PRICES ARE GOING **STEADILY UPWARD**

Much Improvement Shown in the Mining Market Today - Very Good Business Done and Confidence Shown.

abolish all "futures" on the mining exchange has been postponed until the lend of the month. After the members of the board having expressed themselves at yesterday morning's session as being in favor of the abolition of "futures" the matter was referred to the president and the governing board, who decided to delay action until the time stated. There is some difference of opinion among the members of the governing board as to the advisability of preventing opportunity to "short" stocks, and inasmuch as the vote of the exchange itself was by no means overwhelming in favor of doing away with "future" dealings, it is not altogether certain that the governing board may post such a rule. It is contended by many brokers that legitimate "shorting" of stocks is absolutely necessary to trading and to prevent undue inflation of securities. A one-sided market is not a desirable one, as was demon-strated in the recent long-continued bear predominance, and an exclusive sway of the bull element would prove just as disastrous in the other direction Both factions are necessary to fair bus-iness dealing, and the operations of both include ventures upon future con-ditions of stocks and the properties

which they represent. THE TRADING.

There was improvement in the prices realized for securities this morning and the amount of business done shows up well for confidence in the exchange and

the industry with which and for which it principally deals. In point of number of shares sold Carisa was the drum major of the procession and went out on the market with a bunch of 7,200 shares of stock at gains over yesterday's figures, the lowest price paid today being 95 cents as against 95 cents on yesterday, and highest figure realized this morn-being \$1.01% against a single hundred-share sale of yesterday at \$1.00 straight, with the next highest figure at 9816 cents.

West brought between \$33.50 and \$34.10 per share today, and in the closing figures of the morning call showed a gain of 90 cents in the bla and 20 cents in the demand.

Uncle Sam came out with 7,100 shares at 86 cents to 90 cents apiece. closing 314 cents higher in the asked

California was also a trader and at better prices than those of yesterday, 8 cents higher being offered and 8% cents more being posted as the price that holders wanted. At figures ranging from 75 to 78% cents each, 4,200 shares were disposed of on the morn-ing call, with indications that a fu-

SACRAMENTO FIRE.

Mill and Roasting Plant Badly Damaged by Flames.

Fire yesterday afternoon partially destroyed the mill and roasting plant of the Sacramento mine at Mercur. The structure is of lumber and the absence of adequate fire-fighting apparatus gave the flames ready headway. There is insurance of \$15,000 on the plant, which is estimated to have been damaged to a greater amount than this, although it is hoped that the inthe damage. It is the stated intention of the company to begin at once the reconstruction of the mill.

UTAH COKE.

Sunnyside Reports the Production of Improved Article,

Reports from the big coal mine at Sunnyside are to the effect that as a result of the installation of a new crushing plant at the coke ovens a quality of coke is being turned out that will supply the needs of Utah smelters and iron furnaces. With the prospect in view of having the enor-mous iron beds of Utah developed by the establishment of great iron works, the news from Sunnyside is certainly good. The great fault heretofore found with Utah coke has been that it was incapable of sustaining heavy weights in furnaces, but the process of coke making now in use at Sunnyside results in a removal of that objection.

DERN IN IDAHO.

Reported to be Interesting Himself In Mining There.

In its issue of Wednesday, November 20, the Bolse, Idaho, Capital-News says this of Mr. John Dern, who has just returned from Idaho: "John Dern, one of the most prominent miring men of Utah, arrived in the city this morn-ing and registered with his party at the Overland. Mr. Dern is one of the owners of the famous Mercur property. His mining expert, Mr. C. T. Mixer, left

Baker City Herald: Arthur Buckbee manager of the Virtue Consolidated vesterday filed for record the deed o he Virtue mine property, dated July 6, 1898, from George W. Grayson and wife to O. G. Larabee. The considera-tion is \$30,000. A second deed from Larabee to the company was also filed, transferring the Mogui claim for a conideration of \$5,000.

A private report sent out from Cole rado Springs by the Portland Gold Min-ing company says that the property now has \$37,000,000 worth of ore in its reserve. This information is said to be authentic. On October 1, 1900, at the ime an English syndicate was negotiating for the purchase of the property the mine was examined by Fied W Bradley, the wellknown English mining expert, who reported that the ore re-serve at that time amounted to \$25, 000,000. The report just issued from the Portland company shows the ore reserve to have increased since Mr. Bradley made his report at the rate of \$1,000,000 per month.

Los Angeles Express: Petroleum pro-fuction of the great Kern field is well within the grasp of the Standard Oil company. During the past few days indications of this nature have been reating much comment in oil circles lthough the matter has been guarded rom the public ear. It is stated that the great Producer's combine is an organization working in the interests of he Standard and that the many time contracts secured in the Kern field are locked in the Standard safe at San Francisco. Financiers are puzzled to observe the great oil corporation spendng heavy sums in erecting great storage tanks and plant near the Kerr deld after it was known that the Prod-ucers' combine had secured a large por-tion of the wells and production there. When the inside facts become known there will be little cause for wonder,

E. C. Coffin & Son, Stock Brokers,

say the wise ones.

"We can't supply the present demand for flour because of the scarcity of wheat. However, within a very few days Oregon wheat while on the Salt Adaya Oregon wheat will be on the Salt Lake market at about 70c. Some Kan-sas flour has been shipped into Salt Lake recently but it was consigned to one party only and has not reached the market. Utah flour could reach a price twenty cents bigher on each of MONEY AND BONDS.

