SALT LAKE CITY, May 8, 1873.

Buying at $1.13; Selling at $1.17.

LOCAL AND OTHER MATTERS.

THERMOMETER 62 degrees F. in the shade, at 1 p. m. to-day. Fine day.

THEATRE.—Miss A. L. Dargon will commence an engagement this evening in the play of "Unmasked," which has been re-written by Mr. Fred Lyster. Miss Adams appears as "Mrs. Sherman," Mr. Cogswell as "Albert Lamar," Mr. Thorne as "Mr. Henry Lee," Mr. Harris as "Julius Cæsar," and Mr. Lee as "Squire Mansfield."

Miss Dargon appears in other plays during her short engagement, including a new Irish drama, entitled "The Rising of the Moon," expressly written for her.

THAT OTHER CASE.—The City quarantine physician is of opinion that the present case of smallpox in the Eleventh Ward must have arisen from the child coming in contact with some article thrown out of the Canuteson house, which had not been disinfected. This shows how careful people should be in such matters. The new patient lives next house to that occupied by Mrs. Canuteson.

PERSONAL.—L. R. Marcus and B. A. Phelps, Esqrs., called upon us to-day, in company with Col. H. S. Beatie. The two former are staying at the Walker House, have been here a week and purpose leaving on Sunday or Monday, going eastward. The first named gentleman is connected with the dry goods house of Dodd, Brown & Co., N. Fifth street, St. Louis, and the second with the hat, cap and millinery firm of Gray, Kimbrough & Co., of the same street and city. They appear well satisfied with their business success in this city and speak in high terms of the pleasure which their visit has afforded them.

SALT LAKE CITY, May 8th, 1873.

Editor Deseret News:

It seems to your correspondent that it is high time the penitentiary question of this Territory was settled. The Warden appears to be entirely at a loss to know where to place the prisoners under his charge for safe keeping. A few days ago application was made for permission to have the lately constructed iron cages placed on the 12th Ward School House lot and to lock the prisoners up in the basement of the school house at night, and, unaccountable as it may appear, somebody or other must have granted the request. Only think of it—a day school in operation with a large number of pupils in attendance while a bevy of double dyed rascals, foul-mouthed professional jail-birds, are perchance uttering oaths and disgusting obscenities, tainting the very atmosphere of the place, which should be pure as the breezes of heaven. Only think of singing and praises to the Great Eternal, and curses and imprecations going on in close proximity at the same time.

I am a "Twelfth Warder," sir, and I certainly object to the school-house being turned into a penitentiary, or a den for "unclean things," and I trust that every resident of the district will utter his protest against this strange action.

In thus writing I have no desire to find fault with the Warden, who is only seeking to obtain a place of safe keeping for the prisoners under his charge, nor do I think that there was any intention to do wrong on the part of the party or parties who gave permission for the prisoners to be locked up in the school-house or on the lot, but that the result of such action would be evil I have not a particle of doubt.

Respectfully, PROTESTANT.

We must say that the matter treated upon in the above communication appears to us in about the same light as it does to Protestant.

TELEGRAMS at the Western Union Office for E. J. Field and James Fowler.

EDUCATIONAL.—We have been permitted to make the following extract from a letter to School Superintendent R. L. Campbell, from Mr. J. S. Rawlins, a young gentleman of this Territory, who is now at the Bloomington, Indiana, College, finishing his educational studies:

"Your inquiries are interesting, and I shall endeavor to answer them candidly.

"The studies I am pursuing at present are Civil Polity, Latin (Tacitus), Philosophy (Hydrostatics and Pneumatics), and Physiology. As to the studies taken heretofore, I have pursued all those found in the classical course till the end of the junior year. These you will find by reference to the catalogue I send you. I have also taken several in the scientific course. I have not had the pleasure of visiting normal schools. The little opportunity I have had to examine into the various modes of instruction I have endeavored to improve, and frequent visits to some of the public schools in this State, as well as conversations with teachers, and the perusal of articles upon the subject, have given me some information.

"I was an associate editor of the Indiana *Student* during the greater part of last year, and at the beginning of this year was unanimously nominated by the students of the college for the chief editorship, but other duties prevented my acceptance. I have aided in its publication both this year and last, as a proof-reader and contributor.

"Your intimation concerning the establishment of an educational paper in Utah, etc., has led me to consider the chances for the success of such an institution. To be a success I think it would be necessary to give the term educational its generic meaning.

"I am in full sympathy with the educational cause in Utah, and your laudable efforts in that direction."

