

SENATE CROWDS WORK ON TARIFF

When Bill is Taken Up Monday,
Every Paragraph Will be Sub-
ject to Amendment.

SPECIFIC DUTY ON DIAMONDS.

Senators Clay and Bacon Oppose Pol-
icy of Admitting Philippine
Sugar Free.

Washington, April 23.—The first reading of the tariff bill for considering committee amendments was concluded when the senate adjourned today. According to an announcement made when the reading began, every paragraph of the bill will be subject to amendment when it is taken up for final consideration next Monday. All expedients, however, that substantial progress has been made. There will be no return to many of the schedules. There was comparatively little debate today, as Senator Aldrich postponed replying to many questions asked of him in order to hasten the reading. He said he would make full explanations when the amendments received final consideration. Many provisions, including the wool pulp and wool schedules, were today passed over on specific objection.

Senators McChesney and Simmons suggested that the lumber schedule be passed over, and Senator Beveridge made the same request in the respect to the tobacco schedules. The suggestions of various senators indicated that more than half of the rates under the wool, sugar and molasses, tobacco and agricultural and other schedules would come in for criticism at a later date. The schedules relating to spirits, wines and other beverages, in many of which the senate materially increased the rates proposed in the house bill, were without provoking any objection on the part of the senators. No one asked that any of the paragraphs be passed over.

The entire wool schedules were passed over on motion of Mr. Nelson, who had previously declared his belief that the rates of duty provided in the bill were too high.

DUTY ON PRECIOUS STONES.

"Notice that the committee would bring into the senate an amendment making duties on pearls, diamonds and other precious stones specific instead of ad valorem," was given by Mr. Aldrich. Replying to Mr. Bacon, Mr. Aldrich said the rates on these articles were as high as had been found practicable for the collection of any revenue. When the schedule relating to wool pulp, print paper and books was reached, Mr. Aldrich said the committee hoped in a very few days to report an amendment for the wool pulp provision of the bill.

