MINING, BUSINESS AND STOCKS

BRISK TRADING ON THE EXCHANGE

Uncle Sam and Some Other Tintic Stocks Made Substantial Advances.

OHIO COPPER ON UP GRADE.

Mason Valley Weakened - South Columbus Slightly Off-Closing Quotations.

Today's forenoon sessions of the mining exchange looked like confidence had been fully restored in stocks. Trading was brisk and a number of the stocks called made substantial advaces. Uncle Sam Consolidated sold up to 60 cents a share, it being whispered about the floor of the exchange that some quite satisfactory developments had been made in the mine within the past few days, yet the story lack-ed official confirmation. Black Jack held its own, while Colorado was in stiff demand around \$2.50 a share. Seven Troughs also moved up a few notenes, while Wabash put on its sprinting clothes; it started out with the sale of 100 shares at 90 cents, rose rapidly •0 97 cents, and back again to 93 cents at the close. Beck Tannel went up to 66 cents and South Columbus weakened to 68 cents. to 68 cents.

On the open board, Onio Copper found favor, selling first at \$3.70 and then at 3.85, with every indication of higher prices. Mason Valley weakened to 1.25; Standard Copper went at 21 cents. The closing quotations and sales

HEINZE ENTERPRISE.

Sacrified Banks to Regain Prestige in Mining.

According to many reports from Butte and Salt Lake City and other mining and Sait Lake City and other mining centers, says a Boston paper, where F. Augustus Helize has important interests, he is fast whipping his affairs into shape. He has sufficiently financed the Ohio Copper company to enable construction and development work to continue there, and has had released the \$26,000 attachment of the Rio Grande Western railroad.

He has also turned over sufficient securities to the State Savings bank of

curities to the State Savings bank of Butte which will permit of the early reopening of that institution, to the igeneral relief of many interests in The Davis-Daly Estates Copper com-

pany is preparing to resume operations, but it is believed that the Heinze own-ership in this company has been very materially reduced. materially reduced.

He has also settled the litigation which ensued over the Stewart mine in the Coeur d'Alene district, which will permit of the early operation of that company's new big mill.

company's new big mill.

Mr. Heinze has apparently sacrificed his banking interests in New York, which were largely the cause of his troubles, and safeguarded his various mining interests. It is, however, through his mining affairs that F. Augustus Heinze will seek to recover his former standing in the financial and mining world. mining world.

EXPORTS OF COPPER.

Product Has Gone Largely Into Hands Of Consuming Interests.

Of Consuming Interests,

(Pollock Special Wire.)

Beston, Jan. 29.—The greater part of 270,000,000 pounds of copper exported from the United States during the past four or five months, says the News Bureau, has gone into the hands of consuming interests, the speculators taking an amount much less than generally supposed. On this point the British metal firm of Henry Morton & Co., limited of London, says: "The large accumulation in the hands of American producers, have now been practically disposed of and while a fair share of this quantity has mostly been transferred to European warehouses for account of speculators, the great bulk has been absorbed by manufacturers, whose workships after a long period of depletion, are gradually resuming their normal aspect. India and China, who had suspended purchases throughout the high priced period, have again become important buyers of refined and manufactured copper." Total supplies of copper from Europe from all sources in the fortnight ended Jan. 15, were 20. 351 tons, indicating a total for the current month of 40,700 tons which would fall short of the past December total of 10,000 tons. Supplies for the month of December totaling 50,905 tons, which were about double supplies of the month of September previous." (Pollock Special Wire.)

UTAH CON. MAY NOT BUILD PLANT

New York Dispatches Indicate That Deal Has Been Made With Smelter Trust.

ONE THOUSAND TONS A DAY.

Or More-Negotiations Have Been Pending for Some Time-Ore to Garfield.

