## SOCIAL AND PERSONAL.

Tonight Gov. and Mrs. J. C. Cutler will receive the officers stationed at Fort Douglas, at their residence in West Temple street. The governor's staff, the National Guard and the officers of the National Guard will be present.

The leap year ball given last evening by the ladies of the J. B. W. R. club was one of the most interesting events of the season. The function was held at Odeon hall, and nearly 200 couples were in attendance. Fruit baskets, palms and potted plants were used in profusion in the decorations. The leap year idea prevailed, the usual order being reversed and the ladies acting as escorts. Among the specially invited guests were Gov. and Mrs. Cutler and members of his staff. The patronesses were Messdames A. J. Davis, S. S. Pond and J. S. Hyde. The committee in charge was composed of the following club members: Misses Alberta Barton, Clara Jones, Maud Williams, Winifred Evans, Emma Morris, Emily Kearney, Kate Raleigh, Eva Wrathall, Lois Wrathall, Lucille Clinton, Hazel Calder and Dorothy Thompson.

Los night Miss Hazel Claire Young and William H. Crozier were married at the home of the bride's mother, Mrs. Helena Young, the ceremony being performed by Dean Brewster in the presence of two families. A large reception followed. The rooms were decorated with a profusion of fruit blossoms, lilacs and potted plants and palms, the parlor being especially pretty. An orchestra of music was in the hall furnished appropriate music, during the evening. The bride wore a gown of white silk and carried a shower bouquet of roses. Miss Bertha Crozier was bridesmaid and wore champagne-colored silk, with pink roses as her bouquet. Assisting in entertaining were Misses Evelyn Young, Ethel Smith, Della Hines and Jean Salmon. Mrs. A. Bradford, Mrs. L. J. Kahn and Mrs. D. C. Peck.

Mr. and Mrs. Robert Broadhurst entertained at dinner last evening in honor of Mrs. Broadhurst's father, Capt. Dwight of Chicago, who yesterday attained his seventy-second birthday anniversary. The decorations were in pink and white carnations, and covers were laid for 12. Bridge followed and Mrs. Frank Murphy sang.

# IS CLOSING UP IMPORTANT GAP

Project First Planned by Huntington Is Now Well Under Way.

## GIVES CHOICE OF ROUTES.

"Espee" May Send Passengers to the Coast With Offsetting of Four Lines.

After having been built on paper almost any number of times, the Mojave-Keeler line is now under construction. The line will run from Mojave, Cal., to a connection with the Nevada and California, formerly the Carson railroad. The building of the Mojave-Keeler connection is far more significant than might appear. Pick up a Southern Pacific map and following the line, dropping south from Hazen, it brings one to a stop at Keeler. To the south and west is Mojave, the present terminal of a line reaching the coast and connecting with various lines running along the tidewater. By filling in the gap between Mojave and Keeler the Southern Pacific will reach the coast at Los Angeles by a route several hundred miles shorter than the one now running between Ogden and San Francisco and then down to Los Angeles.

## HUNTINGTON'S PROJECT.

While active in railroad building and management the late Col. P. Huntington was mapping out many projects for the Southern Pacific and the Mojave-Keeler line was one of his most cherished plans. The idea has been worked out and because of its numerous advantages and the ease with which it can be worked out, it was adopted. From Goldfield Junction the Hazen-Keeler stretch must be broad-gauged. This done and the new road built, a person will board a Espee train at Ogden and will have choice of several routes to San Francisco direct to Los Angeles direct or to San Francisco via Los Angeles or to Los Angeles via San Francisco.

## CHARITY WORK FOR WINTER.

Captain M. M. Woods of the Salt Lake Charity association reports the close of a very successful period of benevolent work by his society, and the summer campaign is now under way. Not only were many needy families and individuals provided with food, clothing and other necessities, but in many instances the association was successful in securing employment for persons who were able to work, but whose personal efforts to secure something to do had been unavailing. One aim of Captain Woods and his associates is to encourage people to so arrange their affairs during the summer months that they will be in a better position to provide for themselves in the more strenuous winter season.

Dr. H. S. Scott's \$1,500 automobile was completely destroyed by fire about 10 o'clock last night, and T. W. Spiegel, who had been working on the machine in a small garage on Ninth South between State and Main, had a narrow escape from death while trying to save the auto.

Spiegel was making some repairs on the machine so he would be in use on Sunday. He was using coal oil and was working with a candle. The candle dropped to the floor and immediately set fire to the flames. Spiegel made frantic efforts to get the machine out of the shed but he was unable to open the door. In a few seconds Spiegel's clothing was on fire and he was forced to leave the building to save his life. His hands and face were slightly scorched. An alarm was turned in but the firemen could not save the auto.

## BAD BUTTER IN DENVER.

Federal Officials—After Dealers and Packers Selling "Phony" Food.

Salt Lake is not the only town that is charging butter dealers with a desire to make profits instead of butter. In Denver a grand jury will meet the first week in May, and the papers of that city are shaping up much testimony for it concerning fraudulent butter. A Denver charge is that dealers ship into Denver 100,000 pounds of renovated butter a month, and that this butter is sold to consumers stripped of its butterfat and milk solids.

## Renovated butter brands, which have been practiced extensively for years in Colorado, are first aimed at and the

The afternoon session will be held in the tabernacle and the evening session in the stake hall at 6:30 p. m. The members of churches are especially invited to attend as no classes will be held on this date.

As the practice is now, the manufacturer puts up a tub of 60 pounds of butter and is compelled to pay 15 cents tax on it, or a quarter of a cent per pound. He sells to the dealer, who takes it out of tubs and sells to the public in bricks.

Armour, Swift and other dealers ship into Colorado 100,000 pounds of this butter every month. Renovated butter, as a rule, is pure. It is usually good country butter renovated, and if it gets strong it is purified under government supervision and then passes as renovated.
