Letters that threaten every form of violence are pouring into Boise from all over the country by the hundreds, and most of them are directed to Gov. Frank R. Gooding, who is made largely to bear the brunt of all that this cele-brated case invites. Detectives, police and friends of the governor generally are constantly upon the alert to block the blow and at the instance of family and friends he has finally and under protest altered the routine and movements of his life and work at least to a point of-fering the least exposure compatible with the performance of his duty. Gov. Gooding may be in no danger from any source, but he and his friends live every hour in the cilil atmosphere of danger, and to them the tragedy is ever med. trial are in circulation, but the atti-Letters that threaten every form of tude of both sides indicates that they are ready to go to the bar for trial.

are ready to go to the bar for trial. The only preliminary proceeding pending is a motion by the defense for a bill of particulars of the evi-dence by which the state hopes to show that Haywood conspired in the murder of Steuenberg. This motion, which is designed to secure 2 dis-closure of the hand of the state, will be argued before Judge Wood on Mon-day next. This is not regarded as fixely to Jelay the trial. The Idaho code and practise, mod-eled closely upon the laws of Cali-fornia, have no provision for bills of particulars in criminal cases, and in the only precedent recorded in the Idaho reports the court denied the ap-plication, holding that the power to require the furnishing of bills of par-ticulars in general was discretionary with the court. It is asserted that no right of appeal goes with such a mo-tion, and neither side seems to regard the matter seriously.

The officials of the state, county and city, counsel chosen to present the case of the state, men who lead in the life and work of the community, have reached a point where they decline to publicly discuss the case or the men at bar. The streets, stores and hotels present no scenes foreign to the routine of the day's work. It would seem that a majority of the community had assumed a ju-dicial attitude toward the celebrated case and had disciplined itself in the face of it. The occasional man, free from alignment or partisanship, who will discuss the case openly, gen-erally tells you that Boise knows neither labor unionist nor mine own-er; knows only that a cruel murder, che of a long series of shocking crimes, hus been done; that its busi-ness is to cabnly and fairly try the men who are accused, to free them if they are proven guilty, and to do this fearlessly.

It is announced, however, that Mexico expects it will not be necessary to re-sort to actual hostilities. If Guatemala, as is expected, finally refuses to extradite Lima, the 10,000 Mexican troops on the Guatemalan frontier will be retained and diplomatic relations terminated. Even in that event a peaceable settlement of the difficulty would not be imposisble. The state department announces it can do nothing at present to cause the two countries to settle their difficulties, but developments will be watched anx-iously.

### PENNSYLVANIA'S CAPITOL SCANDAL KEEPS GROWING.

Harrisburg, Pa., May 2.—The capitol investigating committee issued a state-ment tonight showing the cost to the state for furnishing the house. Ibrary and the resident clerk of the house. The metallic cases in these departments were supplied by the Pennsylvania Construction company of Marietta, Pa., and the other furnishings by John H. Sanderson & Co. of Philadelphila.