Late dispatches received from the east indicate that the Utah Consolidated may not be put to the necessity of going to the expense of building a smelter to take the place of the one near Murray, which was forced into idleness as a result of the "smoke litigation, which ended favorably to the farmers of the Salt Lake valley. There are reasons to believe that a contract has been entered into with the American Smelting & Refining company, whereby the latter will treat Utah Consolidated ores at its Garfield smelter in the future.

It is known that negotiations looking to this end were begun during the latter part of 1907, and that General Manager Charles W. Whitley of the American and J. B. Risque, manager of the Utah Consolidated, held several conferences at which the matter was discussed. It is also known that following these talks by the local managers, this subject was taken up at the executive offices of the American Smelting & Refining company in New York, and that representatives of the latter cailed on President Broughton and other members of the Utah Consolidated's board of directors at the New York offices of the latter.

Confirmatory of this comes a dispatch under New York date which reads: "Announcement has been made that a contract here have to this end were begun during the lat-

Confirmatory of this comes a dispatch under New York date which reads: "Announcement has been made that a contract has been entered into between the 'smelter trust' and the Utah Consolidated whereby the former will handle the output of the Highland Boy mine in Bingham. This contract calls for the smelting of 1,000 tons daily, with the privilege of smelting 4,000 tons. It means half a million dollars profit to the smelting company and it leaves the Utah Consolidated with\$3,000,000 in its treasury. The new smelter which would otherwise have to be erected would have cost \$4,000,000 at least. U. H. Broughton, son-in-law of H. H. Rogers, and president of the United Metals Selling company, is president of the Utah Consolidated.

Inquiry made at the offices of the Utah Consolidated today elicited the information that no orders had been received as west for each of the Utah condended to the present of the contraction of the united bear to offices of the Utah Consolidated today elicited the information that no orders had been received as west for each of the united as the offices of the united as the office of the office of the united as the office of the united as t

Utah Consolidated today elicited the information that no orders had been received as yet to resume production at the mine, which was cut off a few days before the beginning of the present month, and it was thought none would be until the return home of Manager Risque, who has been at the New York offices during the past week or two. It is expected that Mr. Risque will reach Salt Lake again some time next week.

will reach Salf Lake again some time next week. The American Smelting & Refining company, it is said, needs ore of the character produced from the Highland Boy mine and it is presumed that in order to obtain it the Utah Consolid-ated has succeeded in obtaining a con-tract on very favorable terms.

EXCHANGE ELECTION.

James A. Pollock Elected President For Another Year.

At the meeting of the new governing board of the Salt Lake Stock & Mining exchange held yesterday afternoon, James A. Pollock was re-elected president; W. J. Browning was honored with the first vice presidency; William H. Tibbals, second vice president; W. G. Nebeker, third vice president; Parker Norton, treasurer, and James A. Shorten, secretary. The following chairmen of committees was announced by President Pollock: Arrangements, Samuel R. Neel; listing, James L. Hamilton membership, Henry W. Doscher; rules, William H. Tibbals; arbitration, Fred R. Davis.

MONTANA TONOPAH.

Strikes Reported in Property in Which

Salt Lake is Interested.

Extensive prospecting work is being done on the second, third, fourth and fifth levels of the Montana-Tonopah, in addition to the taking out of over 1,000 tons of ore each week to keep its 40-stamp mill running, says the Tonopah Miner. This mill is doing excellent work and is highly satisfactory to the management. Work on the fourth or 600-foot level is particularly interesting at the present and is being closely followed. In the cross-cut south from the Macdonald drift, near the line of the Midway Fraction and the Lucky Jim claims, a ledge has been caught which is believed to be an extension of the Martha vein. The ledge runs east and west, dipping to the south, and is between 6 and 7 feet, all high grade on the hanging wall. This ore is identical in character to that found on the Martha vein, which is 500 feet farther east. Another strike of great importance was made on the Macdonald drift on the same level and fully 200 feet north of the Martha ledge. The find is what is known as the faulted end of the west stoller and add fully 90 feet more of Salt Lake is Interested. the same level and fully 200 feet north of the Martha ledge. The find is what is known as the faulted end of the west splice and adds fully 90 feet more of this rich vein to the west splice, which was already opened up for a distance of more than 450 feet. The character of the ore on this ledge is a sulphide, running between 330 and 335 to the ton, and as it is found in that section of the mine where high grade ore is prevalent, it is more than probable that some very rich rock will soon be discovered. No work has been done on the 30-foot vein encountered several weeks ago on the 755-foot level, owing to the fact that there is no all connection at that point in the level, it being 1.500 feet distant from the shaft. This will soon be remedied, and work will then be pushed along the vein to determine its extent.

