AMERICAN.

NEW YORK, 9. — The *Herald's* Salt Lake special says in the *Tabernacle*, the day before yesterday, the Prophet arose, at an unexpected moment, and broke forth in an address to the saints and sinners, which gave the latter to understand that if they wanted blood they could have plenty of it, and indeed they were likely to have more of it let out of their veins than they could spare, at an early period. Many discreet Gentiles are quietly arranging for the removal of their families at the first sign of an outbreak.

The *Herald* says, editorially, in re-reading Gilman's affidavit in the light of District Attorney Howard's statement, we are led to the conclusion that the attempt to misrepresent Howard had its rise in Mormon quarters, and was intended to procure the removal in disgrace of an officer who apparently knows too much, and is too zealous for justice to be liked by the Mormon authorities. This attempt has failed. We are glad to see Howard relieved of suspicion, and we trust he will proceed fearlessly and energetically with his task of bringing to justice all who had a share in the Mountain Meadow Massacre. No matter how high he strikes he may depend on the strong sympathy of the whole public.

The *Sun* says Wheeler H. Peckham, and Corporation Counsel Whitney, have completed the examination of Tweed and of his vouchers and papers that are to be the substantiate document to be submitted to Attorney General Fairchild by Townsend. Peckham, it is understood, is entirely satisfied that Tweed can furnish evidence that will be of material service to the prosecution, on the trial of the suit against Sweeney and other members of the ring. The corporation counsel is confident that, with Tweed's assistance, he can defeat most of the large claims pending in the courts against the city, and Peckham and the corporation counsel will report to the Attorney General if the interests of the city and of the State will be best subserved by Tweed's release.

At the Academy of Music, last night, the New York Historical Society commemorated the hundredth anniversary of the State's political birth as a free and independent sovereignty. Charles O'Connor delivered an address. He said he would abolish the system of representation by districts; would reduce legislatures to one house, and would take a new governor by lot, each month, from the legislature. The presidential term of office he would modify on the same plan.

Bishop Spaulding, of the new diocese of Peoria, yesterday gave the black veil to three young women, the first in this country to enter the Order of Presentation of Nuns.

A London correspondent says the army clothing factory, at Pimlico, is worked without intermission, and numerous shifts are being employed. There is a general conviction in military and naval official circles that we are on the brink of war. Arrangements have been made for the embarkation of 25,000 men within six days if necessary, and 20,000 more within a fortnight.

The *Sun's* Washington dispatch says the Treasury Department has ordered an investigation into the irregularities charged against Superintendent Lagrange, of the San Francisco mint.

The fifth annual report of the American Silk Association shows that the consumption of raw silk in the United States for 1876 was within ten per cent. of that of 1875, which was the year of the largest consumption on record. In Patterson the sum paid to operatives was \$2,000,000. The average advance on all sorts of silk has exceeded one hundred per cent. The ordinary channels of trade are now usually sluggish, and the immediate future offers few features of encouragement. Fraud on the revenue, by under-valued invoices, was one of the causes for the depressed state of the market.

A dispatch to Gen. Sheridan from Gen. Miles, dated at the latter's headquarters on Tongue River, says 300 hostile Sioux surrendered on the 22nd of April.

POTTSVILLE, 9.—An explosion of gas occurred this morning in the Wadesville mines, near St. Clair. A number of men are imprisoned. It seems impossible to rescue them. Second Dispatch.—It is reported

from St. Clair that thirty men are imprisoned in the Wadesville mine. Their cries for assistance can be plainly heard.

Six bodies have already been recovered.

The first warning of the accident was a sudden alarm sent up to the boss for aid, and descending immediately they recovered the bodies of John D. Atkin and Wm. Kirk, who were killed outright. Seven men more were reached, all seriously burned, and it is thought three cannot possibly recover. Five men are imprisoned behind 200 tons of coal, displaced by the explosion. A large force of miners are removing this mass of coal. Some think the imprisoned men can be reached by night, while others think it will be impossible to liberate them before morning, as the gangway in which they are confined runs under the surface for over a mile, and getting at them is a slow and laborious task. The scene at the mouth of the shaft is heartrending. A large number of men, women and children are gathered there anxiously awaiting to rescue their friends and relations. The names of four of the five men imprisoned are Benj. Mosely, Herbert Moore, Thomas Connors and Joseph Milwood. Before the men can be rescued it is feared it will be too late to save their lives. They have been in since ten o'clock.

WASHINGTON, 9. The Sixteenth Infantry is transferred from the department of the Gulf to the department of Dakota. The removal of these troops leaves but two regiments in the department of the Gulf, in Louisiana and Arkansas. In the department of Texas there are two regiments of cavalry and three of infantry.

FOREIGN.

LONDON, 7.—At Vienna the news of the English armament causes alarm.

The blockade of the Black Sea ports will be manned by twenty Turkish vessels.

