If your hair is of ordinary thickness and about a yard long, you have over 75 miles of hair! It takes a great deal of food to nourish hair so long as this!

If your hair is turning gray, falling out, harsh and rough, and splits at the ends, then it's starving, suffering for food.

Give it Ayer's Hair Vigor, the only genuine hair food you can buy. (There's a record of half a century back of it. You can't say that of any other hair preparation on the market.)

You can afford to trust something that has been tested for 50 years, can't you? There's an immense amount of satisfaction in every bottle of it.

"My wife had a fever and all of her hair, which was very great, came out. I bought a bottle of Ayer's Hair Vigor for her and she began using it at once. Now her hair is all back in fine shape, and of the dark, rich color it was thirty years ago, as pretty as ever."- GEORGE FOX, Booaville, Ky., July 13, 1899.

-On Time Today.

All of the blockaded trains arrived in Salt Lake last night, the blockade having been cleared away. The mails from all parts arrived on schedule time today and everything has assumed its regular course. There is nothing about the postoffice, either inside or out, that would indicate that at 11 o'clock last night there were 70,000 letters and sev eral thousand papers and packages to dispose of. The four delayed mails arrived at the office in two batches, the first at 8:40 and the next at 10:15. A large force of men at once took it in tow and worked like beavers until 4 clock this morning, when the last letter was dropped into the box. The blockade occurred two miles west of Ogalalla, Nebraska, where five engines "died" in attempting to clean out the cut. There was no hardship experienced by any of the passengers as the weather was not very the dining cars were plentifully stocked There were sixteen trains hindered by the drift in the cut near Ogalalla.