THE SMELTING SITUATION.

Only One Copper Plant Using Operat-

of December totaling 50,905 tons, which were the largest in recent years, and were about double supplies of the month of September previous."

The closing of the Plated States smelter at Bingham Junction has high month of September previous."

rection. With these four mines contributing their tonnage to the Garfield, the furnace capacity of that plant will be taxed almost to the limit and until additional equipment is provided, or some other arrangement made, the small producer of copper ores will have little show in the local market for some time to come. The Yampa has its own smelter and is only receiving such custom ores as is necessary as flux for the ores of the Yampa ary as flux for the ores of the Yampa

mine.

As to the lead smelters; the American is operating its big plant at Murray, but at greatly reduced capacity on account of having used up its supply of lead ores to almost danger point and it was said today by a person in position to know, that upless shipments are resumed from the lead mines soon, there is likely to be further curtailment. The United States lead plant may possibly be operated 30 days longer and then what happens only remains to be seen. According to information received from Bingham Junction yesterday afternoon, the task of drawing the fires from the lead furnaces had already begun when telephonic orders came from those in authority to keep them going a little longer; that some kind of an arrangement had been made whereby it will be possible to clean up the yards of the ore on hand. Phesident Shary, when seen today, refused to say that any such arrangement had been made; admitting, however, that the ore on hand is being used up as repidly as possible. About 500 men employed in the copper smelter have been laid off. As to the lead smelters; the Am-

BLACKBIRD ANNUAL.

At the meeting of shareholders of the Blackbird Gold & Copepr company which owns a large area of territory adjoining the Cactus mine of the New house Mines & Smelters corporation in Beaver county, held yesterday the formality of choosing a new board of formality of choosing a new board of directors and organizing the same, was all the business transacted. The offi-cers for the ensuing year are; John E. DuBois, president; C. J. North, vice president; B. N. Lehman, treasurer and manager; F. O. Frick, secretar; who, with L. N. Morrisn, are direc-tors. Nothing was done towards a re-sumption of work at the property.

CONCENTRATES.

The ore and bullion settlements reported late yesterday by McCornick & Co., were: Crude ore and concentrates, \$12,000; base bullion, \$30,000.

Anthony H. Godbe, secretary of the Ohio Kentucky Mining company, is ex-pected to arrive home from the east

Fred Sinclair has resigned his posi-tion with the United States Smelting. Refining and Mining company, to ac-cept a more lucrative place with the Illinois & Pacific Glass company at San Francisco. He expects to leave for the west tomorrow. for the west tomorrow.

Daniel Guggenheim, president of the American Smelting & Refining company, is quoted in an eastern interview as saying: "The story about the American Smelting & Refining company is ridiculous. The stock is scattered about pretty widely, but the Guggenheim family has a controlling interest and it will take a pretty stiff fight to take away that control. My term as president does not expire until Sept. 1, and I expect to continue in office after that."

TODAY'S MONEY MARKET.

ASSESSMENT NO. 5.

