THE DESERET EVENING NEWS.

FIFTY-FIRST YEAR

NO \$5,000,000 FOR FIVE UTAH MEN.

Prize Fake Story of the Year-Standard Oil Trust Does Not Pay \$5,000,000 for a Utah Invention.

Washington, D. C., March 29 .- To the Deseret News, Salt Lake City, Utah "Statement untrue; kindly wire me quick, care the Auburn, Washington, stating who gave our the report. This dispatch was in answer to a telegram sent to Senator Cannon by

the Deserst News, early this morning, asking for information concerning the the Densi and glaringly printed rumor in today's Salt Lake Herald to the sensationar he, W, A. Nelden, M. H. Walker, J. R. Walker and Judge Colburn, effect that are, wonderful new light invention of Albert Hays of this city to the had som the company for \$5,000,000, or \$1,000,000 each, the inventor retaining a big royalty in the invention.

The story was made to occupy the greater part of the front page of the Herald: the matter was set double measure and the pictures of Senator Cannon and Judge Colburn were given marked prominence. While the Herald from its front windows displayed the following bulletin throughout the day as an example of its enterprise in getting the news:

"HOW FIVE UTAH MEN MADE \$5,000,000! TOLD EXCLUSIVELY IN THE HERALD TODAY. THE HERALD PRINTS THE NEWS."

THE FAKE SPECIAL.

The article was based on the following special telegram to the Herald: New York, March 28 .- It is announced here today that the Standard Oil company has closed negotiations for the purchase of a newly patented process for producing power heat and light, the invention of a Salt Lake man. The price paid is \$5,000,000 and the inventor retains a royalty right in the inven-

It is said that the patent covers a process for converting coal oil and petroleum into gas; that this gas produces the most brilliant light, and that it can also be used for generating heat. It is understood that the Standard Oil company will not use the invention for lighting purposes, as that would dimisish the market for its oil product,, but that it will be utilized as fuel for steamships and other power-generating plants that now require the use of coal as fuel.

IMMEDIATELY DISCREDITED.

"This is a beautiful-a very beautiful story," said a close friend of Senator Cannon this morning. "The only thing that is wrong about it is that there is not a single word of truth in it. If it had been true I should have heard of it. Not having heard of it I am certain that it is incorrect.

General John Q. Cannon, brother of Senator Cannon, said to the "News" this forenoon, before departing for San Francisco: "I do not take the slightest stock in it. Had any such deal been accomplished Frank would have notified some of his folks about it. The fact that he has not done so is evidence to my mind that the story is a fake."

Hugh Cannon, another brother, shook his head and said: "You will find that the story is all moonshine., Frank and his immediate associates have been East on this matter and other business matters for some time, but the Herald's story, in my opinion, is absolutely without substance."

That Senator Cannon and his associates have an invention of value-of very great value-there is little doubt. From tests made in this city it is beyed to be especially valuable in the direction of generating heat and It is understood that there are yet some serious difficulties to overcome in perfecting it for illuminating purposes. Said one gentleman who had given the matter a good deal of attention: "I am sure the patent has never been sold for any such sum as given by the Herald, if, indeed, it has been sold at all. It may be that an option for that amount may have been given pending a substantiation of the inventor's claims for it. But until these have been proved beyond a question of doubt, depend upon it that no such deal will ever go through." When seen this afternoon Mr. J. R. Walker referred the "News" to Louis H. Farnsworth, whom he stated had the Walker interests in the invention in charge; but beyond the fact that Mr. Farnsworth admitted that negotiations were under way to sell the patents to Eastern capitalists, he refused to talk about the matter in any of its phases whatever. Mr. Walker was the only gentieman in the city who is associated with Senator Cannon in the enterprise, Mr. M. H. Walker being in California, Mr. Nelden en route to New York, and Judge Colborn in New York.

Russia So Regards the Munchurian Convention.

CASSINI MAKES THIS PLAIN

When Abnormal Conditions in China Have Been Removed, Forces in Province Will be Withdrawn.

Washington, March 29 .- It is stated on excellent Russian authority that the Manchurian convention has been simply regarded as a modus vivendi. It was this phase of the subject which Count Cassini brought to the attention of Secy. Hay yesterday and simultanoously it appears to have been impressed upon the minds of the British officials,

as Lord Lansdowne announced to the house of lords, that the convention viewed as a modus vivendi might not present the objection heretofore held against it.

