VIGILIOUS ASSAULT ON GEORGE DRIVER

Conductor on O. & S. L. Train Maimed by Engineer Wm. Delano.

NORTH WEBER CONFERENCE.

City Council Tonight—Thomas Investigation Probably Concluded Tuesday—Emercy Souls Injured.

OGDEN, June 28.—Disfigured for life is the probable outcome of injuries inflicted upon George Driver, a conductor on a Salt Lake & Ogden train late Saturday evening, by William Delano, engineer of the train, and who is now held at the Ogden Jail awaiting the outcome of the injuries he victimized by the conductor.

When the 9:30 passenger train on the Bamberg road arrived in Ogden Saturday evening, the patrol wagon was called for with officers. Upon arriving at the depot Delano was placed under arrest and Driver was taken to Dr. Conroy's office and later to the hospital. From the information received from the railroad men it is stated that Delano, a new engineer to the road, was running the train too fast south of Kayville. When the train arrived at that station Driver went to the engine cab and told Delano that he was too fast for the condition of the track. Delano immediately went over the conductor with a steel fish plate, striking Driver over the head with it several times. Soon as possible other men rushed to the aid of the unfortunate man and he was brought to Ogden as was Delano. It is probable that a charge of assault with a deadly weapon or with intent to commit murder will be preferred against Delano.

NORTH WEBER CONFERENCE.
 Ogden, June 28.—The quarterly conference of the North Weber state was held at the tabernacle yesterday morning and afternoon, the principal speakers being President Joseph F. Smith and Bishop Charles W. Nibley. Other speakers were members of the presidency of the state, and the work for the ensuing quarter in all departments was outlined. In the evening the Mutual Improvement Association of the state held a joint meeting.

MINE MEN CONFER.
 OGDEN, June 28.—A meeting will be held in Ogden this afternoon and evening between the delegates to the United Mine Workers convention, which is now being held in Ogden and operators representing all the Union Pacific mines in Wyoming as well as all of the prin-

vats mines in that state. The meeting is for the purpose of adopting a new wage schedule and a new agreement.

CITY COUNCIL TONIGHT.
 OGDEN, June 28.—It is very probable that the session of the city council this evening will be greatly enlightened by the action upon the new liquor ordinance which was submitted about two weeks ago and passed its first and second readings and was referred to the law committee, which will submit a report upon the same tonight.

From what could be learned from an outside source it is very probable that the liquor interests of the city will have a representative at the session of the council to offer objection to certain phases of the ordinance, which is very similar to that passed by the Salt Lake City council several weeks ago.

Another report that will probably be made this evening is that of the finance committee, on the application of the finance committee of the G. A. R. for an encampment committee for an appropriation of \$1,500. While it is known that the prominent citizens are using every effort to furnish the best kind of entertainment possible for the old soldiers who attend the encampment, the matter of making appropriations has not been well received in official circles.

THOMAS INVESTIGATION.
 OGDEN, June 28.—The investigation into the qualifications of H. H. Thomas as superintendent of the State Industrial school, will be resumed before the investigating committee tomorrow morning at 9:30 o'clock. Unless the citizens' committee has two witnesses to put on the stand the testimony will be closed and the argument by the attorneys for both sides will be made.

The closing of the investigation is looked forward to with interest by the public on account of the strong amount of feeling that has been aroused in the matter and the prospect of additional excitement among the attorneys, chairman and reading clerk. The report of the investigation committee will be made direct to Gov. Spry, probably on Wednesday.

It is the intention of the purchasers to reclaim their Antelope valley land of about 5,000 acres by bringing into use the Gunnison and Antelope Valley canal, upon which the Gunnison people expended about \$10,000 some years ago and then abandoned it. SAM KEARNS OF AMERICAN FORK SERIOUSLY HURT.
 AMERICAN FORK, Utah Co., June 23.—Samuel Kearns of this city was found in a frightfully battered and unconscious condition beside the Salt Lake trout tracks yesterday morning. The Saturday Provo train from Salt Lake had struck him, and knocked him off the track a distance of 20 feet. Numerous bones were broken and his skull was split open from the base of the brain, over the top, clear to the eyes. How the injured man's body preserved his life the physicians are at a quandary to explain. Dr. H. E. Robinson, who is in attendance, stated that in his opinion Kearns could not live long. The man regained con-

sciousness for a few moments during the day, but was unable to give any details concerning the cause of his injuries. His mind soon became a blank, and he lapsed into a comatose state. Kearns was taken to the city jail, there being no hospital here. He is well known in this city, and has a wife and several children.
