## PREPARING FOR WINDING-UP SCENE

Notion Made Yesterday Afternoon For the Appointment of a Sifting Committee.

PURE FOOD BILL IS KILLED.

Bouse Passes Measure for a State Board of Poultry Commissioners -One New Bill.

The beginning of the end has alresty made its appearance in the Legslature. Yesterday afternoon Austin moved the appointment of a sifting mmittee to examine all bills and report those worthy of further consideration. Joseph moved to amend by substituting the word "scouting" for sifting" as, said he, there were a numper of committees that had yet done practically nothing with the bills before them, and he thought it was no more than right that these committees be required to report. After some little discussion of the matter the amendent, carrying the motion with it, was

tabled.

The house then got down to business and took up the calendar, cleaning it up before adjournment was taken at 4.9 H. B. 157 by Marks, defining the 4.9 H. B. 167 by words or figures, came next, the bill going through by consumers word.

came noxt, the unanimous vote.

H. B. 159 by the same author was not so fortunate. The bill provides for the collection of fees of the county recorder, and after some little discussion was recommitted for further construction.

FOOD BILL KILLED.

H. B. 121 by Hawley, creating the of-fice of dairy and food commissioner, suffered an ignominious fate, a mo-tion by Joseph to strike out the enact-ing clause, passed on the following

Ayes—Allen, Anderson A. V., Carroll, Christensen, Cottam, Dalley, Edward, Gundry, Johnson, Jones, Joseph, Kinpey, Kuchler, Luther, Lyman, Maughn, Marks, Merrill, Miller, Pace, Panter, Pancake, Richards, Simons, Spencer, Stewart, Stookey, Stringham, Thompson, Tolton, Wilson, Wootton, Hull—33. Nays—Anderson J. A., Austin, Cromar, Curtin, Dean, Hawley, Hone, Mocres, Roberts—9 Wilson, gaye notice that he would

Crea, Roberts—9 Wilson gave notice that he would move for a reconsideration.

The bill which stirred up discussion was H. B. 51 by Dean, establishing a state board of poultry commissioners, defining their duties and appropriating \$1,600 for the payment of premiums. Joseph then offered an amendment providing that an admission fee of 25 cents should be charged at each show given by the comalssion, the funds to be turned into the state treasury. Wilson thought the amendment was not offered in good fath and meekly suggested that "The gentleman from Sait Lake has a mild say of amending bills to death." The amendment was lost. Then Kinney mayed to sirike out the appropriation, as he believed the commission would erroach on the rights of the D. A. & M. society. Stockey opposed the moing their duties and appropriating M society. Stookey opposed the me tion as did also Edward, who thought the poultry and egg industry should be tostered rather than discouraged. connection the gentleman stated he believed eggs should be sold by the pound rather than by the dozen, to prevent fraud. The amendment failed, whereupon Joseph came forth with another, making the bill cover the egg industry. This was ruled out of order.

BILL PASSES.

Miller offered an amendment cutting down the uppropalation from \$1,600 to \$1,000. The amendment prevailed and the bill passed by the following vote: Ayes-Allen, Anderson A. V., Anderson J. A., Austin, Carroll, Christensen, Cottam, Cromar, Dean, Edward, Fishburn, Gundry, Hawley, Jones, Luther, Lyman, McCrea, Miller, Pancake, Panter, Stewart, Stockey, Wilson, Wootton, Holl-25.

Nays - Curtin, Dalley, Johnson, Joseph, Kinney, Kuchler, Maughn, Mer-rill, Pace, Simons, Spencer, Stringham, Thompson, Tolton—14.

Thompson, Tolton—14.

H. B. 80, by Cromar, providing for the protection of alien laborers, making it a felony to withhold money, time checks or due bills belonging to said laborers, passed on a vote of 35 ayes to 3 nays, those opposing the measure being McCrea, Miller and Simons.

H. B. 101 by Curtin, relating to boards of health, was recommitted.

During the session McCrea offered a resolution calling upon the state audients.

resolution calling upon the state audi-or to forthwith report to the Legislae certain information concerning

Joseph introduced H. B. 222, an act to repeal chapter 88, laws of 1899, giving preference to bona fide settlers in the purchase of school lands from the state.

# HEALTH

Wost Important

In buying food-articles, you must consider several things: Economy, Results, Easy Handling, Reliability; but the most important is Health.

Health means everything. In clothes, furniture, etc., if the buyer gets a poor or imitation article, the only harm is loss of money. In buying food-articles, if imitations are supplied, there is a loss of money, and probably an injury to health -which is beyond price

Remember these facts when buying baking powder.

## FISH AND GAME BILL IS PASSED.

Senate Disposes of Measure Drawn By Sharp and Championed by Callister.

#### DEBATE WAS INTERESTING.

Protection of Ducks for the Early Part Of the Season-Several Bills Pass -No Session Today.

