

PLATFORM OF REPUBLICAN PARTY

Central Idea of it Will be Unequivocal Endorsement of Policies of the President.

TARIFF WILL BE PROMINENT.

Will be Declaration for Revision, Leaving Working Out of Details to Ingenuity of Congress.

Washington, June 7.—That the platform which will be adopted at the Chicago convention and on which the Republican party will stand during the next campaign has been completed with the exception of a few details, which will be left for the committee on resolutions to insert, is the opinion of many who are in the confidence of the Republican leaders.

The policies of President Roosevelt will be endorsed unequivocally, and this endorsement will be the central idea of the document. These policies will be set forth as the embodiment of the principles of the Republican party, whose achievements will be lauded as at all times beneficial to the country.

Specifically speaking, more attention has been given by the tariff makers to the tariff than to any other subject. There will be an unequivocal declaration for revision, but the disposition is to leave the working out of details to the ingenuity of Congress.

As usual, the platform will declare for protection of the civil liberties of the negro race. A special effort will be made to have this plank comprehensive and emphatic.

Among other recommendations that will be made will be the following: For admission at the next session of Congress of Arizona and New Mexico as separate states of the Union; for unqualified endorsement of the open door in China; for exclusion of coolie labor, whether Chinese or Japanese; strong commendation of the present policy of supporting a subsidy in the interest of the ocean mails to South America, Australia and Asia, and for the encouragement of American shipping generally.

There will be a demand for the continuation of the policies of the present administration toward corporations. Attention will be called to the wisdom of carrying into effect the recommendations of the president and the necessity for a "square deal" all round, for the enforcement of the law without regard to persons or places and for the equal protection of all, under the law will be emphasized.

New York, June 7.—A large number of representatives of the business world in a memorial to be presented to the New York member of the committee on resolutions of the Republican national committee and to the chairman of the resolutions committee, asking for a strong plank affirming confidence in the judiciary of the country as a bulwark for the maintenance of the American system of government.

The Republican administration will also be complimented on the passage of the Fifty-ninth Congress of the railroad rate law, and this legislation will be pointed to as an example of what the party will do for the country at large in case it is given such a lease of power for the changes which are believed to be desirable.

Every woman covets a shapely figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided by the use of Mother's Friend before baby comes, as this liniment prepares the body for the strain upon it, and preserves the symmetry of her form.

HISLER'S FLOUR

Means half the worry of baking day forgotten in the knowledge that the best of the best wheat is in the oven.

dent's attitude in the matter of general protection of the resources of the country will be favorably commented on as indicating the best course for future legislation. His position in favor of deepening of the channel of the Mississippi river and general improvement of the inland waterways will come in for endorsement as will his vigorous work in prosecuting construction of the Panama canal.

The convention will place itself on record as favoring such an amendment of the Sherman anti-trust law, as will enable the railroads to enter into reasonable traffic agreements without taking the risk of prosecution in the criminal courts. Probably also there will be a declaration in favor of registration of certain corporations having the means to become monopolies, engaged in interstate commerce, so as to give the national government such supervision over them as is now exercised by state transportation agencies. In this connection there will be a pronouncement of national control as against national ownership. Congress will be taken of the demands of labor to the extent of recommending such legislation as will insure labor organizations in the issuance of injunctions without due notice or necessary hearing. A recommendation for removal of the triple penalty in conspiracy prosecutions when such prosecutions are directed against labor organizations is probable.

There will be a trust resolution along the lines of that embraced in the platform of 1900, when the necessity and propriety of honest co-operation and combination was recognized to meet new conditions and extend American trade in foreign countries, but when conspiracies which create monopolies, limit production and control prices were pointedly condemned.

Much care will be given to the planks dealing with the Philippines and Cuba. The public attitude toward Cuba will be held to have been demonstrated by the present relationship of the two countries and by the generally known fact that, having restored peace and order to that island, the United States is now preparing to bring its protectorate to an end and remove the evidences of its control. Our management of affairs in the Philippines will be extolled. It will be agreed that the Philippines are prospering and improving under the present administration of affairs, and it will probably be urged to support the abandonment of those islands until our work there is finished and the Philippine people made ready for self-government would be inhuman, unwise and in every way unjustifiable.

As usual, the platform will declare for protection of the civil liberties of the negro race. A special effort will be made to have this plank comprehensive and emphatic. There will be a strong declaration in favor of the open door in China; for exclusion of coolie labor, whether Chinese or Japanese; strong commendation of the present policy of supporting a subsidy in the interest of the ocean mails to South America, Australia and Asia, and for the encouragement of American shipping generally.

There will be a demand for the continuation of the policies of the present administration toward corporations. Attention will be called to the wisdom of carrying into effect the recommendations of the president and the necessity for a "square deal" all round, for the enforcement of the law without regard to persons or places and for the equal protection of all, under the law will be emphasized.

GIRL INVOKES "UNWRITTEN LAW"

Sarah Koten, a Young Trained Nurse, Lured Dr. M. W. Auspitz to House and Shot Him.

SAYS HE HAD WRONGED HER.

Admits She Killed Him But Did Not Murder Him, and Does Not Regret Her Act.

New York, June 8.—Sarah Koten, the young trained nurse who lured Dr. Martin W. Auspitz to a house in Harlem last night by a false telephone call, and shot him to death, after she had lain in wait for him for many hours, declared today that she had no regret for her act.

"I shot him, but I did not murder him," she said in a cell in the police station, as she examined the summons to appear in court. "I killed him because he wronged me and then refused to help me. I tried to punish him in the courts, but found myself powerless. My father and mother are dead, so I had to protect my honor myself."