The Russian authorities at Washington have all along construed the convention as a modus vivendi, although Count Cassini has now made this rather plainer to Secy. Hay. It is explained that the term modus vivendi, as apply-ing to the present convention, means that abnormal conditions have arisen in Manchuria and that normal conditions can best be restored by means of a modus. The chief purpose of the mo-dus, it is explained, would be to provide for the evacuation of Manchuria by the

Russian troops, as their presence is part of the abnormal conditions brought about by the disturbances. But with these forces withdrawn Russia expects that assurance will be given that "quiet will be maintained and that the former normal condition will be in fact re-stored." When the old state of things is thus restored it is the Russian view that the modus vivendi will cease to operate, as its purpose will have been secured-of correcting the abnormal Russian protectorate or suzerainty

Preston J. The dispatch which came today was, how-ever, not so reassuring. It is surmised that President Cannon had some im-portant business matter that required immediate attention, hence the request for Attorney John M. Cannon to ac-

The Convention Ratifles Wage Scale Adopted Last Week.

Pittsburg, Pa., March 29 .- The coal miners of the Pittsburg district in convention here today ratified the wage scale signed last week by the wage committee. This action insures steady employment for more than 20,000 men in the district for the coming year.

The convention then went into executive session to consider the situation in the Irwin district and devise means to induce the miners in that district to insist upon the adoption of the Pittsburg scale.

The coal operators of the Irwin field posted notices at all mines today that the rate of wages for the ensuing year from April 1 will remain the same as last year.

The notice is taken as an indication that the operators will not meet the mine workers in confrance and an effort may be made to enforce a strike. There are 25,000 miners in the Irwin district, but the operators claim that only 10 per cent are in the union, and the others are satisfied with the scale and conditions.

EMPEROR WILLIAM'S SPEECH

German Liberal Papers Say His Majesty is Ill Informed.

Berlin, March 29.-The conservative papers today do not discuss Emperor William's speech to the Emperor Alexander grenadier regiment at their bar-racks yesterday, but the liberal papers generally comment on his majesty's utterances, emphasizing the state-ment that the emperor is ill informed concerning the character of the March (1848) revolution in Berlin. The National Zeitung expresses its inability to comprehend what current events induced the emperor to refer to the revolution of 1848, and says it does not see any signs of his majesty needing a body guard. The Vossische Zeitung is also unable to see any occasion for emperor's words, since nobody in Berlin is thinking of a revolution, and his majesty's predecessors repeatedly recognized the loyalty of Berlin' population.

The Vorwærts cites a number of previous speeches of the emperor, exhorting the soldiers to fight for him when necessary, and claims it has authentic information that his words were literally as follows: "If the city of Berlin should again impudently and disobediently against the king, as in 1848, then. ris grenadiers, it will be your duty, with the points of your bayonets to annihilate the Impudent and disobedient." The Tageblatt is amazed and asks what has occurred to justify the em-peror's words. It hints that the revolution of 1848 was not directed against the Hohenzollern dynasty, and

appeals "from the ill-informed emperor to the emperor rightly informed."

eral in the regular army, but it was thought that full reports should be awaited before action be taken. The matter probably will be allowed to rest where it is for the present. Gen. Funston is holding a volunteer commission as a brigadler general, which will not expire until June 30 of this year, so that so far as honor and emoluments are concerned, his standing would not be prejudiced by the delay.

The disposition to be made of Aguinaldo was a matter that could not be disposed of definitely. Whatever action is taken in regard to him will originate with the army officials in the Philippines, and be passed upon finally here. There is no inclination to deal harshly with the man who has led the insurrection against the forces of this country. Some of the cabinet officers think it is possible he may be used with good effect by the authorities of the Philippine commission in the establishment of civil government.Gen. McArthur's dispatch suggesting that Aguinaldo might issue an address advising the insurgents to accept the situation, was pointed to as indicating possibilities along this line. On the other hand, Aguinaldo's record has not been such as to win for him great

confidence in his constancy, and if his influence cannot be utilized safely, he undoubtedly will be sent to some place where he can foment no further trou-

Certain visitors are permitted to see Aguinaldo but newspaper interviews with the prisoner are not allowed Since Aguinaldo has been domiciled at the Malacanan palace persons not provided with special permits have been denied admission to the grounds. Gen. Trias, the commander of the in-

surgent forces in southern Luzon, who recently surrendered to the American authorities, visited Aguinaldo and told the latter why he had surrendered. Trias said that a continuance of armed opposition to the United States was unjustifiable and ruinous: that the in-dependence of the Philippines was imssible, and that the Filipinos would better accept liberty, prosperity and progress under American rule. The capture of Aguinaldo following

the surrender of Gen. Trias, will prob-ably occasion the surrender of the insurgent leader Malavar in Batangas province, Luzon; Bellaramino, in Albay province, Luzon, and Lucban, the island of Samar, within a month. 171
