VISIT EXPLAINED.

"When the president, on the inquiry of the German emperor whether Miss Roosevelt would perform the cere-mony of christening his American-built yacht, had given his consent in a most graceful manner, his majesty resolved to show his regard for the president by having himself represented by a prince of his house on the occasion of the launching. In contemplating this courtesy, the emperor remembered the pleasant relations between Prince Henry and Admiral Dewey and Rear-Admiral Evans, and also recorded that his brother, on his return from China, had expressed a strong wish to visit the United States. This desire, however, could not be gratified at that time, Moreover, the emperor was influenced

by the fact that Prince Henry, when-ever he was abroad, had always won the admiration and esteem of those with shom he was brought in contact, and the had always succeeded in bringing a tone of kindness based on mutual esteem in the international relations. This, I think, will indicate the feelings that actuated the emperor in the choice of his brother as his representative on this pleasant occasion.

"The prince is very grateful that the nperor selected him for this mission. He is delighted to make the acquaint ance of the great American nation at last, and enjoy the honor of meeting the excellent man at the head of it. It had been only the stern command of duty which prevented him from visiting the New World Mter his return from east China."
