PAROWAN.

Distressing Accidents.

Golden Wedding of Mr. and Mrs. Alexander Orton.

Special Correspondence.
Parowan, Iron Co., Nov. 8.—John H. Orton and wife were accidentally last week by being kicked in the face by a mule. The animal was in the stable and a saddle horse was in and Mrs. Orton was the victim of the accident. She received a blow which landed him outside the door. The bones of his nose were fractured and his face badly bruised.

Another accident which might have been more serious happened to Miss Alice Benson. She and some companions had been on a visit to the electric light plant and returning to town were overtaken by a team loaded with hay and in walking along by the side of the wagon Miss Benson stumbled and fell under the wagon and was run over by the horse. She was very strong and robust woman and was crushed to death. As it is she is getting along all right.

Mr. and Mrs. Alexander Orton celebrated their golden wedding on Nov. 1st by a family gathering at the home of their daughter, Mrs. Alvin Benson, a number of their old time friends and acquaintances were present, with three great grand children, and with the invited guests made a company of about 90 persons and a very pleasant afternoon was spent.

The new Relief society building is now up to the square and work is temporarily suspended until the carpenters can get the roof on.

HUNTINGTON.

Land for the Landless.

Election Results—Steam Thresher Outfit in the Ditch.

Special Correspondence.
Huntington, Emery Co., Nov. 6.—The town election here yesterday was a very lively affair. There was a large turnout in the field, there was a great deal of scratching. But the trouble with the voters was that they didn't know how to vote a scratched name, especially, and did not substitute another name for the one they scratched off. The result of the balloting was the election of John P. Monson as town president, John P. Monson as Robert A. Howard, M. E. Johnson and William H. Leonard as town trustees.

LOCAL IMPROVEMENTS.

This town has been almost at a standstill for a number of years, owing mostly to the lack of building material, but the last two years have been quite an improvement, as building material has been more plentiful, and a number of nice new houses have gone up, and a number more are in course of construction. The new public improvement has been the building of one

of the finest eight room schoolhouses there is in the state.

LAND FOR THE LANDLESS.

Nearly \$10,000 of work was done on the Huntington reservoir this last season, nearly doubling the amount of water it will hold. That fact, taken in connection with the fact that the town does not dread a dry season now as they did a few years ago. By building reservoirs there is enough water here to water thousands of acres of land and thousands of acres of good land are to be taken up. The land between the town and Camelsdale is mostly under claim now, and is being farmed, and it will only be a few years until the road between Huntington and Price will be lined with good farms. About 4000 acres of land has been filed on this summer between the two towns. A new townsite is being laid out about seven miles north of Cleveland, the water for this town and surrounding country will be taken from Huntington creek. There are three or four splendid reservoir sites on Huntington creek that before long will be utilized by men of capital, which will be a good paying investment.

Last week a large steam thrasher was brought into town for the purpose of threshing and separating and cleaning up grain. They finished four small lots and started to Lawrence today, and when about half way the outfit ran off a bridge, the engine is lying on its back very badly damaged and the thrasher is standing on end, both in the mud in a very bad place to get them out.

His family who survive him consist of six sons, five children and a number of grandchildren, seven children having preceded him to the other side. BEAVER.

Kicked by a Horse.

Bishop Baker of Minersville Has Leg Shattered—Mrs. Frazer Hurt.

Special Correspondence.
Beaver City, Beaver Co., Nov. 6.—Bishop P. Baker of Minersville, this county, is here under the care of Dr. D. A. McGregor with a badly broken leg. A few days ago he was riding to the field on a hay rack when one of the wheels struck a rock, causing the shaft to strike the horse on the shoulder. Although the horse was a gentle one, he began to show ugly signs, and Mr. Baker understood that he was in a bad way. He was thrown off the rack, and as he grasped the lever and stood up, the horse kicked him on the leg, shattering the bone into splinters just above the ankle. He is doing as well as may be expected under the circumstances, and the doctor has hopes that the limb will be saved.

Mrs. Annie Fraser met with a somewhat serious accident on Monday last by being knocked down in the corral by a cow. Fortunately the animal had been deboned, otherwise the trouble might have been much more serious. As it was, the cow was quite badly hurt by the animal butting and pulling her round the corral, and she is considerably pain from bruises, but no bones are broken.

The students at Beaver branch of the B. Y. U. turned out on Saturday last and dug a trench to receive the pipe for waterworks.
