RESISTED AN OFFICER.

For That Offense H. A. Fay Was Assessed \$30.

For resisting Police Officer Carlson, H. A. Fay was yesterday fined \$30 by Judge C. B. Diehl. The man was arrested last week on a charge of drunkenness. He objected strenuously to being taken to police headquarters, and gave the officer no inconsiderable amount of trouble. The accused, through his attorney, James M. Smith, demanded a jury trial, the latter asking that the case be summoned by the sheriff's office rather than by the police officers, as he said he feared the police would not be fair in the matter.

Mr. Smith yesterday denounced in strong language Officer Carlson, saying in turn was himself subjected to a severe scolding by Assistant City Attorney Daily. The latter declared that Mr. Carlson was one of the best, most efficient officers on the force, and the attack of Attorney Smith was pronounced to be entirely unwarranted.

ELKS AND DENVER.

Local Antlers Begin to Talk of Meet Across the Rockies in July.

The Elks' lodge of this city is taking great interest in the annual reunion which is to be held in Denver, Colo., next July. A large delegation will go from this state and local Elks are already preparing for the journey.

Up to ten the sessions of the grand lodge of Elks were held in the city of New York. In that year the meeting was held in Cleveland, followed by Louisville the next year; then Buffalo, Detroit, Atlantic City, Cincinnati, Minneapolis, New Orleans, St. Louis, Atlantic City, Milwaukee, Salt Lake City, Baltimore, Cincinnati and Buffalo.

Baltimore and Philadelphia will contest this year at Denver for the next meeting of the Denver lodge.

Reports from Denver to the Elks in this city say that more than \$100,000 will be spent for the entertainment of

SEVEN STORY BUILDING.

New Structure Decided Upon by Utah Savings & Trust Co.

The directors of the Utah Savings Bank & Trust company held their final meeting yesterday afternoon, and as foreshadowed in yesterday's "News," decided to make of the new building to be erected on the Buckle property further down the street, a seven story structure. The ground floor and basement will be occupied by the bank and the upper floors fitted up for office purposes. The building will be fire proof, with electric elevator and vaults on each floor, and a white stone front. The bank will be provided with all of the latest improved fixtures. The bank is to stand one-third of the expense of building, and two-thirds by individual stockholders. Eight months will be required for construction.

A YEAR OF BLOOD.

The year 1903 will long be remembered in the home of F. N. Tackett, of Alliance, Ky., as a year of blood, which flowed so copiously from Mr. Tackett's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me to death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored and at times has proven permanently cured." Guaranteed for Sore Lungs, Coughs and Colds, at Z. C. M. L. drug store, 112-114 So. Main St. Price 50c and \$1.00. Trial bottle free.

COOK AND NURSE "FIRED."

Services of Those at Quarantine Hospital Disputed With.

A meeting of the city board of health was held yesterday at which it was decided to discontinue the services of the nurse and cook at the quarantine hospital. There are now only a few cases of smallpox in the hospital and with the advent of warm weather it will only be a short time until the hospital will be closed for the summer. The steward will be in charge until the hospital is closed.

It was decided to have the city attorney draw up an ordinance requiring that all closets within the sewer district be cleaned and disinfected by the city. It is believed that the strict enforcement of such an ordinance will greatly improve the sanitary conditions of the city.

MADE HAPPY FOR LIFE.

Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, Vt., when his little daughter was restored from the dread of diphtheria. He says: "My little daughter had St. Vitus' Dance, which yielded to no treatment but grew steadily worse until as a last resort we tried Electric Bitters, and I rejoice to say, three bottles effected a complete cure. Quick, sure cure for nervous complaints, general debility, female weakness, impoverished blood and malaria. Suggested by Z. C. M. L. drug store, 112-114 So. Main St. Price 50c.

ATTEMPTED EXPLANATION.

Judge of Juvenile Court Makes Statement of Outrageous Actions.

The judge of the juvenile court has started to make explanations of his outrageous action of last Thursday in the Emily Knox case, and yesterday handed to the juvenile court commission a typewritten statement of his version of the incident. The commission had about concluded its session and did not consider the matter at all, but will probably meet again Monday and go into the matter.

