

THE BATTLE OFF CHEMULPO.

A Fresh Account Giving Details
Heretofore Unknown and
Deeply Interesting.

RUSSIANS BADLY DAMAGED.

Eleven Ships Struck During Engage-
ment of Wednesday, Necessitating
Extensive Repairs.

Seoul, Friday, Feb. 12.—The following account of the battle off Chemulpo, which resulted in the loss of the Russian cruiser Variag and the gunboat Korietz, has reached here:

During the night of Feb. 8 the Japanese landed 1,300 men at Chemulpo, and on the morning of the 9th three Japanese cruisers, four gunboats and eight torpedo boat destroyers under command of Admiral Uriu approached the harbor but did not enter. The Korietz and Variag were lying in the harbor. The Japanese admiral gave them until noon to come out. Both Russian vessels cleared for action. All the shipping in the harbor was notified by Admiral Uriu to get out of the firing line.

There was in the harbor also the British cruiser Talbot, the French cruiser Pascal, the Italian cruiser Elba and the United States gunboat Vicksburg. All were active. The Variag signaled the Talbot and a boat from the British cruiser went on board. Shortly afterwards the Variag and Korietz got under way and steamed out of the harbor. The crew of the English warship cheered them as they went out to fight. When the Russians were four miles out the Japanese threw a shot across their bows but they did not stop. The Japanese lay between the islands 10 miles out blocking the only entrance to the harbor. When the Russians were six miles from the Japanese fleet, heavy firing began on both sides. The Variag turned her broadside loose at 11:55 a. m.

GIRLHOOD WOMANHOOD MOTHERHOOD

The first lesson that the young girl has of womanhood is usually a painful one. She learns to know what headache means, and how to get rid of it.

All the pain and misery which young girls commonly experience at such a time may, in almost every instance, be entirely prevented or cured by the use of Doctor Pierce's Favorite Prescription. It establishes regularity. It tones up the general health, and cures headache, backache, nervousness and other consequences of womanly weakness or disease. The anxious mother of the family often times carries the whole burden of responsibility so far as the home medication of common ailments of the girls or boys are concerned. The best of the doctors visits is very often much too great. At such times the mother is invited to write to Dr. R. V. Pierce, of Buffalo, N. Y., for medical advice, which is given free. Correspondence is held strictly confidential.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$50 in legal money of the United States for any case of Leucorrhea, Female Weakness, Protrusion of the Uterus, or Falling of the Womb, which they cannot cure. All the World's Dispensary Medical Association, Proprietors, of Buffalo, N. Y., ask is a fair and reasonable trial of their means of cure.

"Your wonderful medicine, 'Favorite Prescription,' has helped me greatly in time of suffering," writes Mrs. M. W. Wright, of Edwards, Ind. "Last winter I was unable to do my work, was to be confined in February, and a lady in Illinois wrote and told me about your medicine. I used three bottles of 'Favorite Prescription,' and will say I had the easiest and quickest confinement I ever had. Had three children before, and would suffer from twenty-four to thirty-six hours before birth, but this time only two hours. Have a fine baby girl and she is the most healthy one of all. I am still using the 'Favorite Prescription' as a tonic."

The cruiser Novik was the only vessel to do effective work. She gave chase to the Japanese torpedo boats and according to the Russian account sank two and captured one. The Wenchow had 400 Japanese refugees on board and there was an exciting time during the battle of Wednesday, as shells fell all around the Wenchow. After several orders were given her to leave port and as often revoked, she was allowed to sail Feb. 14. The Russian authorities supplied her Japanese passengers with rice, but paid no attention to a signal for a fresh supply of water. It is stated that the European residents

AT THE END OF THE FIRST WEEK OF WAR

Throughout Great Britain There
Is Intense Satisfaction Over
Operations.

FRANCE STRONGLY FOR RUSSIA.

Germany is Correctly Neutral but Her
Sympathies Are Decidedly Pro
Russian.

London, Feb. 13.—The end of the first week of the Russo-Japanese war brings intense satisfaction in Great Britain, and the extent of the popular jubilation finds no adequate expression in the London press, which is careful not to offend Russia.

