

OTHELLO.—Last night the very moderate assembly at the Theatre, had another rare exhibition of dramatic power in the presentation of "Othello" by Mr. Niel Warner. During the first act and part of the second the piece dragged, and the famous court scene was not rendered so effectively as it might have been. But from the moment Iago commenced to poison the mind of the Moor with hints, insinuations and doubts as to his wife's fidelity, the interest never flagged. The varied shades of feeling experienced from the time the first tiny doubt of his wife's fidelity were entertained by "Othello" until convinced beyond all doubt of her faithlessness, were portrayed with voice, face and gesture in the most vivid and life-like manner. Warner's "Othello" is a masterpiece; the stage may possess his peers in the character, but we are satisfied it would be next to impossible to find any superior to him.

We have seen Mr. Lindsay appear to greater advantage than while attempting to delineate "Iago" last evening; he is capable of doing much better, but this very distinguished actor's conception needs an immense amount of time and study, and genius even, to do it justice.

Miss Lockhart's "Emelia" was capably performed, and when denouncing Iago for his treachery, she received the most hearty applause. "Demodocum" was played in a very graceful and effective manner by Miss L. Ward.

To-night the comedy of "Used Up" and the renowned drama of "Don Quixote" will be presented. Mr. De Bar appearing in both pieces, supported by the leading members of the company.

AT PROVO.—We learn by Deseret Telegraph Line, that President Young and party reached Provo shortly after eight last evening, and started for Heber City about half-past nine this morning.

THE TERRITORIAL FAIR.—R. L. Campbell, Esq., Secretary of the Deseret Agricultural and Manufacturing Society, informs us that at the late meeting of the directors of the Society, it was determined to give power to the managers of the approaching Territorial fair to award prizes, or to report to the directors that they might do so, to the exhibitor of any article of produce, manufacture or art not specially noticed in their published list of premiums, but which might be considered by them worthy of special commendation. This should prove an incentive to our citizens who are engaged in pursuits that have not been noticed by the framers of the catalogue of premiums and awards. Indeed were no prizes offered, the impetus that the exhibition of an article of home manufacture of real worth to the community, would give to the business of the producer or maker, should more than repay him for the expense and trouble of bringing it before the notice of the public at the fair. Situated as our Territory is at the present time, with the impoverishing system of importation now so largely indulged in, draining it of its cash resources, the present is a most opportune time for our home manufacturers to prove what they can do in placing in the market articles of necessity and comfort equal to those brought from afar.

GROUND BROKEN.—Yesterday a party of graders broke ground in the 16th ward for the Utah Central Rail Road, being the first work done on the line in this city, so far as we have been able to learn.

ARRIVED.—The Company of Saints under the guidance of Elder Marius Ensign arrived at Taylors Mills late last evening, and moved on, to the switch at Ogden, at six this morning. About one hundred of the immigrants have already left with their friends, one hundred desire to go to the settlements north and about two hundred are coming to this city and the settlements south.

UNIVERSITY OF DESERET.—The fall term of the University of Deseret will not commence until Monday October 11th, the first Monday after Conference, instead of Monday Sept 20th as advertised. This change has been made, in consequence of the improvements and alterations in the University not being sufficiently near completion to warrant the Faculty opening its doors at the date originally appointed.

NEWTON.—The citizens of Goshen Valley have christened the new settlement to which most of them have removed, Newton, by which name it will be known in future.

KATSVILLE AND THE U. C. R. R.—P. Barton, Esq., who has just arrived from Kaysville, informs us that the enterprising Bishop and citizens of that settlement are pushing the work ahead with a vim on the three miles of grading they have contracted to do for the Utah Central Railroad, and are determined that no one shall have to say that they had to wait for Kaysville. A number of teams went to work last week on the grade there, and many more will be put on during the present week. Teams working on the grade are also scattered all along the road between this city and Kaysville, and the citizens of the settlements generally along the line of the track are working with the pluck and energy so characteristic of the inhabitants of this Territory.

FINE PEACHES.—Bro. Joseph Bull presented us this morning with some very fine peaches, gathered from a five year old bud-ded tree, in his orchard. They each weigh about half a pound, are ten and a half inches in circumference, and of delicious flavor.

COMING HOME.—John T. Caine, Esq., accompanied by Mrs. W. Jennings left San Francisco for home yesterday morning. They will reach this city early on Sunday next.

FUNERAL OF BRO. JOHN GODDARD.—The body of Bro. John Goddard, found yesterday afternoon in a slightly decomposed condition in the river near Bro. Pettis, about five miles below the Jordan bridge, and his infant brother, a notice of whose death appears in to-day's paper, were buried this afternoon. The funeral services were held at one o'clock at the 13th Ward Assembly Rooms. Elders John Taylor and Joseph F. Smith, of the Quorum of the Twelve, and Bishop E. Woodley, officiated. Bro. Taylor delivering a very impressive and consoling discourse. There was a large number of sympathizing friends in attendance.

THE HISTORY AND PHILOSOPHY OF MARRIAGE.—We draw attention to the advertisement of the author of the above-named work, which appears in to-day's issue. It is an exceedingly interesting and comprehensive work, as the extracts we have published abundantly prove.

NEW ADVERTISEMENTS.
