Boyd Park Presents the Y. M. M. I. A. With a Handsome Trophy.

LASTING FAME FOR YOUTHS

Each Year the Winner of the Oratorfeat Contest Will Have His Name luxeribed on the Cap.

The officers of the Mutual Improvement Arsociations now have an elegant sterling sliver loving cup upon which they will have inscribed the names of their champion orators. This splendid trophy has been presented to the association by Boyd Park, the well known leweler of this city, and is in every sense of the word an elegant piece of plate. The cup, which is furnished with three handles after the approved style stands upon a small pedestal which greatly enhances its appearance. It is the intention of the conor that this trophy is to remain the purperty of the association and that as each year goes by the name of the winner on the oratorical montest shall be inscribed upon it.

It is needless to say that the inter-est in the contests will be greatly increased by this gift and the district contests to be held on Tuesday evening will be largely attended by the friends and partisans of the various champions ill compete. On that evening the ward meetings of young men as well as young ladies associations will be closed. The oratorical contest of the Mutual Improvement Associations held last spring was so successful, and such in-terest is now being shown in the one now in progress, that the officers of the associations feel assured that the con-tost has come to stay, and one will be held each year. So great is the inter-est shown in the city and so excellent are the results of the contest here that the future may find the final contest not a Stake or county, but a state affair.

fair. In the contest every winner will hold the championship until he misses a contest or is defeated by another can-didate for the honor of having his name inscribed upon the cup. The cup will remain in the keeping of the associa-tion until as many names are ulared remain in the keeping of the associa-tion until as many names are placed upon it as there is room for. After this is done the cup will be carefully kept in the home the Mutuals will have by that time, as a souvenir and record M. I. work in public speaking. It will be interesting to members of the assoclations to see what becomes of these orators and how much they accomplish in their lives. It is well understood that an honor, as the inscribing of a name upon a cup creates very much more interest than personal gifts can. It is for this reason, perhaps, that such active and general interest is being taken in this coming event. The honor of having been the first name to be inscribed upon the trophy will be eagersought

### PASSING OF THE "FAMILY DOCTOR."

In his twentleth annual lecture before the Hahnemanulan society, New York, Dr. William Tod Helmuth spoke of the evolution of the modern physician and of the passing of the "family doctor." Human evolution, he said, splits the science and art of medicine into a hundspecialties, and has killed off an individual once known as the "family doctor." This individual was formerly alled in to attend all the allments from which a patient might suffer. He was always ready, and doctored the eyes, the nose, and the throat, as well as set vounds and sewed cuts. He ate and drank with the family and the family loved him. No such being exists upon the earth today, except, perhaps, in some untelephoned and untelegraphed region, where, as yet, human evolution has not laid its hand .- Public opinion, New York.

Deficious pine apple punch was served throughout the even-ing. The orchestra had been enlarged to eight pieces, and the numbers ren-dered partook especially of a military expression, many pretty effects being produced by bugle calls and drum taps. produced by bugle calls and drum taps. While crossing East Temple street at the intersection of First South, Flaherty made a temporarily successful break for liberty and dived through a crowd hot-footed. The officer lost no time in taking up the chal-lenge. For two long blocks west the two men ran, Shea threaten ing to shoot but afraid to do so on ac-count of the number of pedestrians on the street. The fellow finally dived into an alley between First and Second West, and then Shea, reinforced by a big crowd, collared his man. Flaherty siezed a piece of wood and threatened the officer with annihilation, but sub-sequently became very docile when a gun was flashed in his face. He was subsequently safely locked up.

Flaherty had just been bound over to appear before the district court on a charge of a crime against nature.
