Silica Deposits—J. D. Pile of this city has been making excellent light blue glass from silica found north of town. There was quite a glass industry started in Salt Lake some 20 years ago, as there is plenty of fine silica sands within easy reach; but the project failed as it was claimed the railroads discriminated so in favor of eastern manufacturers that glass could not be profitably manufactured here. The Crystal Line and Cement company has a fine silica deposit, and it is proposed to do something with it. A moderate sized plant, say of five pots, would cost \$40,000.

Transfer company, fell from his wagon late on Saturday afternoon and was seriously cut and bruised about the face and head. Anderson was accompanied by his employer, G. A. DEEDS IN PUBLIC DISGRACE

He Must Stand Trial for Immorality or Leave the Ministry.

COMMISSION MAKES REPORT.

Now in Southern California With His Family Where He Has Been Appraised of the Results.

Ex-Dean James B. Eddie of St. Mark's Cathedral is to be tried on charges of immorality unless he resigns his position as a minister in the Episcopal church. The ex-dean's conduct for some time been undergoing careful scrutiny under direction of Bishop Spaulding, and a commission was appointed on the bishops' return last winter from his eastern trip, to hear testimony and return the findings. The hearing was conducted at the bishop's residence, with closed doors, and the matter was left in the hands of Rev. A. Brown of Ogden, Rev. Charles McLaughlin of Evanston and J. Walcott Thompson of this city. The exact nature of the charges cannot be printed, but as near as can be stated for publication they involved the great charges of immorality against the dean and covered a long period. The dean offered a general denial, and claimed blackmail and espionage, but left the conduct of the Rev. James B. Eddie to the commission, as follows:

"The commission appointed by Bishop Spaulding to investigate the rumors respecting the conduct of Rev. James B. Eddie has rendered to him its report which is unanimous. The commission cites the canon as follows:

"If, in the opinion of the commission, or a majority of its members, there be sufficient grounds for presenting for trial the clergyman, who is the subject of said inquiry, a presentation shall be drawn and signed by the majority of the members, setting forth the charge or charges, with specifications thereof, in a succinct form, but so as clearly to advise the accused of the nature of the matters to be answered by him."

This canon is then interpreted as follows: "It is no province of this commission to pass judgment upon the accused." The presentation for trial follows and is based upon the evidence given before the commission. The church law requires the bishop to serve the presentation upon the accused within 60 days of the date, May 16, 1906. Sixty days further are given for the accused to reply to the charges before a court of three clergymen, selected according to the canon.

It is understood that he has been apprised by mail of the committee's findings and that he must stand trial or leave the ministry.

Mr. Eddie came to this city six years ago from Carson City, Nev., at the request of the late Bishop Leonard; resigned Dec. 12 last, and removed to southern California. The law firm of Dickson, Ellis & Ellis represent Mr. Eddie, and C. S. Varian the commission.

IT IS DANGEROUS TO NEGLECT A COLD.

How often do we hear it remarked: "It's only a cold," and a few days later learn that the sufferer has died of pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cures of this common ailment. It always cures and is pleasant to take. For sale by all druggists.