The Utah housewife who tends in her marketing to selecting dressed waterfowl, and who would like just another experience of picking a favorite canvassbuck, had better do it now. When the open gun season closes March 15, the last duck will disappear forever and a day from a Utah market. Then all that will be left for the wife whose husband doesn't have a gun club membership, is to look up the family's friends, and see that the name of some hunter is on the calling list. Perhaps in that event she may receive a gift of half a dozen now and then when the clouds hang heavy and the ducks fly low.

A dead art will be wing shooting from now on, for the real professionals were those who followed the birds unceasingly, who knew where they were apt to feed in the morning, and where they flew when frightened from their ponds, and where he could find them settling down at night. His sport was in the size of his kill, which meant money for him, and the rapid destruction of the birds for all the gentlemen amateurs and hunters who think 30 a decent bag, and 40 a record. ship, is to look up the family's friends,

teurs and hunters who think 30 a de-cent bag, and 40 a record.

The new fish and game law passed the senate yesterday afternoon after one of the most interesting debates of the session. It appears to have a clear road ahead through the house, as its provisions have been discussed from every possible standpoint, and in point of proposed changes in existing laws it of proposed changes in existing laws it is the most decisive piece of legislation

yet enacted. The measure was originally written by John Sharp, fish and game commissioner, and was introduced by Senator Callister. Although frequently assailed in committee and on the floor, it passed without any vital changes. It prohibits spring shooting, the sale or offering for sale or the shipping of wild. hibits spring shooting, the sale or of-fering for sale or the shipping of wild game, and provides county wardens in each county to look after the fish and game of that county. The amend-ment prohibiting the sale of ducks was introduced by Park. Discussion consumed fully an hour, at the end of which Bennion moved to strike out the enacting clause, on the grounds that every legislature had tried to enact a new fish and game law, and he thought this session could well pass the proposition up. #### THE HEBR W RACE.

Rabbi Freund Lectures on the "Popular Misconception of the Jews."

"Popular Misconception of the Jews' was the subject of an interesting and forcible discourse delivered 'last evening by Rabbi Charles J. Freund at the Temple B'nal. He attributed much of the ridicule to which the Jewish people are subjected, to the comic papers, but the clergy also came in for a goodly portion of the blame for misrepresentations of that much abused and greatly misunderstood people. It had been declared by Dr. Funk that at a recent dinner given by clergymen in New York there had been more Jewish stories resurrected than for 10 years past. Concerning these stories Lewis Marshall wrote to Dr. Funk as follows:

From what you say, the table talk of these men of God could have been little from the Bible. They could not have resurrected stories of the Hebrew prophets, nor could their conversation have been of the Psalms, or of Job, or have been of the Pasims, or of Job, or of the sayings of the fathers, or of Hillel, or the Tainud, or of the poets, moralists or philosophers who for 20 centuries of persecution unequalled in the annals of man, kept alive the spiritual heritage of the world and created a literature of which the Jewish encyclopedia is now giving the world a slight glimpse, while their persecutors were but savages and barbarians. Were the stories that your clerical dinner friends resurrected at the memorable feast the shameful superstitions of mideval bigotry, of stories of the black death, of poisoned wells, of the horrible blood accusations? Did they brand us as Shylocks, or as Fagins,

or retail the stories of the inquisition of the procurator of the Holy City, of Esterhazy or of the redoubtable Count Pucklary uckler?" Rabbi Freund said:

Puckier?"
Rabbi Freund said:
"There has been a marked prevalent tendency to wilfully misrepresent the Jows, and accordingly give a false impression of him. We need not delude ourselves that the great era has dawned in which 'justice reigns supreme.' The world will yet have to make many strides in advance before 'justice to the Jew' will be enduringly and effectively accomplished. The process of education will have to go on before men are fully aware that their false presentations are often far from the truth.
"Well meant fun is never amiss, but when it goes to the extent of creating false impressions that can only work harm, a halt must be called. The utterances of the pulpit, the pleas of the press can be of little avail if, depsite their efforts, those who are thus mailciously assailed will still give their patronage to those whose efforts are frequently directed toward injuring them. We have the remedies right at hand, but, ignorantly or otherwise, we fail to make use of them. We have to watch and imitate the Irish people to give us an idea as to how to deal with the faisliers of the truth. The forces of physical strength may only be the means of causing a cessation of false stage caricature."

I am compelled by a sense of gratitude to tell you the great good your remedy has done me in a case of Contagious Blood Poison. Among other symptoms I was severely afflicted with Rheumatism, and got almost past going. The disease got a firm hold upon my system; my blood was thor-oughly poisoned with the virus. I lost in weight, was run down, had sore throat, eruptions, splotches and other evidences of the disease. I was truly in a bad shape when I began the use of S. S.
