

TAFT COMPLETES HIS GREAT TRIP

After an Absence of Three Months and 13,000 Miles' Travel, Back in Washington.

HURRIED TO WHITE HOUSE

Broke All District Auto Records in Reaching It—He Was Not Greatly Fatigued.

Washington, Nov. 10.—After an absence of more than three months, during which he has made a 13,000-mile trip through the west and south, President Taft sleeps tonight in the White House.

He left the capital Aug. 6, with the cheers of the crowds ringing in his ears. He returned tonight to the town of the same cheer, but he carried only a moment of the welcome parties. His objective point was the White House and Mrs. Taft, and as quickly as he could get away from the hotel, he hurried to the White House.

There was no demonstration at the White House. The special police there kept the curious outside the grounds, and when Mrs. Taft alighted and ran quickly to the steps, he turned for a moment and waved a smiling farewell to Fred Carpenter, his secretary, Col. Spencer Crosby and Capt. Archibald Butt, his two military aides, who had accompanied him from the station.

Then the big swinging doors of the White House opened and he stepped in. The president shook hands with the two military aides, who smiled and welcomed him. He then turned to the left and entered the study.

Two hours before the president's train was due crowds began to fill the Union station. There was an unusual gathering of police, secret service men and detectives. When the train pulled in from Richmond on time there was an imposing throng on the platform.

There were a few women, but for the most part the group was taken up by silk-hatted, committee women, who were waiting to see the president.

DOCTOR ADVISED OPERATION

Cured by Lydia E. Pinkham's Vegetable Compound

Paw Paw, Mich.—"I suffered terribly from female ills, including inflammation, congestion, for several years. My doctor said there was no hope for me but an operation. I began taking Lydia E. Pinkham's Vegetable Compound, and I can now say I am a well woman."

Another Operation Avoided. Chicago, Ill.—"I want women to know what that wonderful medicine, Lydia E. Pinkham's Vegetable Compound, has done for me. Two of the best doctors in Chicago said I would die if I did not have an operation, and I never thought of seeing a well day again. I had a small tumor and female troubles so that I suffered day and night. A friend recommended Lydia E. Pinkham's Vegetable Compound, and it made me a well woman."

ALVINA SPERLING, 11 Langdon St., Chicago, Ill.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has proved to be the most successful remedy for curing the worst forms of female ills, including displacements, inflammation, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, and nervous prostration. It costs but a trifle to try it, and the result has been worth millions to many suffering women.

When the train drew up the first person on board was Capt. Butt. He was followed by Secy. of the Navy Meyer, who joined the president today in Richmond. Then came the president's military aides, and the train was followed by a long line of admirers.

Mr. President, I want to welcome you back to the capital on behalf of the members of the chamber of commerce," said President Gode of that body, capturing Mr. Taft immediately.

"Thank you," replied the president, removing his hat and smiling benignly at the crowd. "I'm glad to get back. Let me see—I left here Aug. 6, didn't I? Well, I am here again feeling just as well as when I went away—or even better."

Preceded by Capt. Butt and followed by Secy. Meyer and a throng of personal friends, Mr. Taft then made his way up the stairs and across the concourse of the station to the waiting-room set aside for the president's use. Everyone except members of the cabinet was excluded.

In spite of the dress rehearsal of the cabinet held at the department of justice last Monday night, there were some violations of ethics in wearing apparel. Secretaries Nagel and Secy. Meyer wore white ties with their frock coats and silk hats, and this lapse seemed to jar the aesthetic nature of some of his fellow statesmen.

In any event, Secy. Nagel and five other members of the cabinet disappeared quickly, leaving Secy. Knox and Postmaster-General Hitchcock with the president. The three conversed earnestly for two or three minutes, after which Mr. Taft made his way to the White House automobile.

PRESIDENT NOT FATIGUED. The president did not appear to have been fatigued by his long trip. Apparently he was no stouter than when he left, although it was whispered among his intimates that he had picked up several pounds. When asked about it he laughingly spread out his arms and invited inspection.

When President Taft spoke at the city auditorium in Richmond this afternoon he made his two hundred and sixty-sixth speech of the long trip, which, according to the itinerant, covered 12,728 miles, but with side trips amounted to more than 15,000 miles.

During the trip from Richmond the president had an extended conference with Secy. Meyer, disposing of a number of matters that have been pending in the department, including the scheme of reorganization. The results of the conference will be announced after Secy. Meyer has worked out the plans.

President Taft declared that excepting his impatience to be with Mrs. Taft again, he would not mind if the trip should continue two or three weeks longer. He has been greatly fatigued, and the end of the long program of entertainment in a number of cities, but a good night's sleep always put the president in the best of shape.

