The Semi-Weekly News

THE GREAT COUNTRY PAPER

OF THE WEST.

Is issued Mondays and Thursdays and contains all the cream of the Daily and Saturday News.

LOCAL BRIEFS.

Judge Stewart has adjourned court until Friday, Nov. 13.

Miss Florence Reed of Springfield, Mo., is visiting in this city for the winter with the family of Robert D. Grant of east South Temple street.

The damage suit of Frank Gitzhoff against the Sisters of the Holy Cross hospital has been transferred from the district court to the Federal court.

Thomas Rixley, a Saltair railway engineer, died last night of typhoid pneumonia, at his Almond street residence. His wife and child lived within a year.

W. W. Armstrong has been elected president, J. S. Bransford vice president, and Peter McPherson manager of the Keith-O'Brien Dry Goods company.

A dancing party will be given in the Twenty-sixth ward hall, Thursday night, the affair being under the auspices of the fair committee. A general invitation is extended.

There was good attendance last night at the lecture on the Gorman poets by Prof. Conrad Nies of St. Louis, in Harmonie hall, and the scholarly talk was much enjoyed. Dancing and a sociable followed.

Attorney Frank J. Gustin has recovered from his attack of typhoid fever and is able to be out. Two residents of the Forty-fifth ward district have just avoided having the fever by catching it in the nick of time and being doctoring out of it.

Judge Lewis has granted Lena H. Livingston a divorce from Robert W. Livingston on the ground of failure to provide. They were married at Logan on October 14, 1887, and have two children who are awarded to plaintiff. Mrs. Livingston was also awarded \$40 per month alimony.

"Dute," the well known black dog belonging to Dr. Ned Hewett, is dead. He died either of a sudden or of want of breath, and it will take an autopsy to determine which. "Dute" was of the mature canine age of nine years, and was an intimate associate of the late MacKenzie's "Tim," for whose decease he has never ceased to mourn.

William R. O'Brien and Miss Bertha N. Nichol of Denver, met in this city yesterday. Mr. O'Brien is returning east from a San Francisco trip, and Miss Nichol having just come from Colorado. The two were related to Justice Clark's office, where they were made one, with clerks from the neighboring offices as witnesses. Mr. and Mrs. O'Brien left by the next train for the Pacific coast on a bridal tour.

## GRAFTING TO BE INVESTIGATED.

## WYOMING SHEEP COMMISSIONERS WILL LOOK INTO CHARGES AGAINST STATE AND FEDERAL INSPECTORS.

Have Been Required to Pay Much More Than the Legal Fee for Inspection and Dipping.

(Special to the "News.")

Cheyenne, Wyo., Nov. 11.—A meeting of the state board of sheep commissioners will be held in Cheyenne on Wednesday, Dec. 9, at which time the reports of alleged grafting of state and federal inspectors in Wyoming during the past season will be investigated. It is alleged that inspectors, and especially those for the state, in the counties of Sweetwater, Fremont and Big Horn have held up a number of flockmasters and compelled them to pay many times the legal fee for inspecting and dipping their sheep.

Other important matters will be discussed at this meeting, which is expected to be the largest gathering of Wyoming wool growers that ever assembled in the state. The work of the past season will be reviewed and plans for the season of 1904 formulated. It is probable also that one result of the meeting will be to recommend to the bureau of animal industry certain changes and modifications in present methods of inspection, quarantine and dipping of sheep. The bureau will also be asked to inaugurate a number of new departures having for their object expediting of the work of inspection. Under present arrangements sheep are often held at points of shipment many days without food and with very little water, while range inspectors frequently hold sheep back on the winter ranges when they should be hurried to the summer ranges in the mountains.

The National County Wool Growers' association has already appointed a number of delegates to the meeting. The Eastern Wyoming Wool Growers' association will send 20 or 25, and it is expected that the Carbon and Big Horn associations will also be well represented.

A BONANZA IN ANY HOME.

Hard Times Book.

In all parts of the world there always have been and will be found certain persons, many gifted by nature, who have discovered and learned how to use simple home remedies for all the ills of the flesh. Some of these persons have become very expert in the cure of disease. These "experts" are generally nurses, though not always, or mothers of large families, who have acquired skill by long experience.

The fact had often been expressed that if some one would obtain and bring together from all over this and other countries all of the simple remedies and the method of applying them, he would confer upon mankind a boon equal to any invention of any age, one the value of which could hardly be estimated in dollars and cents.

To do this of course would involve immense labor and much expense. Immense nature would demand almost anyone making the attempt.

It however remained for the publishers of a book known as "Vitality" to undertake this herculean task. They brought out a book under this title. In 1865 they began their labors. After gleaning this country and Europe they found in Japan remedies that were regarded of extraordinary value, and the Japanese method of applying them made these simple remedies still more valuable. After more than 30 years of gleaning they have finally given to the world in "Vitality" a volume whose practical value can hardly be measured by money. In fact it must prove a "bonanza" in any home.

