

## PROF. ROYLANCE'S TALK TO STUDENTS

Gives Some Good Advice to Those  
Who Attend University  
Of Utah.

### ATHLETICS VS KNOWLEDGE.

Boys Must Learn to Govern Them-  
selves Before They Undertake to  
Govern the School.

The assertion that certain members of the faculty were "dead ones" because they refused to join in the spirit of enthusiasm that has lately swept over the University, was handled roughly by Prof. W. G. Roylance of the history department at chapel hour yesterday. He referred again to the rally which he had previously termed a riot, and which President Brown of the student body had been compelled to disapprove in a mass assembly. "Preps" were admitted to the meeting for which reason the larger portion of the college men and women remained away.

Prof. Roylance said in part:

"Several members of the faculty have lately been denounced as 'dead ones' because they do not favor everything that is advanced in the name of athletics and do not always find it convenient to be present at athletic convocations. Many of these perhaps have already more work than they can attend to and others, perhaps, are not of so demonstrative a disposition. Perhaps they don't yell and shout, but can't a person be interested and remain silent? Let me tell you that many of the silent members of the faculty are just as interested as those who take a more active part. Others have been placed under the 'dead head' category because they have been opposed to athletic convocations which necessitate the breaking up of classes.

"Let me remind you, students, that athletics is not the main thing. Work, study is the main consideration of you students, and for us teaching is the main thing. That is why we are here, and that is what you should be here for. In our jubilation let us be careful that we don't get the cart before the horse. Have a good time—that's all right, but remember that after work is done, then come play. Arouse enthusiasm, but not at the expense of your school work.

"Of late there has been some talk of taking over the government of the school and putting it in the hands of the students. I am of the opinion that you students should first show that you are capable of governing yourselves before such a move is attempted. Certainly no steps should be taken in this direction before you have demonstrated this fact beyond all question of a doubt.

"Many students have a wrong idea of what builds up a school. Some are of the opinion that if a school has a winning team that the reputation of the school is upheld just as long as this team defeats all comers. That is all very good, but don't let it cut into the middle of the work and the reputation of the school for doing good, honest work.

### TEAM SHOULD STUDY.

"Frequently the members of teams have only had to register, and as soon as the season is over they quit school. This has occurred, and it ought not to. Every aspirant for the team ought to be compelled to attend to his school work before allowed to play on the team. Out of justice to yourselves you students ought to demand this much. Else it will be said of us, perhaps, that we encourage students to come and keep them primarily for their ability to play football. I am glad to say that some of our best football men at present are among our very best students. We ought to try and show the people of the state that these two qualities can go together, and that a person must not necessarily be all head or all muscle."

The professor concluded his remarks with an allusion to the preparatory course and the necessity for treating the "preps" fairly until they are finally eliminated from the college body.

At three miles from Riverton yesterday a Rio Grande work train ran over and killed a man named Sallison. He was asleep on the track at the time and was unobserved by the engineer in time to prevent the accident, the entire train passing over him and mangle his body. As soon as the train could be stopped the crew rushed to the unfortunate man's aid but found life extinct. The corpse was brought to the city on the train and turned over to the authorities.

### FATALITY AT MURRAY.

Five-Year-Old Boy Killed While Play-  
ing in a Lumber Yard.

By the slipping of a pile of lumber  
near which he was playing yesterday at  
noon George Sherlamin, a 5-year-old  
boy was crushed to death. The boy's  
father, Lucia Sherlamin, who is a Turk-  
ish barber at Murray, lives near the  
Miller-Cahoon lumber yard, and when  
last seen the boy was playing alone in  
the lumber yard between two piles of  
eight-inch boards. The body was dis-  
covered by a passerby who noticed a  
child's head protruding from a pile of  
boards that had evidently fallen from  
one of the piles. Upon freeing the lad  
it was found that life was extinct, and  
had been for at least 10 minutes. His  
body was slightly mangled. The par-  
ents are prostrated with grief.

The professor concluded his re-  
marks with an allusion to the prepara-  
tory course and the necessity for treat-  
ing the "preps" fairly until they are  
finally eliminated from the college  
body.

## UTAH ARTISTS IN RIVAL CAMPS.

Strained Relations Among Wield-  
ers of Brush and Palette in  
Beehive State.

