

The Troubles in Utah.

SALT LAKE CITY,
June 4th, 1877.

So far as we have been able to ascertain, the reports that the Mormons are secretly drilling, and that a general uprising against the United States government is contemplated, are pure fiction. This subject has been the topic of much conversation wherever we have been in Wyoming, Utah and Idaho. There is a general feeling of indignation that the correspondent of the N. Y. Herald * * * should seek to stir up the whole country against the Mormons. In this he is seconded by the Salt Lake —, a sensational sheet. Its columns of late have been full of slander and malice, and it often has to retract something it has published previously. As is generally the case, however, the slanderous articles get copied while the retractions are seldom seen. The latest sensation is the absurd report sent forth by the Herald representative, Stillson, that attempts have been made to assassinate him, but his own accounts of both of the alleged attempts are "too thin" and show that he made them up out of whole cloth. The result of all these false reports during the past few weeks, has been to unsettle business to a considerable extent throughout the whole Territory, and is working in the east a positive injury to the credit of Utah merchants. An army officer attached to one of the United States surveying expeditions in southern Utah, who came on from Omaha with us and who has spent several years in and around Utah, and evidently knows what he is talking about, said the reported drilling of the Mormons was a "pure canard," but if there was to be any fighting "he hoped the Mormons would whip. The trouble," said he, "is just here. The Mormons came first and occupied all the best land. The credit of re-deeming the soil, and making Salt Lake Valley so prosperous belongs to them. They have done all there has been done. They are peaceable and industrious. The Gentiles came later, and some of them were mad because the Mormons had got ahead of them. They could not drive them out, for the Mormons were too many for them. Then they were angry because they couldn't have any of the public offices. They wanted to control the elections, and run the machine, but here unfortunately the Mormons outnumbered them ten to one, and that wouldn't work. Then they tried to stir up a feeling throughout the States against Mormonism. These Gentiles," said he, "who are making all this trouble, are the horse thieves, gamblers, border ruffians and cut throats, who have been driven out of respectable society in other places. They go around with their belts full of pistols and knives, wearing slouched hats and with their pants in their boots. Armed and equipped they are walking arsenals. Of their morals, the less said the better. And yet these are the men who are horrified because polygamy exists in Utah! And they keep up the cry in order to stir up the country against the Mormons, in order that they may come in for the offices and obtain possession of the fine lands." We find that this opinion is generally shared by the respectable Gentiles, though we have seen no walking arsenals yet. * * *

Mormonism, as a religion, our government has nothing to do with, any more than with Protestantism, Catholicism, Swedenborgianism, Spiritualism, or even the Paganism of the Chinese. Mormonism may and doubtless will exist after polygamy is dead. The latter is peculiarly obnoxious to Christians of every name and denomination, and therefore these Utah Gentiles who are hungry for office, keep the subject continually stirred up. The Mormons that we have conversed with are proud of their religion, but none of them thrust the subject forward. They admit that polygamy is not so much practised as it was. The respectable Gentiles, merchants and others, are held in high esteem by the Mormons. They are good citizens and are made welcome to the country by the Mormons. This class of the population are especially indignant that the recent prejudicial reports should have gone abroad. For this they blame Stillson, the Herald correspondent, and the Salt Lake —. There have