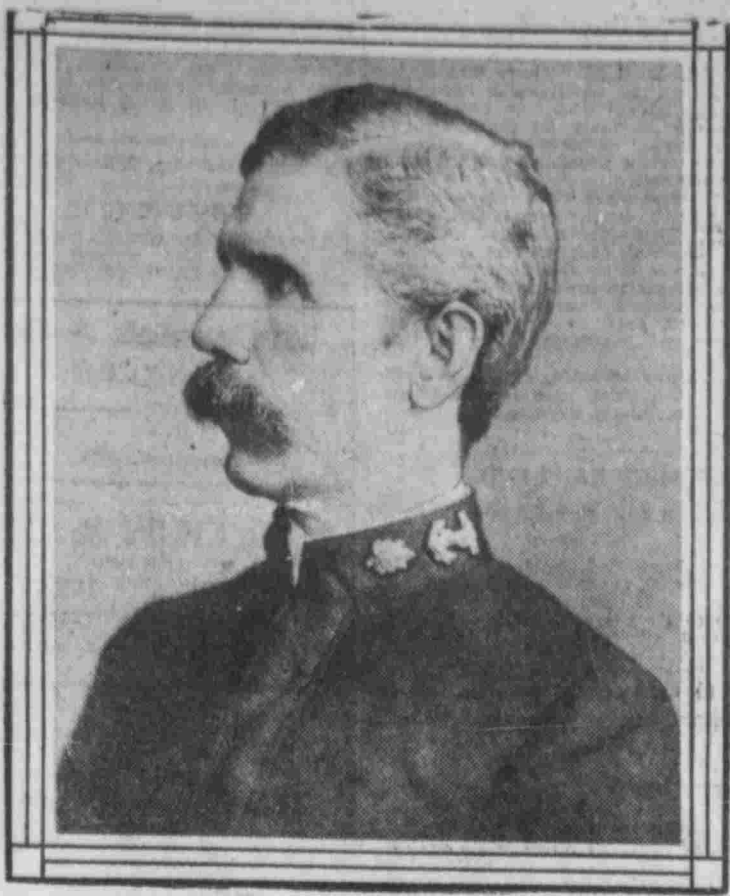

Messrs. Clapp, Bristow, Nelson and Foss called attention to the possible effect of the house paragraph in preventing any free importations of wool pulp from Canada because an export duty might be imposed by a single province of the Dominion. Mr. Aldrich explained that this was one of the matters under consideration by the committee on finance. "That we ought not to deal in the main with Canada and hold the Dominion government responsible always for what is done in any part of the Dominion," he said. The schedule then was passed over.

PHILIPPINE SUGAR.

The reading of the Philippine sugar schedule was the signal for a vigorous criticism by Senators Clay and Bacon of the policy of admitting sugar from the Philippines free of duty. They declared that the free admission of 225,000 tons of sugar from Porto Rico and 50,000 tons from the Hawaiian Islands had not affected the price of refined sugar in the United States. Mr. Bacon added that, while granulated sugar in the United States sells for 10 cents per pound, it is sold for 2.75 cents a pound in London. Mr. Bacon stated that the introduction of free Philippine sugar would be replacing an equal amount of dutiable sugar, reduce the revenues without any benefit to the people.

Mr. Lodge said the entire sugar production of the Philippines is but 150,000 tons annually, which he declared would go to China. The paragraph was passed over under objection by Senators Foster and Newlands.

Mr. Dolliver called attention to a provision in the bill permitting cattle, horses, sheep and other domestic animals to be brought back to the United States free of duty within six months after being driven across the boundary lines for temporary pasturage. He declared that treasury officials permit unidentified animals born in Mexico and those that have been kept there for more than a year to be brought into this country without duty. He insisted that some official should be called to account for such conduct, and upon his motion the entire paragraph was passed over.

REAR ADMIRAL RICHARD WAINWRIGHT.

Rear Admiral Wainwright, now in command of the second squadron, will probably succeed Rear Admiral Schreder as commander-in-chief of the fleet before summer.

EARTHQUAKE CHANGES SANTA PAULA CANYON

Los Angeles, Cal., April 23.—A special dispatch from Ventura says, an earthquake causing the slide of a great mountain of the Sierra range has changed the entire surface of Santa Paula canyon, dammed the Santa Paula creek and made a lake in the south fork canyon, that in the wild beauty of its surroundings, is said to rival Tahoe.

The creek bed is said to have been raised 200 feet above its former level, and the water pours out from over a fall 200 feet high. The new lake, it is estimated is about 1,000 feet long and 50 feet wide.

The water is about 50 feet deep. The earthquake that threw the mountain out of place occurred April 19. The shock was local in character, it not being felt at any of the nearby towns.

BIG HATS INJURED SUFFRAGE MOVEMENT

Chicago, April 24.—The real reason for the anti-big hat bill introduced in the legislature by Representative George C. Hilton has come to light. The informant is Mrs. Hilton herself, and moreover, she does not agree entirely with her husband's views. "I was down at Springfield," she says, "while the suffragist people were there. Many of them wore such big straw hats, or scratching themselves on feathers or long hatpins. Legislators, when interviewed, acknowledged that the information was correct."

"The position of the opposition is thus stated by Mrs. Oliver W. Stewart, president of the Illinois Woman's Suffrage association: 'If the Illinois legislators would use some of their energy in considering woman suffrage or some of the other important issues before them instead of thinking up such ridiculous measures as this hat bill, they would be of greater service to their state.'"

SERVED HER RIGHT.

New York, April 24.—Emma Chee, white wife of a Chinaman must serve not less than seven, nor more than ten years in prison at Auburn, for luring young girls to New York City. She was sentenced yesterday by Judge O'Sullivan in general sessions after having been convicted with Ong Sing, a waiter, of abducting a 14-year-old girl from her home in Brooklyn. Ong Sing married the child, but she was later taken home by her parents. Her erstwhile Chinese husband must serve not less than two years and six months, nor more than five years in Sing Sing.

