LYON'S KATHAIRON.

Lyon's Kathairon is an invigorating tonic vegetable preparation, positively free from any mineral or deleterious substances. It is the most delightful of all hair dressing —cooling the head, allaying irritation, curing headache and throbbing temples, making the hair strong, fragrant, glossy and obedient to control, so cleanly to use that it will not soil the finest fabric, causing the hair to grow luxuriantly and beautifully, removing dandruff and pimples. No man or woman can become bald who will use the Lyon's Kathairon properly.

RED CANYON COAL.— Still the old reliable $6.75 per ton at the yard, $7.50 delivered. NO EXTRA CHARGE FOR DELIVERY in difficult places. Full weight and quality of coal guaranteed. A fast-going and true friend for the rich and poor. Try it one and all. Orders always meet with promptness and care. ROBERT SMITH,
Office, 65 Main Street. Agent.

WARRANTEE DEEDS —most approved form, Quit Claim Deeds Mining Deeds, Townsite Deeds, Leases, Official Bonds, Incorporation Bonds, and other Blanks.

HAGAN'S MAGNOLIA BALM

is an unfailing prescription for a faultless complexion. Sallowness, roughness, sunburn, moth patches, freckles, discoloration, dark spots, unwholesome paleness, tan, pimples, eruptions, redness and every other kind of blemish disappear like magic by the use of Hagan's Magnolia Balm. A few applications applied with a soft linen cloth will leave the delicate hues of refined beauty and youthful bloom. Its application cannot be detected, and it is absolutely free from all possible harm, warranted purely a vegetable extract from the flowers of Southern France.
86end —3—

UNITED ORDER RULES.—Having had frequent enquiries for copies of the "Rules that should be observed by Members of the United Order" since the first edition of the same was all sold, we have lately printed an authorized edition on fine fancy colored paper, on a sheet 12½ by 20 inches, suitable for framing or mounting on a stretcher and hanging up in the houses of the Saints. They can be had at this office, or mailed to any address for 10 cents per copy.

—If Americans want to become a race of dyspeptics, they should continue to dine during hours of business, says a sharp Frenchman.

EVENING NEWS.

Thursday, . September 7, 1876.

PRICE OF GOLD.

Corrected daily by Deseret National Bank.
SALT LAKE CITY, September 7, 1876.
Buying at $1.08. *selling at* $1.10.

Local and Other Matters.

THERMOMETER 73 degrees F. in the shade at 1 p.m. to-day. Fine.

Cooler.—If it was not a frost last night hereabouts, it came very near the freezing point. The prospect is that we are going to have some temperate weather at last.

Silk Specimens.—We have seen a number of very fine specimens of ribbons, manufactured at Patterson, New Jersey, by Mr. W. Hulbert, late of that place, but now a resident of this City.

Stealing.—Last night some person took a buffalo robe and other articles from a carriage, belonging to Mr. Phineas H. Young, and also carried away the wheels of the vehicle, which was standing near that gentleman's place in the 2nd Ward.

Infelicity.—This morning a saloon keeper was before Justice Pyper on a charge of beating his wife. The charge was proved and he was fined $50 and bound over to keep the peace, for six months, in $100.

Forest Fires.— During the last few years forest fires have been exceedingly prevalent throughout the country, and the groves of timber that have been destroyed are something immense. Conflagrations of this description, according to telegrams, are raging in some places at the present time. The destruction of the groves is among the calamities enumerated in the Book of Mormon and predicted to fall upon the people of this continent should they fail to obey the fulness of the Gospel, when revealed in the latter times. See page 479 of the Book of Mormon.

News from Beaver—Special Dispatch.—BEAVER, U., 6.—Hon. Sumner Howard, United States prosecuting attorney for the Territory, Wm. Nelson, United States marshal, with Patterson the reporter, arrived here this afternoon in good health.

The grand jury is in session. It is expected that the Dame and Lee trials will commence next Monday.

Mike Powers, a notorious rowdy and saloon keeper, assaulted Deputy United States Marshal Pratt and Sheriff Coombs last evening, drawing a pistol and threatening life, compelling both to leave the saloon. He walked down Main St., shooting off his pistol indiscriminately, but immediately Coombs and Pratt brought him to terms by the influence of two double-barrelled shot guns, lodging him in jail for the night. He had an examination to-day before Mayor Fotheringham. He will be indicted for assault with intent to kill.

Deseret Silk Association. — The Deseret Silk Association met at the Fireman's Hall, Wednesday, Sept. 6th, Mrs. Zina D. Young presiding.

