Russia withdraws from the Treaty of Paris!

NORTH-EASTERN FRANCE INUNDATED!

A general European conflict imminent!

DIJON RE-CAPTURED BY THE FRENCH!

*VERMONT.
A brutal fight.

PORTLAND, 14.—A desperate fight took place in the woods, in Mount Holley, eighteen miles from this place, on Saturday, between a gang of French wood cutters, seventeen in number, and three officers who were endeavoring to arrest them. The Frenchmen were armed with axes, and cut and beat two of the officers in a dreadful manner, nearly severing the wrist of one besides inflicting seven wounds on the head, and knocking the other insensible with the blow of an axe across the face, after which they killed and beat him horribly about the face and body. The Frenchmen escaped into the mountains, but this morning thirteen of them were arrested and are now undergoing an examination.

WASHINGTON.

Motley recalled.

WASHINGTON, 15.—On Friday last the President directed Secretary Fish to send a cable dispatch to London, peremptorily recalling Motley as minister to England. Moran, Secretary of Legation, is to act as charge d'affaires until the new minister is appointed. The President gives as a reason for this, the necessity for an instant decision in the fishery controversy with Canada, and other differences with the British government, which he does not feel inclined to intrust to the management of Motley.

NEW YORK.

Activity in the Navy Yard.

NEW YORK, 15.—Orders have been received at the Brooklyn navy yard, from the Navy Department at Washington, to fit out for sea, with all possible despatch, the frigate *Minnesota*, first rate, forty-six guns; the frigate *Tennessee*, second rate, twenty-three guns; and the *Shavemut*, fourth rate, three guns. In consequence of this order there are signs of unusual activity in the yard, and it is more than likely that an additional force of workmen will be taken on to complete the work at the earliest possible day. Those workmen who have been discharged will be replaced by more competent men. There are 1,500 experienced workmen in the yard. It is understood that orders are given the commanders at Boston, Portsmouth, Philadelphia and Norfolk navy yards, to fit out with expedition several vessels, first and second rate. No less than twelve vessels, of various classes, will be put in a sea-going condition at once. Work is to be suspended on the *Sagadahoc*, *Albany*, *Harford*, *Roanoke*, *Gettysburg* and *Minnesota* soon. They will leave the dry dock until the above named vessels are completed.

KENTUCKY.

Elections.

LOUISVILLE.—Returns received from the 3th Kentucky district places beyond doubt the election of Adams, Democrat. The Democrats claim 559 majority. The Republicans admit a majority of 125 for Adams. This makes an unbroken delegation from Kentucky to Congress, the Democrat candidates having been elected in every district.

ILLINOIS.

CHICAGO, 15.—The Tribune's Washington special says the paragraph in the President's letter to Secretary Cox, relating to Commissioner Wilson, is causing much embarrassment at the White House. It seems the President was very loth to print it, but was persuaded to do so by others; and now, upon investigation of the grounds upon which the allegation of Wilson was founded, it appears that they are of a character that cannot advantageously be put in print. Wilson has decided not to resign, which he holds would be a confession of judgment, but, instead, to insist upon a publication of the reasons referred to in the printed letter.

The result of the Congress election of this State is not fully known. There are still most conflicting accounts from the 7th district. The chances are in favor of Hunter, Democrat. Opinions in regard to the exact complexion of the Legislature differ. The Republicans unquestionably have a majority on the joint ballot, but how much is not so clear.

A movement is on foot here, headed by Ex-Governor Bros, to establish smelting works in this city for the reduction of silver and gold ores from the western mines. Preliminary steps for the formation of a Stock Company have already been taken.

FOREIGN NEWS.

AUSTRIA.

VIENNA, 15.—There was great enthusiasm created at the Bourse here,

by the announcement that the Prussians had evacuated Orleans.

GREAT BRITAIN.

England in Danger—Movements of the Hostile Armies—Inundated—Escaped from Metz.

LONDON, 14.—A correspondent of the *Herald* writes from Douay, on the 12th, that the town is one of the strongest fortified places in France. The fortifications mount three hundred guns and the citadel four hundred more. It is considered the key to the north of France.

The inundation of the country was commenced yesterday. For four miles there is one broad lake, running through the village of Lambres, which is entirely destroyed. Five hundred families were driven away by the flood. The windows and doors of the houses were walled up to keep out the water. The seven or eight thousand men who were completely encircled. Over 50,000 persons will be made homeless when the inundation is complete. In the department of the north there are twenty-seven fortresses, defended by over 3,000 cannon, the greater part from the fleet.

A hundred and fifty officers and soldiers, escaped from Metz, reached Lille yesterday.

The agitation concerning Russian designs increases. In the best informed circles it is believed there is imminent danger of a general European conflict. The *Pall Mall Gazette* to-night declares the ministers not merely lack true vision but are occupied, to the exclusion of truth, with misleading dreams. Two dangers confront England, the *Alabama* difficulty and the eastern question. The circumstances that have lifted the latter to great importance made the former more formidable, because of the increasing probability of there being a combination. Russia declares her designs to grasp Turkey and Prussia is ready to connive and aid her. England is the only power to whom Turkey can look, and she is threatened with annihilation if she lifts her finger.

A dispatch from Tours, to-day, says the movements of General Aurelie are with a view to surrounding Von der Taun and Prince Albrecht, before the arrival of the detachments of the late army of Metz. That portion of Aurelie's army which defeated Von der Taun on Wednesday is still facing him, but the flanking movements are executed by new troops, well supported by artillery. The junction of the right and left wings, in the rear of the Bavarians, will probably be accomplished to-day, although no positive news to that effect has been received.

LONDON, 15.—The *Telegraph* says it is certain that Russia has sixty iron-clad gunboats in the Black sea, ready for use.

FRANCE.

Constant Fighting—Treaty of Paris—A Sortie—Recaptured.

TOURS, 15.—The resolve on the part of the Russian government to withdraw from the treaty of Paris creates a profound sensation here. It is said an English envoy has gone to Versailles, to demand King William's view of the matter.

The French camp between Artheny and Orleans is now strongly fortified, and armed with cannon of long range. Advice from St. Perovoy show there have been constant engagements between the Franco-tireurs and the Prussian scouts for several days past, and many have been killed on both sides.

The material benefits of the battle at Coulommiers are greater than at first supposed. Numbers of Germans are now found hiding themselves in the woods and outbuildings. Several canons were found that were abandoned during the retreat of the enemy. Many horses were taken. A French general, who neglected to surround the woods, as ordered, thus allowing 5,000 Bavarians to escape who would have been compelled to surrender, was dismissed on the battle field. A number of columns were promoted to be generals.

It is rumored that a large body of Bavarians surrendered near Artheny yesterday.

Prussian Frederick Charles is now within five days march of the army of the Loire.

The Prussians occupied Dole on the 13th. A dispatch from Metz, dated yesterday, says that a force of 800 troops made a sortie there on that day and disengaged a body of Franco-tireurs who were surrounded.

DALS, 14, via Tours, 15.—The Prussian force at Chevigny, about 4,800 strong, has been recalled to the department of Haute Saone, owing to the recapture of the city of Dijon by the French.

A hundred Prussians attacked this place yesterday, but were handsomely repulsed by the national guards.
