

NEW O. S. L. YARDS OPENED TODAY.

Breaking and Making Up of
Freight Trains Transferred to
North Salt Lake.

PASSENGER CARS NEXT WEEK.

By End of the Month All Equipment
Will be Transferred to North
Salt Lake.

This morning the Oregon Short Line
transferred all its breaking and making
up of freight trains to the new
yards at North Salt Lake, a move that
will be appreciated by the residents on
the west side.

When seen this morning General
Superintendent E. Buckingham stated
that while it was the original intention
to make all the changes at the same
time it had been deemed advisable
to transfer the switching operations
to the new yards instead of the region
between First North and First South.
In about a week or 10 days from now
the passenger trains would be made up
in the new yards, and all the cars would
be cleaned there also, leaving the present
tracks free and ready for the
changes that are scheduled on the west
side. On or about May 15, he said, the
roundhouse would be ready, when all
the engines now stacked up at First
North would be taken out to North Salt
Lake, leaving the old round house and
other buildings on Third West empty,
and ready to be torn down prior to the
reorganization of the existing tracks,
and the erection of the big freight station
and passenger depot.

NEW TICKET AGENT.

J. L. King of Green River Goes to O. S. L.
Depot Office.

J. L. King, Union Pacific agent at
Green River, has been transferred to
Salt Lake as ticket agent for the Oregon
Short Line at the depot, taking
the place of Mr. Beemer, who has
been promoted to assistant ticket agent
and Mr. Kysar, the Union Pacific ticket
agent of the Harriman lines. Mr. Beemer
is busy today checking out prior to
installing Mr. King in his new duties.

MOTOR CAR COMING.

Union Pacific Interurban Car Arrives
Here Tomorrow.

The Union Pacific motor car, about
which so much has been printed in the
trade journals and the press of this
intermountain region, leaves Green
River for Salt Lake this afternoon with
indications that it will arrive here
tomorrow. The motor was in Cheyenne
yesterday when it carried a party of
newspapermen and railroad officials
over the Wyoming division.

After it has been given a trial spin
or two here it will be taken to Pocatello,
thence to Nampa and Boise and on to
Portland, where it will be a feature of
the Lewis and Clark exposition. It
was built in the Union Pacific shops
in Omaha under the direct supervision
of W. R. McKee, Jr., superintendent of
 motive power and machinery. After
considerable road tests and strenuous
trial trips it has been demonstrated
that the motor has come to stay and
will be a factor in interurban traffic,
so much so that this important branch
of railroading can be placed upon the
same basis as the interurban electric
lines.

It is the intention to place two of
these motors on the Short Line between
Salt Lake and Ogden; two on the Cache
valley branch and two on the Nampa-
Boise branch. As these motors have
interchangeable gear this makes it pos-
sible to run at a speed of from 40 to
70 miles an hour, their utility for pas-
senger and express business can be
readily seen.

Orders have been given to build eight
of these motors for commission in
Union Pacific-Short Line territory
where frequent stops and suburban
travel have so long been a thorn in the
sides of the trainmen of the regular
through trains.

The car proper is built on novel lines
with a cigar shaped front and as a
windster. The whole exterior de-
sign affords the least possible wind re-
sistance. Special springs are provided
to lessen the jarring motion insepar-
able from four-wheel cars. The motive
power is generated in a six-cylinder
gasoline engine which is capable of 50
revolutions per minute. In a trial run
with the Overland Limited recently the
motor left that crack train practically
at the post. The car is lighted with
acetylene gas and is handomely paint-
ed.

THOUSANDS SEEK IT.

Many Salt Lake City People Join
In the Search.

Nights of tossing—days of misery!
Nearly crazy from the constant itch-
ing:
Such is the lot of every sufferer.
With Eczema, Piles or any Itchings
of the skin.
Thousands seek and fail to find relief.
Many a Salt Lake City citizen can tell
you.

Doan's Ointment will cure all itching
skin disease.