From the point of view of the man in the street, Great Britain's far eastern ally has exceeded all expectations, and even the naval and military officers who prophesied initial successes for Japan are surprised.

The total or partial disablement of nine Russian war vessels in the opening week of the struggle is generally considered by experts here as giving Japan control of the far eastern seas. Countless deductions, both military and naval, are drawn publicly and privately from the dramatic events which have occurred since Monday, and all the inherent naval interest pervading the United Kingdom has been stirred to its depths by the duel between Vice-roy Alexieff and Admiral Togo. If the British themselves had been involved in the movements of the opposing fleets they could scarcely have followed them with keener zest.

What strikes those responsible for the naval policy of Great Britain as most remarkable is the extraordinary disproportion between the loss inflicted and the loss sustained by Japan. The immunity of the fleets of the United States at Manila and Santiago astounded the naval authorities here, and now when Japan, to all intents, gains control of the seas without the

loss of a single war vessel and only four men killed, high naval and military officials in London openly confess that they are amazed.

Putting Japan's experience during the past week side by side with the results of the American engagements against the Spanish navy, the authorities here have come to the important conclusion that the efficiency of the navy personnel possesses an infinitely greater value over the material at hand than has ever before been attributed to it.

FRANCE STRONGLY FOR RUSSIA.

Paris, Feb. 13.—One of the most notable features of the first week of the war has been the steady increase of sentiment here favoring giving Russia every possible moral and sympathetic support.

At the outset the French officials and public generally maintained that the interests of France demanded that she keep clear of the possibility of any war entanglements growing out of the Franco-Russian alliance. This led some newspapers to assert that France was placing self interest above duty and deserting her best friend in the hour of greatest need.

A gradual reaction has occurred, until today official and public feeling runs strongly in favor of strengthening Russia in every way short of actual participation in war.

It was thought that the large Russian element would antagonize Russia, owing to the latter's attitude toward the Jews, but, on the contrary, Joseph Reinach, the friend and biographer of Dreyfus, has published a letter declaring that the honor and interest of France commands her to affirm her sympathy for Russia and to loyally hold up the alliance.

However, French feeling, which is usually demonstrative, has not shown any wild enthusiasm in behalf of Russia. This is in rather marked contrast with the uproarious manifestations at the time of the czar's visit to Paris and other recent events.

Two popular subscription have been opened for the wounded, one by the Russo-Chinese bank and the other by French newspaper men. The Russo-Chinese bank has a subscription of \$100. Many individuals are showing personal sympathy and are offering their services. The Russian embassy is receiving about a hundred offers daily.

Great interest is manifested here in the part Prince Louis Napoleon, Prince Jean de Bourbon are taking in the military service of Russia.

GERMANY PRO-RUSSIAN.

Berlin, Feb. 13.—The position of the German government respecting the Russo-Japanese war is well defined. It is exact neutrality in act, but in sentiment it is sympathetic toward Russian predominance in China rather than Japanese predominance there.

The common talk in ministerial quarters is that this is not a simple contest for territory in Korea or Manchuria, but rather a contest of civilization and of race itself, and if one must choose between the white and the yellow, Germany stands by the white.

The government here is conscious that Russia has not acted wisely and that Japan has sufficient reasons for making war, and especially that after the China-Japanese war in 1894 Japan

RUSSIAN PROTECTED CRUISER VARIAG, DESTROYED BY THE JAPANESE.

was advised to give up Port Arthur and that Russia took possession of this place. Germany recognizes also that other powers have cause for complaint in that Russia did not keep her promise to evacuate Manchuria, and that among these powers is Germany, which holds opinions identical with those of the United States concerning the "open door." The foreign office has this week expressed this view to the state department, at Washington, but beyond these considerations, there are no cordial to a very high German official, greater considerations of statecraft which prompt Germany to withhold its sympathy from Japan and to hope that Russia will not be vanquished.