ASSESSMENT NO. 5,

DENVER MINING COMPANY, PRINpal place of business Salt Lake City,
Utah, Location of mines, Willow Spring
Mining District, Utah, Notice is beyelve
given that at a meeting of the Board of
directors of benver Mining Company,
held on the 28th day of January, 1908, assessment No. 5 of ½ of a cent a share
was levied upon the capital stock of the
corporation, issued and outstanding, payable immediately to High Watson,
Secretary, at his office, 48 Richards street,
Sait Lake City, Utah, Any stock upon
which this assessment may remain unpoid on Saturday, the 2s th day February,
1928, will be delinquent and advertised
for gale at public auction, and unless
payment is made before, will be soid
on the 20th day of March, 1998 at 12 m,
at the Secretary's office, to pay the delinquent assessment thereon, together
with the costs of advertising and expense of sale.

HUGH WATSON, Secretary,
Dated January 29, 1988.

PRICES DECLINED SLOWLY, STEADILY

Pacific rose large fractions. United States Steel opene. Is nigher and the preferred was unchanged. Northern Pacific declined 4.

The demand for stocks was not maintained and some of the leaders reacted almost a point. The United States Steel stocks weakened sharply which created an unfavorable market. A subsequent rise in Reading, Amalgamated Copper and the local traction stocks. sequent rise in Reading, Almagamater Copper and the local traction stocks exerted a good effect elsewhere and there was a rally to the opening prices.

The market in its second hour was dull and limited and prices drifted parrowly and uncertainly. Sales showed a number of declines by noon.

Honds were firm.

Bonds were firm.

The market became quite heavy in tone after midday. The extensive seliing of the Harriman stocks and Reading of the Harriman stocks and Reading discouraged general buying and induced the professionals to put out short lines of stocks. Union Pacific, Southern Pacific, Northern Pacific and Reading were quoted ½ to 1½ under yesterday's closing.

Little evidence of support was shown in the action of the market, prices declining slowly but steadily, until a large proportion of the list was ruling materially below yesterday's close, Northern Pacific sagged 2, Great Northern preferred, United States Steel and American Sugar 1.

New York, Jan. 29,—The market closed weak and dull. Moderate covering

ed weak and dull. Moderate covering operations by the shorts led to slight rallies and these to extreme dullness. Prices receded again in the late deni-ings, Union Pacific gave way 2, Amer-ican Sugar, 13; Southern Pacific, Great Northern pfd., 1% to 1% and Rock Island and Amalgamated Cop-

LONDON.

London, Jan. 28.—The offerings at the weed auction sales today amounted to 12,-558 bales. The American demand improved, causing spirited competition. Greasy first pieces were in strong request, and New Zealand half-bred combing was taken by Americans at 1s 2½d. A fair supply of medium greasy and some good lines of lamb's wool were also bought by Americans.

PRODUCE.

Chicago, Jan. 29.—The wheat market op-ened weak today with commission houses and pit traders active sellers. The chief depressing influence was the lower mar-ket at Liverpool. May wheat opened 4 to 4 lower at 1.00% to 1.01 and sold at 1.00%.

1.00%.
The corn market was dull and prices were steady. May corn opened a shade to 18 lower at 60% to 60%4061 and sold at at the corn opened as a shade to 18 lower at 60% to 60%4061 and sold at a shade to 60 10 19 lower at 60% to 50% 661 and soid at 63%.

The oats market was steady along with corn. May oats opened unchanged at 53% and soid at 53% 60%.

The provisions market was fairly active and prices were weak because of a ten cent decline in the price of live hogs. May pork opened 10 to 15c lower at 12.52% to 12.57%.

Lard was down 2% to 10c at 7.70 to 7.77%, Ribs were 2% to 7% lower at 6.70% 6.75.

A bulge took place in wheat about the middle of the day on the report that wheat in Kansas and Nebraska would be damaged by the cold weather. Later the market become weak and closed in that condition with May %40% lower at 1.00%

condition with May \$4.7% lower at 1.00% 67%.

Corn—Prices ruled steady all day but eased off slightly before the close along with wheat. The close was easy with May 1.60% 14 lower at 60% 67%.
