Auction of Seats for Edwin Adams' Benefit.

NEW YORK, 8.—The public auction of seats for Edwin Adams' benefit performance drew a vast crowd to the Academy of Music this afternoon. The dramatic profession was well represented and the bidding was extremely brisk. Mr. W. J. Florence began the sale by a short announcement of the worthy object. The first box was knocked down to Mr. Sothern for $560; the second to Tony Pastor for $160; the third to H. E. Abby for $100.

At a meeting of Edwin Adams' benefit committee, this afternoon, it was resolved to pay the proceeds of the entertainment to his wife, Mrs. Mary Adams, to be exclusively her own private property.

The *World* says boxes were also bought as follows for Ned Adams' benefit: Maggie Mitchell, $125; W. J. Florence, $100; Horace Wall, $100; Henry E. Abbey, $100. Among other purchasers were E. G. Gilmore, E. A. Back of the *Spirit of the Times*, Heller, the magician, Miss Kate Singleton, McKee Rankin, John Morrissey, J. C. Williamson, etc. At last Sothern's box was sold again, Sothern giving the purchase money to the benefit fund. The example was promptly followed, and many other boxes were resold. The auctioneers were Florence, and Bacchus, the minstrel. The scene from beginning to end was one of the most consummate fun. The total amount realized was $3,245, the seats in the gallery being bought up by speculators at $3 each.

New Schedule of Freight Rates.

The new schedule of freight rates in all western bound traffic, as agreed to by all the railroad lines, went into effect to-day. It abolishes all special classes, which are merged into fourth class. Rates are established on a sliding scale and will shortly be increased, as they are not fixed for any definite period. Among the special instructions to freight agents are: Twenty thousand pounds will constitute a car load, unless otherwise specified, and where special class rates are made on articles on carload lots it must be understood to mean 20,000 pounds or more of each article named, and the freight must be delivered on the same day and be all for one consignee.

Suspension of Desert Land Entries.

WASHINGTON, 8.—The commissioner of the General Land Office, to-day, suspended all entries made under the desert land law of July 25th, 1876, and will make an investigation of the allegations that under it valuable arable lands have been entered in violation of its provisions.

Senator McDonald's Vindication.

INDIANAPOLIS, 8.—A misunderstanding having arisen concerning the promise made to Senator Morton by Senator McDonald during the latter's recent visit to the former, McDonald will publish a long address to the democracy of Indiana, reviewing the facts in the case, which are summed up in a paragraph which he quotes from the Indianapolis *Journal*, as follows: The proposition of Senator McDonald was not to pair with Senator Morton unconditionally whether he should be able to get to Washington or not, but was to the effect that if he should so far recover as to be able to go to Washington he (McDonald) would release him from the labors of daily attendance by pairing with him upon questions which they might be at variance; only this, nothing more. Senator McDonald refers to the kindness of Morton at the last extra session in allowing him to go to his sick daughter's bedside by pairing with him; to the long personal friendship which has existed between them; to the necessity of Morton's guarding his physical condition carefully, and claims that in view of these things it is only justice and humanity to make the promise. He says that Morton said at the interview that he had given up the hope of being in Washington during the extra session, but hoped to be there in December. The courtesy he proposed was the usual one, and he could not see why the democratic press had taken it so unkindly and so distorted the motive. He speaks especially of the Indianapolis *Sentinel* as having done him great and repeated injustice on the subject, and assures his fellow democrats of Indiana that their voice shall not be silent in the senate halls of the United States. His duties would be fully and faithfully performed, and though he might bring to them less abilities than some others, his record would show where he stood and what he had done as a democrat, and to that he appealed.

A Victory Dearly Won.

CHICAGO, 8.—The *Inter Ocean's* Washington special says the authorities think that Miles' victory was dearly bought, though they commend his troops for their bravery. Within the year, the Seventh Cavalry has lost eighteen officers in action, and the friends of the officers in that regiment are petitioning for their transfer.

Classification or Rates of Postage.