UNUSUAL THINGS IN WALL PAPER

Any one can furnish wall papers that are only house cleaning qualities. To produce artistic effects requires talent and study. All our previous efforts are surpassed in excellence, good taste and merit. We have everything for a distinct purpose, and a vast variety to select from. Geo. W. Ebert & Co., 27 Main.

BROUGHTON BRANDENBERG

Claims He is the Dreyfus of
America and Has Been Made
"Scapegoat of Politics."

ARRESTED AS A FUGITIVE.

Apprehended in San Francisco—Still
Insists That Alleged Cleveland
Article Was Genuine.

San Francisco, April 24.—Broughton Brandenburg, novelist and magazine writer, who was arrested here last night as a fugitive from justice in New York on a charge of grand larceny in connection with a political article claimed to have been written by the late Grover Cleveland, declares that he is the "Dreyfus of America," and has been made the "scapegoat of politics."

Shortly before the election last year he sold the Cleveland article to the New York Times, which published it after F. S. Hastings, Cleveland's executor, had pronounced the signature genuine. Later Hastings declared the letter was a forgery and Brandenburg was indicted on two counts, one for forgery and one for larceny. The forgery charge was dropped and Brandenburg was released on \$1,500 bail to appear Feb. 1 for trial on the other charge. He failed to appear when the case was called and the police in the entire country have been searching for him ever since.

With the writer when he was arrested at a local hotel was his small stepson, James Cabanne of St. Louis. Brandenburg had registered as D. W. L. Leonard of London and after having been taken into custody explained that this was a family name under which he had been traveling for several months all over the United States. He claims that he has been working on a great industrial scheme and that had he not been interfered with here he would have realized \$50,000 within the next year and returned to New York as a successful success.

The police have been closely on his trail for several days and the arrest was accomplished through a description sent broadcast including the all under which he had been traveling. When he inquired for a telegram for "Leonard" at his hotel, the clerk remembered the police warning and telephoned for an officer.

Brandenburg left Ogden Wednesday. On the train he learned that two little boys with whom his son had struck up an acquaintance, were traveling alone to their mother in this city and undertook to see them safely delivered. To the mother of these children, Mrs. Rose, 29 Elizabeth street, he will intrust his stepson, until his affairs are straightened out.

CLEVELAND ARTICLE.

Discussing the allegation that he "faked" the Cleveland article, which criticized W. J. Bryan and lauded President Taft, he said:

"The fact that the sentiments expressed were those of Mr. Cleveland, has been proved by private correspondence which the former president had with other friends. He often wrote for pay while he was president of the advisory board of the Equitable Life Assurance society, and it was in his firm, was moving and the door was locked. As a workman was passing the car here yesterday, he heard moans and when the door was forced open he found Taylor, almost dead from starvation. He was cared for by the police and will recover."

BOYS ADVENTURE IN A CAR.

White Plains, N. Y., April 24.—John Taylor, a 12-year-old boy, crawled into a box car, at Northampton, Penn., last Monday to take a nap. When he woke the car, which was loaded with cement, was being taken to New York City. As a workman was passing the car here yesterday, he heard moans and when the door was forced open he found Taylor, almost dead from starvation. He was cared for by the police and will recover.

COLUMBIA SENIORS.

Discontinue Wearing Caps and Gowns During Last Two Months of Year. New York, April 24.—In violation of all custom and college tradition, members of this year's senior class of Columbia university have discontinued the wearing of academic caps and gowns during the two last months of the college year.

This custom, which is dear to the hearts of all college men, has been in vogue at Columbia since time immemorial and when it became known that this year's seniors failed to live up to the tradition there was considerable adverse criticism. The Columbia Spectator in a sharp editorial takes the seniors to task.