Mrs. Young said we had met to transact important business pertaining to this society and to find out a way to pay for the cocoons as they were brought in.

Mr. P. A. Schettler read a letter he had received from the Atwood Machine Company, Conn., stating the prices of different machinery, as follows—

Winding frame complete, with swifts, 50 spindles	$125
Cleaning, 60 spindles	100
Doubling, 52 spindles	150
Spinning, 114 to 120 spindles	$250 to 400
Stretching,	20 to 100
Reel,	20 to 50
Soft Silk Winder,	24 to 100
Spoolers for table, (2 machines)	100

Mr. P. A. Schettler said he had sent for a reel that would cost $25.

Mr. A. C. Pyper suggested that every one interested in this organization and in the commonwealth of Utah be solicited to donate to the society, and the amount given be left entirely to the individuals donating; also that our merchants, business men, and others be solicited for donations, the object of the donations being purposely to raise means to encourage and remunerate those who had raised the cocoons for their labor; and not only that, but to open another branch of home industry, whereby the aged, the lame and the young could find employment and be recompensed; and it would also be a source of great wealth to Utah.

The question was asked, What price shall we give per pound for cocoons? Mr. A. C. Pyper said he wished to see the raisers of cocoons paid for their labor and stimulated to pursue it, and he would be in favor of continuing to give two dollars per pound for good cocoons.

The following members donated as follows—

Mr. A. C. Pyper $10, Mr. P. A. Schettler $10, Mr. R. Simpson $10, Mr. Wm. Smith $5, Mrs. Zina D. Young $10, Mrs. E. B. Wells $10, Mrs. M. A. White $10 (cocoons), Mrs. A. K. Dunyon $10 (cocoons), Mrs. Ann Morgan $5 (cocoons).

Mr. P. A. Schettler suggested that the presidents of all the Relief Societies throughout the Territory be solicited to act as agents for this Association, to solicit donations from the brethren and sisters in their respective districts; and as Miss Eliza R. Snow is chairman of this committee, please forward all donations to her address, Lion House. It was also suggested that the following gentlemen be appointed to solicit donations in Salt Lake City—Mr. A. C. Pyper, Mr. P. A. Schettler, Mr. A. M. Musser, Mr. R. Simpson; and Mr. Wm. Smith in Bountiful, Davis Co.

These suggestions were adopted by the meeting, which then adjourned till the first Wednesday in October, at 2 o'clock p. m., at this place.

R. SIMPSON, Secretary.

NOTICE.

Mrs. Zina D. Young wishes those who have not been paid for their cocoons to call at her residence and receive payment. R. S.

West Jordan Woolen Mills.—This morning we received a call from Brother B. W. Driggs, of West Jordan, who exhibited to us specimens of jeans, manufactured at West Jordan Woolen Mills, of which we have made previous mention in these columns. The goods being turned out are of excellent quality of their class, and it will be in the aim of the company to make none that will not be likely to give satisfaction.

This prosperous institution, which was inaugurated under the auspices of the United Order of West Jordan Ward, last April, has been turning out goods for the last two months. The mill is a frame structure, the walls lined also with adobies, and two stories high, with ample room for machinery and storage. In addition to the mill the company are erecting three suites of rooms adjacent for residences for the hands employed.

There is quite a quantity of wool on hand, and it still comes in, and the institution is growing in favor with the people. We understand that the company will make nearly all kinds of woolen goods. Mr. James May, of this city, has control of the machinery and manufacturing department. Several heavy sheep owners of the Ward are stockholders, such as John Irving, the Bennions, Harkers, Becksteads, and others.

Bishop A. Gardner has been the instigator and leading support of the enterprise. Brother Driggs is the superintendent of the institution.

Bear Lake Valley.—Bro. David P. Kimball, who has just arrived from a visit to Bear Lake Valley, called this morning. We learn from him that the wheat crop of that valley was killed by frost about a fortnight ago, leaving one-fourth of sufficient to bread the people till another harvest. The remainder that they need they will have to buy elsewhere.

Brother Kimball showed us specimens of apples, Winter and Summer varieties, the former raised by Brother Wilkes, of St. Charles, and the latter by Brother Phineas W. Cook, of Swan Creek, showing what can be done in fruit productions even at that great altitude 6,600 feet above sea level, being 2,400 above this city. The samples are very fair, considering.