The president will not see any callers at the White House tomorrow, and if he visits the executive offices at all, it will be merely to inspect the improvements.

Mr. Taft's stay in Washington will be brief, as he leaves tomorrow afternoon for Middletown, Conn., and Hartford, Conn.

The president returns to Washington shortly before noon Sunday morning, and on Monday he will settle down to the routine work of his office.

President Taft said tonight that he would not make any important diplomatic appointments until after Jan. 1. He will not see the cabinet until after Congress meets.

STUDYING RECOMMENDATIONS TO BE MADE TO CONGRESS. Richmond, Va., Nov. 10.—"During my 60 days of travel there has been a great deal of study and deliberation, and during that time I have been studying what it is the duty of an executive to recommend to an incoming Congress in respect to future legislation, and when I think of the number of things Congress ought to do, I am staggered, and it may not find time to do them."

In the final speech of his 12,000-mile trip before an immense audience this afternoon, President Taft prefaced a preliminary statement of some recommendations his first annual message to Congress would contain.

"In the first place there is the conservation of our resources and reclamation of arid lands," said the president. "We have reached a time now when a great many people in the west are counting on an immediate supply of water for the land upon which they have settled, which is not forthcoming because the money applied to the reclamation fund does not come in as quickly as expected, or at least quickly enough to meet the exigencies of the situation, and I am strongly in favor of increasing that fund, which is a fund raised solely by the sale of public lands, by the leasing of lands, the payment of which shall be charged to the same source of revenue."

He added that the demand for the products of the soil is greater than the

supply because of the growing population, and we must enlarge our acreage, and the plain was seemed by the reclamation of arid and swampy lands.

SOME PROBLEMS.

"Then we have a great deal of valuable land owned by the government," he continued. "We have a great many water power sites, the water of which will furnish an immense amount of power for use by electrical appliances. Then there are millions of acres of phosphate to be used in the fertilization of the soil. Under existing laws those lands are likely to be parted with merely under a homestead settlement. They are of such peculiar value that it seems wise that the government should reserve some control over water power sites, coal lands and the phosphate, so that they may not come into the hands of one controlling corporation, but may be retained by the government with the power to restrict the price at which the coal, at least, at which the power is sold, to prevent the absorption into one company of all the power on the continent."

"Then there is the interstate commerce law, which certainly needs amendment in order to give the interstate commerce tribunal more power to prevent delays now incident in appeals to the courts. In my judgment the best way is to create a special court and have a court that is charged with the knowledge and practice in regard to the railroads, so that the matter can be promptly disposed of."

"Then I am strongly in favor of a postal savings bank. I know that in this proposition I come up against a great many conservative bankers, and also of a great many who doubt the wisdom of extending patronage in the government. When it happens that the government is so situated that it can do a thing better and more economically than individuals can do it, and can supply a want for a means of thrift, I am in favor of its doing it."

"The monetary reform is under consideration by a committee. I am hopeful that the commission may present the conditions that exist here and the conditions that exist in Europe, and in this way point out to us some steps that may be taken to reform what is certainly today nothing but a patchwork."

NEAR TO HIS HEART.

"Then there is another subject that is very near to my heart. We must improve our legal procedure so as to make it both in criminal and in civil cases, more ample, more rapid and less expensive, and I mean to recommend to Congress the appointment of a commission to take that subject up with respect to the federal procedure, and then if by the federal procedure we achieve a result that commends itself to me as a model for the states."

Mr. Taft said he believed the time had come for the organization of a federal health bureau.

"That is a pretty long list of things to do, but if we set our shoulders to it, we can do a lot in one or two sessions of Congress," continued the president.

Referring to his avowed policy of showing his consideration for the south by appointing to federal offices in the south men whose appointments would commend themselves in the communities in which they live, Mr. Taft said he had been carrying out that policy

HOME-MADE COUGH CURE. Go to your drugist and get one-half ounce Concentrated pine compound, two ounces of glycerine, half a pint of pure water, mix in a bottle, and in doses of a teaspoonful to a tablespoonful every four hours, shaking the bottle each time.

The Concentrated pine is a special pine product and comes only in half ounce bottles, each enclosed in an air-tight case, but be sure it is labeled "Concentrated." A prominent local druggist says he has filled this prescription hundreds of times and has seen it work wonders.

At their leisure they examined the

A 50-cent bottle of Scott's Emulsion given in half-teaspoon doses four times a day, mixed in its bottle, will last a year-old baby nearly over three months, and will make the baby strong and well and will lay the foundation for a healthy, robust boy or girl.

as far as he had been able and would continue to do so.