### TWO SEPARATE EXHIBITIONS.

Looks as Though Ogden and Salt  
Lake Will Hold Distinct  
Picture Shows.

Treasurer G. Wesley Browning of the  
Society of Utah Artists says of the  
present very strained relations, and per-  
haps better, no relations at all, existing  
between his society and the Utah Art  
Institute: "I do not care to reopen that  
discussion, but unless a radical change  
can be made in the state art organiza-  
tion I do not think the society will take  
part with it. The society is unanimous  
in this and perfect harmony prevails  
in its ranks."

Mr. Culmer, treasurer of the Art In-  
stitute, has this to say: "I have noth-  
ing to say and hope that the matter will  
not again be given publicity, but I deep-  
ly regret that the artists, who have but  
lately returned from Paris, have seen fit  
to not avail themselves of the privilege  
of the state organization as in their

## PROBABLY 54 IN LEGISLATURE.

"News" Calculations of Yesterday  
Show Today That Republicans  
Will Have More Than 50.

### SOME FEW YET IN DOUBT.

Democrats Will Have Less Than a  
Dozen Members—Personnel of  
The Two Branches.

While the result in certain counties is  
still doubtful, it is highly probable that  
the Legislature will be made up of 54  
Republicans and nine Democrats, these  
figures giving the Democrats the bene-  
fit of the doubtful counties. Provided  
Whitmore (D.), of Nephi is re-elected,  
the Senate will contain 14 Republicans  
and four Democrats, the remaining  
three Democrats being Senators Bam-  
berger of Salt Lake, Barber of Logan  
and Bennion of Vernal, all holdovers.  
Republican holdovers are Williams of  
Salt Lake, McKay of Weber, Loose and  
Gardner of Utah, Larsen of Sanpete  
and Lewis of Beaver.

The Lower house will be made up  
of 40 Republicans and five Democrats,  
provided Hutchinson of Juab, Gibbs of  
Piute and Billings of Uintah, all Dem-

work is recognized marked ability and I  
think it would have been far better for  
the local art community had they ig-  
nored the differences of the parties at  
home."

There is a good deal of random shot  
from various paint tubes flying around  
in art circles over this inability of the  
two organizations to blend their indi-  
vidual coloring into one harmonious  
whole of tone color, and some rather  
inartistic talk is being indulged in.  
Considerable is being said of the row  
which ended in Mrs. Horne's turning  
back into the state treasury \$200 which  
it is claimed rightfully belonged to Mr.  
Culmer because of his being awarded  
the same as a prize. Had the award  
been carried out, the picture in question  
would have become the property of the  
state. But the artist refused to turn it  
over to the state, as he was not given  
the money, and then got the laugh on  
the other parties by selling the painting  
for a great deal more than the \$200.  
Moreover, it is alleged that the home  
artists who have studied in the Paris  
salons were not given a square deal,  
and altogether, the local canvas rep-  
resents a "Valley of Humiliation" in nerve  
depressing tints and the gloomiest of  
shades.

### FAVORED BY BOTH PARTIES.

Republicans and Democrats alike praise  
Foley's Honey and Tar for coughs, colds  
and all throat and lung diseases, as no  
other remedy can compare with it. It is  
safe and sure. F. T. Slater, merchant,  
171 Main St., Gloucester, Mass., writes:  
"Foley's Honey and Tar cured me of a  
very bad cough which I had for three  
months though other remedies failed to  
benefit me. I can highly recommend it  
for coughs and colds." F. J. Hill Drug

### A MUTINIOUS CREW.

Were Drunk and Resisted Inter-  
ference by U. S. Marshal.

Chicago, Nov. 10.—Capt. Thomas H.  
Meyers having declared that his crew  
was mutinous and that he had no con-  
trol over the men, Deputy United  
States marshals have visited the ship  
S. A. Wood to serve a writ for an un-  
paid towing bill. On rowing to the  
boat just outside the government  
breakwater, they say they found a  
drunken crew which resisted inter-  
ference and that the mate threatened to  
stab Marshal Currier and throw him  
overboard. The officials returned for  
reinforcements, seized the ship, placed it  
under guard in charge and arrested the  
mate, George Smith.