HUGE OATS.—Yesterday we were shown a very remarkable specimen of oats. It was in the form of a big boulder, weighing seven and a half pounds. The party who brought it to this office and exhibited it to us stated that this boulder was one among a number of others of the same description which a person had sold to a produce dealing establishment among a quantity of oats, and which that establishment unconsciously disposed of to a customer. The latter, as a matter of course considered them "hard feed," and as such might disagree with his horses.

The person who would be guilty of perpetrating so mean, contemptible and dishonest a trick as this is too insignificantly small for consideration in any way whatever, except to be put in the penitentiary. If he should not repent it is to be hoped he will be caught at one of his infinitesimal tricks, that his meagre soul may be taught a salutary lesson by the administration of an appropriate degree of chastisement.

These boulders were too big and heavy to have been placed in the sacks inadvertently.

Similar disreputable tricks have been resorted to occasionally by parties disposing of paper rags at this Office, a few of which have been discovered in good time.

ATTEMPTED SUICIDE.—A young man evidently suffering from *mania-a-potu* attempted to kill himself yesterday afternoon. After indulging in potations at a saloon to an extent beyond the limits of prudence, he pulled a rope out of his pocket and declared his intention of hanging himself. He said he had lost $400, all his worldly possessions; he was penniless and had no friends to help him. In front of the house in which he had then been imbibing he tied the rope to the head board of an awning, and fixed a noose into which he placed his neck. Everything being prepared to his satisfaction he made a jump, and came down with a thump. He would have been strangled to death but for the timely assistance of a companion, who cut the rope. When he was relieved from the incumbrance his face was black, and his tongue protruded from his mouth. He was at once taken to jail, where he spent the night. This morning he went to Salt Lake City.—*Ogden Junction, May 7.*

WANT HIS ADDRESS.—John Brown, who arrived at Rockport, Summit County, where he now lives, in November last, is desirous of discovering the whereabouts of a Mr. Emsley, formerly of Strawberry Vale, Pinchley, County of Middlesex, England. Who can tell him?

LOST.—A man named Samuel Mulligan, who has recently become demented, from the effects of a stroke of paralysis, left Homansville, Utah Co., some time since, and, when last seen, was at Union Fort. Any person meeting with him should report to the proper authorities, that he may be returned to his friends.

AUSTIN BROWN.—A few days since this gentleman asked, through the News, for information concerning the relations of his deceased father, Alfred Brown. We are informed that the latter was one of the Presidents of the 11th Quorum of Seventies, and that the record of the Quorum, which is in possession of Brother W. H. Folsom, contains a biographical sketch of his life. By applying to this source Austin will probably gain considerable of the information he desires.

SHOSHONES.—The old chief Segwitch and about thirty of his band, Shoshone Indians, were in town to-day, just in from the northern part of the Territory. They are more cleanly and rather better looking than most of the Indians in that part of the country. They called at the Tithing Office to-day, where they received a donation of three quarters of a ton of flour. That is the way to do the fighting with Indians, treat them well, never break faith with them, and they will then know that it is to their best interests to be peaceable, and, as a general rule, they will maintain that kind of an attitude.

(By Deseret Telegraph.

Fire at the Emma Mine.

ALTA, Little Cottonwood, May 8th.—At 9.20 this morning a fire broke out in the engine room of the Emma mine, and before it could be checked it spread to the carpenter and blacksmith shops, completely destroying them. There was the usual force of men working in the mine, and only for there being another means of escape they would undoubtedly have been suffocated, as the buildings were over the mouth of the tunnel and shaft, and the air pumps could not be worked. The men succeeded in escaping through the Illinois tunnel. The engine and boiler were saved, and it is probable work will be resumed in two or three days.

NOTICE.—The Elders' Quorum will meet in the 14th Ward Hall, next Saturday evening at 7 o'clock. As there is some quorum business to be transacted, it is desirable that all Elders identified with the Quorum should be present.

By order of B. L. PEART, President.

MANUFACTURED MARBLE.—Mr. P. Margetts has some fine specimens of manufactured marble, from Boston. He is the agent of the company owning the patent right to sell it, the patent, for this Territory. It is believed that the material for the manufacture of the article abounds hereabout, and if this is the case it can be made at a very cheap rate. The specimens are really beautiful.

NECROSIS OF THE FEMUR, which in English means, death of the thigh bone, is the name of a disease for which Dr. Joseph Benedict performed an operation this morning, in the 9th Ward of this city, upon the left thigh of a robust young man, 19 years of age, named Morton Cutler, from Glendale, in Southern Utah. The patient has been lame for the past five years, and has suffered intensely during the whole of that time. Finally, finding every remedy tried and all assistance hitherto sought, vain, and his disease becoming worse, he sought the best medical assistance in this city, when his affliction was pronounced to be death of the bone—caused by inflammation of the membrane which covers it and induced by cold—and the only hope of relief, the extraction of the dead portion thereof.