Money on call nominal at 415 per cent. Prime mercantilé paper 4½@5 per

price twenty cents higher on each of the grades before eastern flour could be marketed here in quantities at a profit. for Neal this afternoon with George W. Brederhoft and Hugo Bayhouse. If his report on the camp is satisfactory Mr Dern will invest heavily. Mr. Detn passed the afternoon in driving about the city and states that he is most favorably impressed with Bolse. He was unable to remain longer, leaving for Salt Lake this evening with Mr. C.

E. Hudson. He will be guided entirely by the report of his expert, Mr. C. T. Mixer, in regard to investments in the mines of this section. He states that he is satisfied Idaho is on the eve of an unprecedented era of prosperity in the mining business."

Mining business." On Thursday, November 21, the Statesman has this to say of Mr. Dern and his movements in Idaho: "John Dern, C. E. Hudson and C. T. Mixer, of Salt Lake; E. E. Stewart, of St. Louis and Halley, and J. N. Esseltyne, of Baker City, Ore., arrived in this city yesterday afternoon from Baker City where they had been looking over min-

ing property in which they are jointly interested. L. L. Ormsby, of this city, is a co-owner with them in the property in question. Mr. Dern is a millionaire, having made his money in Utah mines within the last ten years. Originally he was interested in the elevator business in Nebraska and invested in the Mercur mine in Utah in the early 90's and had the nerve to invest in it the sum of \$110,000 of his own and his friends' money before it ever paid a dollar in return. Next to Captain De-Lamar he is now the largest owner in the property named. Mr. Dern and party visited Bose at the solicitation of Al. Morris, the former Salt Lake broker, now a resident of this city. As a result of the visit, Mr. Mixer, who is the confidential expert and adviser of Mr. Dern in his mining ventures, of Mr. Dern in his mining ventures, left yesterday, afternoon in company with George W. Brederhoft in a visit to the Neal district. This morning Messrs. A. Katz, W. F. Smith, Al. Morris and George Bayhouse will join them. Upon Mr. Mixer's report will depend whether Mr. Dern and associ-tion will broast in Noal papareties and ates will invest in Neal properties and those acquainted with the district have no hesitancy in saying that the report cannot be other than favorable.

Utah County Locations.

BUSINESS NOTES.

The price of cane and beet sugar was reduced 10 cents per hundred pounds in Utah and other points west yesterday. Representatives of both cane and beet sugar interests agree that the fall is due only to the general weakness in the sugar situation. One feature of the Louis second preferred, Colorado Southern first preferred and Chicago change in quotations is that the differ-ence in the price between beet and caue Great Western preferred "B." Gen-eral Electric rose 314. There was a more general disposition to take profits sugar now is only 10 cents per hundred bounds where it has been 20 cents hitherto. . . .

York Central were rising rapidly and pulling up the market again. New York Central reached 168%, its best Manager T. R. Cutler, of the Utah Sugar company, has returned from a flying visit to San Francisco. He reports the sugar situation on the coast price as dull. . . .

The Anderson Real Estate Invest-ment company has just purchased from leaders. This realizing was most pro-nounced in the stocks of local munici-Charles Pickney the 10x10 rod lot on the corner of First and O streets for pal corporations, but they became strong again afterward when Manbat-\$5,500. It is the intention of the purtan rose to 137%. Heavy buying of the soft cosl road stocks was a feature under which Baltimore & Ohio ad-vanced 1%. Norfolk & Western 1%, Chesapeake & Ohio 1% and Hocking Valley a point chasers to divide the property into smaller lots and to erect several handsome modern dwelling houses thereon. Much confidence in the present and future of Salt Lake realty is displayed Vailey a point. Material gains were also made by Ilby Anderson Brothers who have purchased large blocks of real estate in several sections of the city and have inols Central, Lake Erie & Western, Tennessee Coal, New Jersey Central and North American. The last named mproved them by the erection of fine modern homes. Several business men say that such confidence is of much gained 3½ and Amalgamated Copper rose 1% from the last quotation. Prices were fractionally lower again

value in the upbuilding of Salt Lake, as property owners are encouraged thereby to improve their holdings. at noon. Bonds[®]were firm. . . . The Telluride power company has completed its Logan extension line south to North Salt Lake, while the Provo extension north has reached Singham. The ends will be connected up by January 1.

The trustees named by the late Pat-rick Phelan to mange his estate in the nterests of St. Ann's orphanage, which it was generously bequeathed, will meet at two o'clock tomorrow afernoon to consider what action to immediately take as to the disposition of the property. Bishop Scanlan, Judge W. C. Hall and Stephen Hayes are the directors named by Mr. Phelan. Bish-op Scanlan when interviewed today stated that he was not prepared to say what action would be taken by the trustees. It is necessary that an incorporation be formed to manage the fund and it is probable that this will be done immediately. As to the dis-position of the estate, it is stated that is bringing in such good returns that here will be few changes made for

ome time to come.

"The real estate market is dull-awfully dull," said a big dealer in real state today. "The cause of it," he coninued," is that people are speculating a mining stocks with the expectation that in a few days, or weeks or months, that they will be able to purchase homes outright with only part of the proceeds. Instead of that they are finding that speculation is a losing zame. One man, young and married about a year ago, cume to me yester-day-he was here some three months ago, and wanted to purchase a \$2,800 home on the installment plan. He had he amount of the first payment and was to have closed the transaction the Total, 4,800 shares.
