syria and several principal inhabitants telegraph from Damascus denying any insecurity in Syria and Palestine or any Mussulman rising against Christians owing to the vigilance displayed by the local authorities. Seldom has so much security been enjoyed as now.

BRIEF TELEGRAMS.

Johann Holbig, the celebrated German sculptor, died yesterday at the age of 68.

The sculling race between Courtney and Lee was postponed on account of rough water.

Lieut. Slipper, who was dismissed from the American army, has been appointed a captain in the Mexican army.

President Arthur has accepted an invitation to visit the Centennial farm at Marshfield, the first week in October.

During the next two months the Government will disburse $42,000,000 for pensions and payment of bonded debt.

An official dispatch from Manilla, in the Phillippine Islands, states that 531 natives and seven Spaniards died there of cholera on Tuesday and Wednesday.

By the direction of the President the military department at West Point will be discontinued to-day, from which date the United States military academy will be under the supervision and charge of the General of the army.

SEVIER STAKE CONFERENCE.

The Sevier Stake Conference convened in Richfield, according to appointment on the 26th of August, 1882. On the stand were the Presidency of the Stake, Bishops and Counsellors of the different wards. Opened by singing and prayer.

President Spencer made a few introductory remarks, and was followed by Bishops Gottfredsen, Jensen, Cloward, Murdock, Greenwood and Blackburn, who bore their testimonies to the truth of the gospel, and spoke upon the different duties that are devolving upon the Saints. Singing and benediction. Adjourned till 2 p. m.

2 p. m.

After singing and prayer, Elder Thuessen, of Grass Valley, who had just returned from a mission to Kansas, spoke a short time, relating some of his missionary experience, etc.

Elder J. W. Pierce spoke upon the general duties of the Saints and our political situation, and exhorted all to faithfulness.

President A. K. Thurber contrasted the ideas of the Christian world with those of the Latter-day Saints, and spoke against the Latter-day Saints sending their children to be educated by those who are not of our faith.

President Spencer spoke upon the necessity of the Saints meeting together often and exchanging ideas with each other.

Adjourned till 10 a. m. Sunday.

Sunday, 10 a. m.

Singing and prayer.

Bishops Johnson and Higgings, spoke upon the blessings that are promised to the Saints who are faithful in observing the word of God, and bore strong testimonies to the truth of the same.

President Seegmiller spoke of the plan of salvation, and contrasted the difference between those who have lost faith in the truth of this work, and those who remained faithful.

President Spencer spoke upon the law of tithing, and exhorted all to be faithful in observing the laws of God.

Adjourned till 2 p. m.

2 p. m.

After singing and prayer the sacrament was administered.

Mr. Morrison presented the general authorities of the Church and local authorities of the Stake, which were unanimously sustained.

Supt. H. P. Miller read the report of the Sunday Schools.

Elders Andrew Hepples and Simeon Christensen bore their testimonies to the truth of this work and exhorted the Saints to faithfulness.

Bishop G. W. Bean, President Spencer and President Thurber spoke upon the duties of tithe-paying, temple building and the general duties of the Saints.

Notwithstanding the bountiful harvest that the people of this Stake are busy gathering, it was estimated that there was the largest assembly that has ever been witnessed in this Stake. A good spirit prevailed during conference, and the Saints dispersed under the inspiring influence of truth which will ultimately prevail.

WM. OGDEN, JR.,
Ass't Stake Clerk.

PROF. CARL LINN,