Japanese victory is believed by this official to mean that Japanese influence would be supreme in China, and that the cry would go up, "Asia for the Asiatics." He believes also that, territorially and economically, Great Britain, Germany and the United States would, in the event of Japan's winning, be expelled from the east. In Germany there is foreseen a state of affairs when Japan shall have trained several million Chinese as soldiers and sailors and inspired them as Gordon's "ever victorious" army was inspired by successful and thoughtful leadership. The "yellow peril" is a conviction in Germany, and Germans readily accept the view of Russia that to give Japan equal rights to enter and settle Manchuria and to cross the 3,000 miles of frontier separating China from Russia might turn western civilization back upon the Ural mountains.

Port Arthur Sealed Up.

London, Feb. 13.—The Times Tokyo correspondent, cabling under date of Feb. 12, says:

"It is said that the Japanese squadron has sealed Port Arthur."

A Wei Hai Wei correspondent says that on the morning of Feb. 10 the Japanese occupied Ching-Hai-Wen, a Russian coal station, close to Maianpao.

Passengers who have arrived at Chefoo from Port Arthur say the Russian cruiser Askold was damaged in Tuesday's battle in the roads outside of Port Arthur, but was kept afloat all Saturday, when it sank in 30 fathoms.

Port Arthur Refugees.

London, Feb. 14.—A cablegram from Chefoo, under date of Feb. 11, says: The steamer Chefoo arrived here today from Port Arthur with a large number of refugees, consisting mostly of Chinese, but also a few Europeans. The reported land fight between Dainy and Port Arthur Tuesday morning is not confirmed by those who came from Port Arthur.

After the attack on Port Arthur Tuesday the Japanese fleet did not return. During the engagement about 30 shells struck the town. One landed on the main street and broke windows

endeavor to block the way and force an engagement.

The Japanese government has decided to accept the parole of France for the Russian prisoners captured at Chemulpo at the time of the sinking of the Variag and Korietz, provided they be sent to Shanghai. Russia engages not to let them come north of Shanghai until the end of the war.

An exception is made in the case of 29 wounded aboard the French steamer Pascal. They will be taken to Chefoo and placed in a hospital.

Robberies on the Riviera.

New York, Feb. 13.—Robberies of wealthy visitors to the Riviera are rife and apparently are the work of a daring band of well organized thieves, says a dispatch to the American from Mentone, France. A wealthy American widow reports having been robbed at her hotel of jewels valued at \$30,000. An English woman on her way back from Monte Carlo lost \$2,000, which she had won from the bank.

To Preserve China's Entirety.

Tokio, Saturday, Feb. 13.—United States Minister Grissom called on Premier Komura last night and an extended conference was held, the nature of which has not been disclosed. It is thought it related, probably, to the effort of the powers to obtain a statement of the attitude of Japan toward preserving the entirety of China, as has been proposed by Secretary Hay.

The situation in the north of China is exceedingly delicate. The Japanese have legation guards at Peking and Tien Tsin in close proximity to the guards of the Russian legations, and there is danger of a conflict. It is also feared that if the north of China is included in the sphere of operations it will be impossible to prevent disorder and uprisings as a blind for attacks on all foreigners.

Seoul is Anti-Russian.

Seoul, Feb. 11.—The Japanese minister has advised the emperor of Korea to arrest Yi Qong Ik, who has been a practical dictator and who was very friendly to Russia until there was danger of Japanese predominance. Two thousand Russians have arrived at Kapsaid, at the headquarters of the Yalu river. The Japanese are constructing a telegraph line north from Seoul.

VIEW OF PORT ARTHUR SHOWING POSITION OF THE RUSSIAN VESSELS SUBSEQUENT TO THE NIGHT ATTACK OF THE JAPANESE TORPEDO FLOTILLA AND DURING THE DAY BATTLE WITH THE JAPANESE FLEET.

The illustration shows the disposition of the Japanese and Russian vessels when the well planned double attack of the Japanese was made at Port Arthur. It was evidently the purpose of the Japs to coax the Russian vessels out into the open sea, where they would have been without the assistance of the fire from the forts, but the czar's officers, having had a taste of the Japs' mettle when their torpedo boats, a few hours before, put several vessels out of commission, preferred to remain close under the guns of the fortresses on the hill.