The fact truly be termed a "Hard Times Book" for there is scarcely a family in this land to whom it would not prove a saving of many dollars each year during their whole lives. The more needy a family is, or the harder the times are, the more valuable this book is to them.

The value of this book lies not alone in saving money, and saving suffering and other life itself, there is another consideration that is of no less importance, for it will be the means of preventing people from taking drugs into the system. As the Japanese would say, "taking an unknown medicine into an unknown stomach to produce an unknown effect."

Drugs generally leave a deposit in the body that weakens or injures it for the rest of life. We often take medicine and think that the medicine cures us. Yet we get well in spite of the medicine.

The following is a pertinent paragraph from the writings of the late Dr. F. P. Clayton: "No greater innovation can be practiced on the people than to foist upon them the so-called Family Doctor Book found in almost every house, that offers four remedies which only a trained physician is capable of prescribing. If some one would bring out a book of Home Remedies, regular grandmothers and grandfathers would have something that would be blessing in every house."

The literary division of this book is, too, of special importance, as every part of it is of actual money value to the reader.—Morning Chronicle.

## UTAH MINERS GET RAISE IN WAGES.

## Gould Fuel Company Posts Notices At the Mines Throughout The State.

Men Are Rewarded for Their Loyalty In Standing by the Company During Existing Strike Ramers.

Twenty Five Cent Increase.

The coal miners at Castle Gate will not lose anything by their refusal to listen to the talk of imported labor agitators, as will be noted by the following just bulletined by Superintendent David Gould of the Utah Fuel Company:

"Our men having demonstrated their loyalty to the company, the company will, beginning Nov. 1, 1903, raise the price of \$2.50 paid to imported men to \$2.75, and the pay of the boys will be raised proportionately.

Outside day laborers will be given an increase of 10 per cent. In addition to the above pay of miners working in a place where they have to contend with water, bad roof, coal or any other drawback, will be adjusted so that the pay of such miners will equal the miners' average earnings throughout the mine under average conditions."

It is understood that the same increase will apply to the other mines of the company, and the miners are jubilant. Any labor agitator who dares to approach the men of the Utah Fuel company, will receive warm treatment, and will be told to hike back to Colorado on the double quick.

RUSHING COAL ORDERS.

Citizens do not seem to get over the idea that the coal strike in Colorado means a similar experience here, and consequently are rushing the local coal offices, and making life a burden to the dealers. The latter say that in the course of a week, everybody will be supplied with coal, and there will be nothing to do for a long time to come.

AMUSEMENTS.

"Soldiers of Fortune" drew another enthusiastic audience at the Theater last night. While the turnout was good, it was not all that the high merits of the performance warranted; still, considering the "Ben Hur" strain, the management probably feels little like complaining. The engagement winds up with performances this afternoon and evening.

At the Grand tonight "A Little Outcast" closes its engagement. "A Woman's Power" opens tomorrow night. Friday, and "Mr. Pickwick" Saturday afternoon and evening fill out the remainder of the week at the Theater. DeWolf Hopper and Dinky Bell should have a warm reception, to say nothing of the new soprano, Marguerite Clark.

HORN'S APPEAL HOPELESS.

Governor Chatterton Has Positive Proof of Condemned Man's Guilt.

Special Correspondence.

Cheyenne, Wyo., Nov. 10.—Gov. Chatterton will deny the appeal of Tom Horn, the notorious army scout, Indian fighter and trapper, whose stock detective and hired assassin, for a commutation of the death sentence. Attorneys for the state have, it is said, submitted positive proof of Horn's guilt to the governor.

The state will file the case Thursday morning and the governor will decide Horn's fate before evening.

The death watch will be placed over Horn Friday. Work on the gallows and stockade will begin next Monday. Friends of Horn have during the past few days assured him that he will be released, but the authorities are determined to prevent a delivery. A stronger guard has been placed at the jail and the rapid fire machine gun has been mounted and in position to repel an attack.

Best Lotion on Earth.

I. M. McHenry, Greenville, Tex., writes, Nov. 24, 1900: "I had rheumatism last winter, was down in bed six weeks; tried everything, but got no relief. My friend gave me a part of a bottle of Ballard's Snow Liniment. I used it, and got two more bottles. It cured me and I haven't felt any rheumatism since. I can recommend Snow Liniment to be the best liniment on earth for rheumatism." For rheumatic, sciatic or neuralgic pains, rub in Ballard's Snow Liniment, you will not suffer long, but will be gratified with a speedy and effective cure. 25c, 50c and \$1.00 at Z. C. M. I.