The Paris co-operative store, of which Bishop Budge is superintendent, is doing a good business. This institution has a very effective method of putting up and keeping butter fresh for winter use. It is made up in layers of about an inch or more in thickness, in firkins, with a layer of salt between each layer of butter. It is claimed that, by this method, butter can be kept untainted a long time.

The North Temple Street Culvert.—The Supervisor of Streets is pushing the work of repairing the stone culvert that conducts the waters of City Creek down the middle of North Temple Street, quite a number of hands being now employed on the job, which is one of no small proportions. An entire new bottom, from the corner of the depot block to East Temple Street, is being put in, of an average width of three and a half to four feet, and the rock, of which it will take at least a thousand loads, is of the hardest kind that can be obtained, the blocks laid being very large, running as high as six hundred pounds in weight.

Besides the repairs to the culvert a new headgate will be put in at the junction of North and East Temple Streets, the old one being so out of repair as to render it next to useless. The old wooden sides will be taken out and replaced with solid rock walls. If practicable this season it is also intended to extend the culvert by adding to it a stretch the length of one block, eastward from the headgate. The supervisor is making a good, solid, durable job of the repairs, which, although causing some outlay now, will be an ultimate saving to the City.

A Difference.—In speaking of the trial of the waterworks hydrants the other evening the types said the streams thrown were ¾ inch, when it should have been 1¼ inches. Rather a wide difference. The throwing of streams by means of three-inch hose through 1¼ inch nozzles, high enough to reach any part of the highest buildings, is a means of extinguishing fires that few cities in the world are provided with.

Fire.—This morning, about half past five, the cow shed of Bro. D. W. Leaker, of the 11th Ward was discovered to be on fire. A cow which was inside at the time was badly burned. The fire apparently originated from some cinders, which were thrown on the manure heap yesterday morning. With the aid of a few neighbors, who immediately gathered and rendered assistance, the fire was extinguished with but little damage. The haystack, which was close by, narrowly escaped being consumed.

Luscious and Beautiful.—To-day we received from Messrs. B. F. Johnson & Sons, of Spring Lake Villa, Utah County, samples of pears, peaches, plums and grapes, grown on their extensive orchard at the place named. They are large, beautiful and luscious. The specimens embrace quite a number of varieties, and are very excellent.

We learn from the gentlemen that they are raising a great deal of choice stone fruit, which they are engaged in drying and canning.

They say, in an accompanying note—"Why do people hug their apple orchards, to raise fruit for the grub, when there is wealth in stone fruit and the mulberry tree?

"Corn and other late crops are looking fine, and both fruit and field crops are hastening in the ripening process, probably indicative of an early frost."

Our Country Contemporaries.

Beaver *Enterprise*, Sept. 2—

Moshoquab, the Pahvant war chief, wants to join the Good Templars. He says it don't pay to get too much peer.

A half dozen painters passed through Beaver this morning *en route* to the St. George Temple. They are from Salt Lake and vicinity.

Barnhardt and Hoag caught their man, George Watkins, at Corn Creek, and returned with him to Pioche.

Provo *Enquirer*, Sept. 6—

Utah county people now can fetch their coal from Pleasant Valley, about forty-five miles from Springville, $2 a ton at the mines.

On Sunday evening last quite an interesting time was enjoyed by the citizens of the Second Ward. The meeting house was well filled. President A. O. Smoot presented Bishop J. W. Loveless for acceptance by the people of that Ward. He had been ordained by President B. Young to the bishopric the last time he visited Provo, and now being presented to the people he was unanimously accepted, and the ordination ratified. Bishop Loveless has had long and good experience in the Ward, having officiated there for several years, and the people esteem him highly. President Smoot moved the appointment and ordination of Edson Whipple and Albert Jones, as the first and second counsellors to the bishop, respectively. This was carried unanimously and heartily, and the two brethren were accordingly ordained. Elders C. G. Maeser and David John addressed the meeting in a spirited manner, exhorting them to implicit obedience to the counsels of God's servants. The meeting was highly edified and they experienced the best of spirit and feelings.

Thunder, lightning, hail and heavy showers at Provo on Sunday and Monday.

Any enterprising man can make money with a Magic Lantern.
☞ Visitors to the Centennial Exposition will do wisely to defer purchasing goods in our line until they come to our store in New York, where they will find greater variety and more moderate prices, and can select more at their leisure. But we have a concession to sell some styles of our goods in the building of the Department of Public Comfort, and those not coming to New York are invited to call on our representation there.
☞ A full stock of Views of the Exposition Buildings and their contents.
☞ Cut out this advertisement for reference. d169
