

MINING, BUSINESS AND STOCKS.

THE WEEK ON THE EXCHANGE.

Settlement of Smelter Trouble Causes Stocks to Advance.

MAMMOTH IS VERY ACTIVE.

Lower Mammoth Strong Today—Eagle and Blue Bell in Demand—Tosca Weaker—May Day Stronger.

TODAY'S METALS:

SILVER 50%
LEAD \$4.57 1/2
CASTING COPPER 10

The week on the Exchange closed today with the sale of 101,287 shares of stock for \$47,690.83, a marked decrease over last week. The strike that was on at the Germania smelter during the week is responsible for a great part of it.

Pending the settlement of the difficulty it looked as if the smelter might shut down and the gloomy outlook was followed by a shrinkage in the prices of all of the producing mines. The market was also very stagnant, but the week closes with all of the stocks firm and business going along as usual.

Eagle and Blue Bell was active today, selling at 80. The stock is growing stronger. Lower Mammoth closes the week much stronger. It sold from 53 1/2 to 54 1/2 today which is nearly 1 cent a share above the highest price on Monday.

Mammoth, which sold at 2.06 while the strike was on, immediately went up when matters were adjusted. It was traded in today at 2.20 1/2 to 2.22, closing a little weaker. Petro, for 2.22, was bid on Monday sold down to 2.10 today, while 66 1/2 was bid for Valeo today. The stock was offered for 56 on Monday. Inordinate rumors prevail regarding the property and it is supposed that a favorable change has taken place.

Daily West fell during the week to 18.37 but has almost regained its position of last Monday when it closed with 18.50 bid.

Grand Central closes the week much lower than it was last Monday when it hung around 6.50 a share. Tosca shows a shrinkage today, being offered at 27.

Sunbeam grows weaker right along as does Joe Bowers and Geyer-Marion. Sacramento is unchanged. Star Consolidated remains very low.

May Day went below 1.00 during the week but today sold up to 1.12 1/2, closing a little weaker. West Mountain Placer is not so strong owing to trouble with electric power. Centennial-Eureka shows some depreciation.

Closing quotations were posted as follows:

KANSAS CITY LIVE STOCK.

Kansas City, April 14.—Cattle—Receipts 100. Market unchanged. Native steers, 4.40@5.40; stockers and feeders, 3.70@5.00; butchers' cows and heifers, 3.40@4.50; canners, 2.75@3.40; fed westerns, 4.00@5.00; Texans, 3.90@4.75.

Hogs—Receipts 5,000. Market strong to 10c higher. Bulk of sales, 5.40@5.50; heavy, 5.40@5.50; packers, 5.40@5.50; mixed, 5.40@5.50; light, 5.40@5.50; Yorkers, 5.40@5.50; bulk of sales, 5.40@5.50.

Sheep—Receipts 3,000. Market strong; lambs, 5.00@7.50; muttons, 5.00@6.00.

OMAHA LIVE STOCK.

Omaha, April 14.—Cattle—Receipts, 400. Market steady. Native beef steers, 4.20@5.25; cows and heifers, 3.40@4.50; canners, 2.25@3.20; stockers and feeders, 3.70@5.10; calves, 3.00@4.00; bulls, stags, etc., 2.75@3.50.

Hogs—Receipts 2,000. Market 7 1/2c to 10c higher. Bulk of sales, 5.40@5.50; heavy, 5.40@5.50; packers, 5.40@5.50; mixed, 5.40@5.50; light, 5.40@5.50; Yorkers, 5.40@5.50; bulk of sales, 5.40@5.50.

Sheep—Receipts 1,000. Market steady; lambs, 5.00@7.50; muttons, 5.00@6.00.

DENVER LIVE STOCK.

Denver, Colo., April 14.—Cattle—Receipts, 100. Market steady. Beef steers, 4.10@4.75; cows, 3.50@4.20; feeders, freight paid to river, 3.50@5.00; stockers, freight paid, 3.75@5.00; bulls, stags, etc., 2.00@3.50.

Hogs—Receipts 400. Market 50c higher. Light packers, 5.00@5.50; mixed, 5.00@5.50; heavy, 5.00@5.50.

Sheep—Receipts 800. Market steady; lambs, 5.00@7.50; muttons, 5.00@6.00.

