

PREST. LEIGHTON COMES TO TOWN

Pays a Flying Visit to Salt Lake on His Way Home.

Articles of Incorporation of the Construction Company Will be the First Entered.

President George B. Leighton, of the Los Angeles Terminal, spent a few hours in this city this morning on his way home to St. Louis from the City of the Angels, where he has been upon business connected with the transfer of the Terminal property to the San Pedro, Los Angeles & Salt Lake railroad.

When seen this morning Mr. Leighton expressed himself as being very much pleased with the prospect that was before the company for the speedy filing of the papers of incorporation of the company. He said: "Of course in a proposition of this character it takes time to clean up the details, which are progressing and it will not be long before the papers are filed in this city. Just as soon as everything is in proper shape the articles of incorporation will be mailed to Mr. Whittemore, who has charge of the things here at this end of the line, and he will file them."

In answer to a question, Mr. Leighton said that the papers would be the same as the copy which was published in the "News" at the time of the primary meeting at the Knutsford. He said that they would not be changed in any respect. Continuing he said: "The first company to be incorporated here will be the Construction company, and, in all probability, they will be sent to Mr. Whittemore for filing next week, when he will at once proceed to file them. After this is done the articles of the railroad company will follow just as soon as it is possible."

Mr. Leighton went on to state that while the company had placed contracts for seventy miles of track in proper shape, that the grading contracts had not been let yet, as they were waiting for the final wind up of the right-of-way so that when that had been secured they could let the contract for a large amount of grading. The railroad official proceeded to speak in a most encouraging strain in regard to the outlook for the company and stated that the first meeting of the directors of the new company would be held at the Knutsford immediately after the filing of the articles of incorporation with the secretary of State.

When asked as to what effect the recent developments in the Southern Pacific-Harriman combination would have upon the building of the line, Mr. Leighton said: "We have been aware for some time past that such negotiations were under way, and I can safely say that the developments of yesterday will not affect at all in fact, the combination will be a God-send to California as the Southern Pacific will get out of the old fogey rut and henceforth go in for up-to-date railroading which will have the effect of building up the State in great shape."

WILL NOT CONSOLIDATE. S. P. and U. P. to Work in Harmony and Stop Rate Cutting.

New York, Feb. 2.—It may be stated authoritatively that while the Harriman interests have secured control of the Huntington and Speyer interests in the Southern Pacific railroad it is not in contemplation to consolidate the two lines, but to see that they are worked in harmony and to stop rate cutting. No change in the personnel of the officers is in contemplation.

It was learned on the best authority today that the amount of stock involved in the purchase of the Southern Pacific constitutes two-fifths of the entire outstanding share capital of over \$155,832,000.

This is as near an absolute majority as could be secured and constitutes the entire holding of the Huntington estate and of the syndicate formed by Speyer & Co. last April to take over the holdings of the Stanford-Crocker estates. This gives Mr. Harriman and Kuhn, Loeb & Co. control of the management as there are no other large blocks of stock outstanding.

The purchase, it was stated today was made entirely for the benefit of the Union Pacific to protect that company's connection with San Francisco, which would be in jeopardy in the event of the Southern Pacific coming into hostile control. When the actual terms at which the Huntington and Speyer holdings passed to Mr. Harriman and Kuhn, Loeb & Co. could be learned today, it was stated that the transaction had to be quickly carried out, and it was intimated that the new syndicate used its credit to complete the purchase. In this connection the increase of \$20,000,000 in the loan account of the New York banks this week may be significant.

NEW COAL LINE.

Oregon Short Line Takes Over the Wyoming & Western for Keeps.

The first fruits of the railroad bill recently passed in the legislature grant-

Stop Coughing

There's nothing so bad for a cough as coughing. Every cough makes your throat more raw and irritable. Every cough congests the lining membrane of your lungs. Cease tearing your throat and lungs in this way. Take

Ayer's Cherry Pectoral

From the first dose the quiet and rest begin; the tickling in the throat ceases; the cough disappears.

There's nothing so good for a cough as Ayer's Cherry Pectoral.

Three sizes: 25c, 50c, \$1.00.

