

## PLANS FOR SEWER ARE SATISFACTORY

After Some Discussion and Slight Amendment Council Authorizes The Work Done.

WILL COST SUM OF \$185,000

Martin Censured for Not Attending to City Business—Contractor Ford Criticized.

After considerable wrangling and a recess of 20 minutes, during which time the plans were explained, the city council at its adjourned session last night approved the plans and specifications for the sewer improvements to be made at a cost of \$185,000 under the recent bond issue. There was a slight amendment made to the plans upon motion of Tuddenham and to meet the objections of Pressee. The amendment was that the lateral sewer main on Ninth South street from East Temple to Fourth West be 12 inches in diameter instead of 10 inches.

It appears that the engineers for some reason reduced the size of the sewer to 10 inches and added two feet to the length of the interesting sewer in the northern part of the city. This was done while the council was away and hence Pressee was anxious to know why the change had been made. He said that he did not think a 10-inch sewer would meet the demands of that district. Engineer Riter and his assistant, Arthur Walters, explained all the technical details of the plans. Pressee was not satisfied at why the change was made and accused Tuddenham of bringing about the change while the other members of the council were away. Pressee then attempted to explain the reasons for the change but Pressee could not be convinced that the same were beneficial or why they were made. Walters declared that he had no explanation but was interrupted by a set-to between Martin and Fernstrom.

MARTIN CENSURED.  
Martin wanted more time to consider the plans and said that he objected to rushing a matter of such importance through without more deliberation. He also objected to being herded in and "voted like cattle" on plans he had never seen and he strongly urged that action on the matter be deferred. Tuddenham, Walters and Fernstrom called Martin to task for not attending the committee meeting Wednesday evening at which the plans were explained. Fernstrom said that he objected to councilmen regarding city business on the plea that they only received \$25 per month. If they should attend to it at that price he thought they ought to get out of office.

HE PLEADS POVERTY.  
Martin replied that some of the members can not live on \$25 per month, as others seem to do, but were compelled to seek some additional employment. He said that he did not like the way things were being railroaded through and that it seemed to be the case of some of the councilmen to take the million dollars of bond money as a joke. He said that he talked to the "railroaders" plan. Pressee wanted the matter continued for another session, but a motion to let the effect was lost.

THIRD UP DURING RECESS.  
A motion for a 10-minute recess was then carried. During the recess the matter was thoroughly explained, particularly to Pressee, and when the council was again called to order, Tuddenham offered an amendment in regard to the size of the pipe as stated above and it was carried. The plans were then approved, and the board of public works was authorized to advertise for bids for the work.

CONTRACTOR CRITICIZED.  
A caution was received from C. S. Valdez, advice pertaining to put in at his own expense the sewer extension to connect with his lots on Fourth South street. It was stated in the council that contractor P. P. Ford could not do the work for some time and it was necessary that it be done at once. After some criticism of the board of public works to order Ford to put the extension in within 10 days or forfeit his contract.

ADJUST PAYROLLS.  
The payroll for the last half of August, amounting to \$14,474.91, was approved. The council then adjourned until next Wednesday evening, Monday being a holiday and Tuesday night a prize fight.

COUNTY HIGH SCHOOLS.  
Ninth Grade Marks the First Step in This Direction.

Arrangements have been completed by the trustees of the two school districts of the county for the installation of the first year high school course in four schools of the most advantageous location in the county. The course will be known as the ninth grade. County superintendent Smith has arranged for the Bureau of Education to be taught at the Bureau of Education, with E. J. Dudley in charge, at West Jordan, with C. J. Smith in charge, at Sandy, with J. A. Smith in charge, at Sandy, and at the Miss Catherine Forester at Sandy. Superintendent Smith also announced that the eighth grade will be taught in 10 of the 12 district schools of the county this year. Nine supervisors will be appointed by the superintendent. The supervisors will occupy the same city schools. They will report for duty Monday morning, and the supervisors of buildings will report for duty next Thursday.

There will be a general meeting of The Knowledge Book is a great book for a little one; answers many troublesome questions.

WALTERS SHOWS FIGHT.  
Mae Wanted in Ogden Refuses to Recognize Requisition.

A telegram was received by Gov. Cutler yesterday from Sheriff Bailey of Ogden, who is now in Springfield, Ill., after a prisoner, asking authority to employ an attorney as the prisoner had decided to fight the requisition held by the sheriff for his return to Ogden. Arthur Walters is the name of the prisoner and he is a young physician of very high standing in Springfield. He is wanted at Ogden for attempting to induce Bessie Gray to submit to a criminal operation in that city. Gov. Cutler gave Sheriff Bailey the authority asked and the requisition will be fought out in the courts.

FELL FROM TRAIN.  
Express Messenger Luckily Escapes While Returning From Saltair.

Lester G. Condon fell from a Saltair train last night on the way into the city from the lake. He had gone out to Saltair with his wife, but became separated from her and attempted to return alone about four miles west of the Jordan river he fell from an open car but on picking himself up found that he was not injured, and flagged the next train. Condon is an express messenger of the Wells-Fargo company.

IN HEALTHY CONDITION.  
With Exception of Typhoid, City is Practically Free From Contagion.

The report of the city board of health for the month of August shows that the general health in the city is unusually good, notwithstanding the fact that there has been a shortage of water in the city and the weather has been exceptionally warm during the month. With the exception of typhoid fever the city is practically free from contagious disease. Only 25 cases of typhoid were reported during the month, while last August there were 29 cases and in August, 1904, there were 75 cases. In September, 1902, there were 123 cases of typhoid reported. During the past month only two cases of scarlet fever and one of diphtheria were reported. Whooping cough was prevalent last summer, but this year there has been but very little of that disease. Not a single case was reported during the month. The city is in a splendid state of health and the board of health is confident that the city is in a sanitary condition and that the minimum.

