Conflicting News.

The news from the various capi-tals is very conflicting. A Rome dispatch contradicts the statement that Italy has asked England to state her views, and a B-riin dis-patch reaffirms it, and says the question is new being repeated. A St. Petersburg dispatch says: Bismarck has ceased mediating, while reports from Vienna and Berlin state the opposite positively. It is impossible to determine what is the foundation for the repeated declaration that Austria is about to occupy Boenia. The Austrian and

Andrassy is pressing for a compro-mise of the controversies. A Vienna dispatch says: What-ever measures of precaution gov ernment may have resalved upon, Russia is not a party to them. Austria is still free sizes her future movements. The best intermed of the contributors to the Lendon press, discussing the position at length, have not a word to say about the attitude of Austria, which is a fair indication that no decision has been reached at Vienna.

The British Army Corps.

General Sir Alfred Hastings Horsford has been selected as commander of the Second Army Corps. A considerable proportion of the First Army Corps is likely to be dispatched to Malta in the course of the coming week, including a portion of the guards. Many thou-sand stands of Martini Henry rifles are being removed from the racks in the tower of London, presumably for the equipment of re-BETTER.

Armed Cruisers.

There is great activity at Ports mouth in preparing fittings for the conversion of merchant ships into armed cruisers. A manufacturing firm has received from the Admiralty an order for more than 100 tor pedo nets for the protection of ships from attacks of torpedoes. All the

nets are to be delivered during May. Immense quantities of shot and shell are being issued from the Woolwiph arsenal in all directions.