The preliminary operation was performed in the presence of Drs. Hamilton, Anderson, Nelson, Fowler, Richards and Bush, the four gentlemen first named assisting Dr. Benedict.

At 12 minutes to 12 o'clock the administration of ether to the patient was commenced, and at 25 minutes past insensibility was produced. He was then placed in a proper position, and on the under surface of his thigh, about three inches above the knee joint, an incision was made about eight inches long. Investigation showed that the whole shaft of the bone, for at least five inches in length, was dead and the Doctor, being unable to remove the dead bone on account of its size, enlarged the opening in the involucrum—the splice which nature throws around a bone when it is diseased. The operation occupied until ten minutes to one, when the patient was left in a tolerably comfortable condition. The case is likely to be a tedious one, but, on account of his youth and strength, the chances for a successful termination are good. It will probably be several weeks before another operation can be performed, the hope being that in the interim Nature—as she generally does in such cases—will produce a separation between the living and dead portions of the bone, so as to enable the whole of the latter, to be removed.

OUR FATHER'S HOUSE—THE UNWRITTEN WORD.

BY DANIEL MARCH, D. D.—*Author of Night Scenes in the Bible.*

THIS Earth is one of the Mansions of OUR FATHER'S HOUSE and all the forms and forces of the physical universe are revelations of God's UNWRITTEN WORD. The author, in this new volume, goes from room to room in the great house that God has built, showing us the riches and splendors stowed in every department, making the whole journey of life a happy walk of children with their Father—going out into open fields, listening to the singing birds, the whispering winds and murmuring forests; looking with ceaseless delight on green landscapes and grazing flocks, on beautiful flowers and springing grass; gazing with awe at the wonders of the mighty deep, walking beneath the shade of ancient mountains and climbing sacred heights. Wondering at the great Earth wheel turning beneath our feet, watching the storm with cloud on cloud in billowy darkness rolled, lightnings answered in thundering voices and again the beautiful bows hang out on the retiring cloud.

Cure for All!—Never Despair!

E. L. PLANT.

Bronchitis, Diptheria, Coughs, Colds, and all Derangements of the Throat and Chest.

In any of the above diseases, immediate and permanent relief is obtained by effectually rubbing this detergent Ointment twice a day upon the neck, chest and back, and in all stages of influenza, settled coughs and wheezing at the chest, the same treatment may be followed with efficiency and safety.

Bad Legs, Bad Breasts, Old Sores, Wounds, and Ulcers.

By rubbing this Ointment perseveringly upon and around the affected parts twice a day; it will penetrate to the tissues beneath, and exert the most beneficial influence: the inflammation soon diminishes, the pain becomes less intolerable, the matter thickens, and a cure is soon effected. In all long standing cases Plant's Pills should also be taken, as they greatly assist in expelling all depraved humors from the body.

Skin Diseases of all Kinds.

In this class of complaints, no matter the age, the sex, the place, or under what name the disease may be classified, immediate ease, and ultimate cure, may with certainty be procured, if this Ointment be plentifully rubbed upon the part affected, while Plant's Pills are taken in appropriate doses, night and morning, to purify the blood.

Gout, Rheumatism and Glandular Swellings.

Every one suffering from these excruciating complaints should have recourse to these purifying remedies, as they have rescued thousands from a life of torture, after all other means had failed to give them relief. The Ointment and Pills used conjointly will act so searchingly and certainly, as to effect cures in the most hopeless cases.

Piles, Fistulas, and Internal Inflammations. Persons afflicted with these distressing complaints will find in this wonderful Ointment instant means of relief, and all can effect their own cure without explaining their infirmity to any one. Plant's Pills, if taken in small doses, greatly assist the Ointment, as they purify the blood and regulate the stomach in an extraordinary manner.

Both the Ointment and Pills should be used in the following Complaints:

Bad Legs, Bad Breasts, Burns, Bunions, Chilblains, Chapped Hands, Contracted and Stiff Joints, Corns (soft), Fistulas, Gout, Glandular Swellings, Lumbago, Piles, Rheumatism, Sore Nipples, Scalds, Sore Throats, Skin Diseases, Scurvy, Sore Heads, Tumours, Ulcers, Wounds.

The Ointment and Pills are sold at Professor Plant's.

The Ointment is sold in pots at $1 and $5; the smallest Pot of Ointment $1; the smallest Box of Pills $1, which contains four dozen. Sent to all parts. Full printed directions are affixed to each Pot and Box.