SAN FRANCISCO PRODUCE.

San Francisco, April 14.—Wheat quiet; May, 66 1/2; Cash, 66 1/2.

Barley—No sales; cash barley, 73 1/2.

WEEKLY BANK STATEMENT.

New York, April 14.—The weekly bank statement shows the following changes: Loans, increase, \$3,045,475.

Deposits, increase, \$11,832,900.

Circulation, increase, \$45,300.

The banks now hold \$10,850,275 in excess of the requirements of the 25 per cent rule.

SUGAR.

New York, April 14.—Sugar raw, firm; refined, firm.

PROPERTY TRANSFERS.

Abstract of transfers filed in the recorder's office, Salt Lake City, April 13, 1900:

Utah National bank to Dora Snyder, warranty deed, 2 1/2 rods north from northwestern corner of lot 5, block 49, plat B., \$3,400.

Martin Donnellan to W. F. Nelson, warranty deed, lot 2, block 2, Rural subdivision, 960.

Elizabeth Hunter to W. P. Hunter, warranty deed, 5 1/2 rods northeast from southwest corner of lot 4, block 50, plat B., 500.

Frank McLeod to J. N. Whitney, warranty deed, 2 1/2 rods by 130 feet northwest from 2 1/2 rods south of northeast corner of lot 4, block 102, plat D., 290.

Charles Crane et al., trustees, to P. W. Prink to E. B. Haskins, quit-claim deed, 130 feet northwest from 2 1/2 rods south of northeast corner of lot 4, block 102, plat D., 290.

Daniel McLeod to J. N. Whitney, quit-claim deed, Ashton lode, 400.

Zion's Savings Bank and Trust company to Hagley Harris, quit-claim deed, lot 38, block 3, Forest Dale, 1.

Salt Lake county to J. D. Park, quit-claim deed, lots 1 to 3, Park Dale subdivision, two deeds, 58.

P. W. Prink to E. B. Haskins, quit-claim deed, lots 38 to 43, block 1, Perkins' addition, 1.

Total, \$3,515.

BEECHAM'S PILLS

Have for many years been the popular family medicine because of their purity and safety.

It is spoken and they now stand without a rival for Bilious and Nervous Disorders.

It cures all cases of Biliousness, Headache, Stomach and Bowel Complaints, Drowsiness, Constipation and Sallow Complexion.

These ailments are the result of a disordered condition of the stomach and liver.

Beecham's Pills, taken as directed, will promptly restore the system to its normal condition.

They promptly remove any obstruction or irregularity of the system.

10 cents and 25 cents, at all drug stores.

GOOD GOLD ORE IN THE DISTRICT.

The Chief District in Nevada Has Great Possibilities.

RICH WASHINGTON PLACERS

American Smelter Company's Dividend—Notes from Tintic—Rich Gold Quartz in Kansas.

After spending the past week among the mines of Pioche and the adjoining camps, W. J. Lawrence, returned to the city today, much pleased with what he saw.

After leaving Nevada the party took the stage to Kanab, forty miles distant and thence to Pioche, Nev. The Jackrabbit district was investigated. It is here that the Old Day mine is located. A splendid prospect is located near the Day mine, which the Volcano, Mr. Lawrence looked into this prospect and found a fine vein of copper ore running upwards of twenty feet in the red metal. The vein is about three and a half feet wide, is located near the Day mine, and has a high-grade ore in the vein.

The old Meadow valley and Raymond which produced so heavily in years past were also visited, and an examination was made of the Advance property in the Chief district, about forty-five miles from Pioche. The long distance from the railroad will not allow the ore of this camp to be shipped with profit, but there is said to be a great deal of high-grade gold ore in the camp. The advance shows a strong fissure vein, the ore of which runs from 20 to 35 tons in gold. An incline has been put down 70 feet from the surface, and a tunnel has intersected the incline at that depth. A forty-five-foot winze has also been put down in the vein below the tunnel level and the ore is said to show up exactly. The rock is a quartzite and similar to that found in the Gold Stake and Democrat properties in the same district.

On the way out the party met a long train of wagons loaded with ore from the Pioche district, copper mine. The ore is being hauled to Nevada.

