It's the Method Employed Which Makes Success or Failure.

One man with pen, ink and paper can produce a landscape, another man with same pen ink and paper may not be able to write his own name legibly. It is all in knowing how. It is equally true in the use of medi-

clnes. The same remedies we have to-day have existed for thousands of years, but if their existence was known the knowledge of how to use them was

They became valuable to the human ace only when experiment and science showed the way to use them to get reult

The grip is an old disease with a new name; it is really catarrhal in character and the usual symptoms are hose of acute catarrh, but the old time catarrh powders, salves and sprays do not cure it, neither does the application of antiseptics through an inhaler give anything more than relief for a short time

The antiseptics are all right; they will kill the germs of catarrh and grip if they are applied rightly, but their local pplication to the nose and throat avail little because the germs are in the blood and through the whole system.

Catarrh Tablets contain Stuart's many of these same antiseptics, that are used in sprays and inhalers, but instead of applying them to the inbut flamed membranes of the nose and throat, they are taken into the stomach and thus reach the blood, the real seat of the disease and drive out the infestious germs through the nature channels of the bowels and kidneys. natural

In other words Stuart's Catarrh Tab-lets reach the cause of the mischief instead of merely local symptoms. The remarkable success of these tab-

lets in curing grip, catarrh and throat and lung troubles is because they drive the catarrhal poison from the system and the nose and throat become clear of the excessive secretion of mucus, which causes the hawking, spitting and gag ging, because the secretion is not sup-plied from healthy blood, Two years ago Stuart's Catarrh Tab-

lets were unknown but today have be-come so popular through positive merit that druggists everywhere in the United States, Canada and Great Britain now United
