EVENING NEWS.

July 18, 1884. Friday.

FRAGMENTS.

THE Utah Central will issue its new time table, No. 13, next Sunday.

THE High Council will meet in the Social Hail at 7 o'clock this evening.

SEVERAL companies of the 14th Infantry are expected at the Fort in a few days.

BETS, all the way from a hat to a hundred dollars and over, are up on the coming Presidential election.

At the risk of being denounced as treasonable and intoierant, the NEWS deprecates the Sunday excursions now coming in vogue. cepted.

Ir anyone lives who is in any way dubious about the kicking capabilities of a mule, he should have seen the antics of one of the genus on one of the city street cars yesterday.

THE friends of Mr. and Mrs. Urban Picknell nee Miss Sarah Irvine can come along with their congratulations. President D. H. Wells yesterday pronounced the ceremony which made them man and wife.

BTHE only perceptible benefit thus far derived from Arctic explorations, is to make people freeze with horror as they read the long list of death and disaster. Perhaps that is something this warm weather, perhaps not.

Tuk Deserct Hospital was removed yesterday from the Campbell building. in the Twelfth Ward, to the old Union Academy building, for several years and till quite recently used by the Deseret University. The latter will reopen in the new and handsome edifice on the Square, in August.

LOCAL NEWS.

Information Wanted. - Of the whereabouts of Edward Boynton or his heirs, who came to Utah about 1850. Mr. C. W. Boynton vice-president of the L. M. Boynton Saw & File Co., nephew of the above, is in this city and would be pleased to hear from or to meet some of the family. Address Salt Lake City.

Drowned.-B.W. Driggs, Esq., our Pleasant Grove correspondent, writing July 11th, says: A little son of Evande and Sarah White, aged two and a half years, was accidentally drowned in a water ditch near their home at Picasant Grove yesterday morning. The little one was in the act of following its mother and some of its brotners and sisters across a sect and fell into the stream unnoticed. by any one. The body was rescued some distance below, lodged against a headgate. The sorrowing household have the universal sympathy of their neigh-Improving the Place .- For the last ten days or so the labor of renovating, decorating, painting, and remodelling the interior of the Fourteenth Ward Meeting-House has been in progress, under the direction of the Ward Bishopric. The main hall has been repainted and the ceiling handsomely ornament-ed by W. C. Morris, while James & Co have been putting in a heating apparatus in the basement. The school trustees are also fitting up two rooms in the basement for school purposes; which is the first instance of that part of the building being used for anything more than a place to stow away furniture and other appurtenances.

THE BUSY WORMS. and will cover them with little worms which of course can be removed, as soon as they have IR. L. D. YOUNG AND A "NEWS" RE-PORTER CALL ON THEM AT HOME. 29 stripped, one tree to a fresh one. HERR HIRSCHVOGEL'S SUCCESS AS A SERICULTURIST. ering of mosquito bar, but even that

That Spring .- The spring on the lot formerly belonging to Father Nes-len, in the 18th Ward, which has been, with others in that vicinity, a source of trouble at various times in past years, has taken fresh impetus from the season's plentitude of the aqueous element, and is now running to waste over the sidewalk and down the road, making things mushy and disagreeable in general. A good flume, which could be constructed at little expense, would

the water sect there, convert a growing nuisance into a small-sized blessing at least. Don't the city watermaster think so, too?

Disastrous Fire .- H. W. Nalsbitt, the idea of trying the business, with a Esq. received a letter this morning view to making some use of the colony from his daughter at Hooper, Weber of mulberry trees which the farm sup-founty, which contains the particu- ports, and he procured the necessary lars of a disaster which occurred there eggs from Philadelphia (five ounces) resterday morning. The family were with which business was commenced awakened about three o'clock in the morning by shouts of fire, and beheld with dismay that the stables and corrais were all in a blaze. Nothing could be done to save them. and the whole of the outbuildings, containing three sets of harness, a threshing machine, plows and agricultural mach- that date until the first worms began inery generally, besides this season's crop of hay, were totally destroyed. The loss will amount to between \$1,500 and \$2,000. The folks in Hooper | 000 worms, only a little over half of balleve the fire to have been an incendiary's work, in which opinion, however, Mr. Nulshitt does not join, he preferring to think it accidental. Much sympathy is expressed for the unfortunate loser by this calamity.

good natured family having taken up their abode in the tent which was pitched hard by. The incessant crackling and clicking accompanying the working of the worms and the drying

about two thousand crawlers. The supplying of these with leaves keeps the family pretty busy, for Frau Hirschvogel says they require fresh provender seven or eight times a day, their appetites being most voracious.

The proprietor of the place, an industrious shrewdlooking little German who works during the day in a city obviate the trouble and by conveying office, and amuses himself in his overthe water across the street to the time with watching and waiting for the Stringham corner and emptying it into expected addition to his income which the worms are to bring, reached home dusty and warm, but in an excellent temper, shortly after our arrival. In answer to the reporter's questions, he stated that Mr. Schettler suggested

These cost \$4 a ounce and are evi-dently a French variety, though the only label on the box in which they came reads,"Var. Yellow." With some of these he commenced on Decoration Day, and on the 4th of June noticed the tiny worms hatching out. From spinning their cocoons, a period of thirty-six days elapsed. The five ounces ot eggs are calculated to produce 200,which, however, are working at present, the accommodations being insufficient for the whole number at once. "The worms are hearty feeders, and eat continuously up to the time they reach the last stage," said Herr H.,

"and it keeps my family busy-I have only eight children-in supplying them. and their daring methods and success in cluding capture are wonderful. It is hoped, however, that they may be "dropped on," and that guickly. Nervous people are beginning to get quite excited.

Marshal's Sale .- The drug store of Jacob S. Stewart, which we stated last evening was being sold to satisfy the demands of a judgment obtained of the leaves proceeded from some 60 frames, on each of which were located was purchased by Walter C. Lyne for against the proprietor by William \$3,300. The amount of the judgment was \$2,450, but the margin realized by the sale will all or mostly he swallow-

ed up in costs taxes and other minor judgments against the property.

Back From His Native Land .-To-day we had a call from Brother William Griffin, of the Tenth Ward who iately returned from a visit to England, his native country. The object of his going to the land of his nativity was to visit relatives and sequeintances in various parts whom he had not seen for nearly thirty years, and to gather up genealogical information in relation to the Griffins. He had a very pleasant time, being received with much cordiality wherever he went. He did not fail, when opportunity pre-

sented, to bear testimony concerning the restoration of the fulness of the Gospel, through Joseph Smith, and created quite an interest on the subject in the minds of some people with whom he conversed. He was successful in obtaining a large amount of data in relation to his progenitors, for whom he will be in a position to perform some sacred vicarious work.