The official journal of Paris publishes a neutrality decree and an official notification of the Black Sea blockade.

The Russian right wing is marching through Geuleo and Tchilder, evidently with the purpose, unless prevented by the Turks, of turning the second Turkish line of defence at Soghaule. The Russian centre, on the plain of Kars, seems to be awaiting the result of this movement and of the maneuvers of the left wing, which is trying to force its way from Bayazid by way of Surikoy.

A correspondent at Constantinople understands that the Porte has received a telegram from Mukhtar Pasha announcing that he occupied Kars and Erzroum, and is confident that he can stop the Russian advance.

The Porte has decided to grant a general amnesty to Bulgarians.

A Pesth dispatch says Austria has notified Russia and the Porte that the interruption of the free navigation of the Danube can only be temporary. Navigation must, after the war, be restored to its full force in accordance with the Treaty of Paris.

The Sultan has resolved to proclaim a holy war.

A special from Bucharest says the murder of a number of Roumanians by the Turkish irregulars, in the raid on Sunday, created much excitement in Bucharest, and greatly strengthened the bonds of the war party.

Prince Charles reviewed the Roumanian troops, to-day. They are finely equipped, and consist of two battalions of cavalry and five battalions of infantry, with forty Krupp field pieces. It is probable that this corps will take the field immediately, near Altenitz.

A special, dated Trebizond, Sunday, says nine large steamers, with 10,000 Turkish troops for the interior, have just arrived.

The Russians have commenced to bombard the town of Widdin, from Kalafat, on the opposite bank of the Danube.

ST. PETERSBURG, 7.—The Russian telegraph agency says of Derby's dispatch that the English apprehensions, as far as Russia is concerned, are utterly groundless.

CITY OF MEXICO, April 30.—Peace continues throughout the country, but stagnation prevails in commerce.

ATHENS, 8.—The Greek government has sent a note to the Porte, protesting against the release of the Turkish brigands who had been imprisoned for disturbing the Greek frontier.

BUCHAREST, 8.—Prince Charles of Roumania, in acknowledging the address by the Senate, recounted the hostile acts committed by the Turks against Roumania. He said, "In consequence of the aggressive attitude of Turkey the Roumanian government will display the foresight and energy which both chambers of the legislature have prescribed. I foresee with sorrow that moderation will be of no avail, and that we meet force by force, as it is our duty to defend our country."

Missionary Labors. — We have had the pleasure of perusing a letter dated at Elyria, Lorain Co., Ohio, April 25th, from Elder O. F. Whitney, from which we extract—

"I am feeling well every way. I preached again last night, to a crowded house, in the Advent Building, about four miles away. God was very good to me, enabling me to bear a powerful testimony to the truth for over an hour. I spoke as the spirit dictated and held back nothing. After meeting I received two or three invitations to preach in as many other districts, and I feel that God led me to this place. Several came up after the service last night and questioned me in an interested manner about our doctrines, the prices of our books, etc."

Elder Whitney gives details of a case of healing, by the power of God, of a lady who was severely afflicted with sickness. The lady and her daughter purpose being baptized.

Brother Whitney purposed proceeding to Kirtland, visiting his relatives there, preaching if he had opportunity, and returning to Elyria and filling his engagements thereabout.

A RARE OPPORTUNITY TO THE AFFLICTED.

Dr. H. R. Allen, the founder of the National Surgical Institute, who is known throughout Europe and America, and who has no equal in the treatment and cure of all human deformities, such as spinal curvature, hip disease, crooked and diseased knee and ankle joints, club feet, paralysis, piles, fistula, &c., will with a competent corps of assistants, visit Salt Lake City, Utah, May 23d to 26th inclusive, 1877, where he can be seen and consulted at his rooms in the Townsend House. He will be prepared to treat all cases, being supplied with a great variety of apparatus made expressly for this trip at great expense. The afflicted cannot afford to neglect this opportunity of being cured at home. The old patients of the Institute are requested to come early.

MOTHERS

Who have weak irritable children, can secure health for the children and rest for themselves by using Dr. Pitcher's Castoria. It contains no morphine or anything injurious. It is as pleasant to take as honey, and is certain to cure Wind Colic, regulate the bowels and expel worms. For Teething children there is nothing like Castoria. w

The Testimony of the Whole World.

HOLLOWAY'S PILLS.

"I had no appetite; Holloway's Pills gave me a hearty one."

"Your Pills are marvellous."

"I send for another box, and keep them in the house."

"Dr. Holloway has cured my headache that was chronic."

"I gave one of your Pills to my babe for cholera morbus. The dear little thing got well in a day."

"My nausea of a morning is now cured."

"Your box of Holloway's Ointment cured me of noises in the head. I rubbed some of your Ointment behind the ears, and the noise has left."

"Send me two boxes; I want one for a poor family."