been militia drills ever since the Territory was organized. They have been necessary to keep the Indians in check, and in some districts they have been kept up, like the old fashioned training days in Connecticut. But there has been nothing secret about them. A young man, a Gentile, clerk in a Gentile store, who has been in the city nearly two years, who is squarely opposed to Mormonism, says this recent excitement is all gotten up by the "ring," aided by Stillson and the —. He don't believe any one attempted to assassinate Stillson, and we haven't found any one who does, though we've asked many. If these howlers could only get the government committed to send them troops they would be delighted. The Mormons would not object to the soldiers, only they don't like the excuse that is being made to get them here. In the present depressed state of business, it would help them greatly to have several regiments of United States troops here. It is well known that Johnston's army was a Godsend to them in 1858. The Mormons were then nearly perishing, and the soldiers brought not only money in plenty, but also an abundance of blankets and clothing. They had plenty of flour and grain then, as they have now, but there is no market for their productions, nor for their minerals. * * * However all this may be, there is no prospect that there will be any more soldiers brought here. Gen. Crook has put a quietus on that. He arrived here Saturday evening, on the same train with us, and gave the agitators an interview to-day (Monday) at the Walker House. While they could not help but acknowledge that the people are quiet and peaceable, they launched out against the leaders. According to them, the leaders were devils, who would not hesitate to plunge the whole country into war. They say if the officers of the law should attempt to arrest Brigham Young, there would be an immense popular uprising, and the lives of the Gentiles would not be safe. In response to this there is the fact that President Young has been arrested, and has passed a night behind the bars in a penitentiary, and there was no uprising. A Gentile said to us this afternoon, "Why I would like no better job than to arrest Brigham Young. He is the easiest man in the Territory to arrest, and would make not the slightest resistance." Gen. Crook evidently sees through the motives of the discontents, and as he refused to accede to their wishes he will doubtless become a target for their malice. After hearing all they had to say, he told them plainly they were only injuring themselves by the course they had taken. The sensational reports that had been sent out only tended to keep capitalists from investing in the Territory, and were a positive injury to business. He said he could see no pretext for bringing the United States troops here. It is hoped this decision of Gen. Crook will restore confidence in business circles, and that capital will continue to flow into the Territory.

Salt Lake City, the Mormon Zion, is "beautiful for situation," but not "the joy of the whole earth." We shall always remember with pleasure our brief visit here, but have not time now to write of all we saw and heard and did. We depart this afternoon with regret. W.

—Bridgeport (Conn.) Standard,
June 13.

Georgia poisons her dogs and permits her politicians to live.—N. Y. Herald.

London graveyards, long since disused for burial, are being converted into gardens.

After every fight the Russians bury about 300 Turks. The Ott. man forces meanwhile declare they haven't lost thus far but 300 in all. The question is, Don't the same old Turks do duty as mangled corpses over and over again? We see no other way of reconciling the contradictory stories.

"Is there anything that will make grain come up quick?" asked the gentleman-farmer of the old husbandman. "Well, no, I don't know of nothing that'll do it," was the genial old fellow's reply, "unless it's crows." Then the gentleman-farmer wanted to know where he could get some.

Fanny Davenport, the actress, has been visiting Blackwell's Island to study misery. The Danbury News remarks that if she wants to contemplate misery in its highest and broadest sense, she should watch a man pinning a fourteen-inch collar on a fifteen-inch shirt band.

It is told of the late Judge Benjamin Tappan, of Ohio, that when he applied to the judges of the Supreme Court, for admission to the bar of that State he was asked the following questions, to which he gave the answers as follows: "Mr. Tappan, what is law?" Answer—"An unjust distribution of justice." "Mr. Tappan, what is equity?" Answer—"An imposition upon common sense." No other questions were asked, and he was given a certificate of admission.

FARMERS, don't fail to see the Wheeler Mowers and Reapers at Mattison & Johnson's. No Farmer seeing these Machines will go home without one, they are the Boss of the field. w13

IN THE WHOLE history of medicine, no preparation has ever performed such marvellous cures, or maintained so wide a reputation as AYER'S CHERRY PECTORAL, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ. Against ordinary colds, which are the forerunners of more serious disorders, it acts speedily and surely, always relieving suffering, and often saving life. The protection it affords, by its timely use in the throat and lung disorders of children, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will. From their knowledge of its composition and effects, Physicians use the CHERRY PECTORAL extensively in their practice, and Clergymen recommend it. It is absolutely certain in its remedial effects, and will always cure where cures are possible. FOR SALE BY ALL DEALERS. 1

LAWs concerning Naturalization, Citizenship, Elections, Supervisors of Elections, and United States Marshals at Elections, in pamphlet form. Price 15 cents. Two copies, 25. For sale at the DESERET NEWS Office. d

IMPORTANT NOTICE!