A. H. Bissell of the law division, Postoffice Department, for a long time in charge of controverted questions concerning what constitutes legitimate newspaper mail matter, has addressed a communication to the Postmaster General on the subject of classification of rates of postage, suggesting a new plan for the registration of second-class matter, under two rates, to be denominated "privileged" and "ordinary." These suggestions were to-day approved by Postmaster General Key, and will be incorporated in his forthcoming annual report. The plan proposed is that a publication claiming to be rated as second class mail matter shall be submitted to the department by samples, quarterly or semi-annually, for examination, and if found to be matter exclusively in print issued from regular publication offices, designed for public use and devoted to the publication or discussion of current news and to pieces either general or specific, shall be admitted, upon payment of an annual fee of one dollar for each publication, to the "privileged" rates of two or three cents per pound, according to the frequency of the issue, the same as now charged for regular newspapers, magazines, etc. All other matter now embraced or sought to be embraced in the second class, such as advertising sheets, reprints of books, etc., is to pay "ordinary" rates now charged for third-class matter, which is one cent for each two ounces.

Charges of Bribery.

COLUMBIA, S. C., 8.—Congressman Smalls, to day, had a preliminary examination of the charges against him. Woodruff testified that he paid Smalls $5,000 as a bribe to vote for a measure before the legislature in 1873. Smalls was held to bail to answer in the Circuit Court, October 22d.

Maxwell, Senator from Marlboro County, in default of bail was imprisoned on a similar charge. These charges of bribery are connected with the printing swindles of the Republican Printing Company, of which Woodruff was the head-centre. His testimony is based upon a memorandum book which he kept in short hand.

Losses by the Late Railroad Riots.

PHILADELPHIA, 8.—At a meeting of merchants who suffered losses by the late riots at Pittsburg, a committee of three was appointed, with power to employ counsel, to represent all parties having losses. The expenses incurred are to be divided among the claimants in proportion to the amounts involved.

WESTERN.

Bank Swindlers.

SAN FRANCISCO, 8.—Warrants have been issued for the arrest of J. C. Duncan, manager of the Pioneer Bank and principal stockholder of the Safe Deposit Co., and Benjamin C. Lewarne, Secretary of the Deposit Company, charged with an over issue of stock. The amount of the over issue is not yet ascertained, but it is known to be large. The over issue was manipulated by Lewarne, while Duncan hypothecated the stock. The deposits in the vault of the company are all right. Neither Duncan nor Lewarne have been seen since Saturday. The police of all towns in the State have been notified to be on the watch for them.

Failure of a Stock Broker.

The failure of W. T. Duncan, member of the Pacific Exchange, is announced. It grows out of the failure of the Pioneer Bank, of which Duncan's father is manager. Young Duncan has been shorting the bonanza stocks backed by the bank. At the meeting of the creditors of the bank this afternoon a committee of five was appointed to take possession of the bank and report to an adjourned meeting of creditors. The bankers of the city say the failure is not unexpected by them, and the impression seems general that its affairs have been badly managed, and the failure will prove disastrous to the depositors.

China and Japan News.

The steamer *Belgic* has arrived, bringing the following news:

Hong-Kong, Sept. 11, Shanghai, Sept. 11.—Cholera is decreasing in the coast towns, but still prevails in the interior. There is great distress everywhere from famine, caused by short crops and ravages of locusts.

Heavy floods are reported in the southern provinces.

United States Consul Bailey, of Hong-Kong, goes home on leave of absence.

The Chinese envoys have started for Japan.

Yokohama, Sept. 20.—Asiatic cholera has appeared in Yokohama and Nagazaki, but no foreign cases, and among the Japanese the disease is under good control. Ample precaution has been taken and no spread of the epidemic is anticipated. Foreign ships of war have all left the harbors to avoid danger.

Affairs at Kogoshema are still unchanged. A small band of rebels is still uncaptured.

FOREIGN.

TURKEY.
War Notes.

CONSTANTINOPLE, 8.—A telegram from Orchanie states that twenty-four Turkish battalions, escorting a convoy to Plevna, defeated the Russian detachment sent to oppose them.

Frost and storms have rendered the Sistova and Nicopolis bridges impracticable for vehicles the last two days.

General Prince Imeritinsky has been appointed chief of general staff of the Russo-Roumanian army before Plevna, General Zotoff taking command of General Imeritinsky's army corps.

MEXICO.
Factory for Breech-Loading Arms—U. S. Debt.