If your druggist cannot supply you, send us one dollar and we will express a large bottle to you, all charges prepaid. Be sure you live in your nearest express office. Address, J. C. AYER & CO., Lowell, Mass.

ing railroads organized in Utah the power to purchase connecting lines in any other State come in the form of the following circular which has been issued by General Superintendent E. E. Calvin of the Oregon Short Line: "By authority of the vice president and general manager, the Wyoming & Western railroad, on and after Feb. 1, will be operated by the Oregon Short Line Railroad company, as a branch of the Idaho division, and the jurisdiction of all officers of the Idaho division is hereby extended to cover it."

STILL ANOTHER DEAL.

Harriman Syndicate Acquires Control of Missouri, Kansas and Texas.

New York, Feb. 2.—The Evening Post says:

It was announced on high authority today that the Harriman syndicate has not only acquired large holdings of Southern Pacific stock, but is also obtaining control of the Missouri, Kansas & Texas. Thus it is shown that the motives which led the Harriman syndicate to secure the Speyer and Huntington holdings in the Southern Pacific railroad and thus a dominating interest in that property, involved a vast scheme of railroad consolidation.

The close identification of the Gould interest with the members of the Harriman syndicate, would facilitate the new relations proposed for the Kansas & Texas property, and the control of the Missouri, Kansas & Texas, it was asserted today, had been practically already secured by the syndicate.

The syndicate's control of these desirable lines made more feasible and desirable the control of the Southern Pacific, because it was the only remaining company west of the Mississippi whose lines were in intimate relations with the other properties controlled by the syndicate.

The Southern Pacific connection to San Francisco is essential to the Union Pacific and the Missouri Pacific's Denver line, lying between that of the Huntington and Speyer interests and reaching the Mississippi river essential to the broadest control of the markets of the West.

The Missouri Pacific and other Gould lines, particularly the Texas & Pacific, are on the one hand very closely intertwined with the Texas lines of the Southern Pacific. Both companies not only have long lines extending across the State of Texas from El Paso to the Gulf of Mexico at Galveston, but in the eastern portion of the State the Missouri Pacific and the Southern Pacific lines have an extensive mileage, largely competitive and reaching jointly all the important cities, including Fort Worth, Houston, Austin, etc.

Clearly, therefore, the acquisition of the Southern Pacific may be taken as completing the syndicate's control of transportation facilities in the south-west, south of the Union Pacific lines, rounding out a system which will include besides the Union Pacific and the Missouri Pacific, the Missouri Pacific, the Kansas & Texas, the Kansas City Southern, west of the Mississippi river.

Col. N. W. Sample Resigns.

Colonel N. W. Sample, consulting engineer of the Rio Grande Western, severing his connection with that road on Feb. 15, he having handed in his resignation to Col. Dodge to that effect. On that date Col. Sample will step into the important position in the employ of the Baldwin Locomotive works of Philadelphia. Two months ago Col. Sample was appointed consulting engineer for the Western, he having formerly been superintendent of the Denver & Rio Grande railroad.

Will Issue Trust Bonds.

Philadelphia, Feb. 2.—The Reading Co., which recently secured through purchase a controlling interest in the capital stock of the Central Railroad of New Jersey, will issue \$25,000,000 of four per cent collateral trust bonds to cover the purchase price of the stock. The

stock which will form the basis for the new collateral trust issue will be deposited with the Pennsylvania company for insurance on lives and granting annuities of this city and will have the guarantee of the Reading Co. The bonds will be payable principal and interest in gold and will run for 30 years. The details for the issuance of the bonds are now being arranged through J. P. Morgan & Co. New York, and the executive committee of the Reading Co., directors.

SPIKE AND RAIL.

A. D. Hudnall, live stock agent for the Colorado Midland, is in town.

Donald Rose of the Illinois Central has returned from a visit to Butte.

W. C. Luchs, of the Pennsylvania, with headquarters at Hoboken, N. J., is stopping at the Kenyon.

Traffic Manager S. W. Eccles of the Oregon Short Line will return from Idaho on Monday.

If these Harriman deals continue the little fellows will be wondering where they are to get off.

