WIRED FROM WASHINGTON.

WASHINGTON, 11.—In the Hill investigation a stone-cutter testified that the government paid a contractor $272.26 for cutting stone, for which the contractor paid him $32.50, leaving a net profit of $239 76. It was suggested that the commission visit Boston and other cities for the purpose of taking testimony. Without deciding that it would accept affidavits in evidence, or visit different points to take testimony, the commission adjourned until Wednesday.

Issue of standard dollars for the week ending June 9th, 206,000.

In the Court of Claims, a motion for re-hearing the Leopold case was overruled.

In the Court of Claims, Chief Justice Drake announced the decision of the court overruling the motion for re-hearing in the case of Cadet Engineer Leopold. The original opinion is thus allowed to stand as the matured judgment of the court, after hearing all the additional facts and arguments submitted by Secretary Chandler through the Attorney General. In his recent letter the Secretary told the cadet engineer that if the decision were again in their favor, the case would be appealed to the Supreme Court. On Saturday last the Navy Department ordered Leopold to join the steamer *Yantic*, which is about to start for the Arctic regions.

The President has accepted 25 miles of the Northern Pacific Railway recently constructed in Montana.

During the month of May the total increase in the Star mail service amounted to $39,610; during the same period the amount saved from decreased service was $30,025, making the net increase of the service during the month amount to $9,590. In the steamboat service the net increase during the month amounted to $5,139.

Secretary Teller expresses the intention of expending all the money he can legally in purchasing stock cattle for the Indians.

A bill in equity has just been entered in court here against District Commissioner West for the recovery of railroad bonds placed in his hands in November, 1881, for negotiation, and which it is charged he has appropriated to his own use. Mrs. Mary Jane Stinde and Charles W. Stinde, residents of Louisiana, are plaintiffs in the action, and in the bill filed Mrs. Stinde alleges that in November, 1881, at the request of West, the defendant, she delivered to him for negotiation, 100 bonds of the New Orleans, Baton Rouge & Vicksburg Railroad Company, of the denomination of $1,000 each, he promising to obtain payment of the bonds or have them exchanged for bonds of the New Orleans & Texas Pacific Railroad Company, and until so disposed of, to keep them in his possession. She asserts now that she recently called upon West to return the bonds, but he refused to do so, and refused to give her any information as to their whereabouts. West will be ordered to make known the whereabouts of the bonds, and his dealings with them, and it is asked that he be restrained from dealing with them any further, and that the present holder of the bonds be enjoined from delivering them to defendant. A temporary restraining order was issued by the court.

Arthur remained at the Soldiers' Home during the entire day.

Impending Abdication of the Queen.

Specials are received saying that the Queen of England contemplates abdicating. The reasons for this most unexpected course are Her Majesty's fast failing health and increasing unwillingness and sometimes inability on her part to perform the duties consistent to the government. For some years the Queen has been a mild believer in spiritualism. She thought the spirit of her dead husband used to assist her in working out questions which perplexed her. Since the death of her favorite servant, John Brown, she has been very much depressed, and finally it was necessary to remove her to Balmoral, where some of her happiest days were spent with her husband in youth. I am told that some very pathetic scenes took place at her last visit there. She seems to feel the actual presence of her dead Prince, and talked as though he were by her side. This and other occurrences frightened and alarmed her daughter Beatrice greatly, and she insisted that some other of the members of the family should come down at once. It was telegraphed from London by the Ambassador of a great Power of his sovereign on Wednesday last that the abdication of the Queen of England was impending, and would probably occur very soon. The break down of her health has been followed by melancholy of the most pronounced type. It seems not to be generally known that the trouble with the Queen's knee comes from a large ulcer of a scrofulous and cancerous nature that has formed under the joint, and in spite of all that can be done is eating its way to the bone; and her condition is very serious indeed.

DEATH AND DISASTER.

Several States Visited by Tornadoes Yesterday.

CHICAGO, 11.—Wires from the East are working poorly and slowly; raining all day in Chicago and many points East.

Cedar Rapids, Iowa, 11.—A special to the *Republican* from West Union, Iowa, states a tornado struck Bush Creek this afternoon about 3 o'clock, and blew one-third of the town away. Loss $30,000, to $40,000. No lives are reported lost. A school house was also blown over between Calweine and Maynard station, on the B. C. R. & N. road, about the same time.