CITY OF MEXICO, Sept. 30.—Congress has authorized Government to expend $300,000 in the construction of a factory for Breech-loading arms. Government has contracted for $200,000 dollars worth of Remington arms, and has ordered the collector of customs at Vera Cruz to remit monthly to the United States $25,000 on account of payment of the American debt.

WOOL CLIP.—The wool clip of the United States for 1875 was about 200,000,000 pounds; of England, Ireland and Scotland, about 162,000,000, mostly combing; of the Continent of Europe, about 463,000,000; of Australasia, about 35,000,000; of Buenos Ayres and River La Plata, about 207,000,000 pounds. These are the principal wool-growing countries of the world, and produce 1,382,000,000, out of the estimated 1,419,000,000, produced on the entire globe. The selling value of the entire clip would probably aggregate $450,000,000. Out of 1,419,000,000 pounds of wool (the estimated clip) there would be fully a loss of 567,000,000 pounds in scouring, making the net yield of clean wool about 852,000,000 pounds.—*Scientific American.*

WHAT THERE IS IN AN ONION.—The savory onion has at last fallen beneath the scrutiny of the analyst and the *Scientific Farmer* tells us what there is in it. By Messrs. Wellington & Bragg, under the direction of Prof. Goessman, at the Massachusetts Agricultural College chemical laboratory, being the first authentic analysis of this plant on record. One thousand parts, air dry, contain: Water 892.000; organic matter, 103.638; nitrogen, 1.120; total ash, 4.362; potash, 1.680; soda, 0.082; lime, 0.354; magnesia, 0.159; iron (sesquioxide), 0.027; phosphoric acid, 0.688; sulphuric acid, 1.153; silica, 0.148.

HIGHEST HONORS
AT THE
UNITED STATES
CentenniaL
World Exhibition,
1876.
MASON & HAMLIN
CABINET
ORGANS
Unanimously assigned the
"FIRST RANK
IN THE
"SEVERAL REQUISITES"
of such Instruments!
The MASON & HAMLIN ORGAN CO. have the honor to announce that the Organs of their manufacture have been unanimously assigned "the FIRST RANK in the SEVERAL REQUISITES of instruments of the class" by the Judges at the CENTENNIAL EXHIBITION at Philadelphia, 1876, and are the ONLY INSTRUMENTS OF THIS GENERAL CLASS AWARDED THIS RANK. This is after the severest competition by the best makers, before one of the most competent Juries ever assembled.
They have also received the MEDAL, but, as is well known, medals of equal merit have been awarded all articles deemed worthy of recognition; so thus it will be easy for many makers to advertise that they have received "first medals."
The differences in competing articles, and their comparative excellence, are recognized in the Reports of the Judges from which the following is an extract:—
"THE MASON & HAMLIN ORGAN CO.'S exhibit of Reed Organs and Harmoniums shows instruments of the FIRST RANK IN THE SEVERAL REQUISITES OF INSTRUMENTS OF THE CLASS, viz: Smoothness and equal distribution of tone, scope of expression, resonance and singing quality, freedom and quickness in action of keys and bellows, with thoroughness of workmanship, combined with simplicity of action."
(Signed by all the Judges.)
The Mason and Hamlin Organs are thus declared to rank first, not in one or two respects only, but in the SEVERAL REQUISITES of such instruments, and they are the Only ones assigned this rank. This triumph was not unexpected, for the Mason & Hamlin Cabinet Organs have uniformly been awarded the highest honors in competitions in America, there having been scarcely six exceptions in hundreds of competitions. They were awarded highest honors and
FIRST MEDALS
PARIS, 1867; VIENNA, 1873; SANTIAGO, 1875
PHILADELPHIA, 1876;
and have thus been awarded highest honors at
Every World's Exposition!
at which they have been exhibited; being the Only American Organs which have ever obtained Any Award at any competition with best European makers, or in any European World's Exposition!
NEW STYLES, with improvements, exhibited at the CENTENNIAL; elegant new cases in great variety. Prices very lowest consistent with best material and workmanship. Organs sold for cash or installments, or rented until rent pays. Every Organ warranted to give entire satisfaction to every reasonable purchaser or THE MONEY REFUNDED. An ILLUSTRATED CATALOGUE sent free.