RHEUMATISM.

More than nine out of ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp, or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's Liniment is all that is needed, and it is certain to give quick relief. Give it a trial and see for yourself how quickly it relieves the pain and soreness. The medicine usually given internally for rheumatism are poisonous or very strong medicines. They are worse than useless in cases of cold and muscular rheumatism. For sale by all druggists.

The Cabanne child was asleep when Brandenburg was interviewed regarding the part this little one took in the continent-wide flight. The author was reticent in connection with the boy. He said:

"I arrived in St. Louis a little more than a week ago and stopped there to get my stepson, who was with his grand parents, who are members of a prominent family. It was then that I determined to come to California to work until my fortune turned. My wife is in New York and I was planning to send for her and establish my family in a little home here."

UP BEFORE THE BAR.

N. H. Brown, an attorney, of Pittsfield, Vt., writes: "We have used Dr. King's New Life Pills for years and find them such a good family medicine we wouldn't be without them." For Chills, Constipation, Biliousness or Sick Headache they work wonders, 24c at Z. C. M. J. Drug Dept., 112-114 So. Main St., Salt Lake City.

DEEP WATERWAY FROM ST. LOUIS TO GULF

Washington, April 24.—Within a month the report of the engineering board authorized by law to estimate the cost of constructing a deep waterway to the Gulf from St. Louis will be made public. The board of engineers, which is the report of the engineering board, is divided into two sections, one of which is now at work on the report.

("The Average Physician Considers Catarrh Incurable" News Item.)

DRS. SHORES TELL WHY.

An Interesting and Logical Explanation by the Greatest
Authorities on Catarrhal Diseases in the United States.
Read—It will Repay You Well.

Into the many offices of the General Practitioners of the Country pour a steady stream of humanity who tell practically the same story: "Doctor I can't breathe through my nose—I take cold so easily. When I lie down something drops into my throat that causes coughing and spitting. When I get up in the morning I am tired—able to be up and around. What is the matter with me?"

The Learned Doctor—with Nasal Speculum and Tongue Depressor, makes a Careful but superficial examination and gravely says—"CATARRH!"

Then he prescribes some general tonic—and lets the patient drift from him. This experience is repeated with the next Doctor—and the next—until the patient is either disgusted and firm in the belief that Catarrh is incurable—or else has been disfigured and ruined by some middle-aged Surgeon who cuts and carves FOR THE MONEY IN IT.

If the Doctor would wake up to the fact that Catarrh is but a Condition—or Symptom—and NOT A DISEASE ITSELF—and study the underlying causes—and give the time and attention necessary to each case—and if he would do this day after day for many years—he would then approach Drs. Shores' skill as Expert Specialists—and divide honors and rewards with these noted specialists.

In some cases we find profuse discharge—in some cases exactly the reverse—a Dry Catarrh—some show a thin watery discharge indicating Vaso-Motor disturbance like Hay Fever—others a profuse sero-mucous secretion with grayish flakes, such as occur in second stages of acute Catarrh and in Nasal Polypi. A purulent yellow ill smelling discharge is found in diseases of the accessory cavities—in Otitis, and the last stages of acute Catarrh—and yet the careless or indifferent Physician prescribes the same line of treatment for every case—and then wonders why he loses his patients and why successful painstaking experienced specialists succeed.

DRS. SHORES SAY CATARRH CAN BE CURED AND IS CURED EVERYDAY.

Their proved to hundreds last week that even a week's treatment shows actual results. Hundreds who took the FREE TREATMENT last week, joined in praising the treatment and Drs. Shores' skill. Now while the season is right—NOW while prices and terms are low and uniform—Now while you have the thing in mind—GET IN LINE AND BE CURED YOURSELF! It is a month bringing you the services of the Most Successful Specialists in the West—Medicine and Treatment included—for all Catarrhal Diseases. WHY NOT COME TODAY?