The most important business transacted by the commission was the appointment of F. J. Lucas as chief probation officer to succeed Capt. M. M. Woods, who now has charge of Canyon Crest farm, and the appointment of Charles Hahn as service clerk and probation officer to succeed E. M. Clark, resigned.

Judge G. M. Munford of the Murray juvenile court petitioned the commission to be allowed to send boys from his court to the Morris school, the expenses of their keeping to be paid by Murray City. The request was granted and the school will be open to the boys from the Murray court hereafter under the conditions mentioned above.

BUSY SESSION OF CITY COUNCIL.

By Unanimous Vote Decided to Purchase Eighteen U. S. Standard "Voters."

CONTRACT PRICE IS \$13,860.

Machines Will be Paid for in Five Annual Payments—To Macadamize Second Avenue—Routine Work.

A very busy session of the city council was held last night at which a large amount of routine work was done. By a unanimous vote the council decided to purchase 18 U. S. Standard voting machines at a total cost of \$13,860, to be paid for in five annual payments. The mayor and city recorder were authorized to sign the contract for the purchase of the machines and it is expected that the deal will be closed today. An ordinance was passed levying an assessment upon the property on Second avenue for grading, curbing and macadamizing the same from Canyon Road to West street and along the north side of South Temple to Second avenue. The estimated cost of the improvement is \$2,500 per front foot.

VOTING MACHINES.

The special committee on voting machines recommended the purchase of 18 U. S. Standard voting machines for \$13,860. A contract for the purchase of the same was also submitted with the report. It provides for the payment of the machines in five annual payments as follows: \$2,500 on delivery, \$2,500 on Oct. 1, 1907; \$2,500 on Oct. 1, 1908; \$2,500 on Oct. 1, 1909. The contract provided for the delivery of the machines on board the cars by Sept. 1, 1906, and also for the filing of a bond by the company for keeping the machines in repair for five years. The interest on the various payments is at the rate of 5 per cent per annum and is included in the amounts given above. Upon motion of Fernstrom the report was adopted and the mayor and recorder instructed to execute the contract on behalf of the city. The vote was unanimous. Later upon reconsideration, an amendment was made by Wells providing that any payment may be made at any time at a discount of 5 per cent and thereby saving interest. The amendment was adopted.

MAYOR'S SECOND VETO.

The second veto of Mayor Thompson was that of \$10,000 for the citizens' relief committee for the care of refugees from San Francisco. The veto was sustained by a vote of 4 to 3. The "Seeing Salt Lake" sign in front of the Manger Investment company's office on Second street was ordered removed.

THE Food Cure

Put in the body what NATURE NEEDS.

HOW TO BUILD A BODY.

One of the most important discoveries of late is the application of the right kind of food to rebuild the lost substances of the body, thrown off by the active, nervous work of Americans. Careful investigation by experts in food and dietetics, has brought out the fact that albumen, which is contained in various foods, is acted upon by phosphate of potash, not such as obtained in drug stores, but such as is found in certain parts of the field grains in most minute particles, arranged in Nature's laboratory, not man's.

The part of the grains containing phosphate of potash is used in the manufacture of Grape-Nuts food, therefore the active, nervous, pushing brain worker can feed the body with food that goes directly to the rebuilding of the broken-down gray matter in the brain, solar plexus and nerve centers all over the body, with the result that the individual who refreshes and rebuilds the body with proper material of this sort, obtains a definite result, which he can feel and know of and which is apparent to his friends.

A vigorous brain and nervous system is of the greatest importance to any business man or brain worker.

AN AMENDMENT.

The veto of Mayor Thompson to the contract for the construction of the new fire station in the southeastern part of the city for \$1,100 was defeated by a vote of 4 to 3. The contract was amended so as to associate the city engineer with the fire chief in the supervising of the construction, thus overcoming the objections of the mayor. The contract will now be signed.

Notwithstanding the veto of the mayor, the payment of \$100 to Elmer Eschert as damages for personal injury received by falling on an icy walk, the council appropriated the money to her by a vote of 10 to 3.

ORDINANCES PASSED.

The council accepted the offer of the Rocky Mountain Bell Telephone company to put the police and fire alarm wires underground the ground in its conduits throughout the business district and the paved district of the city free of charge.