Then the Variag turned at right angles to the westward and steamed a short distance as if to make the beach, but was seen to suddenly turn and give the enemy her other broadside. The Japanese continued firing until 12:22 when the Variag was seen to be on fire near the stern. The Russian vessels then turned back toward the harbor and ceased firing at 12:42 p. m. The Japanese followed almost to the entrance of the harbor, firing on the Variag, which had a heavy list to port and was evidently in a sinking condition. The Korietz was practically untouched. The Variag lost 30 men and seven officers killed and 42 wounded. Count Muro was killed on the bridge. About 600 shells were fired in all, but the firing was not very accurate and the Variag was hit in only six places. One shot which struck her on the water line amidships wrecked one of her engines. When the Russians anchored off the entrance to the harbor, the British cruiser sent four hospital boats on board with a doctor and nurse. The U. S. gunboat Vicksburg also sent three boats with surgical assistance.

The Korietz was abandoned at 3:30 p. m., her crew going on board the Pascal, and at 3:57 p. m. she blew up with a terrific explosion. The Variag was abandoned soon after, her officers deeming her situation hopeless. Her dead were left on board. The crew of the Variag went on board the Talbot, and the Pascal and the Elba. Some also went to the Vicksburg. The Variag burned until 6 p. m. with frequent explosions as the flames ignited her ammunition. She sank turning over to port as she went down. The Russians eventually went from the Pascal to the steamship Sungalai. A Russian officer told the captain of the Vicksburg that he had come to ask asylum for one night only.

The Japanese casualties are not known but it is rumored that one torpedo boat destroyer was sunk during the action.

RUSSIAN SHIPS STRUCK.

Chefoo, Feb. 13.—The steamer Wenchow, arriving from Port Arthur reports that 11 Russian ships were struck in Wednesday's engagement. It is stated that the cruiser Askold with a big hole at the waterline has been towed into the inner basin and beached. The battleship Sevastopol has a shell hole just above the waterline and is useless in rough weather. The cruiser Novik has a hole in her after port side. The battleship Retvizan is on the beach and her bottom has fallen out. The cruiser Pallada was torpedoed about the engine room. The battleship Cesarovich which was also torpedoed, has been docked. The others were chiefly damaged in their upper works. The whole fleet has been taken into the inner harbor and Port Arthur is depending for protection in her, results which have been reinforced. There is frequent firing which is presumably drawn by Japanese torpedo boats. Firing was heard at midnight Feb. 11 at intervals, also on the night of the 12th and 13th. On Feb. 14 the firing continued until 5 o'clock in the afternoon.

An eye witness claims to have seen 15 dead landed from the Russian ships Wednesday. It is understood that Admiral Stark has been reduced for his failure to repulse the Japanese attack.

of Port Arthur have been reassured but that the Chinese are making frantic efforts to get away. Reports of Russian victories are it is said, being circulated to buoy up the hopes of the residents. It is apparent that the Russians have for the present decided not to use their fleet but to depend on the land forces. Eleven ships will, it is stated, have to be repaired before she can take the aggressive on sea.

The captain of the Wenchow reports that he was held at Port Arthur until all the Japanese in the vicinity were gathered and placed aboard. Japanese were brought from points as far away as Harbin. A few Japanese are left in Manchuria. The refugees left their homes and stores, many instances losing thousands of dollars.

Several Japanese have been arrested on the charge of having in their possession maps and charts. Refugees who go to Japan can give the government valuable information.

Nerve Fag.

If You Waste Your
Nerve Energy, After
While You Will
Suffer For It.

You can waste nerve force by excess, over-work, worry, anxiety, etc. You can weaken yourself by not eating proper food or securing sufficient rest to renew the nerve energy you use up.

The proper treatment, in addition to good phosphoric food, such as whole meal bread, prepared cereals, etc., is Dr. Miles' Restorative Nerve.

