MORE ABOUT BUTTERS.

Good Words for the Angora Goat as Utah Product.

An article was published in the Deseret Evening News of Tuesday in reference to the breeding of Angora goats in America. In the course of the item the fact was mentioned that a breeder in New Mexico owned a flock of this variety of goats, numbering 10,000 head. William M. Landrum is the name of the proprietor of this great aggregation of goat stock, and he was the first to introduce this variety of the hircine kind into this country. Under the firm name of Landrum & Sons, he conducts three Angora goat ranches, one in Texas, one in New Mexico, and one in Oregon. Mr. Landrum imported the first two billion of the breed from Asia under fifty years ago, at a cost of \$2,800. This pair were led all the way across the continent with a mule train to California, where they were crossed with the common Mexican goat. Since then Mr. Landrum has made many importations and has produced every variety of the breed. His latest importation was from South Africa. This consisted of five prize "billies," which ranged in price from \$500 to \$800 apiece. Landrum & Sons keep their registered stud flocks separate from their grades, and the goats invariably win the blue ribbon at all State fairs in which they are entered. In the last Oregon State fair this firm captured 16 out of 18 prizes offered for their kind of stock.

The hair of the Angora goat is known as mohair, which is the staple used in the manufacture of the plushes, of the best quality. It is also mixed with silk and other choice material in ladies' dress goods and other fine fabrics. The raw material is at present worth from 40 to 50 cents a pound. A good flock of Angoras will average from 8 to 9 pounds of fleece per head each year. The meat of these goats, besides being extremely palatable and savory, is considered the finest in texture of any domestic animal, and therefore excellently adapted for the dining table. The skins are used for the decoration of ladies' garments and fancy rugs; and the leather is converted into gloves and footwear of the highest grade.

Utah, from its natural conditions and climate, is perfectly adapted as a location for the Angora goat industry. R. L. Landrum, the well known ballet master of Salt Lake City, is the son of W. M. Landrum, the original importer and the leading breeder of the Angora goat in America. R. L.

SMALLPOX CASES.

Dr. Beatty, secretary of the State board of health, went to Kaysville yesterday and found twenty cases of smallpox under quarantine. Some of the people there hitherto have been very careless, but they are now more cautious. Health Officer Jones of Murray reports thirty-three new cases of smallpox in his district.

SUPPRESSION OF TACAL REBELS.

Operations Against Them Will be Energetic.

CAMPAIGN PLAN PREPARED.

It Involves Extensive Naval Cooperation—Details Closely Withheld—MacArthur's Army Large.

New York, Nov. 9.—According to a special dispatch from Washington to the Tribune, the operations to crush the Tagal rebellion which are about to be begun and prosecuted with extreme energy, are to be of a thoroughly comprehensive character, the plan of campaign having been prepared by Gen. MacArthur last month after a council of officers. The plan has received the unqualified approval of the war department, without material modification. It involves extensive naval cooperation on the station, as well as the numerous gunboats purchased from the Spaniards, which are to be distributed in flotillas, each with a larger flagship, Admiral Remy, in the flagship Brooklyn, has just returned from China to Manila to resume personal charge of the operations afloat, which Admiral Kampff, in the Newark, already at Cavite, has been mapping out, in conjunction with Gen. MacArthur for several weeks.

The details of the campaign are closely withheld at the war department, because everything published in this country is sent by cable to the various Philippine juntas, especially to that at Hongkong, and in some mysterious manner Aguinaldo is placed in possession of the information. Time to make counter moves for his own security. But the departure for Manila yesterday of two animal transports, each with several hundred cavalry horses and pack mules, for Vigan, in northern Luzon, and for the southern islands, indicates that the period of garrisons remaining on the defensive is about to give way to rapid offensive movements in the strongholds of the enemy.

Coupled with the announcement of the beginning of a rebellion-crushing campaign, the preliminary orders issued some time ago for bringing home the volunteers have been rescinded for the present. It was intended to start the first of these men home about December 1st, in order that they could all be discharged in compliance with existing law before June 30, 1901. It was estimated that the 32,000 volunteers now in the Philippines could not be returned upon the regular army transports and chartered vessels in less than five months. It is expected that fully one-half of the volunteers now in the Philippines will be anxious to re-enlist and remain in the islands. In that case the transports can easily bring home the remainder in three months. The military forces under Gen. MacArthur, including the troops coming back from China this week, aggregates 71,000 officers and men, in addition to 3,000 marines and five thousand naval officers and enlisted men. The total strength ashore and afloat exceeds that of last winter by nearly 12,000 men.

Col. B. W. Blanchard Dead.