"I enclose one dollar; your price is 25 cents, but the medicine to me is worth a dollar."

"Send me five boxes of your Pills."

"Let me have three boxes of your Pills by return mail, for Chills and Fever."

I have over 200 such testimonials as these, but want of space compels me to conclude.

For Cutaneous Disorders, and all eruptions of the skin, this Ointment is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

HOLLOWAY'S PILLS invariably cure the following diseases—

Disorder of the Kidneys.—In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the regions of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief when all other means have failed.

For Stomachs Out of Order.—No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity occasioned either by intemperance or improper diet. They reach the liver and regulate it to a healthy action; they are wonderfully efficacious in cases of spasms—in fact they never fail in curing all disorders of the liver and stomach.

HOLLOWAY'S PILLS are the best known in the world for the following diseases: Ague, Asthma, Bilious Complaints, Blisters on the Skin, Bowels, Consumption, Debility, Dropsy, Dysentery, Erysipelas, Female Irregularities, Fevers of all kinds, Fits, Gout, Headache, Indigestion, Inflammation, Jaundice, Liver Complaints, Lumbago, Piles, Rheumatism, Retention of Urine, Scrofula or King's Evil, Sore Throats, Stone and Gravel, Tic-Doloureux, Tumors, Ulcers, Worms of all kinds, Weakness from any cause, &c.

Important Caution.—None are genuine unless the signature of J. HAYDOCK, as agent for the United States, surrounds each box of Pills and Ointment. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

*Sold at the manufacture of Professor HOLLOWAY & Co., New York, and by all respectable druggists and dealers in medicine throughout the civilized world, in boxes at 25 cents, 62 cents and \$1 each.

There is considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each box.

Office, 112 Liberty St., New York.

It contains 360 pages, handsomely printed on fine paper, and is written in language plainly understood by every one.

Centaur Liniments.

One kind for the Human Family.
The other for Horses and Animals.

These Liniments are simply the wonder of the world. Their effects are little less than marvellous.

The White Liniment is for the human family. It will drive Rheumatism, Sciatica and Neuralgia from the system; cure Lumbago, Chills, Lock-jaw, Palsy, Itch, and most Cutaneous Eruptions; it extracts frost from frozen hands and feet, and the poison of bites and stings of venomous reptiles; it subdues swellings, and alleviates pain of every kind. When sprains or bruises occur, it is the most potent remedy ever discovered to heal the injured parts. The Centaur Liniment is used with great efficacy for Sore Throat, Toothache, Caked Breasts, Ear-ache, and Weak Back. The following is but a sample of numerous testimonials:

"INDIANA HOME, Jeff. Co., Ind.,

May 28, 1873.

"I think it my duty to inform you that I have suffered much with swollen feet and chills. A few bottles of Centaur Liniment has done the work for me. I have not been free from these swellings in eight years. Now I am perfectly well. The Liniment ought to be applied warm."

BENJAMIN BROWN.

The proof is in the trial. It is reliable, it is handy, it is cheap, and every family should have the White Centaur Liniment.

The Yellow Centaur Liniment is adapted to the tough muscles, cords and flesh of horses and animals. It has performed more wonderful cures in three years of Spavin, Strain, Wind-galls, Scratches, Sweeney, and general Lameness, than all other remedies in existence. Read what the great Expressmen say of it:

"NEW YORK, January, 1874.

"Every owner of horses should give the CENTAUR LINIMENT a trial. We consider it the best article ever used in our stables."

"H. M. RSH, Supt. Adams Ex. Stables, N. Y."

"E. PUTTZ, Supt. U. S. Ex. Stables, N. Y."

"ALBERT S. OLIN, Supt. Nat. Ex. Stables, N. Y."

The best patrons of this Liniment are Farriers and Veterinary Surgeons, who are continually using some Liniment. It heals Galls, Wounds and Poll-evils, removes Swellings, and is worth millions of dollars annually to Farmers, Livery-men, Stock-growers, Sheep-raisers, and those having horses or cattle.

What a Farrier cannot do for \$20 the Centaur Liniment will do at a trifling cost. These Liniments are sold by all dealers throughout the country. They are warranted by the proprietors, and a bottle will be given to any Farrier or Physician who desires to test them.

Honey.

Pitcher's Castoria is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. Few remedies are as efficacious for Feverishness, Croup, Worms and Whooping Cough. Castoria is a scientific and purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, Conn., May 3, 1876.
Messrs. J. B. Rose & Co., N. Y.:

Gents: I have a family of eight children, and have used as much CASTORIA as any family in the United States. I think I have never found anything equal to it. My children have been saved from a fever several times by the use of Castoria. I recommend its use for children, for many diseases they are subject to, in preference to any medicine I know of. I feel it my duty to give this certificate on account of the benefits I have derived by the use of CASTORIA.

Very truly yours,
NORMAN P. LITTLE.