The Menda mine at Pioche is also sending out some excellent silver-lead ore. The showing on the 600-level of the mine is said to be looking especially good. Two cars of ore are now on their way to the market now.

A great deal of prospecting is going on in that part of the country and every day is bringing out new discoveries. It is said that a railroad will soon be built from Nevada to the west.

Mr. Lawrence did not stop at the old Cave mine near Milford through lack of time. It is, however, giving a good account of itself. The last two cars averaged 448 per ton and carried ten ounces silver and 1.36 ounces in gold per ton.

RICH PLACER GOLD.

Causes a Stampede Along Carbon River in Washington.

A dispatch to the "News" this morning from Tacoma, Wash., says: "Great excitement is reported along the Carbon river near Fairfax, Pierce county, where there is said to be a stampede from adjacent towns has begun. The first strike was made by Supt. Wilkins of the Thorne mines, who, after making his location, gave out the news. Traces of gold have been found in the river at various times, and quartz properties show gold in the assays. The Fairfax train made a special run to Carbon to bring the news and take back passengers."

SMELTER DIVIDEND.

Quarterly Dividend 1% Per Cent Paid Last Monday.

Preferred stockholders of the American Smelter and Refining company are today receiving regular quarterly dividend (No. 3) of 1% per cent, also an extra dividend of 7 1/2 per cent. The dividends are payable to stock of record January 31.

AROUND DIAMOND.

Advent of Spring is Causing Renewed Activity Among the Mines.

In its review of the week the Tintic Miner says: With the advent of spring and the opening of mountain trails, the activity of Diamond is becoming quite active and the summer of 1899 promises to add some shippers to the list from there. The Shoshone-Bonanza has already sent out two carloads of excellent lead in place to the Caruthers mine, which the vein on the 400 under the old shaft is full of pipes and chimneys of rich ore that will insure a steady revenue to the company. A mine is said to be looking especially good in place to the Caruthers mine, which the vein on the 400 under the old shaft is full of pipes and chimneys of rich ore that will insure a steady revenue to the company. A mine is said to be looking especially good in place to the Caruthers mine, which the vein on the 400 under the old shaft is full of pipes and chimneys of rich ore that will insure a steady revenue to the company.

JOE BOWERS EXTENSION.

Frank Wilson is making an exhaustive examination of the Joe Bowers Extension, to determine whether the deposits of low-grade ore are sufficient in quantity and metallic contents to justify the erection of a concentrating plant. Mr. Wilson points out that this ore can be mined and concentrated very cheaply, and if he reports favorably, the company will probably undertake it. Drifts are being pushed out from both the 350 and 450 levels, and throughout the mine are seen seams of shipping ore, which are not, however, concentrated sufficiently to pay for extraction unless the lower grade is also taken out.

THE BUCKEYE.

It seems now quite certain that Col. Sappington has succeeded in his efforts

to put the Buckeye on a paying basis, and the eye of the "native" sparkles with satisfaction when the property is mentioned, for the name has long been one of conjure by the camp of Diamond. The ore chute on the 250 level northeast of the shaft continues productive of splendid values in copper, silver, lead and gold, of which there are three tons of silver when the mine is run to 40 per cent in the red metal, as high as 60 ounces in silver, 30 per cent lead and 4 gold. Charlie Emerson, who has a lease on this part of the mine, has been ready to take the property and is awaiting an improvement in the roads which a few more days of sunshine will bring. One carload was shipped just before the last storm.

WHITE CLOUD ORE.

South of the Buckeye and evidently on the same ledge, on the south slope of Rising Sun mountain, the White Cloud Mining company has a nice body of lead carbonate in which occur considerable galena. The ore was encountered in a winze about 70 feet below the tunnel level, and almost covers the bottom of the winze, which is now down 84 feet, and is getting larger with every shot. About 10 tons have been raised with a winch, but the management, finding this process slow and expensive, will endeavor to dispose of sufficient treasury stock for the purchase of a gasoline hoist.

THE SHERIDAN TUNNEL.

The Old Susan Mining company will start Monday morning for the completion of the Sheridan tunnel, which is destined to tap the old Cliff shaft on the hill above. The tunnel is now in 519 feet, and will tap the old shaft about 300 feet from the surface.

GOLD IN KANSAS.

Gold Quartz Found that Assays as High as \$80 Per Ton.

