

# MADDEN MAKES \$21,000 CLEANUP

Big "Killing" By Turfman and His Partner Hitchcock.

## RACEGOERS ARE WONDERING

At Great Change Which Has Come Over Horse Owner—Able to Pick the Winners.

According to a dispatch from New York John F. Madden and his partner, Thomas H. Hitchcock, cleaned up \$21,000 in purses Saturday, not to mention what they and their friends won in bets on Mellick and Salvatore.

Mellick won the great eastern handicap after being backed from 3 to 1 to 8 to 1, at post time, while Salvatore won the stretch race was reelected when the judges' decision was set aside.

Salvatore won like the good 3-year-old Madden has claimed him to be. He was under a strong pull by E. Duncan until the stretch race was reelected when the judges' decision was set aside.

Betts, the public favorite, led all the way, but failed to stop at the critical stretch race, which was won at the end, by Mellick, only to get second money.

## RACEGOERS WONDERING

Racegoers are wondering at the great change which has come over horse owner John F. Madden. Saturday he has been second, very new winners to the post; these days, but he seems to be able to pick the winning horses in other races.

A 3-year-old colt, Salvatore, found in a handicap on a race day surrounded by a large crowd, all anxious to be told who the winner of late however, none of the big punks, even the wags, who patricians of the euthanasia seem to pay much attention to him. After the running of the omnium handicap at the Bay Saturday, the report was current that Madden had backed Salvatore, the winner, alone in the ring, but also with the commissioners of the division. This struck a great many as rather strange, for he transients, who were placed in the same stable, owned by F. G. Hitchcock, one of the stewards to take such a fancy to him. Why, Madden is the man who has won the money is what puzzled the reporters. It has been common talk for the past few weeks that it is about to hand over to Hitchcock's horses to some other owner.

According to some \$3000 to the season, Hugh Grant Browne, owner of the Brownlie Park stable, is selling his horses at the Bay track, and those of John M. A. P. the big brown Outlander, who came here with a grand national reputation, and usually falls for most of the meetings, is every prospect that Running Water will be good for many races yet this season, and there no reason why she should not race again next year. She is always last to fail meetings and has a number of engagements in stakes and handicaps at the meetings yet to come. Her first race is at the Oriental Handicap at Gravesend tomorrow. For this race she worked at Sheepshed track between races on Friday one mile and a furlong.

## RUNNING WATER SOLD.

Running Water, the good handicap filly of the past two seasons has been sold to a consortium interest of \$3000. At the recent sale of the northeastern stable she was held by its interests, but Mr. Turney has since purchased the horse and is now the owner.

It is a very prospect that Running Water will be good for many races yet this season, and there no reason why she should not race again next year. She is always last to fail meetings and has a number of engagements in stakes and handicaps at the meetings yet to come. Her first race is at the Oriental Handicap at Gravesend tomorrow. For this race she worked at Sheepshed track between races on Friday one mile and a furlong.

## STIEFEL IS CHOSEN.

Colored Bike Rider Has Enough of Racing Game.

"Major" Taylor, the famous American colored crack, has returned to Worcester, Mass., with his family, after what may be considered a not very successful season in France. Last summer he did not have the \$2500 stake, but Miller, after all nothing but a sprint rider, is a miserable judge of pace and not always wise in the handling of his sprinter.

Mr. Keen, quieting his nerves, told a friend that the ride yesterday on Miller was the worst he had seen this year.

## HARNESS RECORDS.

Good Average Time Has Been Made by Various Classes.

While the year to date has been unmarked by any really sensational miles in harness, good average time has been
