BUYING JERUSALEM -

SPLENDID PEOPLE. The Colorado Chieficin has the

"It is reported that the Mormens are trying to buy Jerusalem of the Turks. This would be a good thing Turks. This would be a good thing to do, for having full possession, they would go to work and develop the country, dig coal, plant trees, build a railroad, plant orchards, and make things shine. There are go people in the world so capable of restoring that region to its former prosperity, and should they undertake it, civilized nations would see that they are protected."

There are some remarkable things in the above paragraph—

1. The frank admission that the "Mormons" are the best people to reclaim, redeem, build up, and dr velop a country, make it prosper ous, and "make things shine."

2. The implication that so supe

rior a people would be so willingly spared by the United States. 3. The statement that civilized nations would see that the "Mormons" would be protected in that enterprise, because the question arises, "If protect them there, why
not let them live quietly and without any sort of persecution here?"
Lastly, we may observe that the
"Mormons" have too much work before them in reclaiming and developing this continent and making it prosperous, to leave them any time or inclination to go ten thousand miles away to another continent for a similar purpose. Let the "Mormons" "make things shine" in North and South America, before they try their skill on Palestine. America cannot afford to lese so much virtue at present.

Sinking Fand.

The sinking fund propositions of the Union and the Central Pacific Railroad Companies, sent to Con-gress by the Secretary of the Freesury to-day, are those which were submitted in February, 1875 providing in each case for the creation of a sinking fund by the pay ment of certain fixed amount into the U. S. tressury yearly, and also the retention by the government of all amounts then or thereafter earned for governmental transpor

opinion that some such arrange ment should be made, but leaves it wholly to Congress to determine how and by what means and in what sum and what period sinking funds should be obtained and ap plied. He intimates, however, that he considers the offers of the two companies inadequate. The Cen tral Pacific proposed to pay \$400,000 per aunum, the Union Pacific \$500,000 per annum for the first ten years, \$750,000 for the next ten rears, a million yearly thereafter.