The plans for the proposed power house and plant for the Rio Grande Western are being pushed ahead.

Vice President T. E. Gibbon of the San Pedro, Los Angeles & Salt Lake road will not come to Salt Lake next week as was his intention.

Commencing a short distance west of Washington, S. D., is what is probably the longest piece of absolutely straight railroad track in the world. For 62 miles the Northwestern road reaches away across the prairie without a curve. For over 50 miles of this distance there is not a bridge and not a few culverts.

PRIESTHOOD MEETING.

Proposition to Establish Cottage Sunday Schools—Schools Overcrowded.

The regular monthly meeting of the general Priesthood was held last night in the Assembly Hall, Elders Angus A. Cannon and Jos. E. Taylor of the Stake Presidency presided. The meeting commenced by singing the hymn, "Come all ye sons of God, who have received the Priesthood," after which the opening prayer was offered by Elder James P. Freeze, and the meeting continued by singing, "O, say what is truth?" This was the first of the series of Sunday school workers for some time, is the evident fact that in some of the wards there is a lack of accommodation. This fact has been realized by the Bishops of these wards and an effort is being made a few months ago to remedy this matter, but the sickness that has been somewhat prevalent has perhaps retarded any action in that direction. The intention is to build, and which has been recommended by the general Sunday school board, to establish cottage Sunday schools in order to open up opportunities for this kind of work in the direction of those who are somewhat indifferent and that it might cause Sunday school workers to become interested in them and become active members therein.

Elder Tos. C. Griggs Stake superintendent of Sunday schools, was called to the stand. He said one of the matters which has been before the general Sunday school workers for some time, is the evident fact that in some of the wards there is a lack of accommodation. This fact has been realized by the Bishops of these wards and an effort is being made a few months ago to remedy this matter, but the sickness that has been somewhat prevalent has perhaps retarded any action in that direction. The intention is to build, and which has been recommended by the general Sunday school board, to establish cottage Sunday schools in order to open up opportunities for this kind of work in the direction of those who are somewhat indifferent and that it might cause Sunday school workers to become interested in them and become active members therein.

It was desired that superintendents confer with their Bishops and the Bishops with the superintendents of Sunday schools, so that these cottage schools might be established.

Elder David McKenzie was the next speaker, who expressed his satisfaction in seeing so large an attendance, manifesting that the brethren were awake to the responsibilities resting upon them. He said there was nothing that impressed him more upon his mind with reference to his own conduct, as being alive to the importance of the work in which he was engaged. He also spoke very favorably of the High Priests' Quorum, and said that in that body there was a desire to do more, and that he was glad to see that the brethren were awake to the responsibilities resting upon them. He said there was nothing that impressed him more upon his mind with reference to his own conduct, as being alive to the importance of the work in which he was engaged. He also spoke very favorably of the High Priests' Quorum, and said that in that body there was a desire to do more, and that he was glad to see that the brethren were awake to the responsibilities resting upon them.

Some remarks were then made by Elder Jos. E. Taylor with reference to the duties of the High Priests, and the duties of the High Priests' Quorum. There seems to be a dearth of knowledge and a lack of understanding among the members of the Lesser Priesthood of the duties belonging to that office. It is a duty, between the ages of 18 and 20, instead of being ready to be ordained Elders, should have an opportunity of becoming familiar with all the duties of the Lesser Priesthood by advancing from one office to another in the same. He also referred to the great labor that rests upon the shoulders of the Bishops who conduct their wards properly and fully. Bishops over the wards in which they preside.

After a few closing remarks by Elder Cannon endorsing what had been said in the meeting, the meeting closed with singing the benediction was pronounced by Patriarch John Smith.

SOCIAL AND PERSONAL.

Last night the University athletic association gave a ball and kermess in the physical building at the University grounds, and the event was the most successful and delightful of anything yet given at the University. The class rooms throughout the building were thrown open and prettily decorated with bunting and flowers, and lemonade and candy booths filled the corners—being distributed at moderate terms by the girls students, as were the tea, coffee, ice-cream, flowers and other dainties served in other rooms.