Washington, Nov. 9.—Col. Benjamin West Blanchard, once one of the most widely known railroad men in the country, is dead at his residence here. Colonel Blanchard was for many years general traffic manager of the Erie railroad, with quarters in New York City. He was 74 years old. Interment will be at Cambridge, Mass.

Figaro on the Elections.

Paris, Nov. 9.—The Figaro, referring to the results of the elections in the United States, considers the question whether administrative changes will be made at Washington in the same proportion as they were in 1896, and expresses an affirmative opinion.

The paper says it will regret if Secretary Hay, who is a friend of France, resigns owing to ill health, and if General Porter, United States ambassador to France, who has maintained good relations between the two countries during the last four years, is induced to accept a portfolio, necessitating his leaving for the United States.

Five Other Presidential Candidates.

Chicago, Nov. 9.—Besides McKinley and Bryan, who are the other men in the field with aspirations to the office of President of the United States, in Chicago alone, Eugene V. Debs, as head of the Social Democratic ticket, led the other minor candidates by a total vote of 5,822. John G. Woolley, the prohibition candidate, followed second, with a vote of 3,335, while the Socialist Labor party, with Joseph F. Maloney, received 295. Wharton Barker for the People's party, 139, and Seth H. Ellis of the "Union Reform for Direct Legislation" party, found 90 scattering votes.

At the national prohibition headquarters it was estimated last night that the total vote in the nation would exceed 400,000. This estimate was based upon the receipt of about 400 telegrams received from 28 States. This is more than three times the vote cast for Levering in 1896.

John G. Woolley anticipates a vote approximating 500,000, basing his claim upon the country precincts, which are yet to report. Indiana, Ohio, Michigan, New York and Pennsylvania, are thought to have polled a vote fully four times as large as in 1896. Illinois is estimated at nearly three times the vote of 1896, or 27,000.

Japan's Battleship Mikasa.

London, Nov. 8.—The Japanese battleship Mikasa, said to be the most formidable vessel of its kind in the world, was launched today at the Vickers-Maxim works, at Barrow.

The Mikasa is of 15,200 tons displacement. She is 270 feet long, 76 feet wide, and 27 feet 3 inches deep. She has two propellers and has an indicated horse power of 15,000. She has an armor belt of 12 to 14 inches, and the armor on her gun positions is 14 to 16 inches thick, while the deck plating is 2 inches thick. The armament of the Mikasa consists of four 12-inch guns, fourteen 6-inch quick firing guns, twenty 12-pounders, eight 3-pounders and four 2-pounders. She has four submerged torpedo tubes. The battleship has a speed, estimated, of 18 knots, and her normal coal supply is 1,400 tons. She carries a crew of 720 men.

Two Bodies Recovered.

New York, Nov. 9.—Two bodies were found today by workmen engaged in excavating the Tarrant & Company fire and explosion ruins. One was identified as that of Hamilton Matthews, driver employed by Tarrant & Company. The other is believed to be that of Tarrant & Company's missing shipping clerk, Benjamin Moorhouse. It is said that Moorhouse was the only person that

knew just what chemicals were stored in the building at the time of the explosion.

Cherokee Auditor's Office.

Tablagaiah, I. T. S.—A special committee composed of C. V. Rogers and W. O. Brutton and Special Agent Severely, today filed a report of their investigation of the alleged irregularities in the Cherokee auditor's office. The report shows, it is said that \$194,000 in fraudulent national warrants have been issued and are adrift.

Rodenberg Probably Defeated.

St. Louis, Nov. 8.—W. A. Rodenberg, Republican, who was at first reported elected to Congress in the Twenty-first Illinois district, is, according to the latest returns, defeated by his Democratic opponent, Fred Kern, by a majority of 287.

Stone on Democratic Reorganization.

New York, Nov. 8.—Gov. Wm. J. Stone said of the proposed reorganization of the Democratic party: "This kind of talk almost follows the defeat of any party. Had the Republicans been defeated they would be talking of reorganization today. Those who have the most to say about reorganization are generally the ones who contributed most to the defeat of their party."

Quiet at Washington, Pa.

Washington, Pa., Nov. 8.—After a night of excitement over a threatened conflict between negroes and whites, quiet prevails this morning. Through the prompt action of the town authorities, aided by members of company H, Tenth Pennsylvania volunteers, a race riot was avoided. The trouble started on Tuesday night over the election and the fighting was kept up yesterday. There were numerous encounters between negroes and whites and several persons were seriously injured. A large number of extra policemen were sworn in and these with squads of the Tenth regiment patrolled the streets until daylight. A dozen arrests were made and warrants are out for many more. The outbreak, it is said, was instigated by a negro recently brought from the South by contracting firms.