Robert C. Gardner, of 934 East Second
South, says: "When a man has used
at least fifty different kinds of salves
and ointments during six years that he
has been pestered with itching hemor-
roids, commonly known as piles, that
man appreciates the means he last em-
ploys which bring him relief. A friend
gave me a box of Doan's Ointment
which he had procured at the P. J. Hill
Drug Co.'s store. I used it, and the area
affected gradually contracted until it
actually dried up. Not only can I speak
positively from experience about Doan's
Ointment, but I have heard quite a
number of other people in Salt Lake
City say that it was decidedly valuable.
You are at liberty to refer others to
me for minute particulars of my case."
For sale by all dealers. Price 50
cents. Foster-McIlburn Co., Buffalo, N. Y.,
sole agents for the United States.
Remember the name—Doan's—and
take no other.

Glenn, agent at Ontario, takes a like
position at Pomona, being succeeded
by G. L. Clayton of Los Angeles.

To Advertise the Salt Lake Route

District Freight and Passenger Agent
Moore of the Salt Lake Route has a
unique idea for advertising the new
road along the lines of that in vogue
on the big steamship lines. In effect
it is to get a number of trainmen's
brass buttons bearing the company's
trade mark and having them mounted
as hat pins for the lady patrons of the
San Francisco.

SPIKE AND RAIL.

President Hewlett of the city council
and Secretary Phelan S. Harris of the
Commercial club were in conference to-
day with District Agent Moore of the
Salt Lake Route relative to the ex-
cursion to Los Angeles, which leaves
on Saturday night.

N. H. Loom, acting in behalf of the
Union Pacific railroad, has filed with
the Kansas railroad commission a
request to grant a reduction in Kansas
grain rates. The request was made
by a firm in "Chapman." The Union
Pacific asks a hearing before the board
enforces a change in the rates.

The Rock Island announces the Golden
State limited will be run every day
this summer between Chicago and Cal-
ifornia. The Rock Island is making
special preparations to handle an im-
mense amount of western passenger
traffic during the coming summer, es-
pecially to Colorado. The regular Co-
lorado River from Kansas City west
will be continued.

General Manager J. E. Hurley of the
Santa Fe arrived at Topeka, Kan., yester-
day from Chicago and assumed the
duties of his new office. His suc-
cessor as general superintendent of the
Eastern Grand division, D. E. Cain,
will not leave La Junta until the latter
part of the week owing to the wash-
out of his territory. Mr. Hurley says
no change will be made at present.

LOOK OUT FOR IT.

Counterfeit Five-Dollar Silver Certi-
ficate in Circulation.

Acting Chief W. H. Moran of the secret
service at Washington has sent out re-
circulars announcing a new counterfeit \$5
silver certificate. It is of the Indian
head series of 1891, check letter "C,"
serial number 92; J. W. Lusk is the in-
ventor. It is a dangerous counterfeit
printed on two pieces of paper, pas-
sion which silk threads have been dis-
tributed. The color of the ink has been
shaded red spots on the surface of the
paper. The counterfeit is nearly a quar-
ter of an inch shorter and an eighth of
an inch narrower than the genuine. The
shade of the blue of the seal and large
numeral on the face of the note is very
much lighter than that of the genuine.
The number of the counterfeit after ex-
amination is poorly printed, sections of
some of the figures being omitted. The
body of the note is well exe-
cuted, but the back of the note is sev-
erely shaded darker green than the gen-
uine. The white oval space in the center
of the genuine seal does not appear in
the counterfeit.

The Salt Lake banks received today
notice of the above and are governing
themselves accordingly.

EXCITING RUNAWAY.

Team Attached to a Cab Creates Con-
sternation on East Temple Street.

A team belonging to the Salt Lake Cab
and Transfer company, and in charge of
a driver named Maddox, ran away at
7:30 o'clock this morning, and for a few
minutes created considerable excitement.
The horses became frightened at the O.
P. depot and ran to East Temple street
and thence south to First 8th, where the
outfit collided with street car No. 56.
Both horses were knocked down, and one
of them was badly cut and bruised. Of-
ficer Riebel stopped the runaways and held
them until the driver arrived.
The cab was damaged to some extent,
but the street car received no particu-
lar injury.

fied for this position. Applicants should

mental plants has been required. There

had the outfit for a couple of days, and
that another boy was with him in the
past time the horse and cart were

GOOD FOR CROPS.