This is as truly a brain and nerve food as any food you could eat, and besides, furnishes strength and tone of its own, which goes to the weakened nerve system, and sets it to rights.

Dr. Miles' Restorative Nerve is a refreshing, revitalizing tonic food-medicine for the brain and nerves. It reconstructs worn-out nerve tissue, and fills your languid brain with new life and vigor. Dr. Miles' Nerve has made so many marvelous cures, of people so sick the doctors thought they were incurable, that it is today the standard medicine in many thousands of American homes. The first bottle is guaranteed to help you, or druggist returns your money.

"The extreme heat, close confinement and intense mental strain incident to the banking business, has caused me to suffer with nervousness and insomnia. It gives me pleasure to say that I have used Dr. Miles' Nerve with very satisfactory results. I am now on my fifth bottle, and eat and sleep well, and my nervousness and insomnia have been reinforced. There is frequent firing which is presumably drawn by Japanese torpedo boats. Firing was heard at midnight Feb. 11 at intervals, also on the night of the 12th and 13th. On Feb. 14 the firing continued until 5 o'clock in the afternoon.

in every house. Others struck chiefly the hills among small houses and one of them killed a woman and a child. The people are panic-stricken and are leaving town on every train.

The Pleiades Gets Away.

Boston, Feb. 14.—Word was received here today that the Boston Steamship company's steamer Pleiades had got away from Port Arthur, where it is believed she was detained for a week or more, first by the wrecks of the Russian warships, which blocked the exits from the harbor, and later by the refusal of the Russian authorities to permit her departure.

Alfred Winsor, president of the company, received a cablegram today conveying the information that the Pleiades had been released and had arrived at Chefoo, China, on Saturday.

Mr. Winsor said tonight that the cablegram was presumably from the company's agents at Hongkong. He had not heard anything as yet from the state department at Washington, to which the owners of the steamer had appealed to secure her release.

Russian Squadron.

San Francisco, Feb. 14.—An Associated Press correspondent, cabling from Tokyo, Feb. 12, says:

The presence of Russian squadrons in northern Japanese waters centers all interest there. The country is indeed and it is difficult to obtain satisfactory reports from there. A variety of rumors stir Tokyo.

One says Matsumaye has been holed; another, that the Japanese cruisers have engaged the Russians. The government has not confirmed anything except the Senjoh Maru incident. It is reported as probable that the Russian fleet either returned to Vladivostok after completing a movement planned to divert the Japanese and also passed through the Tataru straits, moving south.

The Japanese cruiser squadron is scouting in the hope of locating the Russian fleet. If the Russians should attempt to effect a junction with the Port Arthur fleet the Japanese will endeavor to block the way and force an engagement.

RHEUMATISM AN INDESCRIBABLE TORTURE

Because Rheumatism sometimes comes on suddenly it doesn't prove that it is a chance disease or one due to accidental causes. It takes time for it to develop, and is at work in the system long before any symptoms are felt. The blood is the first point of attack, and the poisonous acids that cause the aches and pains are then distributed through the circulation to different parts of the system, and settle in joints, muscles and nerves; and when the system is in this condition it needs only some exciting cause like exposure to night air, damp, chilly weather, or the cold, bleak winds of winter, to arouse the slumbering poisons and bring on Rheumatism. The severity of the attack depends upon the amount of acid in the blood and the quantity of acid matter in the joints and muscles. Some people are almost helpless from the first, while others have occasional spells or are uncomfortable, restless, nervous and half sick all the time from the nagging aches and pains. Rheumatism is a disagreeable companion even in its mildest form. It grows worse as we grow older, and frequently stiffens the joints, draws the muscles out of shape and breaks down the nervous system. A disease that originates in the blood, as Rheumatism does, cannot be cured with external remedies like liniments and plasters; such things scatter the pains or drive them to some other part of the body, but do not touch the disease or improve the condition of the blood. The thin acid blood must be restored to its normal purity and strength, so that all poisonous substances may be carried out of the system, and no medicine accomplishes this in so short a time as S. S. S., which not only neutralizes the acids and counteracts the poisons, but builds up the general health at the same time.