THEY WOULD LIKE TO KNOW.

Emma Lancashire Batty, of Calfax, Jasper county, Iowa, had some relatives by the name of Crabtree leave England some years ago for Salt Lake City. If there are any such living in the west, she would be very pleased to hear from them.

Mrs. C. F. Smith, formerly Miss Greene, of Stirling, Illinois, would like to learn the whereabouts of Frank W. and Stella Whitney, who left Harmon, Ill., some eight years ago, and are supposed to be now living in Salt Lake City. It would be to the interest of Mrs. Whitney to write to the home address of A. L. Harris, 5744 Carpenter street, Chicago, Ill.

Henry Malingren, of 1506 Chartres street, Houston, Texas, is looking for the heirs of Joseph Elbery who lived in Shelby county, Texas, in 1840, also for the heirs of John F. Weller, who lived in Houston county, Texas, in 1844.

A Great Medicine.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy and find it to be a great medicine," says Mr. E. S. Phipps, of Poteau, Ark. "It cured me of bloody flux. I cannot speak too highly of it." This remedy always wins the good opinion, if not praise, of those who use it. The quick cures which it effects even in the most severe cases make it a favorite everywhere.

If you have ever seen a child in the agony of croup you can realize how grateful mothers are for One Minute Cough Cure which gives relief as soon as it is administered. It quickly cures coughs, colds and all throat and lung trouble. F. C. Schramm.

There is probably no disease more distressing and annoying than piles. TAB-LETT'S BUCKEYE PILE OINTMENT is daily curing cases of years' standing of itching and bleeding piles. The cure begins on the first application, a little perseverance makes the cure complete. Price, 50 cents in bottles. Tubes, 75 cents. Z. C. M. I. Drug Dept.

PORTFOLIOS OF THE PARIS EXPOSITION.

They consist of 120 elaborate views on heavy enameled paper, in 20 parts. The Paris Exposition beautifully portrayed. Price only 10 cents each part to News readers. A book that sold for 75 cents and \$1.00 at the time of the World's Fair. Parts 1 to 20 ready at the News Office. Send 10 cents for a sample. You will be charmed with the work.

DeWitt's Little Early Risers are the best liver pills ever made. Easy to take and never gripe. F. C. Schramm.

BISHOPS.

Blanks for the use of block teachers, in making yearly statistical reports, can be procured at this office, 25 cents per dozen.

Many people worry because they believe they have heart disease. The chances are that their hearts are all right but their stomachs are unable to digest food. Kodol Dyspepsia Cure digests what you eat and prevents the formation of gas which makes the stomach press against the heart. It will cure every form of indigestion. F. C. Schramm.

ENTHUSIASTIC CONVERTS.

There are Thousands of Them Who Believe as This Woman Does.

Mrs. Ira Knowlton of Butte, Montana, is a most enthusiastic convert to the virtues of Stuart's Dyspepsia Tablets as a cure for obstinate stomach trouble. She says: "I had poor digestion nearly all my life. It now seems to me that for years I never knew what it was to be hungry, to have a good natural appetite."

I was troubled with gas in stomach causing pressure on the heart with palpitation and short breath. Nearly everything I ate soured on my stomach, sometimes I had cramps in the stomach which almost resembled spasms. Doctors told me I had catarrh of the stomach, but their medicines would not reach it and I would still be a sufferer. I had not, in sheer desperation, decided to try Stuart's Dyspepsia Tablets.

I knew they were an advertised remedy and I didn't believe anything I read about them as I had no confidence in advertised remedies, but my sister living in Pittsburgh wrote me last spring telling me how Stuart's Tablets had cured her and her little daughters of indigestion and loss of flesh and appetite and I hesitated no longer.

I bought a fifty-cent box at my drug store and took two of the large tablets after each meal and found them delightful to take being as pleasant to the taste as caramel candy. Whenever during the day or night I felt any pain or uneasiness in the stomach or any other ailment which every day stomach lacks and they cure stomach troubles because they digest the food eaten and give the weak, abused overworked stomach a chance to rest and recuperate.

Stuart's Dyspepsia Tablets are sold in every drug store in the United States, Canada and Great Britain.

When you want prompt acting little pills that never gripe use DeWitt's Little Early Risers. F. C. Schramm.

For a Cold in the Head.

Laxative Bromo-Quinine Tablets.

You can't afford to risk your life by allowing a cough or a cold to develop into pneumonia or consumption. One Minute Cough Cure will cure throat and lung troubles quicker than any other remedy known. Many doctors use it as a specific for grippe. It is an infallible remedy for croup. Children like it and mothers endorse it. F. C. Schramm.