Dubuque, Iowa, 11.—A dispatch from Waverly says, a cyclone this afternoon visited Tripoli, the scene of the exploits of the Barber Brothers, about 3:30 p.m. It blew down trees and buildings. The large machinery warehouse of J. C. Garrett was completely destroyed, the loss being about $800 or $1,000. Considerable damage was done to business houses, and many small buildings were blown to atoms. Several persons were slightly injured.

Chicago 11.—*Daily News'* Harvard, Ills., special: A peculiar cyclone passed a short distance southeast of this place to-night with heavy hail and rain. It met another cyclone north of here, reversed its course, jumped over this place and struck the earth a mile south of here, and swept away barns, dwellings and fences. Turning to a direct eastward course, it leveled a number of dwellings and barns. A few persons were wounded, but no lives lost.

Huntsville, 11.—While the mail carrier and passengers were crossing Mount Vernon Lake to-day, the boat swamped and the mail carrier and a lady were drowned.

Havre de Grace, Md., 11.—A large sawmill owned by John Dubolse, burned to-day. It caught from sparks falling on the roof from the smokestack. An immense stock of lumber, including doors, sashes, etc., was destroyed. Dubolse's loss, as near as can be estimated to-night, $250,000.

Chicago, 11.—Charles Rider and Charles Whiee, painters, while engaged on a building this afternoon, were thrown to the ground by an accident to the scaffold, and both killed.

Chattanooga, 11. — Mrs. Julia Wheeler hanged herself near Bridgeport, Ala., on Saturday, and her body was discovered to-day. She had become crazed by grief over the death of her husband. She leaves six small children.

Chicago, 11.—*Inter Ocean's* Beloit, Wis., special: This city was struck by a tornado about 6 p.m., with the result of demoralizing the business part of the town, killing one man and wounding several others. The storm came from a southwesterly direction, and was met by a current of air going south, causing a rotary motion accompanied by heavy rain. It struck the western portion of the city, wrecked a number of dwellings, then passed to the heart of the city, unroofing a number of business houses, blowing down the Northwestern Railway bridge, scattering the machinery in the room of the Rock River paper mills, killing Edward Halloran, one of the hands. Loss heavy, as many goods are injured, and building damaged by water.

Inter-Ocean's Galena, Ills., special: A whirlwind passed over Elmo in the southern part of Wisconsin about 4 o'clock this afternoon, doing much damage. Owing to interrupted telegraphic communication particulars cannot be had. A freight train on the Northwestern Railway was picked up bodily, except the engine, carried from the track and completely wrecked. Conductor Wm. Gleason was seriously and W. E. Comstock, traveling man, Chicago, slightly injured.

Boston, 11.—Dr. John B. Manning, divorced in Brooklyn and thereby losing $510,000, committed suicide to-day.

St. Louis, 11.—A tornado passed over part of Callaway County, in this State, Friday afternoon. It did considerable damage to farm houses, outbuildings and other property, but nobody is reported killed or wounded.

The Catalogue of Crime.

SYRACUSE, N. Y., 10.—Benjamin Morley killed his step-daughter, Mrs. Luella Hynes, and then killed himself; family troubles.

Philadelphia, 11.—Dr. Buchanan, of bogus Medical Diploma fame, is arrested at the instance of his daughter, charged with transferring property belonging to her.

Terre Haute, 11.—The city is excited this afternoon by the attempted murder of Hon. John E. Lamb, Congressman from this district, by Samuel C. Davis, an attorney of this city. Davis was stationed at the entrance to Lamb's office, when the latter approached and saluted him with "How are you?" "Don't you speak to me," said Davis. "I will speak to you; I want to talk to you," said Lamb. "No, you wont," said Davis, immediately drawing a revolver and placing it almost against Lamb's chest. The Congressman threw up the weapon with his hand, in which he had some legal papers, holding a cane in the other, and dodged as the weapon was discharged, the ball passing through the hall over his shoulder, through a passing wagon, lodging in the driver's foot, inflicting a painful wound. Lamb went into a store next door, and Davis was taken charge of by the bystanders. The cause of the attempt is attributed occurrences growing out a libel suit against the *Express*, in which Davis was prosecuting and Lamb defending.

Troy, N. Y., 11. — There was a murder here this afternoon and perhaps two more, growing out of a strike of the moulders at the Malleable Iron Works. About 4 o'clock, the police were sent for, and after dispersing a large crowd and arresting three young men, found one man dead from a pistol shot and two men wounded. The persons charged with firing the fatal shots are non-union men, and were engaged in the row. A great crowd followed the officers, determined to lynch the men who did the shooting, but were kept at bay. Superintendent Quigly who was soon on the scene, ordered the crowd to stand back, whereupon the excited crowd attacked him, knocked him down, and were choking him when some of his men rescued him. The entire detective force and five patrolmen went to the scene of the murder, and will remain there during the night.

