SENATE. Washington, 30.—In the Senate to-day the bill to increase the efficiency of the army came up, and Logan continued his remarks in its support. He argued to show the necessity of an increase, and said that to apply any motive but a proper one for this bill was unworthy of debate. The time would come when the nearly saying any be more. WASHINGTON, 30 .- In the Senate tocome when the people would approve the attempt now made to give effici-

ency to the army.

Teller believed he (Logan) had commenced the debate with the assertion that there was a combination of Senators here—at least that was the way it was reported—there was a combination of Senators to defeat this bill. He (Logan) insinuated at least in his speech that the opposition came be-cause the Senator had reported the Logan said he would repeat what he had said, for the senator from Colorado had misquoted him. What he (Mr.

Logan) had said, was that the senator from Maine (Hale) had received encouragement from other senators. That was the language he had used and that was the way it was reported, but he did not know the senator from Colorado had taken it to himelf for he did not know that it fitted Teller said he understood the senator

Logan said if there was snything on earth which would induce him to believe that there was a desire on the part of some gentlemen in this Senate to cause bad feeling between persons, it was the very remark the senator had made now. He (Logan) had said no word—uttered no word—in reference to any man outside this chamber, nor did he insinuate what the senator (Teller) said, and that the senator ought to know it, and the aftempt to have it go to the country that he (Logan) was attacking any man outside

the Senator from Illinois. He re the Senator from Illinois. He read from Logan's speech in the Gongres shoul Record the following: "My friend from Maine who is absent—and therefore I will not refer to him now—was doubtless eacouraged by the opposition of other Senators to make war upon this bill from the start." Logan asked if there was anything there about any outside man.

Teller said that was the way it was in the Record. He (Telier) was only speaking of the imperfection of human hearing when he said he had understood the Senator from Illinois differently. It was not the fault of the Sen-

ently. It was not the fault of the Senafor from Illinois, of course, but of himself (Teller). The Senator from Illinois had stated that some newspapers had said this was a war on a Senator, which Teller presumed was because of certain supposed aspirations of a certain supposed aspira-tions of a certain Senator.

Logan denied having made such a statement. His remark, he said, was that some newspapers had said that this bill was not for the purpose of making the army efficient, but for other reasons that had been suggested by the Senators. The debate on the army bill then closed, and Platt addressed the Senate

on the Washington Territory bill, which he characterized as an enabling ct. He gave the statistics of the poplation and the resources of the fer ritory, and asserted that on this showing it was entitled to admission as a State. Platt would not discuss the matters that had occurred there, in regard to the Chinese, whatever had been lone the people had dealt with it themselves, and they were as well qualified to deal with matters affecting

Senator Fair has been working for some time past to accomplish the reopening of the mint at Carson, Nevada. As he says, the necessities of the State demand that the mint should resume operations. It may be, he says, that the filness of Secretary Manning may complicate matters for the present but he believes that he will finally accomplish his desire, and the State will thereby be relieved from its embarrassing position. The Senator remarked that "As Nevada produces more silver than any other State it is but proper that the metals should be coined in that State. The business of Nevada will brighten immediately upon the opening of the mint, and the upon the opening of the mint, and the people are incessant in their appeals to that end."

LEONARD SOBE'S TESTIMONY. THE JOSEPHITES DO NOT WANT THE TRUTH.

SAN BERNARDINO, Cal., March 26, 1886. Editor Descret News,

Salt Lake City, Utah: I saw an account in January last, in the Ogden Herald, wherein Mr. Leonard Sobe, of New Jersey, is made he testify that he was present at the High Council in Nauvoo, and that he heard the revelation upon Celestial Marriage there read; also that an affidavit had been presented to him by Mr. Gurley, dictated by Mr. Joseph Smith, the leader of the Josephite faction, which he, Mr. Sobe, was requested to sign, stating that he was not present at that council, and did not hear the revelation read, which he refused to do, but offered to sign one to the contrary. offered to sign one to the contrary. Knowing that to be one of the props upon which the Josephiles build their excuse for rejecting the revelation, I showed the article to one of their members in this place. He said: "Mr. Gurley will say anything now that he has left our courch."

I saw immediately that they were no more ready to accept that evidence than any other; indeed they do not want the truth; it is not facts that they are seeking after. In order to do away with that quibble I wrote to Mr. Sobe myself, informing him of the statement of the interview between himself and Mr. Gurley, as published in the Ogden Herald, asking him if it was correct, and below is a copy of the letter I received from him. It is well to have such evidence on record, as Mr. Sobe is now the only living witness that was present at the council, as I that was present at the council, as see by the DESERRY News that Mr Thomas Grover died last month, h too having left his testimony as to be

CORRESPONDENCE. A SUGGESTION. TOORLE, March 30, 1886.

Editor Deseret News: Lately I have seen some good articles in the News relating to us as a people sustaining our enemies, while they are "moving heaven sud earth" to crush us out of existence. But don't you know we are getting tired of talk on this matter? What wa want is action. -But how? Well, let us try the Irish plan, if there is no other. Let us organize in every ward and settlement organize in every ward and settlement a People's Protective Association, with a central committee. Then let us go to work. This is my advice, in a nut-shell. Not to try too much, though, at one time. Let the central committee just take one job on hand at once, and let us all work to it until it is a suc-

cess. Then we can take another, if we see fit, and so on.
"What is everybody's business is nebody's business;" but let us prove
that axiom untrue in this case, by
every man taking hold of the rope, and
let not another week pass until there is ACTION.

Bradstreet's, the weekly financial and commercial newspaper published by The Bradstreet Mercantile Agency, is now in its thirteenth volume, and stands at the head of all the financial and commercial periodicals of the country? and is surpassed by none in Europe. In the twelve volumes already issued can be found more original and ital and assets of over \$1,400,000, its nearly 100 branch offices, and its small army of over 1,600 salaried employes and 65,000 regular correspondents. This organization makes extensive inrestigations into industrial and other matters, gathers full reports of the condition and prospects of the leading crops, and exhibits regularly the state of business, practically making Bradstreet's the authority as to the conditional conditions of the conditions tion and prospects of the commercial world. It needs but a glance at the newspaper to satisfy any one that its publishers have been ambitious more than avaricious, for in no way are its pages made up to cater to the popular taste or to serve the purposes of loud or insinuating advertisers. No trivial or sensational matters are ever to be found in its columns, but the whole 900 large pages a year are so solidly packed with news, reports, discussions, decisions and data as to make Bradstreet's an acceptable and almost indispensable journal for progressive business men.