The chief feature of the evening was a Dickens curiosity shop, presided over by young ladies and gentlemen dressed to represent some of Dickens' characters, and with walls decorated with illustrations of his different works. The pictures, together with photographs of the University faculty, taken by Mr. Friesch, one of the University students, were sold. The large physics laboratory was used for dancing and the evening was spent in festivity, the members of all classes in the school trying to make the affair a success. A large number of outside guests were present, and nearly all of the faculty. The promoters are to be congratulated upon the success of their enterprise.

The Lowell school had charge of the art exhibit today, and the following program was given:

Piano duet.....Misses Romney and Murphy
Piano solo.....Miss Emma Fordyce
Piano duet.....Misses Snow and Sandberg
Guitar solo.....Miss Grace Radcliffe
Piano solo.....Mrs. Thomas L. Gilles
Piano solo.....RUBY NESLIN

Memorial day for Miss Frances Willard will be held on Sunday, Feb. 17. The ministers of the city have promised to hold one hour service in memory of the noted temperance worker, and at the close a collection will be taken for the benefit of the temperance cause.

Miss Culburn gave a pleasant chil-

Scrofula

THE OFFSPRING OF HEREDITARY BLOOD TAIN.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and of tentacles white swelling—sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seale, 115 Public Square, Nashville, Tenn., says: "Ten years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and burst. Some of the best doctors here and elsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

S. S. S. makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S., and get the blood in good condition and prevent the disease doing further damage.

Send for our free book and write our physicians about your case. We make no charge whatever for medical advice. THE SWIFT SPECIFIC CO., ATLANTA, GA.

den's party at Rowland hall yesterday for her little niece, Miss Mary Brackett. The decorations were in crimson and white, and the afternoon was delightfully spent in games, with dainty refreshments as a specially attractive feature. The little guests were Misses Bruback, Leonard King, Lydia White, Virginia Baker, Hazel Oswald, and Masters Igleheart, Robert Scannell, Leslie Early, Herbert Calvin.

Mr. J. D. Spencer returned today from his northern trip.

The Red and Black ball at Christensen's last night was one of the most successful of the season. A large number were present and the festivity enjoyed to the utmost by all. The chaparrons were Mrs. R. S. Miller, Mrs. H. G. Whitney, Mrs. Roy Sherman, Mrs. Vivian McCune, Mrs. H. S. Beattie, Mrs. J. P. Cowan. Those present were: Mrs. A. W. McCune Jr., Miss Pearl Weller, Josephine Wells, Marge Ellerbeck, Helen Gillespie, Blanche Cherry, Lucille Grosbeck, Veda Thatcher, Alvretta Martin, Vida Richards, Lilly Richards, Emma Grosbeck, Leigh Beck, Annie McIntyre, Jennie Lynn, Grosbeck, Lulu Keyting.

PROF. DAYNES AT ORGAN.

Large and Appreciative Audience Listens to the Recital.

A large and appreciative audience greeted Prof. Daynes and Prof. Giles at the organ recital this morning. Many of the friends of the former organist were present and the applause his music evoked was liberal. The gallery was almost filled and the audience endeavored several times to secure an encore, but neither of the performers would respond.

Prof. Daynes was perfectly at home in the pieces with which he has delighted so many people in the past years.

Stepped Into Live Coals.

"When a child I burned my foot fearfully," writes W. H. Eads, of Jonesville, Va., "which caused horrible leg sores for 30 years, but Bucklen's Arnica Salve wholly cured me after everything else failed." AMERICAN BLOOD GOES IN ENGLAND

Earl of Clonmel Speaks of This Country's Jockeys.

AN ERA OF GOOD FEELING

He Praises the Sportsmanlike Spirit and Liberality of American Horsemen.

New York, Feb. 2.—The Earl of Clonmel, who paid \$10,000 for Frankfort, the brother of Hamburg, at the sale of the Bitter Root stable at Madison Square Garden, said in an interview:

"American blood in England is most popular just now. At the court American women like the Duchess of Marlborough, Lady Randolph Churchill and Lady Curzon, vicereine of India, are reigning favorites."

"In the theaters American players are enjoying a great English popularity, and despite all present clouds and differences there is no doubt the American jockey has done great things on the English turf. So, why not the American horse?"