Boston, 11.—William A. Putney, at one time proprietor of one of the largest dry goods stores in Chicago, and raised among the millionaires, through business speculation and bad investments, was finally obliged to give up business on account of impaired health. Without money he returned East, obtained a position as salesman in the store of Shephard, Norwall & Co. The firm have been missing considerable goods. The detectives traced the thefts to Putney, and he was arrested at his summer cottage at Wantuskeit. The officers with their prisoner took the steamer for Boston at Putney's solicitation, and did not put irons on him. Putney desired to avoid people he might know on board, and was allowed to move about. Suddenly while chatting with the officers he plunged overboard. He was taken from the water by a boat's crew and everything done to resuscitate him, but he died in about ten minutes; age 52.

Montreal, 11.—Justice Rainville gave judgment to-day annulling the marriage of Miss Chaffey to the bogus Lord Cemyre, on the ground of being a minor, and the consent of her guardian not being given. The court denounces the system of granting licenses here which gives no security to families.

Chicago, 11.—At a meeting of the City Council to-night, an attempt was made to evade the provisions of the high license State law for the present year if it finally goes into effect. Under the existing ordinance, saloon licenses become due July 1st, and as the new law would, if passed be in effect at that time, the saloon keepers here would have to begin paying at once. To prevent this an ordinance was introduced in the Council to night, making saloon licenses due and payable the last day of May in each year. An attempt was made to pass it under suspension of the rules, and only lacked two of the necessary two thirds vote. A special meeting is called for Thursday night, when a bare majority can pass it. No doubt is entertained about its passage at that meeting.

Chicago, 11.—A committee of the Board of Trade this afternoon continued its secret inquiry into the charges by McGeoch against Fowler Bros., of selling adulterated lard. The testimony was of the same general character as before. As between 70 and 80 witnesses are summoned, the examination promises to be protracted somewhat indefinitely.

FOREIGN.

British Briefs.

LONDON, 11.—The Chancellor of the Exchequer, Childers, in a speech at the annual dinner of the press fund, pointed to the great progress of the press in America, and gave as an instance the publication in Chicago of the revision of the New Testament the day after it appeared in England.

Lynch, alias Norman, informer, repeated his testimony in regard to the doings of the conspirators previous to and after their arrival in England from America, which he gave at the preliminary hearing.

The *Times* correspondent at St. Petersburg says there was no procession yesterday when the Czar and Czarina entered the city. They were followed by graduates and nobles. The party drove through the city very rapidly.

Michael Davitt has arrived. He had a conversation with Parnell, and they came to an arrangement in regard to the manner in which the agitation in Ireland should be conducted hereafter. Davitt will not go to America, but remain at home to carry out the Irish programme.

In the chess tournament, Zukertort beat Blackburne, winning the first prize, £300.

In the House of Lords to-day, the bill legalizing marriage with a deceased wife's sister passed its second reading by a vote of 165 to 158.

A correspondent at Berlin says Von Benningsen favored the passage of the church bill in its modified form, while the rest of the National Liberals now seem determined to oppose further concessions to the Vatican.

The *Times* says that Ellis & Co., the largest merchants in Liverpool, have gone into liquidation. Unfavorable results were expected, as it is understood that the firm has been unfortunate in operations in tea and sugar.

Birmingham, 11.—The celebration of John Bright's service as representative in Parliament for Birmingham for over a quarter of a century has begun. A procession of delegates from various liberal societies a mile and a half long passed in review before Bright. The chief feature of the day was the presentation of a gold medal to Bright. The demonstrations at the railway station where Bright arrived this morning and throughout the line of march resembled a royal progress. The route of the procession, which was five miles long, was densely crowded with people.

Madrid, 11.—The government has ordered the prosecution of the democratic journals *El Liberal* and *El Globo*, for conveying instructions in regard to the Queen's departure for Bohemia. The proceedings are taken under the special press law passed by the Tories. This is the first time the law has been applied while the Liberals have been in office. Before the publication of the objectionable articles, several democratic papers had editorials reflecting upon persons of high rank. Several duels are arranged between editors and noblemen.

Boulogne, 11.—The aeronaut, L. Hoste, who made an unsuccessful attempt Tuesday last to cross the British Channel in a balloon, renewed the attempt early Saturday morning, and has not since been heard from. It is feared he was carried out over the North Sea, into which he fell and was drowned.
