

MEETING AT ASSEMBLY HALL

Interesting Talks on Temperance
to the Young People.

DR. TALMAGE'S REMARKS.

Miss Murrett and Dr. Seabrook Com-
pliment at the "Hormones" - B. F.
Grant Speaks of the Saloons.

The Assembly Hall last evening was
well filled with an audience that gath-
ered to hear Miss Florence Murrett
and Dr. Seabrook, whose remarks
on temperance were very interesting,
and no doubt conducive to some serious
thought on the part of those who in-
dulged too freely in the flowing bowl
of Talmage and B. F. Grant, and were
recalled in a very happy manner. The
meeting was held under the auspices
of the M. L. A. and was presided over
by Richard R. Lyman, State president
of the associations.

The first feature of the evening was
three selections on the organ by Prof.
McCallan. They were rendered in the
professor's customary sympathetic
style.

The first speaker was Miss Murrett,
whose lecture was listened to with
much interest. Not only because of
what was being said, but the manner
in which it was said. Her remarks

and John Sts., New York.

His, has spared no time, expense or
labor in training his boys, and now
he is rewarded by seeing a band of
musicians who can furnish music good
enough for anyone.

Following was the program yesterday
afternoon and evening:

Opening chorus.
Home Patriotic Song.
B. W. Ashton, Co. Supt.
Uncle Sam's Reception.
Three Little Mothers.
The Sunshine Band of Home.

Address of Dr. Alice Seabrook
was also interesting and instructive.
She began by giving the history of
W. C. T. U. telling when and under
what conditions it was organized. She
spoke of the work that is now doing
"for God, and home, and every land."

Dr. Seabrook spoke of the Sunshine so-
ciety and of the good that every in-
dividual could do by helping and sym-
pathizing with others. She pointed
out the necessity of clean living and
faithfulness to pledges and principles.
People should be temperate not only
in drink, but in all things.

The chairman then called on Dr. Tal-
mage, who responded in his well known
familiar style. He subscribed heartily
to all that the ladies had said and
expressed satisfaction at the temper-
ance of the Mormon people. He said
that this community was as free from
vice and intemperance as any he had
found in all his travels, and for that
reason he was proud of his people.

Life was no trifle with them, and al-
though they were a serious people, he
said that he expected to see grow up
in the shadow of the mountains a
people of strong men, the most virg-
tuous, temperate and upright people on
the face of the earth. The speaker then
pointed out the injurious effects of
stimulants, especially in food.

There should be no stimulants in food,
drink or literature.

B. F. Grant was called up out of the
audience to make a few remarks. He
stated that there were seventy-nine
temples in Salt Lake and that the
brethren had paid Uncle Sam \$35,000.
This, however, did not compensate for
the evil that these institutions accomplish.

He had a plan that would close every
saloon in the country. The plan was:
"You stay away and I'll stay away."
and the saloons will close. That is the
only way under God's heavens to close
them.

The speaker told some of his ex-
periences in the saloon business in
southern Utah, and spoke of the suf-
fering among the miners and their fam-
ilies entailed by drink.

Miss Elsie Barron acquitted herself
proudly during the evening in two
beautiful solos. The first one was,
"Dreams, Only Dreams"; the second
was "The Sweetest Flower That Grows."

LEASING ENTERTAINMENT

An Interesting Performance of School
Children at Murray.

A most interesting entertainment
was given at the Murray opera house
last evening by the pupils of the Mur-
ray school. The house was packed to
its utmost seating capacity and the
program went without a hitch. The
children and teachers deserve great
credit for the performance, particu-
larly in this so with Miss Stephenson's
class of little boys and girls. The tots
went through a long and difficult drill
without a mistake and were generously
applauded.

A pleasing feature of the evening
was the music furnished by the Mur-
ray band, which was recently organized
and is composed of young men of
Murray. The leader, Mr. William Mor-

reading of the report of a new organ-
ization of the W. C. T. U. at Water-
loo. It stated that there were no sal-
oons in that section of the city for the
union to work against. Then some
one said, "How about the Country
club bars?" and that was followed by
an animated talk in which all present
participated. The street car scandal of
a few weeks ago in which some
members of the club were involved, was
pointed out as one of the effects of
the bar. The ladies stated that it was
their object to so educate the public
that it would be impossible for a saloon
to thrive in the community.