Showers During Early Part of Last
Week of Great Benefit.

Weekly Crop Bulletin for week ending
Monday, May 2.—Cloudy and unsettled
weather, with frequent showers, re-
sulted during the fore and latter parts
of the week. These showers were of
great benefit as they soaked the ground
thoroughly and placed it in fine con-
dition to work. During the middle of
the week, clear weather with warm days
and cool nights prevailed that were not
favorable for the growing crops, but also
for the work of plowing and seeding that
has been delayed by the inclement weath-
ers. High winds were blowing, making
crops, especially in the northern coun-
ties. Light frosts were reported in ele-
vated districts, but no appreciable dam-
age resulted.
Fall grain continued to make rapid
growth, and seedling grain was com-
ing up, but seeding was still in pro-
gress, though nearing completion. Alfalfa
was also making rapid growth. Pasture
and meadows were in the condition and af-
fording ample feed for stock. Sheep were
being shorn, and the work of shearing
was nearly completed, and the clip was
excellent.

ing last night at Unity hall and en-

posers, played by Miss Rowena Korn.

CONSIDERATE SOCIETY LADIES.

Society ladies in the town of Hapa-
randa, in Sweden, have just arrived at
an interesting decision on a point of
street etiquette. They have decided to
relieve men of the necessity of doffing
their hats to ladies in the streets as long
as the cold weather lasts. It has gone
forth that during the winter all that
will be expected from men will be a
military salute. The ladies took this
step as the result of studying medical
statistics, which established the fact
that in winter there are three times
more men than women who are suffer-
ing from cold, neuralgia, toothache and
influenza.

The cut here shown is a repre-
sentation of the beautiful monument
which it is proposed to erect as a mem-
orial to the sixty-one unidentified
victims of the burning of the steamer
General Slocum, who were all buried
in one grave in the Lutheran cemetery
at Middle Village, on Long Island. The
contract for the work has been let, and

It is expected that the monument will
be in place in time for the unveiling on
June 15, the first anniversary of the
lamentable affair. The memorial will
be of granite. On one side a bronze
plate will show a figure of the burning
steamer in relief. Four life size female
figures will further adorn the work, two
at the top representing Faith and Hope,
and two at the sides, Memory and Grief.
The monument will cost \$10,000, which

A NEW MISSOURI SENATOR.

Senator Elect William Warner of
Missouri, who has recently been chosen
as the successor of the Democratic
veteran statesman, Francis Marion
Cockrell, attained his present position
as the result of a long and persistent
struggle between two leading members

of the new dominant party. After a
protracted deadlock the Missouri legisla-
ture agreed on him as a compromise
candidate, and he was elected. Mr.
Warner is a native of Wisconsin and
was educated at the University of
Michigan. He served with credit in the
civil war and at its close settled in
Kansas City, Mo., and began the prac-
tice of law. He has been United States
district attorney and member of con-
gress and was a candidate for governor
in 1892.

The municipality of Dresden has or-
dered plates to be affixed at 300 street
corners explaining briefly the deriva-
tion of the name of the street—for in-
stance, "George place, after George,
king of Saxony, born 1832."

A GALLERY OF CARTOONS.

The cut represents the American sec-
retary of state, Mr. John Hay, seated
in enjoyable contemplation of a novel
art gallery which he has established in
a room in his handsome Washington
home. The walls of this spacious
apartment are almost completely cov-
ered by a great collection of cartoons,
many of them extremely personal
many of them humorous. Works are pen
and ink drawings of great merit which
have been given to the secretary by ar-
tists who have become acquainted with
his fondness for such productions. The
originals of many cartoons which have
attracted much attention in the public
press have found their way into this
unique collection.