Considerable interest was aroused a short time ago from the fact that much as \$10 in gold pellets was found in a turkey which belonged to a conignment from Kansas recently sold in Denver. Much speculation was indulged in regarding the place in Kansas from which the turkey came. The following dispatch indicates a possible explanation of the unusual occurrence. It reads as follows:

Mo., April 14.—J. C. Murdoch and other of Galena, Kansas, near here, claim to have found gold in quartz formation within two miles of that place that assays \$40 to \$80 a ton. An effort to lease or buy the land, which is said to be within the state of Kansas, is being made, but the land is being held by a party who is not willing to sell.

The Star Relocation.

Antient the recent relocation of the Star Gold mine in Bingham the Bulletin says: The Star group of ten claims in Pine canyon was relocated on the 5th inst. by N. B. White, formerly working for the company. As some signs of the group have been regularly advertised for patent, we believe without protest—and the company has been operating its mines and evaluating mill for upwards of a year at an expense over apparent production that made stockholders clamor for a halt, comment is in order that most any one can go through the motions of jumping ground on which patent has not been issued, but making such action itself a different matter.

Tintic Ore Shipments.

Special Correspondence.

Eureka, April 12.—The ore shipments from the Tintic district for the past week have been as follows: The total number of carloads of ore leaving the district was 10, of which the Centennial Eureka contributed twenty-six. The Bullion-Beck mill also came to the front with two cars of concentrates, the first since work was resumed about a month ago.

Cripple Creek Output.

Different estimates for the March output of Cripple Creek have been made, ranging from \$2,225,628 to \$2,293,125, says the Denver Mining Reporter. The lowest will make an increase of \$73,125 over the output of March 1899.

The total tonnage of all grades for the month was 49,655. The milling ore show an increase over February, while the smelting grade was decreased, largely due to the fact that the Leadville and Victor and Doctor made no shipments during the month, and the Raven but for a short period.

Colorado City, Cripple Creek and Florence mills to the east of the Clark and the value of \$25,628, the smelters in Denver, Pueblo, Omaha, Kansas City and Leadville handled 18,000 of an average value of 35¢ per ton, or 1,350,000 in round figures. While the mills and reduction works in Tintic county, including the Onida and Detroit handles ores amounting to \$50,000.

The product when all returns are in will approximate close to \$2,300,000, which would have been larger if the above large shippers had added their usual quota.

Bought the Wolf.

The holders of American Mining company stock have all turned it in and received checks for their various holdings, and the property has been transferred to Elton Smith of Colorado, and will be joined with the Clarissa.

The company owned the Wolf claim, lying on the east side of the Clark and the Northern Sp. From a shallow pit considerable high-grade silver-lead ore was shipped three or four years ago, and it was considered a very promising prospect. Mrs. J. H. McChesney was the largest individual stockholder in the company, which was incorporated eighteen months ago for 100,000 shares—Tintic Miner.

Leadville Tonnage.

During March the Home Mining company raised 12,000 tons of ore, a daily average of over 400 tons. At no time in the history of the camp has one property made such a record as this in the way of an output. It is largely iron, but the grade has much improved and is considerably better than was shipped during January and February. The tonnage for the last month was enormous, largely due to the fact that the various properties have been working for some time.

MINING NOTES.

The Centennial-Eureka had eight cars of ore on the market today.

A car of ore was on the market today from the Tesora of Tintic.

Drs. Shores Almost Swamped.

CONFERENCE VISITORS AND CITY PEOPLE VIED WITH EACH OTHER LAST WEEK TO SECURE AN AUDIENCE WITH THE GREAT SPECIALISTS IN ORDER TO LEARN FREE OF CHARGE WHAT THEIR DISEASE REALLY WAS, AND THE POSSIBILITIES OF A CURE.

IT WAS AN INSPIRING SCENE

to see the great throngs of anxious people that flocked to Drs. Shores' Parlors, in spite of rain and bad weather, and had it not been that the offer was made for ALL OF APRIL it would have been an impossibility for the Doctors to have examined and advised half the number who called.

BUT TWO WEEKS LEFT. YOUR LAST CHANCE

In which to take advantage of Drs. Shores' Grand Special Offer to Examine and Advise all sick people with any Chronic disease and tell them just what their trouble really is,