The resignation of Mrs. Lowe, as su-
perintendent of the committee on litera-
ture was received and accepted and
Miss Kidwell was elected in her place.
The union then adjourned until May 5.

CONCERNING BEEKEEPERS.

Committee Preparing Treatise on Care
of Little Honey Makers.

At the late convention of the Utah
Beekeepers' association held in this city
on April 8th, a committee was appointed
to compile and publish a treatise on
the care of bees for the benefit of the
bee industry. Those who were appoint-
ed on the committee are: E. L. Lovejoy,
Salt Lake; J. B. Frazz, East Mill Creek;
L. J. Whitney, Mapleton; Thomas Bel-
lison, Nephi, and F. S. Darr, Spanish
Fork. They desire to draw the atten-
tion of the beekeepers throughout the
state to the matter they have in hand,
it being their object to get out a treat-
ise that will be useful as a reference
book for the future. They invite com-
munications from beekeepers through-
out the state on any question that is
useful to the industry, particularly the
following questions: "How to protect
the bees from their various enemies,"
"The best wintering method," "Bees and
their relation to fruit, plants, seeds,
etc.," "How to prevent and cure dis-
eases," and other kindred subjects. Ad-
dress all communications to any mem-
ber of the committee, whose addresses
appear above.

CHINAMAN IS ASSAULTED.

Three Young Men Attack Mongolian
at Ogden and Knock His Eye Out.

(Special to the "News.")
Ogden, April 20.—This morning De-
tective Pender and Officer Brown ar-
rested Howard Speak, of Ogden, and
Walter Irwin and Joseph Penrose, of
Merriott, young men about 19 years
of age, who are charged with assault-
ing Ah Lee, a Chinaman, with stones
and putting his eye out.

The boys state that they were out
driving yesterday afternoon, and were
going down Twelfth street towards
Merriott's. They were laughing and
talking and passing Wall street, the
Chinaman, who was working in his
garden, without any provocation picked
up a clod of dirt and threw it at them.
Whereupon Irwin and Speak jumped
out of the buggy, gathered up a hand-
ful of stones and threw them at the
Mongolian, and then got back in the
buggy and drove away.

The Chinaman, whose face is a sorry
sight, tells the story differently. He
says that while he was peacefully at
work in his garden the three young
men drove by and stopped; that with-
out one word from him to provoke them
to it, they seized onto some stones and

threw them at him. He says that he
was not hurt, but that his eye was
knocked out.

YOU CANNOT CURE PILES

By Internal Remedies.

The only sure way to cure every form
of piles is to use a remedy like the
Pyramid Pile Cure which is applied di-
rectly to the parts affected and its won-
derful healing effects are apparent from
the first application because the medi-
cinal properties are rapidly absorbed by
tissues and sensitive membranes of the
rectum, and the cure is made speedily
and almost before the patient is aware
of it every trace of piles has left him.

This is one of the reasons why the
Pyramid Pile Cure has been so uni-
formly successful. It is applied directly
just where it is needed and where it will
do the most good. Not by the round-
about way of the stomach nor by the
harsh, barbarous methods of various
surgical operations and so-called sys-
tems.

Direct applications to the seat of dis-
ease is the only rational way, and this
is fully accomplished by the Pyramid
Pile Cure.

If the voluntary testimony of thou-
sands who have tried this remedy is
worth anything, then no sufferer has
any excuse for longer delaying in giving
it a fair trial. Knowing that when you
do so The Pyramid Pile Cure will have
made one more friend, the best possible
advertisement we can have. The chief
advantages of the remedy are: It cures
without pain, the cure is lasting, it con-
tains no poison, and lastly, it is the
cheapest and quickest cure yet found.

Your druggist can tell you what it has
done for others.

Testimonials of cures from all parts
of the United States will be sent on ap-
plication to the Pyramid Pile Cure Co.,
Marshall, Mich.

He began throwing them at him. One of
them landed on his right eye, and cut
it out. Another one plowed a deep cut
in his forehead. His eye is swollen up
so that it looks like it had encountered
a bunch of hostile bees.

The young men will be arraigned be-
fore Justice Hall this afternoon on the
charge of mayhem.