Readers and Heads of Families

CUT out this notice and send it to the Graefenberg Company, 55 Rea e St., N. Y., together with TWENTY-FIVE cents, and you will receive by return mail, postage paid, a copy of their valuable family medical book, entitled

The Graefenberg
MANUAL OF HEALTH.

It contains 360 pages, handsomely printed on fine paper, and is written in language plainly understood by every one.

Centaur
Liniments.

One kind for the Human Family.
The other for Horses and Animals.

These Liniments are simply the wonder of the world. Their effects are little less than marvellous.

The White Liniment is for the human family. It will drive Rheumatism, Sciatica and Neuralgia from the system; cure Lumbago, Chills, Loc. J. W. Palsy, Ich. and most Cutaneous Eruptions; it extracts frost from frozen hands and feet, and the poison of bites and stings of venomous reptiles; it subdues swellings and alleviates pain of every kind. When strains or bruises occur, it is the most potent remedy ever discovered to heal the injured parts. The Centaur Liniment is used with great efficacy for Sore Throat, Toothache, Caked Breasts, Ear-ache and Weak Back. The following is but a sample of numerous testimonials:

"IN IANA HOME, Jeff. Co., Ind., May 28, 1873.

"I think it my duty to inform you that I have suffered much with swollen feet and chafes. A few bottles of Centaur Liniment has done the work for me. I have not been free from these swellings in eight years. Now I am perfectly well. The Liniment ought to be applied warm."

BENJAMIN BROWN.

he proof is in the trial. It is reliable, it is handy, it is cheap, and every family should have the White Centaur Liniment. The Yellow Centaur Liniment is adapted to the tough muscles, cords and flesh of horses and animals. It is performed more wonderful cures in three years of Spavin, Strain, Wind-galls, Scratches, Sweeney, and general Lameness, than all other remedies in existence. Read what the great Expressmen say of it:

"NEW YORK, January, 1874.

"Every owner of horses should give the CENTAUR LINIMENT a trial. We consider it the best article ever used in our stables."

"H. M. RSH, Supt. Adams Ex. Stables, N. Y."

"E. PULTZ, Supt. U. S. Ex. Stables, N. Y."

"ALBERT S. OLIN, Supt. N. A. Ex. Stables, N. Y."

The best patrons of this Liniment are Farriers and Veterinary Surgeons, who are continually using some Liniment. I heal Galls, Wounds and Prolapsus, remove swellings, and is worth millions of dollars annually to Farmers, Liverymen, Stock-growers, sheep raisers, and those having horses or cattle.

What a Farrier cannot do for \$20 the Centaur Liniment will do for a trifle or cost.

These Liniments are sold by all dealers throughout the country. They are warranted by the proprietors, and a bottle will be given to any Farrier or Physician who desires to test them.

Laboratory of J. B. Rose & Co.,
46 Day St., NEW YORK

Honey.

Pitcher's Castoria is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and Irritable children. It destroys worms, assimilates the food, regulates the stomach, and cures Wind Colic. Few remedies are as efficacious for Feverishness, Croup, Whooping Cough, Castoria is a safe and purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, Conn. May 3, 1876.

Messrs. J. B. Rose & Co., N. Y.:

Gents: I have a family of eight children and have used as much CASTORIA as any family in the United States. I think I have never found anything equal to it. My children have been saved from a fever several times by the use of Castoria. I recommend its use for children, for many diseases they are subject to, in preference to any medicine I know of. I feel it my duty to give this certificate on account of the benefits I have derived by the use of CASTORIA.

Very truly yours,
NORMAN P. LITTLE.