"We have reached a point, I am glad to say, when the north can address the full forces of the south and the south address to the full forces of the north," said the president. "There is a monument in Quebec that always commemorates the battle of the Plains of Abraham, and on one face of that beautiful structure is the name of Montcalm and on the other side the name of Wolfe."

"That always seemed to me to be the acme of what we ought to reach in this country, and I am glad to say that in my own alma mater of Yale we have established an association for the purpose of erecting within her academic precincts a memorial not to the northern Yale men, who died, but to the southern Yale men, who died, but to the Yale men who died in the Civil war."

"And so I venture to hope that the project suggested by my predecessor, President Roosevelt, may be alluded to by me with approval and the expression of the hope that it is coming to fruition, to wit: that there should be a great memorial in honor of Gen. Robert E. Lee, in the establishment of what he himself would value most highly, a great school of engineering at Washington and Lee university, and I take this opportunity to express my deep sympathy in that movement and my desire to aid it in every way possible and proper."

A CARD.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold, prevents pneumonia and consumption. Contains no opium. The genuine is in a yellow package. Refuse substitutes. F. J. Hill Drug Co., "The never substitutes," Salt Lake City.

IMPERSONATED GERMAN COURT OFFICIALS

Berlin, Nov. 10.—A series of old frauds on the first provincial court of Berlin was interrupted today by the arrest of Lother Luedtke, a former court employee, and two co-conspirators, Willy Warnick, a professional bicyclist, and Hans Meier, a cook.

The men are accused of breaking into the courtroom late in the afternoon when no others were in the building except the janitors. By putting on the judicial caps and robes they were able to deceive the janitors and so were permitted to go about their illegal occupation undisturbed.

At their leisure they examined the

court records, making a note of the names and addresses of persons owing money to the court.

Helping themselves to the forms and seals, they drew up the necessary documents for the collection of these debts, and, armed with forged credentials, served the same in the pretended capacities of bailiffs. They are known to have been successful in 30 instances.

When exposed they were said to be planning a raid on the imperial supreme court at Leipzig.

ANDERSONVILLE PRISON.

Many Deaths May Have Been Due to Pellagra and Not to Typhoid.

New Orleans, Nov. 10.—That hundreds of deaths which occurred at the Confederate prison at Andersonville, Ga., during the summer of 1864, were not due to typhoid fever, as then supposed, but were caused by pellagra, was the opinion expressed before the southern medical convention here today by Dr. J. W. Kelly of Corsicana, Texas.

The consensus of opinion among these physicians who presented papers on the subject was that pellagra is attributable to spoiled corn.

MAN WHO LOOTED IDAHO MAIL IS IDENTIFIED

Seattle, Wash., Nov. 10.—Mail Clerk Earl L. Stumps positively identified Charles D. Howell today as the man who boarded a Great Northern mail car at Bonners Ferry, Idaho, March 15, impersonated an inspector and looted the registered mail. Stumps quickly picked out Howell from among four prisoners as the man who looted Mail Clerk E. W. Nystrum in a closet, tied Stumps in a chair with a mail sack over his head and acted as clerk himself until the train reached Spokane, where he jumped off, taking with him the registered mail.

Howell, who was formerly postmaster at Havre, Mont., and recently was proprietor of the Kaseand hotel at Olympia, Wash., is still in jail here in default of \$20,000 bail to answer the charge of holding up the Great Northern express here last month, obtaining \$12,000 in cash. His connection with the Idaho robbery was established last week, when Nystrum identified him.

MRS. EDDY MAKING SETTLEMENT WITH FAMILY

Boston, Nov. 10.—A family settlement involving nearly \$200,000, between Mrs. Mary Baker G. Eddy, founder and leader of the Christian Science denomination, and her son, George G. Glover of South Dakota, and her adopted son, Ebenezer J. Foster Eddy of Vermont, has been concluded according to announcement made by representatives of Mrs. Eddy here today.

Under the agreement, George W. Glover and his family receive \$245,000, and Ebenezer J. Foster Eddy \$45,000.

Mrs. Eddy's son and adopted son relinquish all their present and prospective rights of expectant interests in Mrs. Eddy's estate and agree not to contest or retard the probate of any will Mrs. Eddy may leave.

The sons also agree not to attempt to set aside any gifts, deeds or other disposition of property which Mrs. Eddy has heretofore made.

Early in 1907 George W. Glover instituted legal action for an accounting of his mother's estate on the ground that she was mentally incompetent. Ebenezer J. Foster Eddy, the adopted son, was one of the signers of the petition brought by the "next friend" of Mrs. Eddy, asking for the accounting.