"The earl's former purchases were largely of imported strains, but his chief purpose proves his sincere intent of procuring the best available American blood. When he was asked for an expression of opinion as to the probability of the permanent exclusion of American jockeys from the British turf, the earl guardedly refrained from any decided opinion."

"This is the era of good feeling," he declared, and with much warmth he praised the sportsmanlike spirit and liberality of such American horsemen as Mr. Whitney, the Belmonts and other representative patrons of racing."

"Will the king of England continue to run races, as he did while Prince of Wales?" he was asked.

"Of course, I am not in a position to know anything of his plans, but since the king is the sport of kings, why should he not?"

"At any rate, whether the familiar colors of the former prince continue to run at Newmarket, there is small doubt King Edward will continue to take a warm interest in turf affairs."

The horses of Lord Clonmel will for the present be quartered at Old Monmouth Park, under the care of Trainer Charles F. Hill. This does not mean that the Irish nobleman intends to race in England. The collection will be sent abroad and raced in England and Ireland.

Lord Clonmel was the largest foreign purchaser at the sale. England was represented by Mr. Broderick Clote and E. A. Mills, and France by Mr. E. Fischel.

The big lot purchased at the sale by James B. Haggin are already on the road to Kentucky. To Kentucky also go the Keene, Madden and Whitney purchases.

MINTYRE APPOINTED.

Given the Position of Assistant Secretary of Saratoga Club.

New York, Feb. 2.—The director of the Saratoga Racing association yesterday announced that H. C. McIntyre for many years secretary of the Brooklyn Jockey Club, has been appointed assistant secretary of the Saratoga Club and that Frederick Reberberger secretary of Queen's County Jockey Club and also an officer of the Brooklyn Jockey Club, has been appointed chief clerk of the Saratoga association. H. C. Knapp is secretary of the club, but all the details of arranging and conducting racing events will be left in the hands of Messrs. McIntyre and Reberberger. The preparation of the stake program for the Saratoga Club's coming summer meeting will be arranged and announced within a week or two. Officials of the re-organized Saratoga association state that under the new management the long established and famous fixtures at Saratoga such as the Kentucky stakes, for two-year-olds, the Travers, for three-year-olds, the Morrissey, for three-year-olds, and upwards, and the several other stakes, which always have been popular, will be renewed, while the purely advertising events will be discontinued. The racing dates for 1901 have not been allotted yet, and as the Saratoga club must be governed by the dates granted by the turf authorities, it is not known how many stakes will be opened. It is probable, however, that the stakes will be announced to close about the last of March.

RUSSELL DEFEATS MCCORMICK.

But the Bout Had All the earmarks of a Huge Fake.

Denver, Feb. 1.—"Big Fred" Russell, the California heavyweight, put out Jack McCormick of Texas, in less than two minutes, before the Colorado Athletic association tonight. The bout was scheduled for ten rounds. Russell jabbed his right hand to McCormick's mouth shortly after the fight began, and this was followed by a series of wild swings and clinches. Russell followed McCormick into his own corner and swung to McCormick's head with his right. The latter doubled up and

A Soldier's Life

Is one of hardship and exposure, and the dangers from disease are as great as from shell and bullet. Here is a story of a life that was saved:

"I enlisted in Company E, First Regiment New York Volunteers, at the beginning of the war with Spain. While on garrison duty at Honolulu I was stricken with malaria, which was complicated with kidney trouble. I was in the hospital twenty-one days, and when discharged my health was shattered."

"A week after I came out of the hospital the regiment sailed for home. I arrived home a perfect wreck, reduced in weight from 175 to 140 pounds. My mother is a strong believer in Dr. Williams' Pink Pills for Pale People, and she persuaded me to take them. I did, and experienced a decided relief by the time I had taken three boxes. When I had taken the boxes I was entirely cured. The pain was all gone, my appetite was good and I had gained in flesh and strength. To-day I am a well man, thanks to Dr. Williams' Pink Pills."

FRANK A. SWEZEY, 374 Brinkerhoff Avenue, Union, N. Y.