There seems little doubt that when the case against the girl goes to trial a jury once more will have an opportunity to pass upon the "unwritten law" or the justification of murder under certain circumstances. Sarah Koten presented a most dejected appearance when she was arraigned in the police court, far different from the defiant young woman who surrendered herself to the police last night. She went incessantly, she was remanded to the coroner, who will hold an inquest.

DERVISH WINS RACE FROM MARBLEHEAD TO HAMILTON

Hamilton, Bermuda, June 8.—The schooner yacht Dervish, owned by Commodore Henry Morse, of the Corinthian Yacht club, has won the ocean race from Marblehead to Hamilton in class B. She finished at 12:40 o'clock this morning, 5 hours and 31 minutes after the Venona, owned by George E. Bliss of Boston, the winner of the race in class C. All three boats reported heavy weather.

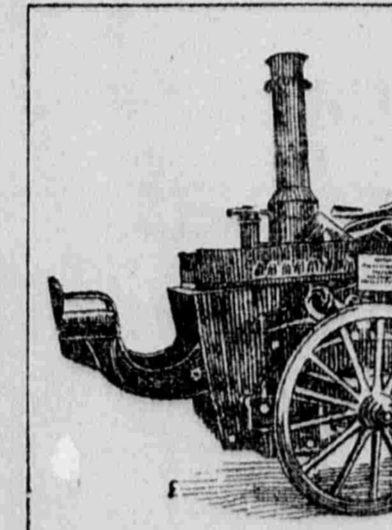

MAINE AND ALABAMA START FOR ATLANTIC

San Francisco, Cal., June 8.—The battleships Maine and Alabama, composing the special service squadron under command of Capt. G. B. Harber, sailed at 7 o'clock this morning on their return trip to the Atlantic by way of Honolulu, Manila and Suez. Secy. of the Interior James R. Garfield, who arrived late last night from Washington, was a guest of Capt. Harber on board the Maine. Secy. Garfield is enroute to Honolulu to make investigations of certain matters that come under his department.

GOV. FORT SPEAKS AT SMOKING SERVICE

New Jersey, June 8.—Gov. Fort of New Jersey was the principal speaker at a "smoking service" held on the lawn of the Hyde Park Reformed church at East Orange, N. J., last night. More than 500 men, most of whom availed themselves of the permission to smoke during the service, attended. The pastor of the church, Rev. F. B. Pulliam, in announcing further gatherings of like character, said that the services were not held on a striving for sensationalism, but in the belief that "common sense and religion can go hand in hand." The

AN AUTOMOBILE OF SIXTY YEARS AGO.

The interesting motor car shown herewith is now to be seen at the museum in Turin, Italy. It was the invention of a general in the Italian army named Bordini and in its day attracted much attention. As a locomotive agent it was not especially successful, but it is an ingenious machine for all that and is treasured as a relic of pioneer motoring in Italy.

PUSHING A CAR ROUND THE WORLD.

One of the most curious modern feats of endurance has been performed by George M. Schilling, who is shown in the cut with a car which he has pushed before him on a tour through Europe. In this car, which is of his own construction, are a bed and cooking apparatus.

services were held on the lawn instead of in the church, to promote comfort during the warm season. "Men would smoke if they were not at the church," he said, "and there is no reason that, being upon the lawn of the church, they should not smoke if they like."

ENGINEER RISKS HIS LIFE TO SAVE TRAIN

Chicago, June 8.—A dispatch to the Tribune from Springfield, Ill., says: Lawrence O'Brien, an Illinois Central engineer, risked his life in a cab filled with scalding steam yesterday to save his train from wreck.

When the south-bound mail express was nearing Marino a path on the boiler head gave way. The cab was filled with a cloud of steam, while the hot water poured out in a stream. O'Brien and Fireman Thomas Slick plunged through the open front windows of the cab and took refuge on the running board.

STATUE TO A MOTORIST.

The statue shown in the picture has been unveiled recently at Berlin by the crown prince. It is erected in honor of Baron Schnellfuhrer, who was a pioneer motorist and is the work of art it is not markedly attractive, but it has points of excellence.

TELEGRAPHING PHOTOGRAPHS.

Nowadays photographs and other pictures can be transmitted over the ordinary telegraph wires as cipher messages. The picture is inserted in an electric apparatus, which automatically decomposes and registers the consecutive elements of the image, the record for each element or point being a number or figure, which is perforated on a strip of paper. The perforations indicate in proper order the color values or shades on a scale of five degrees or more. When the record is received through any telegraph office it is taken to the second instrument, and on striking the keys corresponding to the successive numbers the operator obtains in half an hour a printed and enlarged reproduction of the image.

Try this for Constipation

Constipation prevails in almost every family. Old and young suffer alike. The mother of a great New York hospital confidently states that the following has been used for years with the utmost success, treating thousands, old and young, for acute and chronic constipation: Compound Essence Cardiol, 1 ounce; Aromatic Fluid Cascarra, 1 ounce; Aromatic Syrup Rhubarb, 2 ounces.

BUTTER MAKERS WILL FIGHT ADVANCED FREIGHT RATES

Chicago, June 8.—Sixteen of the largest manufacturers of butter in the United States will open their fight against the proposed advance of freight rates on cream and milk before the interstate commerce commission next Wednesday. The average increase in tariffs is from 66.2 to 125 per cent. A butter famine is promised should their fight fail.

MRS. SAGE'S LATEST GIFT.

New York, June 8.—A mile long bed of rhododendrons in Central park, New York's most beautiful breathing spot, is the recent gift of Mrs. Russell Sage to the people of the city. It is estimated that the gift, which will be known as the Sage plantation, will by the time it is finished, represent an outlay on the part of Mrs. Sage, of at least \$50,000.