## FIEND ATTACKS A YOUNG WOMAN

Miss Susie Barnum the Victim of A Dastardly Assault at 10 O'clock Last Night.

TRIED TO CHLORFORM HER.  
Woman's Screams and Timely Arrival Of Neighbors Caused Brute to Take to His Heels.

Miss Susie Barnum, telegraph operator at the Knutsford, was the victim of a dastardly assault about 10 o'clock last night as she was about to enter Gregory court, which runs from East Temple street to West Temple street, between Sixth and Seventh South streets. The wretch who committed the assault, seized the young woman from behind, threw her to the ground, and tried to chlorform her. The young woman managed to scream, and attracted the attention of several women in the neighborhood, who called for help. The brute was frightened away before accomplishing his purpose. Miss Barnum fainted and later was hysterical, and in a rather critical condition.

MAN FOLLOWED HER.  
Miss Barnum left the hotel about 8:30 o'clock, but did not start home for some time after. She noticed that a man was following her, but owing to the fact that it was not late, and that several residents were on their front porches, she had no particular fear until, when she quickened her pace, the fellow walked faster also. Just as the young woman entered the court, she turned around and got a good look at the fellow. She walked a few feet further when the brute seized her, and with a handkerchief soaked with chloroform, tried to press it over her nose and mouth. He clutched Miss Barnum by the throat, but before she screamed, when she fell to the ground, the brute knelt on her. Several persons who heard the girl scream rushed to her assistance, and her assailant fled down the street.

POLICE HAVE GOOD DESCRIPTION.  
The matter was reported to the police, and they are diligently working on the case and hope to locate the man, as Miss Barnum gave a good description of him. She said he was smooth shaven, about 30 years of age, and of medium build, and was wearing a dark suit of clothes. She says if the man is caught she will be able to identify him.

The young woman, who is an orphan, has been in ill health for some time. She has a sister living in San Francisco. The price received for these properties was not made public, but counsel for the receivers stated that the proceeds of this would enable the receivers to pay depositors in full, together with all creditors, and that there would probably be something left over for the stockholders.

Merchants' Trust Co. Will Pay.  
New York, Aug. 31.—A practical settlement of the affairs of the Merchants' Trust company, which failed a few months ago, was announced today. The securities of the Hudson Valley Railway company, which were owned by the Merchants' Trust company or held by it as collateral for loans, were sold yesterday by the receivers to the Cohn syndicate.

The price received for these properties was not made public, but counsel for the receivers stated that the proceeds of this would enable the receivers to pay depositors in full, together with all creditors, and that there would probably be something left over for the stockholders.

Elliot's "Her Great Match."  
Syracuse, N. Y., Aug. 31.—Miss Maxine Elliott opened her season at the Watling opera house this evening, producing for the first time on any stage, "Her Great Match," written for her by Clyde Fitch, who was in the audience. Both the star and the play received a cordial welcome at the hands of the audience. Mr. Fitch made a curtain speech.

Original McKinley Man Dead.  
New York, Sept. 1.—Thomas Fitch, ex-consul-general of the United States in the Philippines, and the "Original McKinley man" of Kings county, is dead at his home in Brooklyn. He was 72 years of age and retired some time ago from active politics owing to ill health.

Sheet Metal Workers Strike.  
New York, Sept. 1.—A strike of the sheet metal workers in this district, called last night by the Amalgamated Sheet Metal Workers' union. About 2,500 members attended the meeting and the call for the strike was almost unanimous.

The strike will affect about 200 buildings in course of construction, and about 100 shops in which the metal workers are employed. The men demand an advance of 10 cents a day. Their wages now are \$4 a day. They claimed that about a year ago they entered into an agreement with the employers that if the men did not get the promised increase, "My Country" of the day they notified the employers that if the advance was not forthcoming there would be a strike.

Gigantic Municipal Convention.  
Chicago, Sept. 1.—Plans for a gigantic municipal convention and exhibition of civic accomplishments in Chicago next year are being made by the city officials and the municipal association. An effort is being made to capture the gatherings of the different municipal societies in the United States and Canada for joint congress next year, which will rival the recent municipal congress in Dresden.

Hugo Grosser, city assessor, will leave for Montreal tonight to urge the American society of municipal improvements to hold the next annual meeting in Chicago. The mayor of every city in the United States will be invited to the convention.

Chicago Real Estate Situation.  
Chicago, Sept. 1.—The total assessed valuation of Chicago real estate as returned last night by the board of review for 1905 is \$225,625,980, an increase of \$1,125,000 over the previous figures for the previous year. This results in an increase in the last year of 12.02 per cent in Chicago real estate full cash valuation, which is five times the assessed valuation.

The increase in the value of the city's property is a notable indication of the city's prosperity and industrial growth.

"The Gage"

Something "out of the ordinary" had to be made to satisfy the ladies' craving for newness in hats, so the introducers of Fashions have hit on "just the thing" for the Autumn of 1905. The ordinary shapes have undergone a dipping, bending and a tipping, until they produce a fantastic appearance—thoroughly smart and exclusive. One of the newest results is the "GAGE," one of which is here shown.

IT IS THE CORRECT HAT FOR STREET WEAR

"Alice" blues, "Reboux" greens, Ruler rads, "London Smoke" and "Queen's Hair" brown will be the Colors most fashionable, yet the stunning black and white hats will retain their high rank of popularity.
